In case of Non-Institutional Investors, Mobile number shall be mandatorily required to be captured.	Under Client Maintenance Module, select custodian client flag and capture phone number under "Custodian Mobile/Phone No" field.
5.	Valid Email ID	Mandatory	A separate Client Email ID field would be made	Under Client Maintenance Module,

For Clients (wherein Custodian Client Flag will be enabled by Custodian Participants)				
Sr. No.	Field Name	Details of Clients / Custodian		
		Applicability	Procedure to be followed in case of Clients	Procedure to be followed in case of Custodians
			available to capture Client Email ID.	select custodian client flag and capture Email ID under field "Custodian Email ID"
6.	Income Range	Optional / Mandatory	1.For Institutional clients Income Range is Optional 2.For Non-Institutional clients Income Range is Mandatory.	Not Applicable

ANNEXURE F

ADVISORY – KYC COMPLIANCE

- All investors are requested to take note that 6 KYC attributes i.e., Name, PAN, Address, Mobile Number, Email ID and Income Range have been made mandatory. Investors availing custodian services will be additionally required to update the custodian details.
- Investors may contact their respective stockbrokers / depository participants for updation of details in their trading / demat account.
- The non-compliant demat accounts will be frozen for debits by Depository Participant or Depository.
- On submission of the necessary information to the stockbroker and updation of the same by the stockbroker in the Exchange systems and approval by the Exchange, the blocked trading accounts shall be unblocked by the Exchange on T+1 trading day.
- The demat account shall be unfrozen once the investor submits the deficient KYC details and the same is captured by the depository participant in the depository system.
- To ensure smooth settlement, investors are requested to ensure that both the trading and demat accounts are compliant with respect to the KYC requirement.

Investors are hereby requested to comply with the regulatory guidelines issued by Exchanges and Depositories from time to time with regard to KYC compliance and related requirements.

ANNEXURE J

(Letter format for capturing bank account of joint holder in demat account for nominee holdings)

Date: _____

To,
Participant Name,
Address and DP ID

Dear Sir / Madam,

Subject: Capturing the bank account of the joint holder in the new demat account / existing account client ID _____

We understand that the bank details linked to a demat account pertains to a bank account which is in the name of the first holder in the demat account. Since our joint holding of shares pertains to nominee holdings whereas the first holder is the nominee holder and the second holder is a corporate, we request you to update the bank account of the second holder in the demat account as per request made to you separately. Accordingly, we hereby undertake as under:

1. The demat account will be used only for holding shares which are held as nominee holdings of second holder, and no other securities are either credited or held in the said demat account.
2. We will notify the issuer company whose shares are held as nominee holdings that the bank account of joint holder (*and not of the first holder*) is captured in demat account to enable the issuer company to make necessary arrangements while crediting dividend or other cash benefits to the bank account of the joint holder.

NATIONAL SECURITIES DEPOSITORY LIMITED

Manual – Recategorization Utility

1. Prerequisite:

Participants are requested to note that the Recategorization utility is provided on the basis of DPM version compatible to **7.60 & above**. Hence, Participants are advised to check current version of Local DPM system and accordingly download the relevant utility from NSDL i-Assist site for Re-categorization of identified depository accounts.

2. Installation Process:

- (i) Please download “**Recategorization_ utility.zip**” from i-assist on LOCAL DPM server and extract it in C drive of server. Remove READ ONLY properties of all folders, files and double click on Local DPM Installer. This will open Recategorization utility compatible with LDPM version 7.60. Checks for the various options would be present by default as shown in **Fig. 1**.

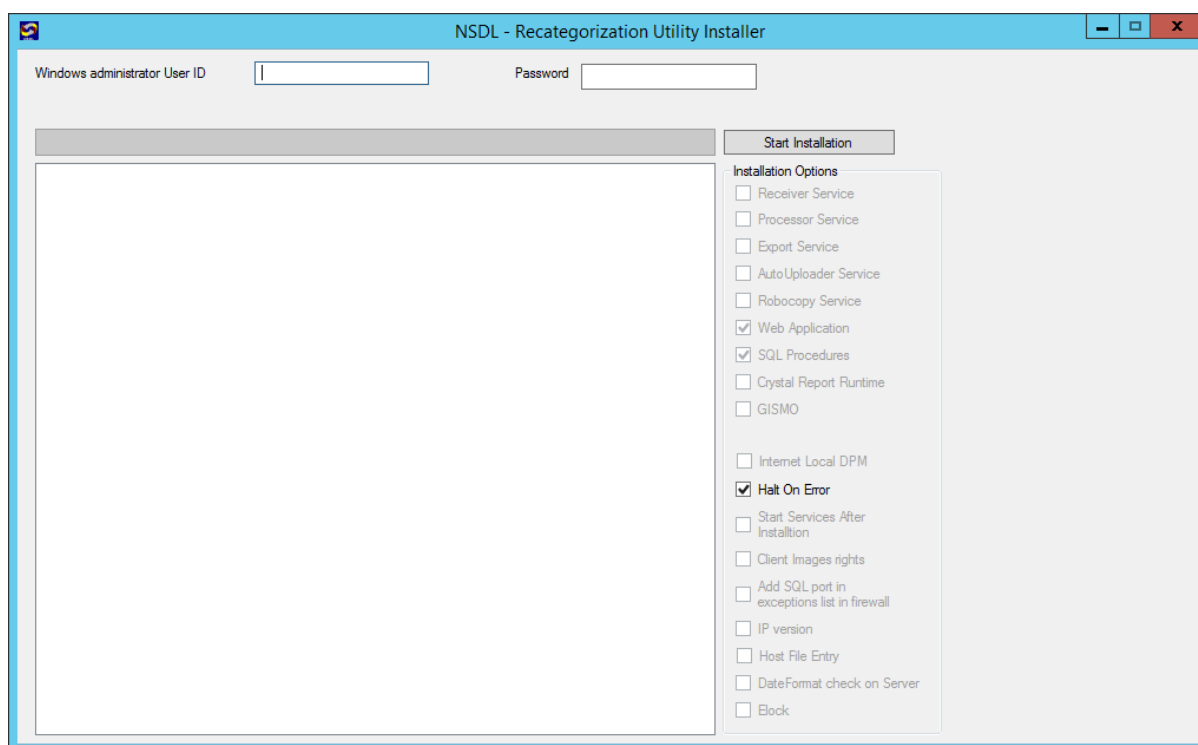

Figure 1

- (ii) Click on “**Start Installation**” button to start the Recategorization Utility installation process. Before starting the process, an installer will prompt to close all open windows as shown in **Fig. 2** below.

Figure 2

- (iii) Please close all open windows and then click on “**OK**” option and this will begin the installation process. You can view progress of installation as shown in **Fig. 3** below.

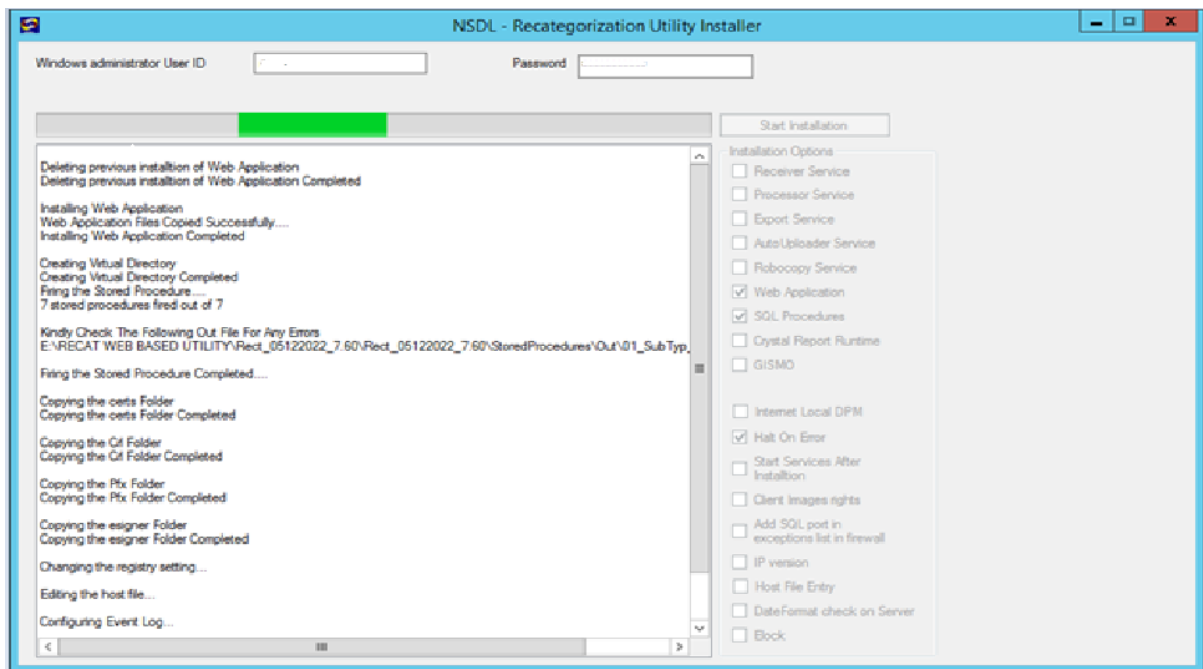

Figure 3

- (iv) For an invalid **Windows administrator userid** or **Password**, an error pop up will appear as shown in **Fig. 4** below. Click “**OK**” to continue an installation.

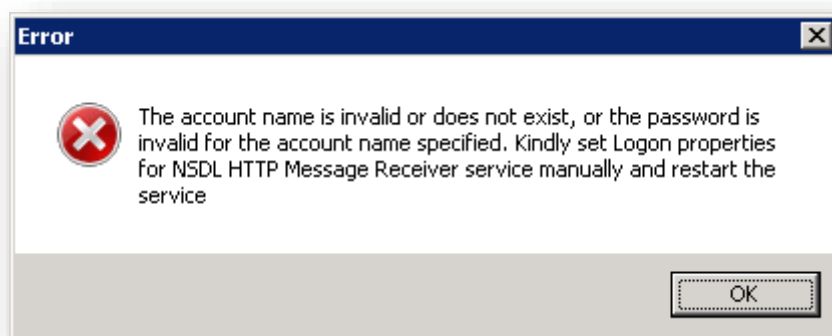

Figure 4

- (v) Upon successful completion of installation a pop up will appear as shown in **Fig. 5** below. Click “**OK**” to complete the process.

Figure 5

3. User Guidelines:

- (i) Prepare an input file in a .csv format for Re-Categorization with correct information. Ensure all the required fields as applicable for target client type, sub type are entered in the input field. Please refer below sample file for the same.

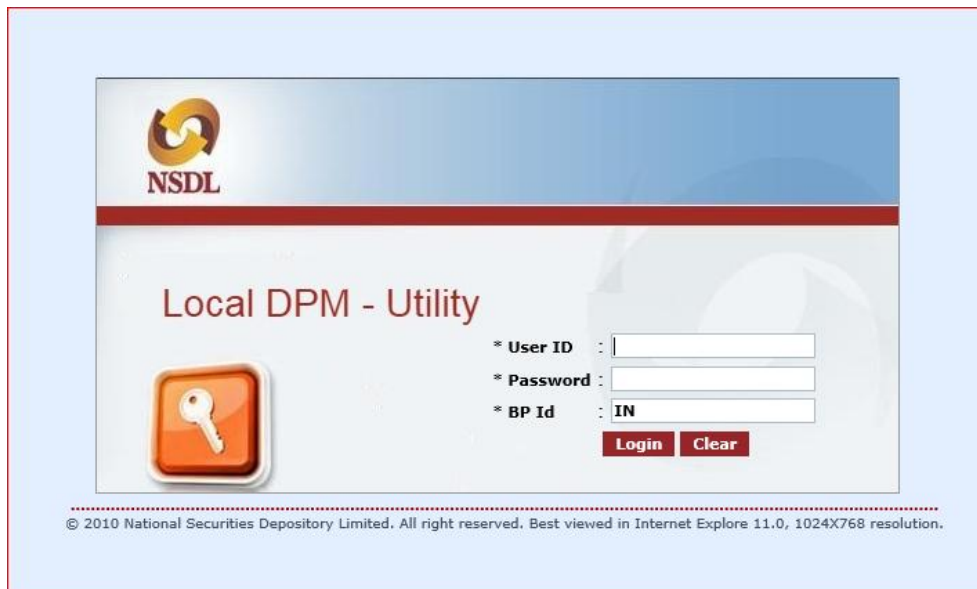

- (ii) The date format in input file should be in “YYYY-MM-DD” (viz.,”2019-11-11”)
- (iii) Please note that the maximum length of address line field in the input file shall be 36 characters each.
- (iv) The Re-Categorization utility should be initiated using Internet Explorer.

To,
<Participant Name>

Subject: Request for opening PMS Pool account

Madam / Dear Sir,

With reference to captioned subject, I / We < PMS Provider Name > request you to open PMS Pool account in <Participant name>. Further, I/We < PMS Provider Name > hereby authorise <Participant Name> for sending the request to NSDL for creation of new PMS BP ID(s) for opening of PMS pool account in respect of below mentioned existing PMS Provider account maintained with <Participant name>.

Sr. No.	DP ID	DP Name	Client ID	SEBI Registration No.	Confirmation for Registration on SPEED-e facility for PMS Pool Account* (Yes/No)
1.					
2.					
3.					

For < PMS Provider Name>

Signature of the PMS Provider:

Name of Authorised Signatory:

Date:

* Note:

It may be mentioned that the SPEED-e users of aforesaid existing PMS depository account(s) alongwith the Digital Signature Certificate (DSC) of existing users shall be mapped to the newly opened PMS pool account. The new User ID for operating the aforesaid PMS pool account will be existing 'User ID' + 'p'.

For Example: If User ID of existing PMS depository account on SPEED-e is "userm" and "userc" then new User ID for operating PMS pool account will be "usermp" and "usercp" respectively.

ANNEXURE Q

Participants are required to provide the details of existing demat account of PMS Provider as per the below mentioned format to NSDL at Email ID viz., ccinterface@nsdl.co.in for creation of new PMS BP ID for opening of PMS pool account.

(Details of existing demat accounts of PMS to be provided by Participants to NSDL)

Sr. No.	DP ID	DP Name	Client ID	SEBI Registration No.	Confirmation for Registration on SPEED-e facility for PMS Pool Account* (Yes/No)

2.					
3.					

ANNEXURE R

OPERATIONAL GUIDELINES FOR OPENING OF DEMAT ACCOUNT FOR MARGIN PLEDGE

NSDL has issued certain Operational Guidelines on margin obligations to be given by way of Pledge/ Re-pledge. Participants to take note.¹

- a) Opening of demat accounts by TM/CM for margin pledge
 - i. To facilitate TM/CM to open separate demat account(s), tagged as ‘Client Securities under Margin Funding Account’, for accepting margin pledge, a list of new type and sub-types has been introduced in the DPM system and has been communicated to Participants.²
 - ii. Trading member (TM) / Clearing member (CM) shall endeavor to align their systems and accept client collateral and margin funded stocks by way of creation of pledge / re-pledge in the Depository system.³
 - iii. The TM / CM shall also be allowed to accept client securities as collateral by way of title transfer into the Client Collateral Account as per the present system.⁴
 - iv. Funded stocks held by the TM / CM under the margin trading facility shall preferably be held by the TM / CM by way of pledge.⁵ For this purpose, the TM / CM shall be required to open a separate demat account tagged ‘Client Securities under Margin Funding Account’ in which only funded stocks in respect of margin funding shall be kept/ transferred, and no other transactions shall be permitted. The securities lying in ‘Client Securities under Margin Funding Account’ shall not be available for pledge with any other Bank/ NBFC.⁶
 - v. A TM who is not a CM may open demat account under sub-type “TM – Client Securities Margin Pledge Account” and client securities pledged in the said account can in turn be re-pledged with a CM for providing collateral in form of securities as margin.
 - vi. A TM who is also a CM may open demat account under sub-type “TM/CM – Client Securities Margin Pledge Account” and client securities pledged in the said account can in turn be re-pledged with another CM (in its capacity as a TM) or CC (in its capacity as a CM) for providing collateral in form of securities as margin.
 - vii. A CM who wants to take re-pledge of securities from a TM may open demat account under sub-type “CM – Client Securities Margin Pledge Account” and client securities re-pledged in the said account can in turn be further re-pledged with CC for providing collateral in form of securities as margin.

¹ Circular No.: NSDL/POLICY/2020/0077 dated June 1, 2020; Circular No.: NSDL/POLICY/2020/0101 dated July 28, 2020; Circular No.: NSDL/POLICY/2020/0103 dated July 31, 2020; Circular No.: NSDL/POLICY/2020/0107 dated July 31, 2020.

² Circular No.: NSDL/POLICY/2020/0101 dated July 28, 2020.

³ Circular No.: NSDL/POLICY/2020/0077 dated June 1, 2020.

⁴ Circular No.: NSDL/POLICY/2020/0103 dated July 31, 2020.

⁵ Circular No.: NSDL/POLICY/2020/0103 dated July 31, 2020.

⁶ Circular No.: NSDL/POLICY/2022/121 dated August 31, 2022.

- viii. On activation of Margin Pledge account, TM/CM will upload additional details like TM/CM Code, Segment ID, Exchange code, role, etc. with respect to its 'Client Securities Margin Pledge Account' through SPEED-e.
 - ix. If TM/CM opts to open the 'Client Securities Margin Pledge Account' with the existing Participant, then a consent form enclosed as **Appendix 1** for the same needs to be obtained by Participant from TM/CM. However, if TM/CM opts to open 'Client Securities Margin Pledge Account' with any other Participant, then TM/ CM will be required to follow the complete procedure of account opening.
- b) Initiation of Margin Pledge/ Re- pledge:
- i. Client can initiate a margin pledge in favour of 'TM – Client Securities Margin Pledge Account' or 'TM/CM – Client Securities Margin Pledge Account' by submitting a physical Margin Pledge Form to its Participant or electronic instructions through SPEED-e. Such instructions should have details of client UCC, TM, CM and Default Segment. In case the client has given a Power of Attorney (POA) to a TM which is registered in the demat account of the client, such instructions may be given by the TM on behalf of the Client.
 - ii. On receipt of margin pledge instruction either from a client or TM (based on the POA), a link to 'Confirm Margin Pledge Transactions' would be generated and sent by NSDL through SMS on registered mobile number and registered e-mail id in the demat account of a client. On clicking the said link, client will be redirected to a web page where client will be authenticated with "PAN" (not applicable in case of PAN exempt clients), After authentication, One Time Password (OTP) will be sent on the registered mobile number and registered e-mail id of the client and client will be displayed the details of outstanding margin pledges for the specific TM. On OTP authentication, margin pledge transaction would be processed further.
 - iii. Further, margin funded shares shall be pledged in favour of the TMs / CMs 'Client Securities under Margin Funding Account' (CSMA a/c) only through OTP confirmation by the concerned clients and pledged securities could move to the CSMA a/c only on invocation. The margin pledge module shall be used and the OTP mechanism as used for margin pledge will be used for validating margin funding transaction by the clients.⁷
 - iv. As the margin pledge transactions have to be authenticated by the client using OTP, Participants are advised to ensure that the client is registered for SMS alert facility and has a valid and active email ID registered in the demat account.
 - v. Re-pledge shall not be permitted from CSMA account.⁸ However, depositories may use the same OTP mechanism for validating margin funding transaction by client as used for margin pledge.⁹
 - vi. TM/CM can initiate a margin re-pledge in favour of 'CM – Client Securities Margin Pledge Account' / 'CC' by submitting a physical Margin Pledge Form to its Participant or electronic instructions through SPEED-e.

⁷ Circular No.: NSDL/POLICY/2020/0101 dated July 28, 2020.

⁸ Circular No.: NSDL/POLICY/2020/0101 dated July 28, 2020.

⁹ Circular No.: NSDL/POLICY/2022/121 dated August 31, 2022.

- vii. While re-pledging the securities to the CM / CC, TM / CM are required to provide specific pledge instruction number for which re-pledge is required to be initiated. The CM/CC will be able to view the details of the specific pledge instruction number which will also include the details of the client for which the re-pledge is initiated.
- viii. Margin pledge and re-pledge instruction shall be reflected in the client account against each security provided as collateral to a TM, and in whose favour i.e., TM / CM / CC.

c) Release of a Margin Pledge/ Re- Pledge:

- i. Client can initiate a release of margin pledge request for the securities pledged/ re-pledged with TM/CM/CC for margin/collateral purpose by submitting a physical Margin Pledge Form to its Participant or electronic instructions through SPEED-e.
- ii. For release of client securities (based on client request to TM) pledged in favour of a TM to provide collateral / margin, the TM can initiate a unilateral release of pledge by submitting the Margin Pledge Form to its Participant or electronic instructions through SPEED-e.
 - a. For release of client securities (based on TM request to CM) pledged in favour of a TM to provide collateral / margin and which are subsequently re-pledged in favour of a CM, the CM can initiate a release request (by the way of unilateral closure) of re-pledge by submitting the Margin Pledge Form to its Participant or electronic instructions through SPEED-e.
- iii. For release of client securities (based on CM request to CC) pledged in favour of a TM to provide collateral / margin and which are subsequently re-pledged in favour of a CM and further re-pledged by CM to the CC, the CC may initiate a release request (by the way of unilateral closure) of re-pledge through Participant on eDPM.
- iv. TM /CM/CC may initiate request for release of margin pledge/re-pledge.

d) Invocation of Margin pledge/re-pledge:

- i. TM/CM may initiate an invocation request of pledged/ re-pledged client securities by submitting a physical Margin Pledge Form to its Participant or electronic instructions through SPEED-e.
- ii. CC may initiate an invocation request of re-pledged client securities by giving an instruction to the depository.

e) Invocation by TM:

- i. For invocation of client securities pledged in favour of TM as collateral / margin, the TM will request to invoke the securities by submitting a Margin Pledge Form to its Participant or electronic instructions through SPEED-e.
- ii. For invocation of client securities pledged in favour of a TM to provide collateral / margin and which are subsequently re-pledged in favour of a CM, the CM may give instructions to its Participant or electronic instruction through SPEED-e to release (by the way of unilateral closure) the re-pledged client securities to TM. The TM may

initiate invocation request by submitting the Margin Pledge Form to its Participant or electronic instructions through SPEED-e.

- iii. For invocation of client securities pledged in favour of a TM to provide collateral / margin and which are subsequently re-pledged in favour of a CM and further re-pledged by CM to the CC, the CC may initiate a release of pledge (by the way of unilateral closure) and the CM may give instructions to its Participant or electronic instruction through SPEED-e to release (by the way of unilateral closure) the re-pledged client securities to TM. The TM may initiate invocation request by submitting the Margin Pledge Form to its Participant or electronic instructions through SPEED-e.

f) Invocation by CM:

- i. For invocation of client securities re-pledged in favour of CM as collateral / margin, the CM will request to invoke the securities by submitting a Margin Pledge Form to its Participant or electronic instructions through SPEED-e.
- ii. For invocation of client securities re-pledged in favour of a CM to provide collateral / margin and which are subsequently re-pledged in favour of a CC, the CC may submit instructions through eDPM system to release (by the way of unilateral closure) the re-pledged client securities to CM. The CM may initiate invocation request by submitting the Margin Pledge Form to its Participant or electronic instructions through SPEED-e.

g) Invocation by CC:

- i. For invocation of client securities re-pledged in favour of CC as collateral / margin, the CC will invoke the securities by giving instructions to the depository. Such instructions will include the pledge instruction number and client details.

h) Other Points:

- i. Existing pledge mechanism shall remain unchanged and will continue to co-exist along with the 'Margin Pledge' type mentioned above.
- ii. For margin pledge functionality, it will be necessary to open the designated demat accounts by TM/CM.
- iii. Validation of the margin pledge instruction will be done with the UCC database (i.e., Client UCC, TM ID, Segment) which is linked in the demat account of the Client.
- iv. Since TM / CM are required to close all their existing demat accounts with sub-type 'Client Margin/Collateral Account' by the date specified by SEBI, Participants may facilitate closure of such accounts upon receipt of closure request forms from the TM/CM.
- v. In case the margin pledge is initiated by the Client for 'All segments', the re-pledge by the TM for such securities can be done for any specific segment or 'All segments'. However, the re-pledge by the CM for such securities which were pledged by client and re-pledged by TM to CM with 'All segments' will be allowed with the specific segment only.

APPENDIX 1

(To be provided on the letterhead of CM/TM)

To,

<Participant Name>

Subject: Request for opening Client Securities Margin Pledge Account

Madam / Dear Sir,

With reference to captioned subject, I / We < CM/TM Name > are maintaining a TM/CM account with <Participant name>. <demat account number >. I/We would like to open 'Client Securities Margin Pledge Account' in <Participant name> based on the existing Account Opening Form with you as per details given below:

Sr. No.	Account Category	New Client Type	New Client Sub – type Description

I/we hereby declare that I/we are KYC compliant and there is no change in the same.

Nomination Details								
	Mandatory Details						Additional Details ****	
	Name of nominee	Share of nominee (%)**	Relation ship	Postal Address	Mobile number & E-mail	Identity Number ***	D.o.B. of nominee	Guardian
Nominee 1								
Nominee 2								
Nominee 3								
Nominee 4								
Nominee 5								
Nominee 6								
Nominee 7								
Nominee 8								
Nominee 9								
Nominee 10								

*Joint Accounts:

Event	Transmission of Account / Folio to
Demise of one or more joint holder(s)	Surviving holder(s) through name deletion The surviving holder(s) shall inherit the assets as owners.
Demise of all joint holders simultaneously – having nominee	Nominee
Demise of all joint holders simultaneously – not having nominee	Legal heir(s) of the youngest holder

** If % is not specified, then the assets shall be distributed equally amongst all the nominees. Any odd lot after division / fraction of %, shall be transferred to the first nominee mentioned in the nomination form. (see table in ‘Transmission aspects’).

*** Provide only number: PAN or Driving Licence or Aadhaar (last 4). Copy of the document is not required. However, in case of NRI / OCI / PIO, Passport number is acceptable.

**** to be furnished only in following conditions / circumstances:

- Date of Birth (DoB): please provide, only if the nominee is minor.
- Guardian: It is optional for you to provide, if the nominee is minor.

1) I / We want the details of my / our nominee to be printed in the statement of holding or statement of account, provided to me/ us by the AMC / DP as follows; (please tick, as appropriate)

- ☐ Name of nominee(s) ☐ Nomination: Yes / No

- 2) I hereby authorize _____ (nominee number __) to operate my account on my behalf, in case of my incapacitation in terms of paragraph 3.5 of the circular. He / She is authorized to encash my assets up to ___% of assets in the account / folio or Rs. _____.
(Optional) (strike off portions that are not relevant)
- 3) This nomination shall supersede any prior nomination made by me / us, if any.
- 4) Signature(s) – As per the mode of holding in demat account(s) / MF folio(s)

Name(s) of holder(s)		Signature(s) of holder / thumb impression	Signature of two witnesses*	Name of Witness & Address (wherever applicable)*
Sole / First Holder (Mr./Ms.)				
Second Holder (Mr./Ms.)				
Third Holder (Mr./Ms.)				

* Signature of two witness(es), along with name and address are required, if the account holder affixes thumb impression, instead of wet signature.

Rights, Entitlement and Obligation of the investor and nominee:

- If you are opening a new demat account / MF folios, you have to provide nomination. Otherwise, you have to follow procedure as per 3.10 of this circular.
- You can make nomination or change nominee any number of times without any restriction.
- You are entitled to receive acknowledgement from the AMC / DP for each instance of providing or changing nomination.
- Upon demise of the investor, the nominees shall have the option to either continue as joint holders with other nominees or for each nominee(s) to open separate single account / folio.
- In case all your nominees do not claim the assets from the AMC / DP, then the residual unclaimed asset shall continue to be with the AMC in case of MF units and with the concerned Depository in case of Demat account.
- You have the option to designate any one of your nominees to operate your account / folio, in case of your physical incapacitation, at any point of time and not just during opening of account / folio. This mandate can be changed any time you choose.
- The signatories for this nomination form shall be as per mode of holding in the folio(s) / demat account(s) i.e.
 - ‘Either or Survivor’ Folios / Accounts - any one of the holder can sign
 - ‘First holder’ Folios / Accounts - only First holder can sign
 - ‘Jointly’ Folios / Accounts - all holders have to sign

Transmission aspects

- AMCs / DPs shall transmit the folio / account to the nominee(s) upon receipt of 1) copy of death certificate and 2) completion / updation of KYC of the nominee(s). The nominee is not required to provide affidavits, indemnities, undertakings, attestations or notarization.
- In case of a joint account / folio, for transmission to the surviving joint holder(s) by name

deletion, the surviving joint holder(s) shall have the option to update residential address(es), mobile number(s), email address(es), bank account detail(s), annual income and nominee(s), either along with transmission or at a later date. The regulated entity cannot seek KYC documents at the time of transmission, unless it was sought earlier but not provided by the holder.

- Nominee(s) shall extend all possible co-operation to transfer the assets to the legal heir(s) of the deceased investor. In this regard, no dispute shall lie against the AMC / DP.
- In case of multiple nominees, the assets shall be distributed pro-rata to the surviving nominees, as illustrated below.

% share as specified by investor at the time of nomination		% assets to be apportioned to surviving nominees upon demise of investor and nominee 'A'			
Nominee	% share	Nominee	% initial share	% of A's share to be apportioned	Total % share
A	60%	A	0	0	0
B	30%	B	30%	45%	75%
C	10%	C	10%	15%	25%
Total	100%	-	40%	60%	100%

ANNEXURE Y

Declaration for opting-out of nomination

[Annexure – B to SEBI Circular No. SEBI/HO/MIRSD/POD-1/P/CIR/2024/81 dated June 10, 2024 on Non submission of ‘choice of Nomination’ for ease of doing investments and mandatory fields for updating nomination details]

I / We hereby confirm that I / We do not wish to appoint any nominee(s) in my / our MF Folio/ demat account and understand the issues involved in non-appointment of nominee(s) and further are aware that in case of death of all the account holder(s), my / our legal heirs would need to submit all the requisite documents / information for claiming of assets held in my / our MF Folio / demat account, which may also include documents issued by Court or other such competent authority, based on the value of assets held in the MF Folio / demat account.

Name and Signature of Holder(s)*

1. _____ 2. _____ 3. _____

* Signature of witness, along with name and address are required, if the account holder affixes thumb impression, instead of signature.

Online Updation of Nomination

User Guide for Clients

Online Updation of

Nomination

1. Client will click on the URL (<http://nsdl.co.in/dpmpplus.php>), On clicking the specified URL, Client will be re-directed to main page for commencing the User journey for opt-in/opt-out of nomination online:

The screenshot displays the NSDL DPM Plus Online Nomination Update interface. At the top, the NSDL logo and 'National Securities Depository Limited DPM Plus' are visible. Below this, a dark blue header reads 'Online Nomination Update'. A welcome message states: 'Welcome Investor to NSDL's DPM Plus facility. You can now opt-in/opt-out for Nomination online in your demat account. Let us get started.' The main content area features a 'User Authentication' box with three input fields: 'DP ID *' (with a red border and a red error message 'DP ID is mandatory.'), 'Client ID *', and 'PAN *'. At the bottom of the box are 'Submit' and 'Reset' buttons.

2. Participant will be required to subscribe for the facility. In case Participant has not subscribed for the facility, the below message will displayed to the Client.

Welcome Investor to NSDL's DPM Plus facility. You can now opt-in/opt-out for Nomination online in your demat account. Let us get started.

Annexure BB (1)

SMS Alert Facility for NSDL demat account holders

Introduction

NSDL provides SMS Alert facility for demat account holders whereby they can receive SMS alerts directly from NSDL for following:

- 1) All Debits and Credits (transfers)
- 2) Credits for IPO, sub-division and bonus
- 3) Failed instructions
- 4) Overdue instructions
- 5) Change of mobile number
- 6) Change of address
- 7) Credit/debit of Mutual Fund units
- 8) Invocation of pledged securities
- 9) Registration and De-registration of Power of Attorney

Charges

No charge is levied by NSDL on Depository Participants (DPs) for providing this facility to investors.

Registration

- (i) This facility will be available to the investors provided they have given their mobile numbers to their DPs and the DPs have captured the numbers in the Local DPM System and have also enabled (ticked) the SMS flag in their Local DPM system.
- (ii) Those investors who have provided their mobile numbers to their DPs but do not wish to avail this facility may inform their DPs to disable the SMS flag provided such accounts are not operated by Power of Attorney.
- (iii) For change of address and registration & de-registration of Power of Attorney in Local DPM System, SMS alerts will be sent to Client's mobile phone (*captured in Local DPM System*) irrespective of Client availing SMS Alert facility.

For further details / information investors may contact us at:

ANNEXURE FF

FAQ ON SEBI CIRCULAR DATED APRIL 24, 2020 ON ONLINE KYC

1. **How will the RI verify the OVD/other documents, in case of receipt of clear photograph or scan copy of the original OVD with e-sign of the client?**

Answer: There is no requirement for RI to verify the OVD/other documents in case of receipt of photograph or scan copy with e-sign of the client. Self-attestation by the client through the esign will be considered as sufficient and will satisfy the requirement of verification by RI. RI can verify the details provided to the client matches with the details on the OVD/other documents.

2. **Whether it is mandatory to take live photograph of the client in all cases of online account opening through the website/App/digital platform of the RI?**

Answer: Yes, it is mandatory to take live photograph of the client whether the account is opened through the Aadhaar as OVD, any other OVD or through download of KYC from KRA. It is not permitted to upload the photograph of the client or take of photograph of the client photograph. Online KYC App of the RI should verify the liveliness of the photograph.

3. **From which document the signature of the client can be cropped for affixing on the filled KYC form and submitted to the RI under e-sign of client?**

Answer: Signature of the client can be cropped from a signed cancelled cheque, signature on a white paper or signature made on the screen of a device, provided such cropped signature on the document / screen is eSigned by the client and submitted to the RI. However, before esigning the document, the cropped signature should be inserted in the place holders of the KYC form and displayed to the investor.

4. **How the e-sign of the client needs to be verified by the RI?**

Answer: RI can verify the e-sign of the client on the basis of Name, gender and year of birth mentioned in the e-sign certificate and comparing the same with the client details available in its record.

5. **How the digital sign on the equivalent e-document can be verified?**

Answer: As per the procedure mentioned in the IT Act 2000, digital signature on the electronic document can be verified using the public key of the signature.

6. **In which cases IPV/VIPV is required to be done by the RI at the time of doing the KYC?**

Answer: If KYC is conducted based on Aadhaar Authentication, IPV/VIPV would not be required, however, entities should perform minimum due diligence to ensure authenticity of the data provided

Accordingly, IPV/VIPV is not required in following cases:

- OTP based e-KYC
- Biometric based e-KYC
- Offline verification of XML file

- Offline verification of Aadhaar QR Code
- OVD's downloaded from Digilocker
- KYC downloaded from KRA and client consent by OTP
- Documents from any other source which could be verified online.

IPV/VIPV will be required in case when the investor submits scanned copies of any OVD as prescribed by SEBI.

7. Whether PAN card can be considered as an identity proof for the purpose of KYC?

Answer: PAN is not included under the list of OVD's under the rule 2(d) of the PML rules. Hence, it can't be considered as a proof of identity by the RI.

8. Whether it is mandatory to provide copy of PAN card, if it is not considered as proof of identity?

Answer: Yes, photograph/scan of PAN should be provided by client under his e-sign or e-PAN can be provided through Digilocker which are issued directly by issuing authority to Digilocker.

9. What is the meaning of the scan of the OVD? Does it include the photocopy of the OVD?

Answer: Scan of the OVD means that original OVD is scanned using the scanning software or through the physical scanner available. It doesn't include the photocopy of the original document.

10. Whether it is mandatory for investor submit mobile number as updated in the Aadhaar database while doing KYC?

Answer: In cases where client is identified by using e-KYC through Aadhaar authentication services of UIDAI or offline verification through Aadhaar QR code/XML file client shall provide mobile number as updated in their Aadhaar. Where KYC is done by relying upon OVD other than Aadhaar, in such case, the mobile number/s of investor accepted as part of KYC should preferably be the one seeded with Aadhaar. The Mobile number will be verified by RI through One Time Password (OTP) or other verifiable mechanism.

11. Is it mandatory for the investor to submit email-id to RI?

Answer: Yes, it is mandatory to submit email id at the time of account opening using online account facility. RI shall verify the email-id using OTP / other verifiable mechanism.

12. Can scanned image or photo of OVD submitted by the client to the RI through video IPV or other online mechanisms be considered as a valid proof?

Answer: No. The OVD shown in the VIPV is as per rule 2 (1) (cb) where the document should have been validated by means of an electronic copy issued in the Digilocker under the valid signature of the issuing authority. Hence, any documents being obtained from the client outside this mechanism should be mandatorily obtained as a scanned image or photo under eSign.

13. In case RI is availing penny drop facility using API of the bank, is copy of signed cancelled cheque required to be obtained from client?

Answer: If RI is availing penny drop facility using API of the bank, copy of signed cancelled cheque is not required to be obtained from client. However, in cases where penny drop match fails, or in cases where penny drop doesn't return joint account holder name, clients should be asked to submit proofs like copy of signed cancelled cheque.

- 14. If the investor's bank does not support the penny drop facility, can such details be accepted based on the copy of the signed cancelled cheque?**

Answer: The RI shall attempt verification of bank account details using penny drop facility in all cases. But, if the investor's bank does not provide response to the penny drop, the bank details can be accepted based on the copy of the signed cancelled cheque.

- 15. If the OVD furnished by the client does not contain the updated address, the documents as given in PML Rule 9(18), other than OVD given in the SEBI circular dated April 24, 2020, e.g. utility bill which is not more than two months old of any service provider (electricity, telephone, post-paid mobile phone, piped gas, water bill) OR Property etc, whether it can be deemed to be the OVD for the limited purpose of address?**

Answer: Yes, such documents will be treated as deemed OVD for the limited purpose of proof of address, provided that the client shall submit updated officially valid document or their equivalent e-documents thereof with current address within a period of three months of submitting the above documents. In case of non-receipt of the updated OVDs, no transactions shall be allowed in such account and intimation shall also send to the Depository.

- 16. The KYC completion documents sent to the clients in cases where the investor has given address other than as given in the OVD have been returned undelivered. What action should be taken by the RI?**

Answer: The account should be frozen for further transactions in the depository and the intimation should accordingly be sent to the client on mobile number and email id or on the permanent address of the client.

- 17. Whether Aadhaar as OVD can be accepted from Digilocker?**

Answer: Yes, a digitally signed Aadhar, issued to the DigiLocker by UIDAI can be accepted as an OVD under eSign of the client.

- 18. What are the features required in the photograph taken in online KYC application of the RI?**

Answer: The online KYC application of RI should have a facility to take a photograph of the investor which has time stamping, geo-location tagging and liveness check.

NATIONAL SECURITIES DEPOSITORY LIMITED

Manual – Recategorization Utility

1. Prerequisite:

Participants are requested to note that the Recategorization utility is provided on the basis of DPM version compatible to **7.60 & above**. Hence, Participants are advised to check current version of Local DPM system and accordingly download the relevant utility from NSDL i-Assist site for Recategorization of identified depository accounts.

2. Installation Process:

(vi) Please download “**Recategorization_utility.zip**” from i-assist on LOCAL DPM server and extract it in C drive of server. Remove READ ONLY properties of all folders, files and double click on Local DPM Installer. This will open Recategorization utility compatible with LDPM version 7.60. Checks for the various options would be present by default as shown in **Fig. 1**.

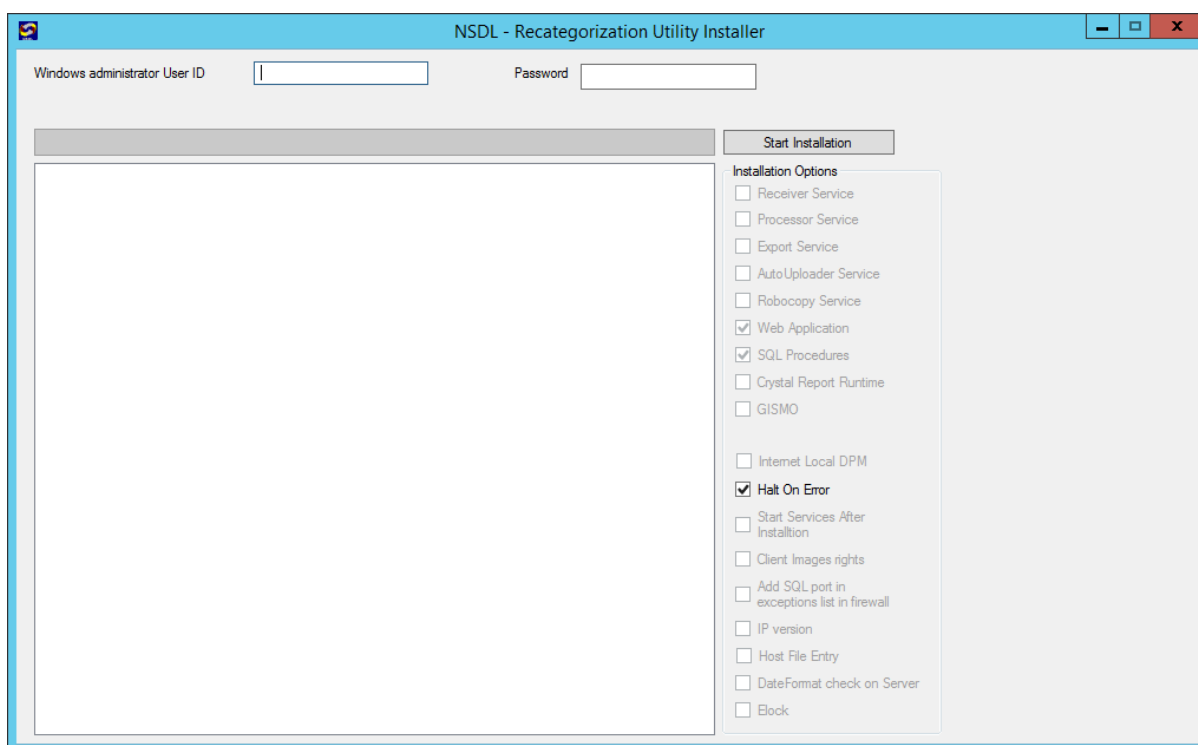

Figure 1

(vii) Click on “**Start Installation**” button to start the Recategorization Utility installation process. Before starting the process, an installer will prompt to close all open windows as shown in **Fig. 2** below.

Figure 2

- (viii) Please close all open windows and then click on “**OK**” option and this will begin the installation process. You can view progress of installation as shown in **Fig. 3** below.

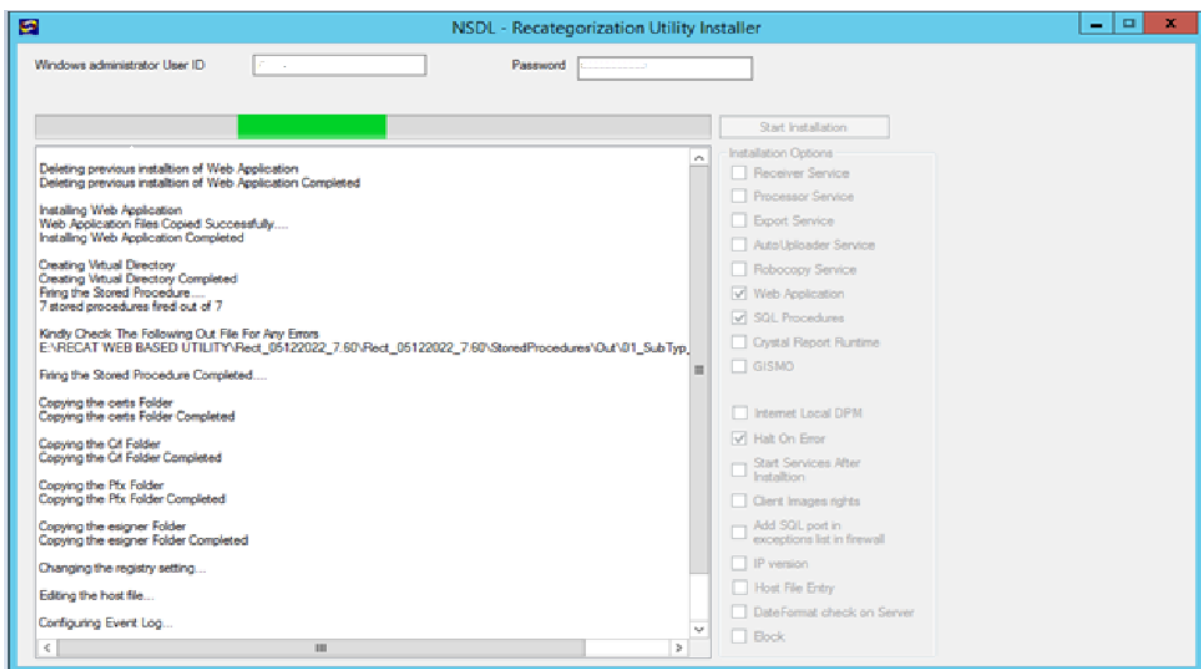

Figure 3

- (ix) For an invalid **Windows administrator userid** or **Password**, an error pop up will appear as shown in **Fig. 4** below. Click “**OK**” to continue an installation.

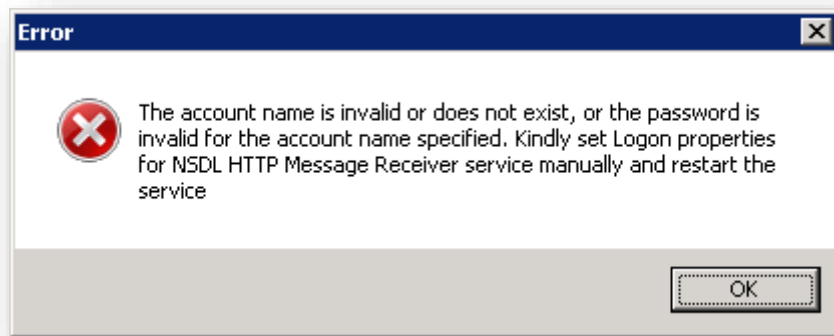

Figure 4

(x) Upon successful completion of installation a pop up will appear as shown in **Fig. 5** below. Click “**OK**” to complete the process.

Figure 5

3. User Guidelines:

(xii) Prepare an input file in a .csv format for Re-Categorization with correct information. Ensure all the required fields as applicable for target client type, sub type are entered in the input field. Please refer below sample file for the same.

(xiii) The date format in input file should be in “YYYY-MM-DD” (viz., “2019-11-11”)

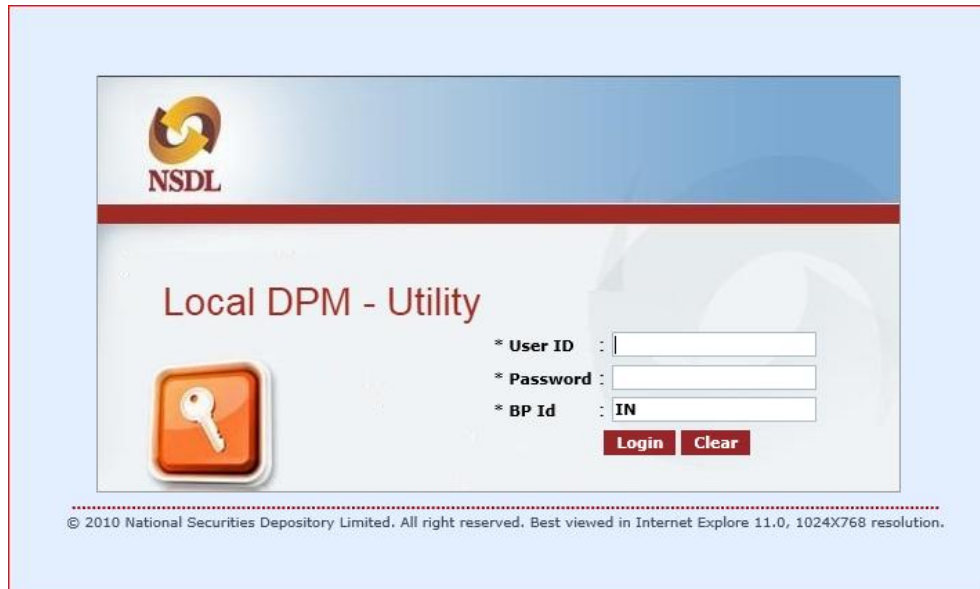

(xiv) Please note that the maximum length of address line field in the input file shall be 36 characters each.

(xv) The Re-Categorization utility should be initiated using Internet Explorer.

URL: <http://<<server IP>>/Rect/>

e.g. <http://195.1.1.1/Rect/>

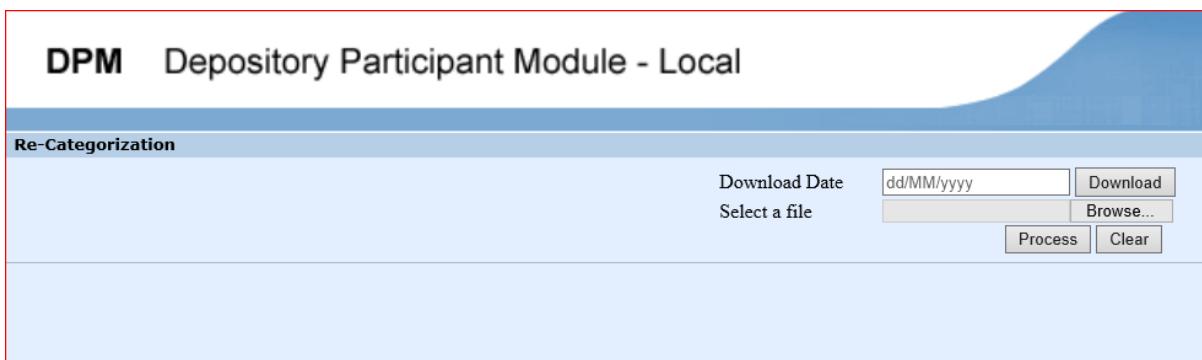

Once requested, below Login page will appear.

The screenshot shows the NSDL Local DPM - Utility login page. At the top left is the NSDL logo. The title "Local DPM - Utility" is centered. Below the title is a large orange key icon. To the right of the icon are three input fields labeled "* User ID", "* Password", and "* BP Id". The "BP Id" field contains the text "IN". Below the input fields are two buttons: "Login" and "Clear". At the bottom, a copyright notice reads: "© 2010 National Securities Depository Limited. All right reserved. Best viewed in Internet Explore 11.0, 1024X768 resolution."

(xvi) In Login page, enter valid User ID & Password.

(xvii) Once Logged In, below screen will appear. Upload an input file using browse option available in the utility.

The screenshot shows the DPM Depository Participant Module - Local interface. The title "DPM Depository Participant Module - Local" is at the top. Below the title is a section labeled "Re-Categorization". On the right side of this section, there are two rows of controls. The first row has a "Download Date" label, a date input field with the placeholder "dd/MM/yyyy", and a "Download" button. The second row has a "Select a file" label, a file input field, and a "Browse..." button. Below these controls are two buttons: "Process" and "Clear".

(xviii) Post selecting an input file, Click on **Process** button. Processing will start and once completed, response gets generated as below

Accepted Response:

CHAPTER 2 - TRANSMISSION

ANNEXURE A

INDEMNITY

NOTE: - To be stamped as per the stamp duty rates prevailing in the place where the document is executed or the place where it is to be received and stored by the Depository Participant whichever is higher)

INDEMNITY

This Deed of indemnity is made at _____ this _____ day of _____ by _____ S/o / D/o / w/o of _____ residing at _____ [herein after referred to as the "Claimant" which expression shall unless it be repugnant or contrary to the context thereof means and includes his legal heirs and successors and permitted assigns in favour of [DP ID: IN] and having its registered address at _____ and acting as a duly registered Participant under the provisions of the Depositories Act, 1996 and the Regulations and Bye Laws made there under [herein after referred to as the "Participant" which expression shall, unless it be repugnant or contrary to the context thereof, mean and include its successors and permitted assigns]

AND

National Securities Depository Limited and having its registered address at 4th floor, Trade World, "A"-Wing, Kamala Mills Compound, Senapati Bapat Marg, Lower Parel, Mumbai 400013 and acting as a duly registered Depository under the provisions of the Depositories Act, 1996 and the Regulations and Bye Laws made there under [herein after referred to as the "Depository" which expression shall, unless it be repugnant or contrary to the context thereof, mean and include its successors and permitted assigns]

WHEREAS:

1. The Beneficial owner [BO] Account [Client ID: _____] was held in the single name of _____ with the Participant, _____ [DP ID: IN _____].
2. The BO account holder _____ died on _____.
3. The list of the securities held in the said BO account [Client ID _____] of _____ is provided in the Statement of Holdings annexed hereto and marked as Annexure "A."
4. At the time of opening of account or subsequently, the BO account holder [Client ID: _____; DP ID: IN _____] had mentioned the name of the Claimant to receive the securities held in the BO account [Client ID: _____; DP ID: IN _____]. However, the BO account holder, _____ did not provide the nominee information in the format specified at Annexure "JA" and avail the nomination facility as per the procedure specified in the NSDL Business Rules.
5. The Claimant has requested the Participant to effect the transmission of the securities held in the name of _____ [Client ID: _____; DP ID: _____] to the BO account of the Claimant [Client ID: _____; DP ID: _____] without insisting on production of a succession certificate and on the basis of the documents submitted by the Claimant

and in consideration of the Participant agreeing to transmit the securities now held in the said BO account [Client ID: _____; DP ID: IN _____] to the BO account of the Claimant [Client ID: _____; DPID: _____], I, _____, the Claimant indemnify the Depository and the Participant as under :

This DEED WITNESSETH that in consideration of the Participant agreeing to transmit the securities now held in the said BO account [Client ID: _____; DP ID IN _____] as per Annexure "A", that I, _____, the Claimant do hereby agree to keep indemnified and hold the Depository and the Participant saved, harmless and defended for all times hereafter from and against all losses, claims, legal proceedings, actions, demands, risks, charges, taxes, duties, damages, costs, expenses, including attorney and legal fees and penalties whatsoever which may be initiated against the Depository or the Participant and with the reason of the Participant having agreed at my request to transmit the securities now held in the BO account [Client ID: _____; DP ID IN _____] as per Annexure "A" to the BO account [Client ID: _____] held with (Name of the Participant) in the single name of the Claimant _____ and further agree to indemnify the Depository and the Participant, in case of any claims/disputes in respect of the securities listed at Annexure "A", by any person. If called upon by the Depository and or the Participant to do so, I shall join any proceedings that may be initiated against the Depository and / or Participant and by any person and shall defend at my cost any such proceedings.

Further, I shall initiate such proceedings as may be considered necessary by the Depository and /or the Participant, if called upon by the Depository and or the Participant to do so, in order to protect the Depository's and /or Participant's interests and to further and perfect the indemnity granted by me hereby in favour of the Depository and the Participant.

IN WITNESS WHEREOF:

Dated this _____ day of _____, 20__

Signed and delivered by the _____(Claimant)

ANNEXURE B

TRANSFER OF HOLDINGS (ACCOUNT CLOSURE / TRANSMISSION)

Transfer of Holding (Account Closure / Transmission) module is being made available in eDPM System under Settlement module to facilitate transferring of securities in one-go from the Source Client account to Target Client account (between Participants of NSDL) arising out of Account Closure / Transmission as exhibited below:

The screenshot shows the 'eDPM Depository Participant Module' interface in a Windows Internet Explorer browser. The top navigation bar includes links for Client Maintenance, Demat/ Remat, Settlement, Pledge/ Hypothecation, System Security, and Upload/Download. The main heading is 'Transfer of Holding (Account Closure/Transmission)'. Below this, there are 'Search' and 'New' buttons. The 'New' section contains a form with the following fields:

- Transaction Type:** Radio buttons for 'Account Transmission' (selected) and 'Account Closure'.
- Source Client Details:** A field for 'Client ID' with a search icon.
- Target Client Details:** Fields for 'DP ID' and 'Client ID', both with search icons.
- Other Details:** A dropdown for 'Transmission Reason' (set to '--Please Select--'), a date field for 'Execution Date' (set to 01/04/2011), and a text field for 'User Remarks'.

At the bottom of the form are 'Save' and 'Clear' buttons. The footer of the page states: '©2010 National Securities Depository Limited. All rights reserved. Best viewed in Internet Explorer 6.0, 1024 x 768 resolution. Current Date : 01-04-2011'.

Procedure:

I. Execution of instructions manually:

- (a) Select the required transaction Type i.e., Account Transmission or Account Closure, as the case may be.
- (b) Enter the Source Client ID and Target DP ID and Client ID.
- (c) In case of Transmission, select the Transmission reason.
- (d) Current business date (populated) will be the execution date (in the subsequent version releases, facility to enter future date will be provided).
- (e) Enter details in 'User Remarks' field, if any.

II. Upload of instructions

Facility to upload batch files (generated from back office system) is also being provided. Batch files can be uploaded at eDPM System i.e., 'Upload/Download ☐ E-DPM Upload'.

Pre-requisites:

- (a) Status of the Source Client account should be Active.
- (b) Status of Target Client account should be 'Active' or 'Suspended for Debit' alongwith Standing Instruction Indicator enabled for both status.
- (c) Atleast one security should be available in free balance in the Source Client account to facilitate transfer of holdings otherwise, instruction initiated for transfer of holdings through this module would be rejected.
- (d) Securities available in free balance with respect to active ISIN(s) can be transferred using this module. Securities that are not in free balance as mentioned below will continue to remain in the Source Client account.
 - (i) Pending Demat
 - (ii) Pending Remat
 - (iii) Pledge balance / unconfirmed pledge
 - (iv) Locked-in
 - (v) Blocked Inter Depository Transfer
 - (vi) Quantity level freeze
- (e) Securities under inactive ISINs as mentioned below will remain in the Source Client account even though securities may be available in free balance.
 - (i) Invalid ISIN Status
 - (ii) Invalid ISIN type (*which are not allowed for account transfer instructions*)
 - (iii) ISIN level freeze
 - (iv) Execution date of the instruction is equal to or greater than ISIN maturity date except for ISINs of Commercial Papers and Certificate of Deposits.

Report named 'Transfer of Holding (Closure / Transmission)' is being provided in the Local DPM System, which will provide the following details:

- (a) The details of instructions that are in 'Settled' status i.e., Securities transferred from the Source Client account to the Target Client account.
- (b) The details of instructions that are rejected i.e., rejected due to inactive ISINs etc., as mentioned above.
- (c) The details of pending securities (*if any*) that were not transferred from the Source Client account to Target Client account.

This report can be accessed in the Local DPM system at the following path:

Reports ☐ Settlement ☐ Transfer of Holding (Account Closure / Transmission) Report

For claiming waiver of settlement fees, procedure mentioned in Circular No. NSDL/POLICY/2009/0098 dated October 23, 2009 will be required to be followed. Further, in case the depository account is not closed due to any of the above reasons, ensure to freeze the account i.e., 'Suspended for debit and credit' before claiming waiver of settlement fees.

Back Office impact: Yes. File formats for Upload files enclosed at **Appendix I** and COD download displaying transfers that have taken place through this module enclosed at **Appendix II**.

APPENDIX I

DPM SYSTEM UPLOAD – ACCOUNT TRANSMISSION

Upload Input Criteria

Field Name	Valid Values
Input File Name	File Name containing the instruction details to be uploaded in DPM System.

Upload Output

Field Name	Valid Values
File Reference Id	The unique file reference id generated for the uploaded file which can be used to search for the File Status, Response File Details and Error File Details (if applicable)

Processing logic

Upload File Processing logic at Central DPM

- (1) In first parse, the entire batch would be validated for the format level conformity. In case of errors found, the entire batch would be rejected generating **.ERR** file under **Error** column containing the appropriate error codes and description.
- (2) In case the batch is valid at format level, the data level validations would be carried out in next parse for each record in the batch file. If the validations are successful, the instruction would be captured in DPM system with appropriate instruction number. If the validation fails, the instruction would be rejected and would not be captured in DPM application.
- (3) A response file **.OUT** would be generated under **Response** column giving the details of each instruction in the input batch. This would mainly contain the line no; the status of the corresponding instruction (**A** – accepted and **R**- Error) and the instruction number if the instruction is captured in DPM System.
- (4) In case, the batch contains the erroneous records, a **.ERR** file would also be generated giving the details of rejected records, such as line no, error code and error description.
- (5) Participants would be required to create new batch for the rejected records bearing new batch ID. The batch would be rejected if the same batch id were used.
- (6) For batch level rejection entire batch will be rejected even if any record of the file is rejected Batch acceptance flag in the header will be 'A' if all the records in the file are accepted else it will be 'R'
- (7) In case of Record level rejection individual records will be rejected or accepted. Batch acceptance flag will be 'A' if all or Partial records in the batch are accepted. Batch acceptance flag will be R if all the records in the batch are rejected.

Note: Function right for both the utilities are common in system security module.

While uploading the file, DP needs to take care of the following salient points:

- (1) In the Header record for every batch upload the Batch Number and Branch Code combination should be unique.
- (2) The total number of records will corresponds to the number of detail records.
- (3) The DP's role is always expected to be '01'.
- (4) The transactions are differentiated with the three digit transaction type, in the detail record as given in the file format. The transaction flag is expected as 'A' for all transactions (Currently all transactions are uploaded only in the Captured status. 'A' corresponds to this status).
- (5) All character fields are expected to be in upper case.
- (6) If the same batch number is uploaded then the entire batch would be rejected by the upload utility on account of "Duplicate Batch id".

Account Transmission (940) / Account Closure (941)

NAME DELETION IN JOINT ACCOUNT UPON TRANSMISSION

Date	D	D	M	M	Y	Y	Y	Y
------	---	---	---	---	---	---	---	---

[illegible]

Account Holder Indicator	Name of Joint Account Holder(s)	Tick against the holder(s) who has/have deceased	
First Holder		<input type="checkbox"/>	Self-attested copy of death certificate of the deceased holder or subject to verification with the original or Original death certificate or copy of the death certificate duly attested by a notary public or by a gazette officer or death certificate downloaded from the online portal of Government carrying digital/facsimile signature of the issuing authority.
Second Holder		<input type="checkbox"/>	
Third Holder		<input type="checkbox"/>	

I/We, the undersigned, being the surviving holder(s) in the joint account, hereby request you to delete the name of the deceased account holder(s) and continue to maintain the account in the sole or joint surviving names in the same order.

I/We confirm that DP/NSDL will not be held liable for any impact on the pending requests related to i.e. demat / remat / conversion / re-conversion / repurchase / tender-offer etc. due to deletion of the name and monitoring of all such pending requests, if any will be done by us.

(Please tick anyone)

☐ I/We confirm that there are no changes in the residential address(es), mobile number(s), email address(es), bank account details, annual income, and nominee(s) of the surviving holder(s).

Or

☐ I/We inform that there are changes in the residential address(es), mobile number(s), email address(es), bank account detail(s), annual income and nominee(s) of the surviving holder(s) and I/We wish to update such changes in the demat account at the time of processing transmission requests. #

Participants are advised to collect the required information as per the extant norms of SEBI/NSDL.

Or

☐ I/We inform that there are changes in the residential address(es), mobile number(s), email address(es), bank account details, annual income, and nominee(s) of the surviving holder(s). The updated information will be provided as per the extant guidelines of SEBI/NSDL after the transmission of securities.

(Please tick if applicable) -

☐ Pursuant to the name deletion of the deceased holder(s), the joint account becomes a Sole/single-holding account, and the choice of nomination was not provided earlier, I request DP to update the choice of nomination ☐ nomination or ☐ opt out of nomination as per the enclosed request form

3. Signature of surviving joint holder(s)

CHAPTER 3 – PROVISION OF TRANSACTION STATEMENT

ANNEXURE A

Controls for request of Client are as follows:

- 1 Through registered email ID
 - (i) Request is received from the email address which is recorded in the DPM system.
 - (ii) On receipt of request, a confirmation email is sent to the Client at the email address recorded in the DPM system requesting the Client to reply to email.
 - (iii) The Client replies to the email sent as mentioned at point no. (ii) above.
- 2 Through website of Participant
 - (i) There are adequate systems and security features in place to authenticate the Client and to ensure that the Client itself has made a request for change.
 - (ii) Participant must implement Secure Socket Layer (SSL) security for its internet facility featuring site authentication and encrypted communication and appropriate Client authentication so as to restrict the access only to the Client.
 - (iii) Authentication of Client by using one time password (OTP) sent to Client on his registered mobile number.
- 3 Through IVRS:
 - (i) Request is received from registered mobile number.
 - (ii) Authentication of Client by using tele-pin sent to Client at his registered address at the time of registering Client for IVRS facility.
- 4 Through ATM in case of Bank Participants:
 - (i) Authentication of Client through ATM pin
 - (ii) OTP sent to Client at his registered mobile number

Participant shall be liable to conclusively prove the origin, date and time of receipt of request by it.

ANNEXURE B

FACILITY ON I-ASSIST

1. **NoCAS Information:** Upon receipt of request from Client for not receiving the CAS from depositories, Participant can upload the information on “**Upload NO CAS details**” under NSDL CAS menu on i-Assist. The file format for uploading the aforesaid information is given below:

No.	DP ID	CLIENT ID	PAN of First Holder	CAS FLAG
	INXXXXXX	1000XXXX		‘Y’ OR ‘N’

Note: Y = Yes (Client has opted for receiving CAS)

N = No (Client has opted for not receiving CAS)

If client who has opted for not receiving CAS in past, wishes to receive the NSDL CAS again, then client can inform to Participant and the Participant is required to provide the details of such clients in the aforesaid format by updating the CAS flag as ‘Y’.

(File naming convention: DPID_NOCAS_DDMMYYYY_01.xls)

2. **Preferred Depository:** On the basis of the SEBI guidelines, depository which would be servicing the client for sending the CAS, will be identified. The respective depository will be called as “Default Depository”. Further, if the default depository is “NSDL”, the Client on receipt of CAS from Default depository viz., NSDL, can change the “default depository” by informing his/her preference to choose CDSL as preferred depository to receive CAS by submitting a letter signed by the first holder to any DP of NSDL where he/she has an account. Alternatively, the Client can also send email to NSDL-CASfeedback@nsdl.co.in from his/her email id registered with NSDL by quoting his/her Name and Permanent Account Number (PAN). The default value will be “N” for all NSDL demat accounts. However, in case the Client opts CDSL as preferred depository, the Participant will be required to update the “Preferred depository Flag” from “N” to “C”. Such requests, received from Clients need to be uploaded on “**Upload Preferred Depository details**” under NSDL CAS menu on i-Assist in the below mentioned format:

No.	DP ID	CLIENT ID	PREFERRED DEPOSITORY FLAG
1	INXXXXXX	1000XXXX	ALWAYS ‘C’

Note: N = NSDL

C = CDSL

(File naming convention: DPID_DEPOSITORY_FLAG_DDMMYYYY_01.xls)

3. **Mode of delivery:** Upon receipt of request from Client to receive CAS in physical or in electronic mode, Participant can upload the information on “**Upload CAS Dispatch Mode**” under NSDL CAS menu on i-Assist. The file format for uploading the aforesaid information is given below:

No.	ID	IENT ID	S DISPATCH PATCH MODE	RST_HLDR_ EMAIL_ID	COND_ HLDR_EM AIL_ID	IRD_ HLDR_EM AIL_ID
	XXXXX X	00XXXX	P' OR 'E'	Mandatory in case of CAS DISPATCH MODE 'E'		

Note: P = Physical mode

E = Electronic mode

(File naming convention: DPID_DISPATCH_MODE_DDMMYYYY_01.xls)

CHAPTER 4 – GRIEVANCE REDRESSAL

ANNEXURE A

INVESTOR CHARTER

1. **Vision**

Towards making Indian Securities Market - Transparent, Efficient, & Investor friendly by providing safe, reliable, transparent and trusted record keeping platform for investors to hold and transfer securities in dematerialized form.

2. **Mission**

- To hold securities of investors in dematerialised form and facilitate its transfer, while ensuring safekeeping of securities and protecting interest of investors.
- To provide timely and accurate information to investors with regard to their holding and transfer of securities held by them.
- To provide the highest standards of investor education, investor awareness and timely services so as to enhance Investor Protection and create awareness about Investor Rights.

3. **Details of business transacted by the Depository and Depository Participant (DP)**

A Depository is an organization which holds securities of investors in electronic form. Depositories provide services to various market participants - Exchanges, Clearing Corporations, Depository Participants (DPs), Issuers and Investors in both primary as well as secondary markets. The depository carries out its activities through its agents which are known as Depository Participants (DP). Details available on the link [\[https://nsdl.co.in/dpsch.php\]](https://nsdl.co.in/dpsch.php)

4. **Description of services provided by the Depository through Depository Participants (DP) to investors**

(1) Basic Services

Sr. no.	Brief about the Activity / Service	Expected Timelines for processing by the DP after receipt of proper documents
1.	Dematerialization of securities	7 days
2.	Rematerialization of securities	7 days
3.	Mutual Fund Conversion	5 days

INVESTOR CHARTER FOR DEPOSITORY PARTICIPANTS

Sr. no.	Brief about the Activity / Service	Expected Timelines for processing by the DP after receipt of proper documents
4.	Re-conversion of Mutual fund units	7 days
5.	Transmission of securities	7 days
6.	Registering pledge request	15 days
7.	Closure of demat account	30 days
8.	Settlement Instruction	<p>For T+1 day settlements, Participants shall accept instructions from the Clients, in physical form up to 4 p.m. (in case of electronic instructions up to 6.00 p.m.) on T day for pay-in of securities.</p> <p>For T+0 day settlements, Participants shall accept EPI instructions from the clients, till 11:00 AM on T day.</p> <p>Note: 'T' refers 'Trade Day'</p>

(2) Depositories provide special services like pledge, hypothecation, internet based services etc. in addition to their core services and these include

Sr. no.	Type of Activity /Service	Brief about the Activity / Service
1.	Value Added Services	<p>Depositories also provide value added services such as</p> <p>(1) Basic Services Demat Account (BSDA)¹ <i>[link to be provided by the Participants]</i></p> <p>(2) Transposition cum dematerialization² <i>[link to be provided by the Participants]</i></p> <p>(3) Linkages with Clearing System³ <i>[link to be provided by the Participants]</i></p> <p>(4) Distribution of cash and non-cash corporate benefits (Bonus, Rights, IPOs etc.), stock lending, demat of NSC / KVP, demat of warehouse receipts etc.</p>
2.	Consolidated Account statement (CAS)	CAS is issued 10 days from the end of the month (if there were transactions in the previous month) or half yearly (if no transactions).

3.	Digitalization of services provided by the depositories	Depositories offer below technology solutions and e-facilities to their demat account holders through DPs:
----	---	--

Sr. no.	Type of Activity /Service	Brief about the Activity / Service
		<p>a. <u>E-account opening</u>⁴ <i>[link to be provided by the Participants]</i></p> <p>b. <u>Online instructions for execution</u>⁵ <i>[link to be provided by the Participants]</i></p> <p>c. <u>e-DIS / Demat Gateway</u>⁶ <i>[link to be provided by the Participants]</i></p> <p>d. <u>e-CAS facility</u>⁷ <i>[link to be provided by the Participants]</i></p> <p>e. <u>Miscellaneous services</u>⁸ <i>[link to be provided by the Participants]</i></p>

5. Details of Grievance Redressal Mechanism

(1) The Process of investor grievance redressal

1.	Investor Complaint/ Grievances	<p>Investor can lodge complaint/ grievance against the Depository/DP in the following ways:</p> <p>a. Electronic mode -</p> <p>(i) SCORES (a web based centralized grievance redressal system of SEBI) [https://scores.sebi.gov.in/] <u>Two Level Review for complaint/grievance against DP:</u></p> <ul style="list-style-type: none"> • First review done by Designated Body • Second review done by SEBI <p>(ii) Respective Depository's web portal dedicated for the filing of complaint [https://investor.nsdl.com/portal/en/home]</p> <p>(iii) Emails to designated email IDs of Depository [relations@nsdl.com]</p> <p>b. Offline Mode ⁹ <i>[link to be provided by the Participants]</i></p> <p>The complaints/ grievances lodged directly with the Depository shall be resolved within 21 days.</p>
----	--------------------------------	---

2.	Online Dispute Resolution (ODR) platform for online Conciliation and Arbitration	If the Investor is not satisfied with the resolution provided by DP or other Market Participants, then the Investor has the option to file the complaint/ grievance on SMARTODR platform for its resolution through by online conciliation or arbitration. [https://smartodr.in/register/]
3.	Steps to be followed in ODR for Review, Conciliation and Arbitration	<ul style="list-style-type: none"> ➤ Investor to approach Market Participant for redressal of complaint ➤ If investor is not satisfied with response of Market Participant, he/she can escalate the complaint on SEBI SCORES portal. ➤ Alternatively, the investor may also file a complaint on SMARTODR portal for its resolution through online conciliation and arbitration. ➤ Upon receipt of complaint on SMARTODR portal, the relevant MII will review the matter and endeavour to resolve the matter between the Market Participant and investor within 21 days. ➤ If the matter could not be amicably resolved, then the Investor may request the MII to refer the matter case for conciliation. ➤ During the conciliation process, the conciliator will endeavor for amicable settlement of the dispute within 21 days, which may be extended with 10 days by the conciliator. ➤ If the conciliation is unsuccessful, then the investor may request to refer the matter for arbitration. <p>The arbitration process to be concluded by arbitrator(s) within 30 days, which is extendable by 30 days.</p>

(2) Illustration of New Grievance Redressal System:

The flow-chart of New Grievance Redressal System.¹⁰ *[link to be provided by the Participants]*

6. Guidance pertaining to special circumstances related to market activities: Termination of the Depository Participant

Sr. No.	Type of special circumstances	Timelines for the Activity/ Service
---------	-------------------------------	-------------------------------------

1.	<ul style="list-style-type: none"> ▪ Depositories to terminate the participation in case a participant no longer meets the eligibility criteria and/or any other grounds as mentioned in the bye laws like suspension of trading member by the Stock Exchanges. ▪ Participant surrenders the participation by its own wish. 	Client will have a right to transfer all its securities to any other Participant of its choice without any charges for the transfer within 30 days from the date of intimation by way of letter/email.

ANNEXURE B

INFORMATION CONTAINED IN LINKS TO THE INVESTOR CHARTER

This document contains the contents in main Charter mapped with the same superscript.

Para 4 (2) of Investor Charter

Point 1: Value Added Services

- a. Basic Services Demat Account (BSDA)¹: The facility of BSDA with limited services for eligible individuals was introduced with the objective of achieving wider financial inclusion and to encourage holding of demat accounts. No Annual Maintenance Charges (AMC) shall be levied, if the value of securities holding is upto Rs. 50,000. For value of holdings between Rs 50,001-2,00,000, AMC not exceeding Rs 100 is chargeable. In case of debt securities, there are no AMC charges for holding value upto Rs 1,00,000 and a maximum of Rs 100 as AMC is chargeable for value of holdings between Rs 1,00,001 and Rs 2,00,000.
- b. Transposition cum dematerialization²: In case of transposition-cum-dematerialisation, client can get securities dematerialised in the same account if the names appearing on the certificates match with the names in which the account has been opened but are in a different order. The same may be done by submitting the security certificates along with the Transposition Form and Demat Request Form.
- c. Linkages with Clearing System³ For actual delivery of securities to the clearing system from the selling brokers and delivery of securities from the clearing system to the buying broker.

Point 3: Digitization of services provided by the depositories

- a. E-account opening⁴: Account opening through digital mode, popularly known as “On-line Account opening”, wherein investor intending to open the demat account can visit DP website, fill in the required information, submit the required documents, conduct video IPV and demat account gets opened without visiting DPs office.
- b. Online instructions for execution⁵: Internet-enabled services like Speed-e (NSDL) empower a demat account holder in managing his/her securities ‘anytime-anywhere’ in an efficient and convenient manner and submit instructions online without the need to use paper. These facilities allows Beneficial Owner (BO) to submit transfer instructions and pledge instructions including margin pledge from their demat account. The instruction facilities are also available on mobile applications through android, windows and IOS platforms.
- c. e-DIS / Demat Gateway⁶: Investors can give instructions for transfer of securities through e-DIS apart from physical DIS. Here, for on-market transfer of securities, investors need to provide settlement number along with the ISIN and quantity of securities being authorized for transfer.

Client shall be required to authorize each e-DIS valid for a single settlement number / settlement date, by way of OTP and PIN/password, both generated at Depositories end. Necessary risk containment measures are being adopted by Depositories in this regard.

- d. e-CAS facility⁷: Consolidated Account Statements are available online and could also be accessed through mobile app to facilitate the investors to view their holdings in demat form.
- e. Miscellaneous services⁸: Transaction alerts through SMS, e-locker facilities, chatbots for instantaneously responding to investor queries etc. have also been developed.

Para 5(2) of Investor Charter

Illustration of New Grievance Redressal System¹⁰

Para 7 of Investor Charter

Dos and Don'ts for Investor¹¹

Sr. No.	Guidance
i.	Always deal with a SEBI registered Depository Participant for opening a demat account.
ii.	Read all the documents carefully before signing them.
iii.	Before granting Power of attorney to operate your demat account to an intermediary like Stock Broker, Portfolio Management Services (PMS) etc., carefully examine the scope and implications of powers being granted.
iv.	Always make payments to registered intermediary using banking channels. No payment should be made in name of employee of intermediary.
v.	<p>Accept the Delivery Instruction Slip (DIS) book from your DP only (pre-printed with a serial number along with your Client ID) and keep it in safe custody and do not sign or issue blank or partially filled DIS slips.</p> <p>Always mention the details like ISIN, number of securities accurately. In case of any queries, please contact your DP or broker and it should be signed by all demat account holders.</p> <p>Strike out any blank space on the slip and Cancellations or corrections on the DIS should be initialed or signed by all the account holder(s).</p> <p>Do not leave your instruction slip book with anyone else.</p> <p>Do not sign blank DIS as it is equivalent to a bearer cheque.</p>
vi.	Inform any change in your Personal Information (for example address or Bank Account details, email ID, Mobile number) linked to your demat account in the prescribed format and obtain confirmation of updation in system
vii.	Mention your Mobile Number and email ID in account opening form to receive SMS alerts and regular updates directly from depository.
viii.	Always ensure that the mobile number and email ID linked to your demat account are the same as provided at the time of account opening/updation.
ix.	Do not share password of your online trading and demat account with anyone.
x.	Do not share One Time Password (OTP) received from banks, brokers, etc. These are meant to be used by you only.
xi.	Do not share login credentials of e-facilities provided by the depositories such as e-DIS/demat gateway, SPEED-e/easiest etc. with anyone else.
xii.	Demat is mandatory for any transfer of securities of Listed public limited companies.

xiii.	If you have any grievance in respect of your demat account, please write to designated email IDs of depositories or you may lodge the same with SEBI online at https://scores.sebi.gov.in
xiv.	Keep a record of documents signed, DIS issued and account statements received.
xv.	As Investors you are required to verify the transaction statement carefully for all debits and credits in your account. In case of any unauthorized debit or credit, inform the DP or your respective Depository.
xvi.	Appoint a nominee to facilitate your heirs in obtaining the securities in your demat account, on completion of the necessary procedures.
xvii.	Register for Depository's internet based facility or download mobile app of the depository to monitor your holdings.
xviii.	Ensure that, both, your holding and transaction statements are received periodically as instructed to your DP. You are entitled to receive a transaction statement every month if you have any transactions.
xix.	Do not follow herd mentality for investments. Seek expert and professional advice for your investments
xx.	Beware of assured/fixed returns.

Para 8 of Investor Charter

Rights of investors¹²

- i. Receive a copy of KYC, copy of account opening documents.
- ii. No minimum balance is required to be maintained in a demat account.
- iii. No charges are payable for opening of demat accounts.
- iv. If executed, receive a copy of Power of Attorney. However, Power of Attorney is not a mandatory requirement as per SEBI / Stock Exchanges. You have the right to revoke any authorization given at any time.
- v. You can open more than one demat account in the same name with single DP/ multiple DPs.
- vi. Receive statement of accounts periodically. In case of any discrepancies in statements, take up the same with the DP immediately. If the DP does not respond, take up the matter with the Depositories.
- vii. Pledge and /or any other interest or encumbrance can be created on demat holdings.
- viii. Right to give standing instructions with regard to the crediting of securities in demat account.
- ix. Investor can exercise its right to freeze/defreeze his/her demat account or specific securities / specific quantity of securities in the account, maintained with the DP.
- x. In case of any grievances, Investor has right to approach Participant or Depository or SEBI for getting the same resolved within prescribed timelines.
- xi. Every eligible investor shareholder has a right to cast its vote on various resolutions proposed by the companies for which Depositories have developed an internet based 'e-Voting' platform.
- xii. Receive information about charges and fees. Any charges/tariff agreed upon shall not increase unless a notice in writing of not less than thirty days is given to the Investor.
- xiii. Right to indemnification for any loss caused due to the negligence of the Depository or the participant.
- xiv. Right to opt out of the Depository system in respect of any security.

Para 9 of Investor Charter

Responsibilities of Investors¹³

- i. Deal with a SEBI registered DP for opening demat account, KYC and Depository activities.

- ii. Provide complete documents for account opening and KYC (Know Your Client). Fill all the required details in Account Opening Form / KYC form in own handwriting and cancel out the blanks.
- iii. Read all documents and conditions being agreed before signing the account opening form.
- iv. Accept the Delivery Instruction Slip (DIS) book from DP only (preprinted with a serial number along with client ID) and keep it in safe custody and do not sign or issue blank or partially filled DIS.
- v. Always mention the details like ISIN, number of securities accurately.
- vi. Inform any change in information linked to demat account and obtain confirmation of updation in the system.
- vii. Regularly verify balances and demat statement and reconcile with trades / transactions.
- viii. Appoint nominee(s) to facilitate heirs in obtaining the securities in their demat account.
- ix. Do not fall prey to fraudsters sending emails and SMSs luring to trade in stocks / securities promising huge profits.

Para 10 of Investor Charter

Code of Conduct for Depositories¹⁴

(Part D of Third Schedule of SEBI (D & P) Regulations, 2018)

A Depository shall:

- (a) always abide by the provisions of the SEBI Act, 1992 Depositories Act, 1996, any Rules or Regulations framed thereunder, circulars, guidelines and any other directions issued by the Board from time to time.
- (b) adopt appropriate due diligence measures.
- (c) take effective measures to ensure implementation of proper risk management framework and good governance practices.
- (d) take appropriate measures towards investor protection and education of investors.
- (e) treat all its applicants/members in a fair and transparent manner.
- (f) promptly inform SEBI of violations of the provisions of the SEBI Act, 1992 the Depositories Act, 1996, rules, regulations, circulars, guidelines or any other directions by any of its issuer or issuer's agent.
- (g) take a proactive and responsible attitude towards safeguarding the interests of investors, integrity of depository's systems and the securities market.
- (h) endeavor for introduction of best business practices amongst itself and its members.
- (i) act in utmost good faith and shall avoid conflict of interest in the conduct of its functions.
- (j) not indulge in unfair competition, which is likely to harm the interests of any other Depository, their participants or investors or is likely to place them in a disadvantageous position while competing for or executing any assignment.
- (k) segregate roles and responsibilities of key management personnel within the depository including
 - a. Clearly mapping legal and regulatory duties to the concerned position
 - b. Defining delegation of powers to each position
 - c. Assigning regulatory, risk management and compliance aspects to business and support teams
- (l) be responsible for the acts or omissions of its employees in respect of the conduct of its business.

(m) monitor the compliance of the rules and regulations by the participants and shall further ensure that their conduct is in a manner that will safeguard the interest of investors and the securities market.

Para 11 of Investor Charter

Code of Conduct for Participants¹⁵

(Part A of Third Schedule of SEBI (D & P) Regulations, 2018)

1. A participant shall make all efforts to protect the interests of investors.
2. A participant shall always endeavour to—
 - (a) render the best possible advice to the clients having regard to the client's needs and the environments and his own professional skills;
 - (b) ensure that all professional dealings are effected in a prompt, effective and efficient manner;
 - (c) inquiries from investors are adequately dealt with;
 - (d) grievances of investors are redressed without any delay.
3. A participant shall maintain high standards of integrity in all its dealings with its clients and other intermediaries, in the conduct of its business.
4. A participant shall be prompt and diligent in opening of a beneficial owner account, dispatch of the dematerialisation request form, rematerialisation request form and execution of debit instruction slip and in all the other activities undertaken by him on behalf of the beneficial owners.
5. A participant shall endeavour to resolve all the complaints against it or in respect of the activities carried out by it as quickly as possible, and not later than one month of receipt.
6. A participant shall not increase charges/fees for the services rendered without proper advance notice to the beneficial owners.
7. A participant shall not indulge in any unfair competition, which is likely to harm the interests of other participants or investors or is likely to place such other participants in a disadvantageous position while competing for or executing any assignment.
8. A participant shall not make any exaggerated statement whether oral or written to the clients either about its qualifications or capability to render certain services or about its achievements in regard to services rendered to other clients.
9. A participant shall not divulge to other clients, press or any other person any information about its clients which has come to its knowledge except with the approval/authorisation of the clients or when it is required to disclose the information under the requirements of any Act, Rules or Regulations.
10. A participant shall co-operate with SEBI as and when required.
11. A participant shall maintain the required level of knowledge and competency and abide by the provisions of the Act, Rules, Regulations and circulars and directions issued by the Board. The participant shall also comply with the award of the Ombudsman passed under the Securities and Exchange Board of India (Ombudsman) Regulations, 2003.
12. A participant shall not make any untrue statement or suppress any material fact in any documents, reports, papers or information furnished to SEBI.
13. A participant shall not neglect or fail or refuse to submit to SEBI or other agencies with which it is registered, such books, documents, correspondence, and papers or any part thereof as may be demanded/requested from time to time.
14. A participant shall ensure that SEBI is promptly informed about any action, legal proceedings, etc., initiated against it in respect of material breach or non-compliance by it, of any law, Rules, regulations, directions of the Board or of any other regulatory body.

15. A participant shall maintain proper inward system for all types of mail received in all forms.
16. A participant shall follow the maker—checker concept in all of its activities to ensure the accuracy of the data and as a mechanism to check unauthorised transaction.
17. A participant shall take adequate and necessary steps to ensure that continuity in data and record keeping is maintained and that the data or records are not
lost or destroyed. It shall also ensure that for electronic records and data, up- to-date back up is always available with it.
18. A participant shall provide adequate freedom and powers to its compliance officer for the effective discharge of his duties.
19. A participant shall ensure that it has satisfactory internal control procedures in place as well as adequate financial and operational capabilities which can be reasonably expected to take care of any losses arising due to theft, fraud and other dishonest acts, professional misconduct or omissions.
20. A participant shall be responsible for the acts or omissions of its employees and agents in respect of the conduct of its business.
21. A participant shall ensure that the senior management, particularly decision makers have access to all relevant information about the business on a timely basis.
22. A participant shall ensure that good corporate policies and corporate governance are in place.

CHAPTER 5 – DP SERVICE CENTRES

ANNEXURE A

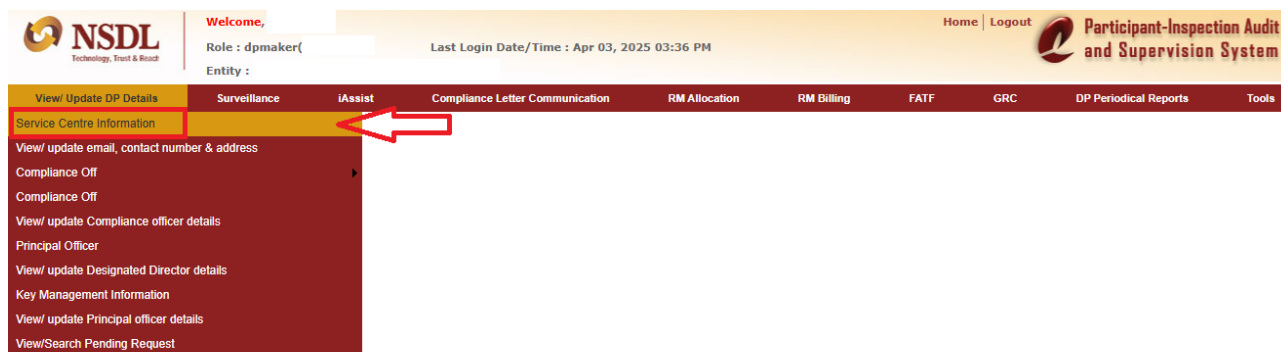

Procedure for Service Centre Addition/Modification/Closure requests through e-PASS

Process flow:

- Participant Maker shall raise a request, and the Participant Checker approves such request after verification for submission to NSDL.
- Once the Participant Checker successfully submits the details, the request will be forwarded to NSDL user for approval.
- Upon approval of the request by NSDL user, details in the request will be updated in NSDL's records. If the request is rejected by NSDL user, then Participant shall re-initiate a fresh request for updation.
- The Participant can track status of the request submitted to NSDL through the e-PASS portal under the "e-info → View/Search Pending Request" Menu.

1. Steps for Participant Maker:

After logging into e-PASS, go to the 'e-info' Menu and click on 'Service Centres Information' to Add/Modify/Delete Service Centre details.

A. Addition of Service Centre:

- Select "Add" for addition of service centre details as exhibited below:

A screenshot of the 'Service Centre Information' form in the NSDL e-PASS portal. The form has a header with the NSDL logo, welcome message, user role, last login date, and links for Home and Logout. Below the header, there is a section titled 'Service Centre Information' with a 'Mandatory Fields' label. The form contains several input fields: 'Name of Participants' (a dropdown menu), 'DP ID' (a dropdown menu), and 'Status' (a dropdown menu). At the bottom of the form, there are three buttons: 'Add', 'Modify', and 'Delete'. The 'Add' button is highlighted with a red box, and a red arrow points to it.

- ii. Fill in all the mandatory fields and enable the checkboxes provided for services offered by the service centre. Also, indicate whether the requests for these services are accepted manually, electronically, or both by enabling the appropriate checkbox.

Once document is uploaded successfully, confirmation of document updation completion will reflect on the screen as below screenshot.

The screenshot displays the NSDL system interface. At the top left is the NSDL logo with the tagline 'Technology, Trust & Reach'. The user is logged in as 'Role : dpmaker' with a 'Last Login Date/Time : Apr 03, 2025 03:36 PM'. A confirmation message states 'File uploaded successfully!'. A blue 'OK' button is present. The page title is 'Participant-Inspection Audit and Supervision System'. Below the header, there is a 'Service Centers Information' section. A dropdown menu for 'Name of Participants' is visible, with a red asterisk indicating it is a mandatory field.

- iv. User may Click “**Save Draft**” to save the information already captured/uploaded as exhibited below:

This screenshot shows the bottom navigation bar of the system. It contains four buttons: 'Back', 'Reset', 'Save Draft', and 'Submit'. The 'Save Draft' button is highlighted with a red rectangular box, and a red arrow points down to it from above.

- v. User shall Click “**Submit**” to forward the request to the **Participant Checker** for review and approval, as exhibited below:

This screenshot shows the bottom navigation bar of the system. It contains four buttons: 'Back', 'Reset', 'Save Draft', and 'Submit'. The 'Submit' button is highlighted with a red rectangular box, and a red arrow points down to it from above.

B. Modification of Service Centre details:

- i. Select “**Modify**” under “**Service Centres Information**” as below:

The screenshot shows the 'Service Centre Information' form. At the top, there is a header with the NSDL logo, user role 'dpmaker', and last login date. The form title is 'Service Centre Information'. Below the title, there is a section for 'Name of Participants' with a dropdown menu. To the right of this dropdown are two more dropdowns: 'DP ID' and 'Status'. Below the 'Name of Participants' dropdown, there are three buttons: 'Add', 'Modify', and 'Delete'. The 'Modify' button is highlighted with a red rectangular box, and a red arrow points up to it from below. To the right of these buttons is a dropdown for 'Service Center Code'. A red asterisk indicates that the 'Name of Participants' field is mandatory.

- ii. Select the desired **Service Centre Code** from the dropdown list as exhibited below:

Annexure B

Standard operating procedure for conversion of existing Alternative Investment Fund (AIF) units represented by Statement of Account into dematerialised form - through Alternative Investment Fund (AIF), Investment Manager (IM) /Fund/ Registrar and Transfer Agent (RTA):

1. Submission of conversion request by the investor:

- a) An investor desiring to convert its existing (AIF) units represented by Statement of Account (SoA) into dematerialized form shall submit the following details to the AIF/IM/RTA:
 - i. Request for conversion [containing DP Id, Client Id, name of sole/joint holders, ISIN, quantity, lock-in details, if any, etc., in the format of Conversion Request Form (CRF) as prescribed by IM].
 - ii. A copy of Client Master Report (CMR) issued by its Depository Participant (DP) duly certified by the DP. Alternately, the AIF/IM /RTA may validate the demat account number using electronic services provided by NSDL i.e. through the data services/beneficiary demographic (bendem) report provided by NSDL.
 - iii. A copy of latest SoA containing information of the holding units desired to be converted into demat.

2. Upon receipt of conversion request from the investor:

- a) AIF/IM /RTA shall ensure that the units which the investor intends to convert belong to the list of AIF Units/Schemes available in NSDL for dematerialization and must ensure that correct ISIN is mentioned on the CRF.
- b) AIF/IM/RTA shall verify details viz., DP ID, Client ID, Name(s) of the investor(s) and holding pattern (mentioned on CRF) with the CMR of the beneficial owner account submitted by the investor or from the data services/bendem report obtained.
- c) The conversion request shall be accepted by the AIF/IM/RTA only in case the aforesaid details match.
- d) If details in CRF are proper, the AIF/IM /RTA will issue an acknowledgement duly signed and stamped to the investor(s).

3. Before crediting the units through the depository:

- a) AIF/IM/RTA shall ensure that the details in CRF viz., Name(s) of the investor(s), holding pattern of account holder(s) and signature of the investor(s) match with the details available in its records.
- b) AIF/IM/RTA shall validate the unit holder name(s) and PAN(s) (if available) from its records with the data obtained from NSDL through data services or by obtaining the bendem report from NSDL.
- c) In case of any mismatch, AIF/IM /RTA shall reject the request for conversion of units and inform the investor suitably, providing reason(s) for such rejection.

4. After successful validation and verification of request:

- a) AIF/IM/RTA shall record the conversion of units represented by SoA, as requested by the investor(s) in its records.
- b) AIF/IM/RTA shall credit the units by corporate action process in NSDL to the demat account of the unit holder(s).
- c) The credit of the converted units will be reflected in the Transaction Statement provided by the DP to its client.
- d) In case of any rejection of the corporate action instruction uploaded by AIF/IM /RTA into NSDL system, the reason(s) of rejection of the corporate action shall be provided by NSDL. AIF/IM/RTA shall take necessary steps to rectify /resubmit the same after making suitable changes.

CHAPTER 8 - FEES AND CHARGES

Annexure A

Procedure for submission of Charge Structure through e-PASS Portal

1. Submission of Charge Structure through Maker login:

After login to e-PASS, click on 'Tariff sheet' → 'Submit Tariff Sheet' as exhibited below:

Surveillance	Tools	Tariff Sheet	Net worth Submission	DP IG Report	Investor Grievances
		Submit Tariff Sheet			
		View/Search Tariff Sheet			

Upon clicking 'Submit Tariff Sheet', all DP IDs of Participant (in case of multiple DPM set-ups) will be auto displayed on screen and will get selected by default. In case, Participant have DP ID wise different charge structure, then user will be able to select/deselect the specific DP ID(s) and submit the charge structure. Participant are requested to ensure that charge structure shall be submitted for their all DP IDs.

On 'Submit Tariff Sheet' screen, user will have to first select the period for submission and then specify the scheme name (which is an optional field) and thereafter click on 'Proceed' button as exhibited below:

Submit Tariff Sheet		Proceed
Period *	01/04/2022-01/03/2023	Scheme Name
DP ID and DP Name	<input checked="" type="checkbox"/> IN300009~ <input checked="" type="checkbox"/> IN300183~ <input checked="" type="checkbox"/> IN300190~ <input checked="" type="checkbox"/> IN301348~	

After clicking on 'Proceed' button, option to fill the transaction wise charge structure will appear on screen wherein user will have to either fill the charge detail (alfa numeric value) for specific transaction or enable 'Nil' option provided against each field. Thereafter, user will have click on 'Submit to Checker' tab as exhibited below:

Submit Tariff Sheet	
Statutory charges at the time of account opening *	<input type="checkbox"/> NIL
Advance/Deposit *	<input type="checkbox"/> NIL
Reset Save Draft Submit To Checker	

Upon clicking the 'Submit to Checker' tab, the report will go to captured status and a unique 'File Reference No.' will get generated for captured report. Once the file has been captured by Maker user, same will be required to verify released by user having Checker rights (i.e. Compliance Officer/ Alternative Compliance Officer) for onwards submission to NSDL. Submitted report can be viewed by Maker user from 'View / Search Tariff Sheet' link as exhibited below:

Surveillance	Tools	Tariff Sheet	Net worth Submission	DP IG Report	Investor Grievances
		Submit Tariff Sheet			
		View/Search Tariff Sheet			

Total Record(s) : 13							
File Ref. No.	Period	DP ID	DP Name	Scheme Name	Status	Submission Date	
57	01/04/2022-01/03/2023	IN		MF 2	Submitted to checker	25/03/2023 22:11	

2. Verify release captured reports through Checker login:

To verify and release the report captured by Maker user, Checker user will have to click on 'Tariff Sheet' → 'View/Search Tariff Sheet' link as exhibited below:

Reports	Tools	Off site inspection module	RTA Periodical Report	Tariff Sheet	Net worth Submission
				View/Search Tariff Sheet	

On clicking 'View/ Search Tariff Sheet', by default the report which is under captured status will get displayed on screen. To verify release the captured report, Checker user will have to click on link provided on 'File Reference No' of report to be verify released. Upon clicking the respective 'File Reference No.', transaction wise charge structure/ Nil flag enabled by Maker user will appear on screen as exhibited below:

Statutory charges at the time of account opening*	<input type="checkbox"/> NIL	XXX
Advance/Deposit *	<input checked="" type="checkbox"/> NIL	
Account maintenance *	<input type="checkbox"/> NIL	YYY
Demat*	<input type="checkbox"/> NIL	ZZZ

After reviewing the report captured by Maker user, Checker user will have an option to either submit the report to NSDL by clicking on 'Submit to NSDL' tab or return the report to Maker user (in case any changes required in captured report) by clicking on 'Return to Maker' tab as exhibited below:

Reason for sending back :

Return to maker

Submit to NSDL

Once the report is submitted to NSDL, all records of charge structure submitted by Participant will get uploaded on NSDL e-PASS and the status of report will get changed from captured to 'Submitted to NSDL' as exhibited below:

File Ref. No.	Period	DP ID	DP Name	Scheme Name	Status	Submission Date	Rejection Reason
57	01/04/2022-01/03/2023	IN		MF 2	Submitted to NSDL	25/03/2023 22:22	

It may be noted that report captured by Maker user cannot be edited by Checker user. In case any changes are required to be done in report captured by Maker user, then same will need to be returned by Checker user to Maker user. For sending back the report to Maker user, reason for sending back the report is required to be provided mandatorily in the text box 'Reason for sending back' as exhibited below:

Submit Tariff Sheet

Remark

Confirmation

Are you sure want to send Back to Maker

Yes No

Reason for sending back :

Wrong charges entered

Return to maker

Submit to NSDL

In respect of report(s) returned by Checker, a fresh report (after making necessary changes) will be captured by Maker user by following the steps/ process as mentioned in point number 1 above by searching the requisite report from 'View / Search Tariff Sheet' link.

3. Creation/ Deletion of User ID's:

For creation/ deletion of Maker User IDs on e-PASS for submission of charge structure, Participants have to send an email on nsdl-bp-inspection@nsdl.com in following format:

SEBI Reg. No.	DP Name	First Name of User	Last Name of User	Mobile no.	Email ID

In case there is any change in details of Checker User i.e. Compliance Officer's/ Alternative Compliance Officer's name, email ID and mobile number, Participants are requested to inform the same as per procedure communicated vide circular number NSDL/PI/2005/2550 dated December 29, 2005.

PROCEDURE FOR SUBMITTING WAIVER REQUEST

Enclosure to letter

Details of transmission cases for the month of _____, _____ (year)

Source DP Id	Source Client Id	Name of the Deceased	Joint A/c(Y/N)	DPM Instruction No.	Execution Date	Target DP Id	Target Client Id	Reason, if source A/c is not closed	Amount(in Rs.) for which waiver is sought
--------------	------------------	----------------------	----------------	---------------------	----------------	--------------	------------------	-------------------------------------	---

Notes:

- 1. Please provide the details in a soft copy, if total number of transactions exceed 25.
- 2. Enclose copies of death certificates.
- 3. Enclose copies of Indemnity/Affidavit, in case of single holdings.
- 4. Enclose a print-out of client master report of target Client in case of inter-depository transfers.

ANNEXURE E

PROCEDURE FOR SUBMITTING WAIVER REQUEST

Date:

To,

The Vice President
Participant Interface Dept.
National Securities Depository Limited
Trade World, A-wing, 4th floor
Kamala Mills Compound
Senapati Bapat Marg
Lower Parel (W)
Mumbai - 400 013.

Dear Sir,

Sub.: Request for waiver of settlement fees for the month of _____, _____(year) on account of transmission of securities.

This is to certify that all requisite details/documents as required under the Bye Laws and Business Rules of NSDL have been obtained by _____(DP name) for effecting transmission of securities in respect of client account(s) as enclosed. We hereby declare that all the information provided herewith is true to the best of our knowledge and further confirm that _____(DP name) will be fully responsible in case any claims made towards waiver of settlement fees are found to be invalid.

Name and Designation of Compliance Officer

Signature of Compliance Officer

DP Id

Seal of DP

ANNEXURE F

Procedure for applying waiver requests through i-Assist

1) General procedure

- a) The existing log-in ID i.e. DP-ID and password created for accessing billing information will be used for maker user.
- b) The waiver requests can be applied using interactive screens or with file upload. A new module “WAIVERS” has been included in i-Assist.
- c) Participants are requested to ensure that the source accounts for which waiver is sought is in closed status. In case the source account cannot be closed for reasons such as pending demat, ISIN under suspended status, etc. ensure that the account status is changed to “suspended for debits and credits” before claiming waivers.
- d) The documents required (refer *Circular no. NSDL/POLICY/2006/0001 dated January 5, 2006 and NSDL/POLICY/2006/0003 dated January 30, 2006*) in case of waiver request for closure of account upon inter-depository transfer instructions where the number of instructions per client account are more than 25 must be submitted in addition to electronic requests applied through i-Assist.
- e) The format of applying for the waiver request through i-Assist is given at Annexure 2 and the excel format is also available on the i-Assist.

2) Procedure for applying for waiver requests using interactive screens

- a) Waiver requests for transactions effected in the preceding month can be applied through i-Assist till the end of the current month. For example, waiver for a transaction effected in November 2009 can be applied by the Participant through i-Assist anytime between November 1, 2009 till December 31, 2009. Participants can also submit waiver request for transactions effected in the current month.
- b) In case of Intra Depository transfers, the Participant will be required to provide the Source Client ID, Target DP ID and Target Client ID.
- c) In case of Inter-Depository Transfers, the Participant will be required to submit source Client ID and 16 Digit Target DP ID-Client ID under the “Target Client ID” column.

- d) The Participants will be required to submit the number of records for which waiver is sought for each Source Client ID.
- e) Upon submitting the requests, the Participants will be able to view the records which are valid for processing alongwith total amount of waiver requested and the invalid records.
- f) For the records which are invalid, Participants can correct and re-enter the same.
- g) Upon confirmation of the records by the maker, the checker will be required to authorise the same by using the existing log-in ID of checker. Checker user can either authorise or cancel the request of the maker user.
- h) Upon confirming the records, the Checker must verify the same and submit it for final processing.
- i) Participant can subsequently view the status of the waiver request by using the queries mentioned at point no. 4 below.

3) Procedure for making waiver requests using file upload

- a) Requests for waiver can be prepared in an excel sheet as per the format enclosed at Annexure 2 or available on the i-Assist.
- b) The excel file prepared in the prescribed format can be uploaded on the i-Assist by the Maker. Checker will be required to individually authorise the same by using the existing log-in ID of checker. Checker user can either authorise or cancel the request of the maker user.
- c) All the instructions mentioned at point no. 2 above will be applicable.

4) Queries

Participants can raise the queries through “WAIVERS QUERY” module for any period (i.e. from date and to date to be specified) for the following:

- a) **Verification pending:** It will show the records captured by the Maker but yet to be verified by the Checker.
- b) **Waiver Requests Released:** It will show the status of all waiver requests applied which are verified by Checker.
- c) **Rejected Waiver Requests:** It will show the status of all waiver requests which are rejected, alongwith reasons for rejection.

- d) ***Valid Waiver Requests:*** It will show the status of all waiver requests which are valid for processing and not rejected.
- e) ***Cancelled by Checker:*** It will show the status of all waiver requests which are cancelled by Checker.
- f) ***Expired Waiver Requests:*** It will show the waiver requests which are pending to be verified by the checker and time to verify the requests has elapsed.
- g) ***Documents required to be submitted for account closure upon inter-depository transfers:*** It will show the records for account closure upon inter-depository transfers where the number of instructions exceeds 25 per client account and for which documents are required to be submitted separately.

ANNEXURE G

Format for uploading Waiver Request

Sr.No.	Waiver Type	Transaction Type	Month in which transaction was carried out	Source Client Id	Target DP Id	Target Client Id	Number of Instruction(s)

Instructions for entering data:

1. The waiver type can be any one of the following:

- a. Account Closure and Transfer
- b. Transmission – To Survivor(s)
- c. Transmission – To Nominee
- d. Transmission – Court Order / Legal Heir(s)

Participants are requested to use the following codes for entering the transaction type:

- a. AC – Account Closure and Transfer
- b. TS – Transmission – To Survivor(s)
- c. TN – Transmission – To Nominee
- d. TC – Transmission – Court Order / Legal Heir(s)

2. Transaction Type can be any one of the following:

- a. Intra – Depository (NSDL to NSDL)
- b. Inter – Depository (NSDL to CDSL) (IDT)

Participants are requested to use the following codes for entering the transaction type:

- a. ID – Intra Depository
- b. IDT – Inter Depository

3. Month in which transaction was carried out

Participants are requested to enter the month in which the transaction was carried out in the format MMY. For example, transaction executed in the month of September 2009 will be entered as 0909.

4. Source Client ID

Source Client ID will be 8-Digit numeric value.

5. Target DP ID

To be entered only in case of Intra-Depository Transfers. Target DP ID should start with 'IN'

6. Target Client ID

In case of Intra-Depository Transfer, 8-Digit numeric value to be entered. However, in case of Inter-Depository Transfer (IDT) 16-Digit DP ID – Client ID of the target account should be entered.

7. Number of Instructions

Number of instructions executed and for which waiver is sought is to be entered.

Steps for submission of subsequent changes to the charge structure through e-Pass Portal

1. Submission of Charge Structure through Maker login:

After login to e-PASS, click on 'Tariff sheet' → 'Submit Tariff Sheet' as exhibited below:

Upon clicking 'Submit Tariff Sheet', all DP IDs of Participant (in case of multiple DPM set-ups) will be auto displayed on screen and will get selected by default. In case, Participant have DP ID wise different charge structure, then user will be able to select/deselect the specific DP ID(s) and submit the charge structure. Participant are requested to ensure that charge structure shall be submitted for their all DP IDs.

On 'Submit Tariff Sheet' screen, user will have to first select the period for submission and then specify the scheme name (which is an optional field) and thereafter click on 'Submit' button as exhibited below:

A screenshot of the 'Submit Tariff Sheet' form. The form has a dark red header with the title 'Submit Tariff Sheet'. Below the header, there is a form area with a light yellow background. The form contains the following fields: 'Period*' (a dropdown menu with '(See Below)' selected), 'Scheme Name' (a text input field), and a 'Submit' button. Below these fields, there is a table with two columns: 'DP ID and DP Name' and a checkbox column. The table contains six rows, each with a checkbox checked and the value 'IN30' in the 'DP ID and DP Name' column.

After clicking on 'Submit' button, option to fill the transaction wise charge structure along with BSDA tariff charges will appear on screen wherein user will have to either fill the charge detail (alpha numeric value) for specific transaction or enable 'Nil' option provided against each field. Additionally, user will have to select the billing cycle from the drop-down list. Thereafter, user will have click on 'Submit to Checker' tab as exhibited below:

Submit To Checker

Upon clicking the ‘Submit to Checker’ tab, the report will be submitted to checker and a unique ‘File Reference No.’ will get generated for captured report. Once the file has been captured by Maker user, same will be required to verify released by user having Checker rights (i.e. Compliance Officer/ Alternative Compliance Officer) for onwards submission to NSDL. Submitted report can be viewed by Maker user from ‘View / Search Tariff Sheet’ link as exhibited below:

Surveillance	Tools	Tariff Sheet	Net worth Submission	DP IG Report	Investor Grievances
		Submit Tariff Sheet			
		View/Search Tariff Sheet			

File Ref. No.	Period	DP ID	DP Name	Scheme Name	Status	Submission Date	Rejection Reason
136	10/12/2024-20/12/2024	IN			Submitted to NSDL	30/12/2024 15:11	

2. Verify release captured reports through Checker login:

To verify and release the report captured by Maker user, Checker user will have to click on ‘Tariff Sheet’ → ‘View/Search Tariff Sheet’ link as exhibited below:

Reports	Tools	Off site inspection module	RTA Periodical Report	Tariff Sheet	Net worth Submission
				View/Search Tariff Sheet	

On clicking ‘View/ Search Tariff Sheet, by default the report which is under captured status

will get displayed on screen. To verify release the captured report, Checker user will have to click on link provided on 'File Reference No' of report to be verify released. Upon clicking the respective 'File Reference No.', transaction wise charge structure/ Nil flag enabled by Maker user will appear on screen as exhibited below:

Statutory charges at the time of account opening*	<input type="checkbox"/> NIL	XXX
Advance/Deposit *	<input checked="" type="checkbox"/> NIL	
Account maintenance *	<input type="checkbox"/> NIL	YYY
Demat*	<input type="checkbox"/> NIL	ZZZ

After reviewing the report captured by Maker user, Checker user will have an option to either submit the report to NSDL by clicking on 'Submit to NSDL' tab or return the report to Maker user (in case any changes required in captured report) by clicking on 'Return to Maker' tab as exhibited below:

Reason for sending back :	
<div>Return to maker</div> <div>Submit to NSDL</div>	

Once the report is submitted to NSDL, all records of charge structure submitted by Participant will get uploaded on NSDL e-PASS and the status of report will get changed from captured to 'Submitted to NSDL' as exhibited below:

File Ref. No.	Period	DP ID	DP Name	Scheme Name	Status	Submission Date	Rejection Reason
52	01/04/2022-01/03/2023	IN		MF 2	Submitted to NSDL	25/03/2023 22:22	

It may be noted that report captured by Maker user cannot be edited by Checker user. In case any changes are required to be done in report captured by Maker user, then same will need to be returned by Checker user to Maker user. For sending back the report to Maker user, reason for sending back the report is required to be provided mandatorily in the text box 'Reason for sending back' as exhibited below:

In respect of report(s) returned by Checker, after making necessary changes the report will be captured by Maker user by following the steps/ process as mentioned in point number 1 above by searching the requisite report from ‘View / Search Tariff Sheet’ link.

3. Resubmission of charge structure:

NSDL monitors the charge structure submitted by the participants. In view of the same Participants have to resubmit the tariff after making the necessary changes in the charge structure already submitted. In such cases, NSDL shall enable the specific tariff scheme for the purpose of such submission. The Maker user has to follow the same steps as mentioned in point 1 after providing the revised charge structure. To verify and release the report captured by the maker user, the checker user will have to approve/submit the charge structure by following the point no. 2 above. The necessary changes made by the maker user in a particular tab will be highlighted for the ease of verification by the checker user, as exhibited below:

Once the report is resubmitted to NSDL, all records of charge structure submitted by Participant will get uploaded on NSDL e-PASS portal and the status of report will be ‘Resubmitted to NSDL’ as exhibited below:

File Ref. No.	Period	DP ID	DP Name	Scheme Name	Status	Submission Date	Rejection Reason
148	01/12/2024-20/12/2024	IN			Resubmitted to NSDL	02/01/2025 11:03	

NSDL shall request Participants to resubmit the charge structure until it is satisfied. Participant is required to note that the status of 'Resubmitted to NSDL' will remain same, only the date of resubmission will change.

4. Creation/ Deletion of User ID's:

For creation/ deletion of Maker User IDs on e-PASS for submission of charge structure, Participants will have to send an email on nsdl-bp-inspection@nsdl.com in following format:

SEBI Reg. No.	DP Name	First Name of User	Last Name of User	Mobile no.	Email ID

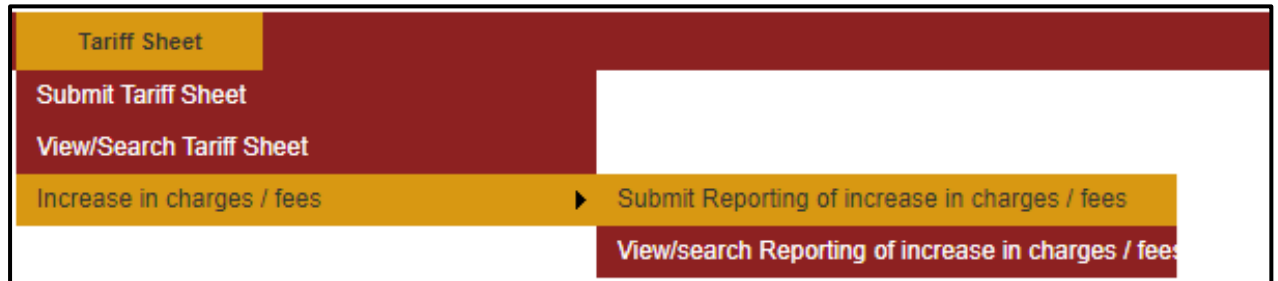

In case there is any change in details of Checker User i.e. Compliance Officer's/ Alternative Compliance Officer's name, email ID and mobile number, Participants are advised to update the details through e-PASS as per the procedure mentioned in Annexure Q under Chapter 11 (Internal Controls) of NSDL Master Circular to Participants

Annexure A1

Procedure for reporting increase in tariff, date of notice to BO and effective date of tariff

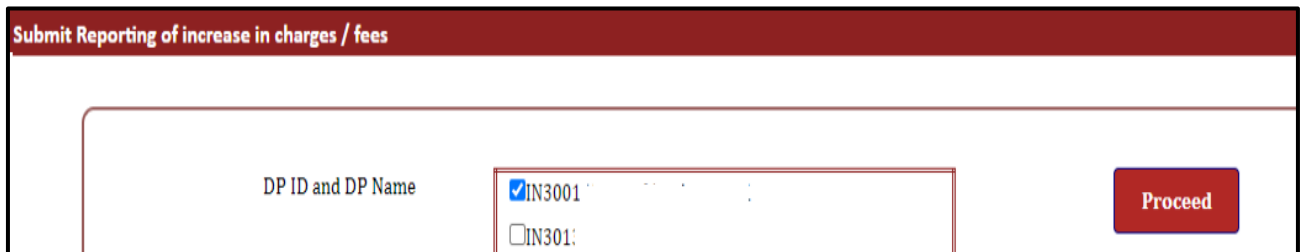

1. Submission through Maker login:

After login to e-PASS, under Tariff Sheet module, click on 'Increase in charges/fees' → 'Submit reporting of increase in charges/fees as exhibited below:

The screenshot shows a sidebar menu for the 'Tariff Sheet' module. The menu items are: 'Submit Tariff Sheet', 'View/Search Tariff Sheet', 'Increase in charges / fees', 'Submit Reporting of increase in charges / fees', and 'View/search Reporting of increase in charges / fees'. The 'Increase in charges / fees' item is highlighted in yellow, and the 'Submit Reporting of increase in charges / fees' item is also highlighted in yellow.

Upon clicking on 'Submit Reporting of increase in charges / fees', all DP IDs of Participant (in case of multiple DPM set-ups) will be selected by default and auto displayed on screen. In case, of submission of DP ID wise details, user will be able to select/deselect the specific DP ID(s) and submit the details. Once DP ID is selected thereafter click on 'Proceed' button as exhibited below:

The screenshot shows the 'Submit Reporting of increase in charges / fees' screen. It features a table with the following data:

DP ID and DP Name
<input checked="" type="checkbox"/> IN3001
<input type="checkbox"/> IN3011

There is a 'Proceed' button on the right side of the screen.

For Increase in Tariff click on 'Yes' as exhibited below:

The screenshot shows the 'Submit Reporting of increase in charges / fees' screen. It features a table with the following data:

Increase in Tariff
<input type="radio"/> Yes <input type="radio"/> No

The following screen will be visible once the user clicks on 'Yes'. The user will have to provide the 'Date of issue of 30 days notice to the client' and 'Tariff effective Date'. Thereafter, the user will click on 'Save Draft' and will 'Validate' the data provided and then click on 'Submit' tab as exhibited below:

Increase in Tariff ☒ Yes ☐ No

36	IN30		Submitted to NSDL		

It may be noted that, report captured by Maker user cannot be edited by Checker user. In case any changes are required to be done in report captured by Maker user, then same will have to be returned to Maker user by Checker user. For sending back the report to Maker user, reason for sending back the report is required to be provided mandatorily in the text box 'Rejection Reason'.

In respect of report(s) returned by Checker, maker user will have to make the necessary changes by following the steps/ process as mentioned in point no. 1 above and checker will have to approve/submit report by following the steps/ process mentioned at point no. 2 above.

3. Modification / Deletion of existing User ID's:

For modification/ deletion of Maker User IDs on e-PASS, Participants have to send an email on nsdl-bp-inspection@nsdl.com in following format:

SEBI Reg. No.	DP Name	First Name of User	Last Name of User	Mobile no.	Email ID

In case there is any change in details of Checker User i.e. Compliance Officer's/ Alternative Compliance Officer's name, email ID and mobile number, Participants are advised to update the details through e-PASS as per the procedure mentioned in Annexure Q under Chapter 11 (Internal Controls) of NSDL Master Circular Participants.

CHAPTER 9 - ANTI MONEY LAUNDERING

Annexure A

Procedure for downloading monthly PMLA Alerts through NSDL i-Assist portal:

1. Login Page for i-Assist:

Login to NSDL intranet site (<https://i-assist/>) with the existing Principal Officer User ID and password as exhibited below:

Updates	Date
Local DPM release 7.0.2	04/09/2019
Updated Backoffice file formats for v7.0	10/07/2019
Local DPM release 7.0	01/07/2019
Local DPM release 6.8	24/09/2018
Local DPM release 6.7	08/03/2018

2. View / Download monthly PMLA Alerts:

After login to i-Assist through Principal Officer login, Principal officer will be able to download the monthly alerts by clicking the link 'Download Monthly PMLA Alert Data Files' provided alongwith link of existing fortnight alerts as exhibited below:

FILE	CLICK TO DOWNLOAD
16to31dec2022.tar.gz	DOWNLOAD
01to15dec2022.tar.gz	DOWNLOAD
16to30nov2022.tar.gz	DOWNLOAD
01to15nov2022.tar.gz	DOWNLOAD
16to31oct2022.tar.gz	DOWNLOAD
01to15oct2022.tar.gz	DOWNLOAD

FILE	CLICK TO DOWNLOAD
16to31dec2022.tar.gz	DOWNLOAD

Participants are requested to take note that the aforesaid monthly and fortnightly alerts shall be available to the depository participants on NSDL i-Assist portal for the last 3 months. For previous PMLA alerts, participants to contact NSDL Surveillance Cell.

CHAPTER 10 – MUTUAL FUNDS

Annexure A

FORM 2

DP Logo	FORM 2 - CONVERSION REQUEST FORM FOR MUTUAL FUND UNITS REPRESENTED BY STATEMENT OF ACCOUNT										 NSDL <small>Technology, Trust & Research</small>
	Instructions: (1) To be submitted in duplicate for acknowledgment. (2) In case the space is found to be insufficient, an annexure containing the said details in the same format may be attached.										
Participant Name					Serial No.						
Participant Address					DP ID		I	N			
Date	D	D	M	M	Y	Y	Y	Y	Client ID		
I/We request you to convert the following units represented by statement of account issued by the Issuer into my/our aforementioned account as per the details given below:											
Tick Any One											
<input type="checkbox"/> All Folios as per My NSDL Consolidated Account Statement		CRN (to be filled by DP)									
<input type="checkbox"/> Folio Based Conversion		Sr. No	Mutual Fund / Alternative Investment Fund Name			Folio Number			CRN (to be filled by DP)		
<input type="checkbox"/> ISIN Based Conversion		Sr. No	Folio Number	ISIN	Security Description	Fill Any One				CRN (to be filled by DP)	
						All Quantity	Specific Quantity				
						ALL					
						ALL					
						ALL					
						ALL					
Declaration: I/We hereby declare that the above mentioned units/folio are registered in my/our name and are not already dematerialised and no certificates have been issued against these units/ units held in these folios. I/We also hereby declare that the units requested by me/us for conversion into dematerialised form are free from any lien or charge or encumbrance and represent the bonafide units of the Issuer to the best of my/our knowledge and belief.											
Signature(s)		Sole/First Holder			Second Holder			Third Holder			

Annexure B

FORM 3

Reconversion Request Form for conversion of Mutual Fund Units held in Dematerialised form to Statement of Account form (Pre-printed serial nos.)

To	Date	DD	MM	YYYY
DP Name (Pre Printed)				
DP ID (Pre Printed)				
DP Address (Pre Printed)				

I/We hereby declare that the below mentioned account may be debited to the extent of my/our reconversion request and equivalent units into Statement of Account form be issued for the same. I/We hereby declare that the below mentioned units are registered in the name(s) of below mentioned person(s).

Client Details									
Client ID									
Name of the Account Holder(s)	Sole/First Holder								
	Second Holder								
	Third Holder								

Details of Units :

Mutual Fund Name	
-------------------------	--

Free Units

Locked - in Units

Sr. No.	ISIN	Unit Description	Quantity	Details of Lock-in (if applicable)		Reconversion request number (RRN) (To be filled in by Participant)
				Reason	Release Date	

Notes :

1. In case the space is found to be insufficient, an annexure containing the said details in the same format may be attached.
2. Please use separate form for free units and locked-in units

Authorised Signatory(ies)

Holder(s)	Signature(s)
Sole/ First Holder	
Second Holder	
Third Holder	

Participant Authorisation

Received the above mentioned Units for reconversion into Statement of Account form:

Client Details									
Client ID									
Name of the Account Holder(s)	Sole/First Holder								
	Second Holder								
	Third Holder								

The application form is verified with the details of the Client account and certify that the application form is in order. The account has sufficient balances to accept the reconversion request as requested. It is also certified that the Clients' signatures are verified and found in order.

Date:

Forwarded by (Name of the Official) :

(Provided separately)

CHAPTER 11 – INTERNAL CONTROLS / REPORTING TO NSDL / SEBI

ANNEXURE A

ILLUSTRATIVE MEASURES FOR DATA SECURITY ON CUSTOMER FACING APPLICATIONS

1. Analyse the different kinds of sensitive data shown to the Customer on the frontend application to ensure that only what is deemed absolutely necessary is transmitted and displayed.
2. Wherever possible, mask portions of sensitive data. For instance, rather than displaying the full phone number or a bank account number, display only a portion of it, enough for the Customer to identify, but useless to an unscrupulous party who may obtain covertly obtain it from the Customer's screen. For instance, if a bank account number is "123 456 789", consider displaying something akin to "XXX XXX 789" instead of the whole number. This also has the added benefit of not having to transmit the full piece of data over various networks.
3. Analyse data and databases holistically and draw out meaningful and "silos" (physical or virtual) into which different kinds of data can be isolated and cordoned off. For instance, a database with personal financial information need not be a part of the system or network that houses the public facing websites of the Stock Broker. They should ideally be in discrete silos or DMZs.
4. Implement strict data access controls amongst personnel, irrespective of their responsibilities, technical or otherwise. It is infeasible for certain personnel such as System Administrators and developers to not have privileged access to databases. For such cases, take strict measures to limit the number of personnel with direct access, and monitor, log, and audit their activities. Take measures to ensure that the confidentiality of data is not compromised under any of these scenarios.
5. Use industry standard, strong encryption algorithms (eg: RSA, AES etc.) wherever encryption is implemented. It is important to identify data that warrants encryption as encrypting all data is infeasible and may open up additional attack vectors. In addition, it is critical to identify the right personnel to be in charge of, and the right methodologies for storing the encryption keys, as any compromise to either will render the encryption useless.
6. Ensure that all critical and sensitive data is adequately backed up, and that the backup locations are adequately secured. For instance, on servers on isolated networks that have no public access endpoints, or on-premise servers or disk drives that are off-limits to unauthorized personnel. Without up-to-date backups, a meaningful recovery from a disaster or cyber-attack scenario becomes increasingly difficult.

ANNEXURE B

ILLUSTRATIVE MEASURES FOR DATA TRANSPORT SECURITY

1. When an Application transmitting sensitive data communicates over the Internet with the Stock Brokers' systems, it should be over a secure, encrypted channel to prevent ManIn-The-Middle (MITM) attacks, for instance, an IBT or a Back office communicating from a Customer's web browser or Desktop with the Stock Brokers' systems over the internet, or intra or inter organizational communications. Strong transport encryption mechanisms such as TLS (Transport Layer Security, also referred to as SSL) should be used.
2. For Applications carrying sensitive data that are served as web pages over the internet, a valid, properly configured TLS (SSL) certificate on the web server is mandatory, making the transport channel HTTP(S).
3. Avoid the use of insecure protocols such as FTP (File Transfer Protocol) that can be easily compromised with MITM attacks. Instead, adopt secure protocols such as FTP(S), SSH and VPN tunnels, RDP (with TLS) etc.

ANNEXURE C

ILLUSTRATIVE MEASURES FOR APPLICATION AUTHENTICATION SECURITY

1. Any Application offered by Stock Brokers to Customers containing sensitive, private, or critical data such as IBTs, SWSTs, Back office etc. referred to as **Application** hereafter) over the Internet should be password protected. A reasonable minimum length (and no arbitrary maximum length cap or character class requirements) should be enforced. While it is difficult to quantify password “complexity”, longer passphrases have more entropy and offer better security in general. Stock Brokers should attempt to educate Customers of these best practices.
2. Passwords, security PINs etc. should never be stored in plain text and should be one-way hashed using strong cryptographic hash functions (e.g.: bcrypt, PBKDF2) before being committed to storage. It is important to use one-way cryptographic hashes to ensure that stored password hashes are never transformed into the original plaintext values under any circumstances.
3. For added security, a multi-factor (e.g.: two-factor) authentication scheme may be used (hardware or software cryptographic tokens, VPNs, biometric devices, PKI etc.). In case of IBTs and SWSTs, a minimum of two-factors in the authentication flow are mandatory.
4. In case of Applications installed on mobile devices (such as smartphones and tablets), a cryptographically secure biometric two-factor authentication mechanism may be used.
5. After a reasonable number of failed login attempts into Applications, the Customer’s account can be set to a “locked” state where further logins are not possible until a password and authentication reset is performed via an out-of-band channel validation, for instance, a cryptographically secure unique link that is sent to the Customer’s registered e-mail, a random OTP (One Time Password) that is sent as an SMS to the Customer’s registered mobile number, or manually by the Broker after verification of the Customer’s identity etc.
6. Avoid forcing Customers to change passwords at frequent intervals which may result in successive, similar, and enumerated passwords. Instead, focus on strong multi-factor authentication for security and educate Customers to choose strong passphrases. Customers may be reminded within reasonable intervals to update their password and multi-factor credentials, and to ensure that their out-of-band authentication reset information (such as e-mail and phone number) are up-to-date.
7. Both successful and failed login attempts against a Customer’s account may be logged for a reasonable period of time. After successive login failures, it is recommended that measures such as CAPTCHAs or rate-limiting be used in Applications to thwart manual and automated brute force and enumeration attacks against logins.

ANNEXURE D

Incident Reporting Form				
1. Letter / Report Subject -

12. Details of actions taken for mitigation and any preventive measure applied -			

ANNEXURE E

PROCEDURE OF SUBMISSION OF QUARTERLY REPORT OF CYBER INCIDENTS THROUGH E-PASS

Participants are hereby informed that a new feature has been incorporated on e-Pass portal to facilitate participants to submit the quarterly report of cyber incidents. We have introduced new option viz., 'Quarterly Report of Cyber Incidents' under menu viz., 'Transaction'. On clicking this option, it will display two sub-menus as under:

- **Submit Quarterly Report of Cyber Incidents:** This section will enable user to capture/submit the Report.
- **View/Search Quarterly Report of Cyber Incidents:** This section will populate all reports submitted by the Participant.

The quarterly report of Cyber Incidents can be submitted by Checker user. Checker user shall fill the report and submit the report by clicking on sub menu 'Submit Quarterly Report of Cyber Incidents' under the option viz., 'Quarterly Report of Cyber Incidents' as exhibited below.

On clicking on the sub menu viz., Submit Quarterly Report of Cyber Incidents, the system will be redirected into capture screen as exhibited below wherein User will be required to enter designated officer details and at point no. 2 Participant have to select 'Yes' or 'No' whether cyber attacks/breached observed in that quarter.

The screenshot displays the 'Cyber incident Reporting form' within the e-Pass portal. The form is titled 'Cyber incident Reporting form' and includes a 'DP ID - D00000000000000000000' field. It contains several sections for data entry: 1. 'Designated Officer (Reporting Officer Details)' with fields for Name, Organization, Phone No., Email, and Address. 2. 'Cyber attack /breach observed in Quarter' with a radio button for 'Yes' and a checkbox for 'No'. 3. 'Date' and 'Time' fields. 4. 'Brief information on the Cyber attack /breach observed' with a text area. The form is set against a light blue background with a white border.

If User select 'Yes' in above Point 2, he will be required to enter Cyber Incident details as exhibited below:

ANNEXURE F

In view of the increasing cybersecurity threat to the securities market, SEBI Regulated Entities (REs) are advised to implement the following practices as recommended by CSIRT-Fin:

1. Roles and Responsibilities of Chief Information Security Officer (CISO)/ Designated Officer:

REs are advised to define roles and responsibilities of Chief Information Security Officer (CISO) and other senior personnel. Reporting and compliance requirements shall be clearly specified in the security policy.

2. Measures against Phishing attacks/ websites:

- i. The REs need to proactively monitor the cyberspace to identify phishing websites w.r.t. to REs domain and report the same to CSIRT-Fin/CERT-In for taking appropriate action.
- ii. Majority of the infections are primarily introduced via phishing emails, malicious adverts on websites, and third-party apps and programs. Hence, thoughtfully designed security awareness campaigns that stress the avoidance of clicking on links and attachments in email, can establish an essential pillar of defense.

Additionally, the advisories issued by CERT-In/ CSIRT-Fin may be referred for assistance in conducting exercises for public awareness.

3. Patch Management and Vulnerability Assessment and Penetration Testing (VAPT):

- i. All operating systems and applications should be updated with the latest patches on a regular basis. As an interim measure for zero-day vulnerabilities and where patches are not available, virtual patching can be considered for protecting systems and networks. This measure hinders cybercriminals from gaining access to any system through vulnerabilities in end-of-support and end-of-life applications and software. Patches should be sourced only from the authorized sites of the OEM.
- ii. Security audit / Vulnerability Assessment and Penetration Testing (VAPT) of the application should be conducted at regular basis and in accordance with the Cyber Security and Cyber Resilience circulars of SEBI issued from time to time.

The observation/ gaps of VAPT/Security Audit should be resolved as per the timelines prescribed by SEBI.

4. Measures for Data Protection and Data breach:

- i. REs are advised to prepare detailed incident response plan.
- ii. Enforce effective data protection, backup, and recovery measures.
- iii. Encryption of the data at rest should be implemented to prevent the attacker from accessing the unencrypted data.
- iv. Identify and classify sensitive and Personally Identifiable Information (PII) data and apply measures for encrypting such data in transit and at rest.

- v. Deploy data leakage prevention (DLP) solutions / processes.
5. Log retention:
- Strong log retention policy should be implemented as per extant SEBI regulations and required by CERT-In and IT Act 2000. REs are advised to audit that all logs are being collected. Monitoring of all logs of events and incidents to identify unusual patterns and behaviours should be done.
6. Password Policy/ Authentication Mechanisms:
- i. Strong password policy should be implemented. The policy should include a clause of periodic review of accounts of ex-employees Passwords should not be reused across multiple accounts or list of passwords should not be stored on the system.
 - ii. Enable multi factor authentication (MFA) for all users that connect using online/internet facility and also particularly for virtual private networks, webmail and accounts that access critical systems.
 - iii. Maker and Checker framework should be implemented in strict manner and MFA should be enabled for all user accounts, especially for user accounts accessing critical applications.
7. Privilege Management:
- i. Maker-Checker framework should be implemented for modifying the user's right in internal applications.
 - ii. For mitigating the insider threat problem, 'least privilege' approach to provide security for both on-and off-premises resources (i.e., zero-trust models) should be implemented. Zero Trust is rooted in the principle of "trust nothing, verify everything." This security model requires strict identity verification for each and every resource and device attempting to get access to any information on a private network, regardless of where they are situated, within or outside of a network perimeter.
8. Cybersecurity Controls:
- i. Deploy web and email filters on the network. Configure these devices to scan for known bad domains, sources, and addresses, block these before receiving and downloading messages. Scan all emails, attachments, and downloads both on the host and at the mail gateway with a reputable antivirus solution.
 - ii. Block the malicious domains/IPs after diligently verifying them without impacting the operations. CSIRT-Fin/CERT-In advisories which are published periodically should be referred for latest malicious domains/IPs, C&C DNS and links.
 - iii. Restrict execution of "powershell" and "wscript" in enterprise environment, if not required. Ensure installation and use of the latest version of PowerShell, with enhanced logging enabled, script block logging and transcription enabled. Send the associated logs to a centralized log repository for monitoring and analysis.

- iv. Utilize host based firewall to prevent Remote Procedure Call (RPC) and Server Message Block (SMB) communication among endpoints whenever possible. This limits lateral movement as well as other attack activities.
 - v. Practice of whitelisting of ports based on business usage at Firewall level should be implemented rather than blacklisting of certain ports. Traffic on all other ports which have not been whitelisted should be blocked by default.
9. Security of Cloud Services:
- i. Check public accessibility of all cloud instances in use. Make sure that no server/bucket is inadvertently leaking data due to inappropriate configurations.
 - ii. Ensure proper security of cloud access tokens. The tokens should not be exposed publicly in website source code, any configuration files etc.
 - iii. Implement appropriate security measures for testing, staging and backup environments hosted on cloud. Ensure that production environment is kept properly segregated from these. Disable/remove older or testing environments if their usage is no longer required.
 - iv. Consider employing hybrid data security tools that focus on operating in a shared responsibility model for cloud-based environments.
10. Implementation of CERT-In/ CSIRT-Fin Advisories:
- The advisories issued by CERT-In should be implemented in letter and spirit by the regulated entities. Additionally, the advisories should be implemented promptly as and when received.
11. Concentration Risk on Outsourced Agencies:
- i. It has been observed that single third party vendors are providing services to multiple REs, which creates concentration risk. Here, such third parties though being small non-financial organizations, if any cyber-attack, happens at such organizations, the same could have systemic implication due to high concentration risk.
 - ii. Thus, there is a need for identification of such organizations and prescribing specific cyber security controls, including audit of their systems and protocols from independent auditors, to mitigate such concentration risk.
 - iii. Further, REs also need to take into account this concentration risk while outsourcing multiple critical services to the same vendor.
12. Audit and ISO Certification:
- i. SEBI's instructions on external audit of REs by independent auditors empaneled by CERT-In should be complied with in letter and spirit.
 - ii. The REs are also advised to go for ISO certification as the same provides a reasonable assurance on the preparedness of the RE with respect to cybersecurity.
 - iii. Due diligence with respect to audit process and tools used for such audit needs to be undertaken to ensure competence and effectiveness of audits

ANNEXURE G

Format for Submission of Details of Cloud Deployments

The REs shall provide details of their cloud deployment in the following format-

A.	<i>Entity Name:</i>	
B.	<i>Entity Type: (For example stock exchange, depository, mutual fund, etc.)</i>	
C.	<i>Whether Utilizing Cloud Services? Yes/ No</i>	
<i>For Each Cloud application/ service/ system, please provide a response to the following:</i>		
SN	Details Required	Entity Response
1	Name of the Application/ Service/ System	
2	The type of deployment model utilized (public cloud, community cloud, etc.)	
3	The type of service model utilized (For example IaaS, PaaS, etc.)	
4	Name of the Cloud Service Provider (CSP)	
5	Country of incorporation/ registration of CSP	
	Name of the Managed Service Provider (MSP) /System Integrator (SI) [wherever applicable]	
6	Country of incorporation/ registration of MSP/ SI	
7	Whether the application/ service/ system is a critical or core application/ service/ system?	
8	Details of Data hosted/ stored in cloud	
9	Whether data is stored within the legal boundaries of India?	

ANNEXURE H

PROCEDURE FOR SUBMISSION OF RISK ASSESSMENT TEMPLATE (RAT) THROUGH SCREEN

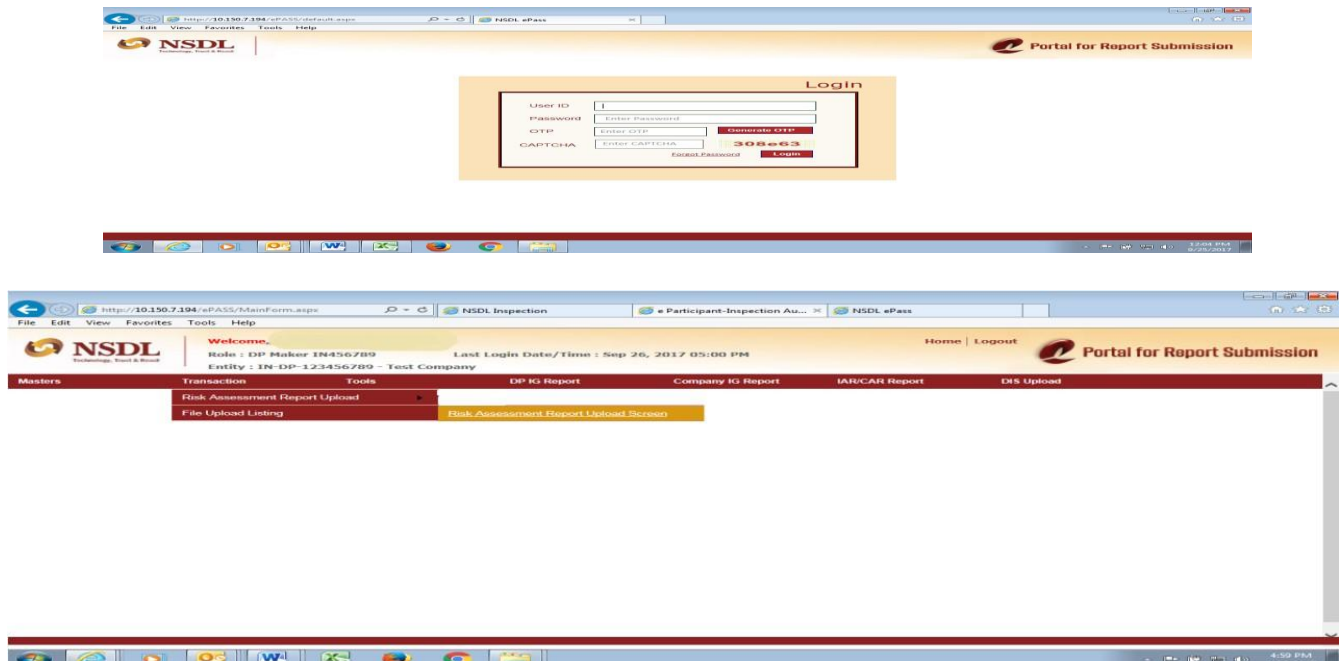

Procedure for submission of Risk Assessment Template (RAT) through Screen

A. User IDs Auditors

1. Participants are requested to note that auditors whose user IDs is already created for submission of IAR/CAR through ePASS platform can also certify the RAT for submission to NSDL.
2. In case Participants wish to appoint a new auditors for submission of RAT or wish to modify the existing user id of auditors they may do so.
3. For creation / modification of auditor's User ID, please refer the procedure given at Annexure A (copy is enclosed) of NSDL Circular No. NSDL/POLICY/2016/0091 dated November 9, 2016.

B. Submission of RAT by Participant

4. Once the user ID of Auditor is created, Participants can fill and submit screen based risk assessment report which will be made available in menu "Risk Assessment Report" under "Transaction" option. Old option of "Risk assessment File upload" will be removed from this compliance period.

5. Participants can use "Save Draft" button which is available on bottom of screen to save the information periodically while filling the data from screen.
6. Once the complete information is filled in RAT, Participants are required to save draft by click on "Save Draft" button and then click on "Validate Checklist" [as exhibited below].

Submit Risk Assessment Report

Compliance Period : 01/08/2017 - 05/09/2017

Original RAT Revised RAT

e-Token Configuration

☐ Declaration By Compliance Office

We hereby declare that the details furnished above are true and correct to the best of our knowledge and belief and we undertake to inform you of any change therein, immediately. In case any of the above information is found to be false or untrue or misleading or misrepresenting, we are aware that we may be held liable for it.

3 Sign & Submit To Auditor

Accept DP Request Rejection Reason : Rejected Submit

8. Click on Refresh button to load digital signature. In case the signature is not detected in the box given below of report template, kindly follow the procedure of token configuration provided in the hyperlink “e-Token Configuration”.
9. Click Refresh button once again and check if digital signatures is appearing on screen [as exhibited below], Participants are required to select the Digital Signature by selecting appropriate radio button and click on “Sign & Submit To Auditor”.

Declaration By Compliance Office
We hereby declare that the details furnished above are true and correct to the best of our knowledge and belief and we undertake to inform you of any change therein, immediately. In case any of the above information is found to be false or untrue or misleading or misrepresenting, we are aware that we may be held liable for it.

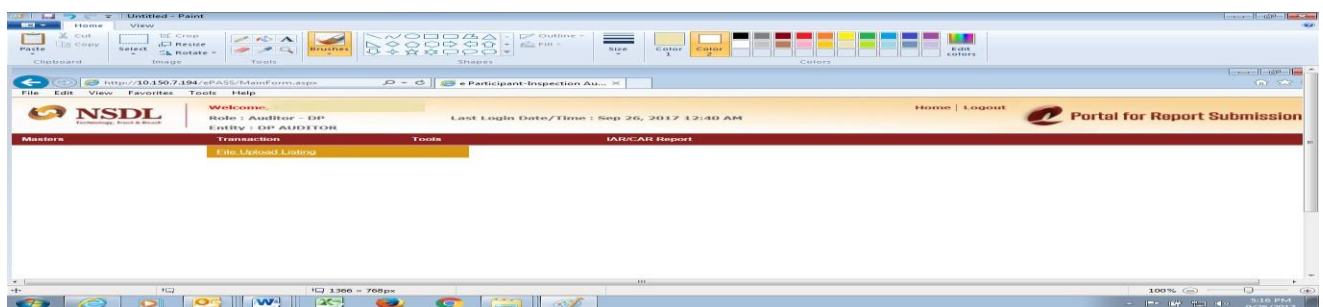

Select	Name	Valid To
<input type="radio"/>	CLASS 3 INDIVIDUAL TEST	22/12/2019
<input type="radio"/>	SAHU RAVINDRA KUMAR	16/02/2019

3 Sign & Submit To Auditor

10. Once the report is Signed & Submit to Auditor, an alert email will be sent to Auditor for verification of Risk Assessment Report.

C. Verification of RAT by Auditor

11. Auditors are required to login on e-PASS with their login credentials. Once logged-in into the system, Auditor needs to select "File Upload Listing" menu under "Transaction" option. [as exhibited below].

12. After selection of File Upload Listing, Auditors are required to select file submitted by Participants [as exhibited below].

File Ref. No.	Compliance Period	File Name	File Status	Uploaded Date	Export to PDF
4803	01/08/2017 - 05/09/2017	IN999999_File20170925125540640	Rejected by Auditor	26/09/2017 5:14PM	Export to PDF
4800	01/08/2017 - 05/09/2017	IN999999_File20170921131320100	Signed & Submitted by Auditor	25/09/2017 12:31PM	Export to PDF

Total Records : 2

13. Auditors can Accept or Reject the risk assessment report submitted by DP by clicking on "Accept DP Request" or "Reject DP Request" respectively [as exhibited below].

☐ Accept DP Request

Rejection Reason :

Submit

14. Auditors are required to provide Rejection Reason in case the request is rejected and click on Submit button.
15. An alert email will be sent to the Participants once the request is rejected by Auditor to check and clarify the observation raised by auditor.
16. In case auditor has rejected the risk assessment report, Participants are required to re-submit the RAT after necessary modification in the information as suggested by Auditor. Participant will able to modify the details which they have provided in RAT. The steps for signing the report with digital signature is same as mentioned for Compliance Officer.
17. After Participant has re-submitted the report, if Auditor is satisfied, Auditor must accept the DP request and affix its digital signature for certifying the report.

ANNEXURE I

PRINCIPLES FOR OUTSOURCING

1. A Participant seeking to outsource activities shall have in place a comprehensive policy to guide the assessment of whether and how those activities can be appropriately outsourced. The Board / partners (as the case may be) (hereinafter referred to as the Board) of the Participant shall have the responsibility for the outsourcing policy and related overall responsibility for activities undertaken under that policy.
 - 1.1 The policy shall cover activities or the nature of activities that can be outsourced, the authorities who can approve outsourcing of such activities, and the selection of third party to whom it can be outsourced. For example, an activity shall not be outsourced if it would impair the supervisory authority's right to assess, or its ability to supervise the business of the Participant. The policy shall be based on an evaluation of risk concentrations, limits on the acceptable overall level of outsourced activities, risks arising from outsourcing multiple activities to the same entity, etc.
 - 1.2 The Board shall mandate a regular review of outsourcing policy for such activities in the wake of changing business environment. It shall also have overall responsibility for ensuring that all ongoing outsourcing decisions taken by the Participant and the activities undertaken by the third-party, are in keeping with its outsourcing policy.
2. The Participant shall establish a comprehensive outsourcing risk management programme to address the outsourced activities and the relationship with the third party.
 - 2.1 A Participant shall make an assessment of outsourcing risk which depends on several factors, including the scope and materiality of the outsourced activity, etc. The factors that could help in considering materiality in a risk management programme include:
 - a) The impact of failure of a third party to adequately perform the activity on the financial, reputational and operational performance of the Participant and on the investors / clients;
 - b) Ability of the Participant to cope up with the work, in case of non-performance or failure by a third party by having suitable back-up arrangements;
 - c) Regulatory status of the third party, including its fitness and probity status; and
 - d) Situations involving conflict of interest between the Participant and the third party and the measures put in place by the Participant to address such potential conflicts, etc.
 - 2.2 While there shall not be any prohibition on a group entity / associate of the Participant to act as the third party, systems shall be put in place to have an arm's length distance between the Participant and the third party in terms of infrastructure, manpower, decision-making, record keeping, etc. for avoidance of potential conflict of interests. Necessary disclosures in this regard shall be made as part of the contractual agreement. It shall be kept in mind that the risk management practices expected to be adopted by a Participant while outsourcing to a related party or an associate would be identical to those followed while outsourcing to an unrelated party.

- 2.3 The records relating to all activities outsourced shall be preserved centrally so that the same is readily accessible for review by the Board of the Participant and / or its senior management, as and when needed. Such records shall be regularly updated and may also form part of the corporate governance review by the management of the Participant.
- 2.4 Regular reviews by internal or external auditors of the outsourcing policies, risk management system and requirements of the regulator shall be mandated by the Board wherever felt necessary. The Participant shall review the financial and operational capabilities of the third party in order to assess its ability to continue to meet its outsourcing obligations.
3. The Participant shall ensure that outsourcing arrangements neither diminish its ability to fulfill its obligations to customers and regulators, nor impede effective supervision by the regulators.
- 3.1 The Participant shall be fully liable and accountable for the activities that are being outsourced to the same extent as if the service were provided in-house.
- 3.2 Outsourcing arrangements shall not affect the rights of an investor or client against the Participant in any manner. The Participant shall be liable to the investors for the loss incurred by them due to the failure of the third party and also be responsible for redressal of the grievances received from investors arising out of activities rendered by the third party.
- 3.3 The facilities / premises / data that are involved in carrying out the outsourced activity by the service provider shall be deemed to be those of the registered Participant. The Participant itself and regulator or the persons authorized by it shall have the right to access the same at any point of time.
- 3.4 Outsourcing arrangements shall not impair the ability of SEBI/SRO or auditors to exercise its regulatory responsibilities such as supervision/inspection of the Participant.
4. The Participant shall conduct appropriate due diligence in selecting the third party and in monitoring of its performance.
- 4.1 It is important that the Participant exercises due care, skill, and diligence in the selection of the third party to ensure that the third party has the ability and capacity to undertake the provision of the service effectively.
- 4.2 The due diligence undertaken by a Participant shall include assessment of:
- a) third party's resources and capabilities, including financial soundness, to perform the outsourcing work within the timelines fixed;
 - b) compatibility of the practices and systems of the third party with the Participant's requirements and objectives;
 - c) market feedback of the prospective third party's business reputation and track record of their services rendered in the past;
 - d) level of concentration of the outsourced arrangements with a single third party; and
 - e) the environment of the foreign country where the third party is located.

5. Outsourcing relationships shall be governed by written contracts / agreements / terms and conditions (as deemed appropriate) (hereinafter referred to as contract) that clearly describe all material aspects of the outsourcing arrangement, including the rights, responsibilities and expectations of the parties to the contract, client confidentiality issues, termination procedures, etc.
- 5.1 Outsourcing arrangements shall be governed by a clearly defined and legally binding written contract between the Participant and each of the third parties, the nature and detail of which shall be appropriate to the materiality of the outsourced activity in relation to the ongoing business of the Participant.
- 5.2 Care shall be taken to ensure that the outsourcing contract:
- a) clearly defines what activities are going to be outsourced, including appropriate service and performance levels;
 - b) provides for mutual rights, obligations and responsibilities of the Participant and the third party, including indemnity by the parties;
 - c) provides for the liability of the third party to the Participant for unsatisfactory performance/other breach of the contract
 - d) provides for the continuous monitoring and assessment by the Participant of the third party so that any necessary corrective measures can be taken up immediately, i.e., the contract shall enable the Participant to retain an appropriate level of control over the outsourcing and the right to intervene with appropriate measures to meet legal and regulatory obligations;
 - e) includes, where necessary, conditions of sub-contracting by the third-party, i.e., the contract shall enable the Participant to maintain a similar control over the risks when a third party outsources to further third parties as in the original direct outsourcing;
 - f) has unambiguous confidentiality clauses to ensure protection of proprietary and customer data during the tenure of the contract and also after the expiry of the contract;
 - g) specifies the responsibilities of the third party with respect to the IT security and contingency plans, insurance cover, business continuity and disaster recovery plans, force majeure clause, etc.;
 - h) provides for preservation of the documents and data by third party ;
 - i) provides for the mechanisms to resolve disputes arising from implementation of the outsourcing contract;
 - j) provides for termination of the contract, termination rights, transfer of information and exit strategies;
 - k) addresses additional issues arising from country risks and potential obstacles in exercising oversight and management of the arrangements when the Participant outsources its activities to foreign third party. For example, the contract shall include choice-of-law provisions and agreement covenants and jurisdictional covenants that

provide for adjudication of disputes between the parties under the laws of a specific jurisdiction;

- l) neither prevents nor impedes the Participant from meeting its respective regulatory obligations, nor the regulator from exercising its regulatory powers; and
 - m) provides for the Participant and /or the regulator or the persons authorized by it to have the ability to inspect, access all books, records and information relevant to the outsourced activity with the third party.
- 6. The Participant and its third parties shall establish and maintain contingency plans, including a plan for disaster recovery and periodic testing of backup facilities.
 - 6.1 Specific contingency plans shall be separately developed for each outsourcing arrangement, as is done in individual business lines.
 - 6.2 A Participant shall take appropriate steps to assess and address the potential consequence of a business disruption or other problems at the third party level. Notably, it shall consider contingency plans at the third party; co-ordination of contingency plans at both the Participant and the third party; and contingency plans of the Participant in the event of non-performance by the third party.
 - 6.3 To ensure business continuity, robust information technology security is a necessity. A breakdown in the IT capacity may impair the ability of the Participant to fulfill its obligations to other market participants/clients/regulators and could undermine the privacy interests of its customers, harm the Participant's reputation, and may ultimately impact on its overall operational risk profile. Participants shall, therefore, seek to ensure that third party maintains appropriate IT security and robust disaster recovery capabilities.
 - 6.4 Periodic tests of the critical security procedures and systems and review of the back- up facilities shall be undertaken by the Participant to confirm the adequacy of the third party's systems.
- 7. The Participant shall take appropriate steps to require that third parties protect confidential information of both the Participant and its customers from intentional or inadvertent disclosure to unauthorised persons.
 - 7.1 A Participant that engages in outsourcing is expected to take appropriate steps to protect its proprietary and confidential customer information and ensure that it is not misused or misappropriated.
 - 7.2 The Participant shall prevail upon the third party to ensure that the employees of the third party have limited access to the data handled and only on a "need to know" basis and the third party shall have adequate checks and balances to ensure the same.
 - 7.3 In cases where the third party is providing similar services to multiple entities, the Participant shall ensure that adequate care is taken by the third party to build safeguards for data security and confidentiality.
- 8. Potential risks posed where the outsourced activities of multiple Participants are concentrated with a limited number of third parties.

In instances, where the third party acts as an outsourcing agent for multiple Participants, it is the duty of the third party and the Participant to ensure that strong safeguards are put in place so that there is no co-mingling of information / documents, records and assets.

ANNEXURE J

DECLARATION-CUM-UNDERTAKING

We M/s. (Name of the intermediary/the acquirer/person who shall have the control), hereby declare and undertake the following with respect to the application for prior approval for change in control of (name of the intermediary along with the SEBI registration no.):

1. The applicant/intermediary (Name) and its principal officer, the directors or managing partners, the compliance officer and the key management persons and the promoters or persons holding controlling interest or persons exercising control over the applicant, directly or indirectly (*in case of an unlisted applicant or intermediary, any person holding twenty percent or more voting rights, irrespective of whether they hold controlling interest or exercise control, shall be required to fulfill the 'fit and proper person' criteria*) are fit and proper person in terms of Schedule II of SEBI (Intermediaries) Regulations, 2008.
2. We bear integrity, honesty, ethical behaviour, reputation, fairness and character.
3. We do not incur following disqualifications mentioned in Clause 3(b) of Schedule II of SEBI (Intermediaries) Regulations, 2008 i.e.
 - (i) No criminal complaint or information under section 154 of the Code of Criminal Procedure, 1973 (2 of 1974) has been filed against us by the Board and which is pending.
 - (ii) No charge sheet has been filed against us by any enforcement agency in matters concerning economic offences and is pending.
 - (iii) No order of restraint, prohibition or debarment has been passed against us by the Board or any other regulatory authority or enforcement agency in any matter concerning securities laws or financial markets and such order is in force.
 - (iv) No recovery proceedings have been initiated by the Board against us and are pending.
 - (v) No order of conviction has been passed against us by a court for any offence involving moral turpitude.
 - (vi) No winding up proceedings have been initiated or an order for winding up has been passed against us.
 - (vii) We have not been declared insolvent.
 - (viii) We have not been found to be of unsound mind by a court of competent jurisdiction and no such finding is in force.
 - (ix) We have not been categorized as a wilful defaulter.
 - (x) We have not been declared a fugitive economic offender.
4. We have not been declared as not 'fit and proper person' by an order of the Board.

5. No notice to show cause has been issued for proceedings under SEBI (Intermediaries) Regulations, 2008 or under section 11(4) or section 11B of the SEBI Act during last one year against us.
6. It is hereby declared that we and each of our promoters, directors, principal officer, compliance officer and key managerial persons are not associated with vanishing companies.
7. We hereby undertake that there will not be any change in the Board of Directors of incumbent, till the time prior approval is granted.
8. We hereby undertake that pursuant to grant of prior approval by SEBI, the incumbent shall inform all the existing investors/ clients about the proposed change prior to effecting the same, in order to enable them to take informed decision regarding their continuance or otherwise with the new management.

The said information is true to our knowledge.

ANNEXURE K**FORM TO REPORT ON AI AND ML TECHNOLOGIES – TO BE SUBMITTED
QUARTERLY****INTIMATION TO STOCK EXCHANGE / DEPOSITORY FOR THE USE OF THE AI AND
ML APPLICATION AND SYSTEMS.**

Sr. No.	Head	Value
1.	Entity SEBI registration number	
2.	Registered entity category	
3.	Entity name	
4.	Entity PAN no.	
5.	Application / System name	
6.	Date from when the Application / System was used	
7.	Type of area where AI or ML is used	<order execution / Advisory services / KYC / AML / Surveillance / compliance / others (please specify in 256 characters) >
7a.	Does the system involve order initiation, routing and execution?	<Yes / NO>
7b.	Does the system fall under discretionary investment or Portfolio management activities?	<Yes / NO>
7c.	Does the system disseminate investment or trading advice or strategies?	<Yes / NO>
7d.	Is the application/system used in area of Cyber Security to detect attacks	<Yes / NO>
7e.	What claims have been made regarding AI and ML Application / System – if any?	<free text field>
8	What is the name of the Tool / Technology that is categorized as AI and ML system / Application and submissions are declared vide this response	<free text field>
	How was the AI or ML project implemented	<Internally / through solution provider / Jointly with a

Sr. No.	Head	Value
		solution provider or third party>
	Are the key controls and control points in your AI or ML application or systems in accordance to circular of SEBI that mandate cyber security control requirements	<free text field>
	Is the AI / ML system included in the system audit, if applicable?	<Yes / NO / NA>
	Describe the application / system and how it uses AI / ML as portrayed in the product offering	<Yes / NO>
	What safeguards are in place to prevent abnormal behavior of the AI or ML application / System	<Yes / NO>

ANNEXURE L

SYSTEMS DEEMED TO BE BASED ON AI AND ML TECHNOLOGY

Applications and Systems belonging but not limited to following categories or a combination of these:

1. Natural Language Processing (NLP), sentiment analysis or text mining systems that gather intelligence from unstructured data. – In this case, Voice to text, text to intelligence systems in any natural language will be considered in scope. E.g.: robo chat bots, big data intelligence gathering systems.
2. Neural Networks or a modified form of it. – In this case, any systems that uses a number of nodes (physical or software simulated nodes) mimicking natural neural networks of any scale, so as to carry out learning from previous firing of the nodes will be considered in scope. Eg: Recurrent Neural networks and Deep learning Neural Networks.
3. Machine learning through supervised, unsupervised learning or a combination of both. – In this case, any application or systems that carry out knowledge representation to form a knowledge base of domain, by learning and creating its outputs with real world input data and deciding future outputs based upon the knowledge base. Eg: System based on Decision tree, random forest, K mean, Markov decision process, Gradient boosting Algorithms.
4. A system that uses statistical heuristics method instead of procedural algorithms or the system / application applies clustering or categorization algorithms to categorize data without a predefined set of categories.
5. A system that uses a feedback mechanism to improve its parameters and bases its subsequent execution steps on these parameters.
6. A system that does knowledge representation and maintains a knowledge base.

ANNEXURE M

Procedure of submission of Quarterly Report of Artificial Intelligence (AI) and Machine Learning (ML) through e-PASS

Participants are hereby informed that a new feature has been incorporated on e-Pass portal to facilitate Participants to submit the quarterly report of AI and ML. We have introduced new option viz., 'AI and ML Report' under menu viz., 'DP Periodical Reports'. On clicking this option, it will display two sub-menus as under:

- Submit AI and ML Report: This section will enable user to capture/submit the Report.
- View/Search AI and ML Report: This section will populate all reports submitted by the Participant.

The AI and ML Report can be submitted by Checker user. Checker user shall fill the report and submit the report by clicking on sub menu 'Submit AI and ML Report' under the option viz., 'AI and ML Report' as exhibited below.

On clicking on the sub menu viz., Submit AI and ML Report, the system will be redirected to next screen as exhibited below wherein user will be required to select Period for which Report is to be submitted and DP ID(s) and click on 'Submit Report'.

The screenshot shows the 'Submit AI and ML Report' form. At the top, there is a header with the NSDL logo, a welcome message to the 'DP CHECKER', role information ('in100006 DP Checker'), last login date/time ('Oct 03, 2021 01:20 PM'), and entity name ('IN-DP-NSDL-06-007 - Sixsigma Private Limited'). On the right, there are links for 'Home' and 'Logout', and a logo for 'Participant-Inspection Audit and Supervision System'. Below the header, there is a navigation menu with 'e-Info', 'DP Periodical Reports', and 'AI and ML Report'. The 'AI and ML Report' menu is expanded, showing two sub-menus: 'Submit AI and ML Report' and 'View/Search AI and ML Reports'. The 'Submit AI and ML Report' sub-menu is selected, and the form is displayed. The form has two main sections: 'DP Name' and 'Period'. The 'DP Name' section has a text input field with 'Sixsigma Private Limited' and a 'DP ID' section with a dropdown menu showing 'IN100006-Sixsigma Private Limited'. The 'Period' section has a date range selector with '01/07/2021-30/09/2021'. At the bottom, there are two buttons: 'Reset' and 'Submit Report'.

After Click on 'Submit Report', user will be directed to submit AI and ML Report as exhibited below.

Annexure 1 - Form to report on AI and ML technologies – To be submitted quarterly
Intimation to Stock Exchange / Depository for the use of the AI and ML application and systems.

Sr. No.	Head	Value
1	Entity SEBI registration number	IN-DP-NSDL-06-007
2	Registered entity category	DP

Users are required to fill report horizontally and can add multiple reports (in case multiple applications are used for AI and ML) by clicking on ‘plus (+)’ button. User can click “Save” button to save the draft at any point in time while filling the report. The user can view the saved report under ‘view/search reports’ option. Further, user can click “Reset” button to reset the filled quarterly report [as exhibited below].

1	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="radio"/> Yes <input type="radio"/> No	<input type="radio"/> Yes <input type="radio"/> No	<input type="radio"/> Yes <input type="radio"/> No	<input type="radio"/> Yes <input type="radio"/> No	<input type="text"/>	<input type="button" value="✓"/>
---	----------------------	----------------------	----------------------	---	---	---	---	----------------------	----------------------------------

Once the report is filled completely, the user will need to click on ‘validate’ button. If there are any error/s the same would be highlighted which are required to be corrected by the user and once again need to click on button ‘validate’.

Once AI and ML Report is validated successfully, then the user is required to digitally sign the same and submit the AI and ML Report to NSDL by clicking on “Sign and submit to NSDL” button as exhibited below.

Name and Designation of Compliance Officer : DP CHECKER-Tester
Signature of Compliance Officer :

Once the report get submitted, user will be able to view the report on link ‘View/Search AI and ML Report’ provided under option viz., ‘AI and ML Report’ as exhibited below.

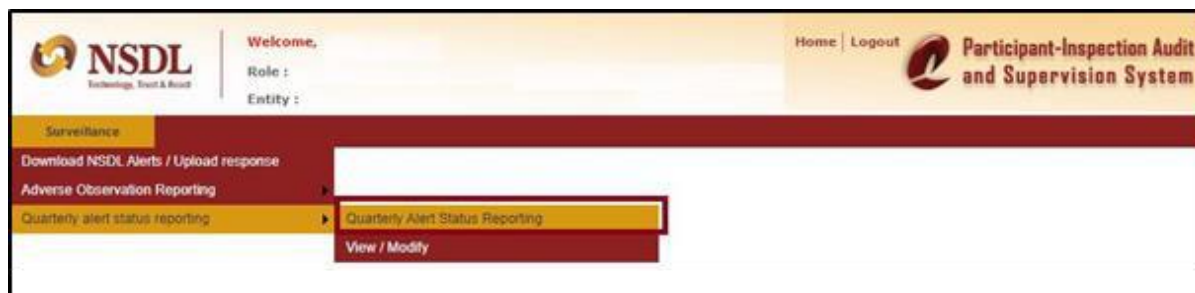

ANNEXURE N

1. Procedure for Quarterly reporting of status for alerts generated by Participants.

1.1 Upload Quarterly Alert Report through Maker login:

After login to e-PASS, click on “*Surveillance*” → “*Quarterly Alert Status Reporting*” tab as exhibited below:

On “Quarterly Alert Status Reporting” screen, user will be able to submit status of the alerts generated by Participants by capturing the requisite details as exhibited below:

Sl. No.	Name of Alert [A]	No. of alerts pending at beginning of quarter [B]	No. of new alerts generated in the quarter [C]	No. of alerts Verified & closed in the quarter [D]	No. of alerts reported to Depository [E]	No. of alerts pending for process at the end of quarter [F] and [G] = [B+C] [D+E]	Action
1	ADC	0	5	4	1	0	X
2	SDE	0	6	4	1	1	X
3	PQR	0	100	50	20	30	+

Sl. No.	Brief action taken during Quarter	Action
1	ABCDPQR123KL	X
2	PQRSUVWXYZ	+

In case of any major surveillance action is taken by Participant (*other than alerts reported to Depository*) during the quarter, the details of the same can be reported by enabling the check box – ‘Major Surveillance Action Taken’ as exhibited above.

To submit Nil Report, Maker user need to enable the checkbox “Submit nil report” and click on ‘Submit’ button as exhibited below:

Sl. No.	Name of Alert [A]	No. of alerts pending at beginning of quarter [B]	No. of new alerts generated in the quarter [C]	No. of alerts Verified & closed in the quarter [D]	No. of alerts reported to Depository [E]	No. of alerts pending for process at the end of quarter [F] and [G] = [B+C] [D+E]	Action
1		NIL	NIL	NIL	NIL	NIL	+

On clicking ‘Submit’ button, report will be sent to checker for review and submission. Submitted report can be searched by maker user from ‘View / Modify’ report link as exhibited below:

On “View/Modify” screen, the report captured by maker user will appear. Maker user will also be able to search the reports based on given parameters as exhibited below:

1.2 Approve / Reject Quarterly Alert Report through Checker login:

To review and submit report captured by maker user, Checker user will have to click “Surveillance” → “Verify / Release” → “Quarterly Alert Status Reporting” tab as exhibited below:

After clicking on “Quarterly Alert Status Reporting” link, checker user will have option to view the report captured by Maker user as exhibited below:

Upon clicking on hyperlink provided in “File Name” as exhibited above, captured report will get displayed on the screen. Once selected report appears on screen, checker user will have option to either submit the report to NSDL by clicking on ‘Send to NSDL’ button or resend the report (to Maker user) by clicking on ‘Send back to Maker’ button as exhibited below:

1. Procedure for reporting of Adverse Observation for alerts generated by Participants.

1.1 **Report Adverse Observation through Maker login:**

After login to e-PASS, click on “Surveillance” → “Adverse Observation Reporting” → “Adverse Observation” tab as exhibited below:

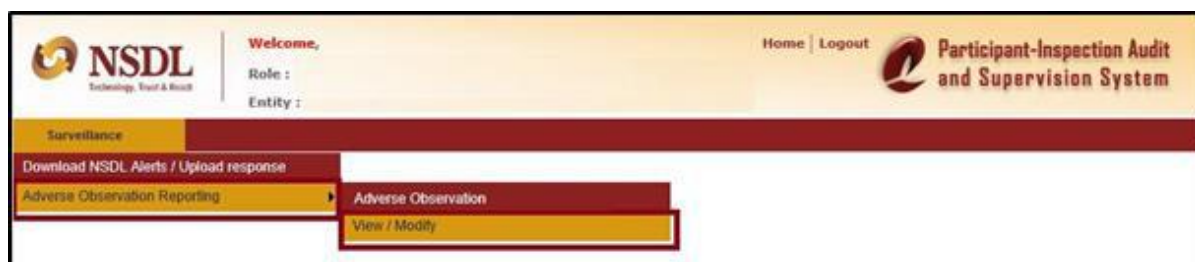

On “Adverse Observations” screen, user will be able to submit adverse observation by capturing the requisite details as exhibited below:

While filling the requisite details in ‘Adverse Observation’ screen, DPs having multiple DPM setups, DP ID under which adverse observation is noted need to be selected.

After filling the required details and clicking on the button ‘Submit for Approval’, report will be sent to Checker for review and submission. Submitted record can be viewed by maker user from ‘View / Modify’ report link as exhibited below:

On “View/Modify” screen, the Adverse Observation captured by maker user will appear. Maker user will also be able to search the records based on given parameters and modify the record rejected by checker user as exhibited below:

Adverse Observation Reporting

View Uploaded Records

Status: Submission From Date: To Date: Reference No.: Type of Alert:

Reference No.	Criteria of Alert Generated by DP/ Other than Alert	Submission Date	DP ID	Client ID	Client Name	Transaction Date	Transaction Type	Brief Description of Adverse Observation	Action Taken by DP on Observation	Download Attachment	Status	Modify Request

After clicking on “Adverse Observation Reporting” link, Checker user will have option to view the adverse observations captured by Maker user as exhibited below:

Adverse Observation Reporting

View Uploaded Records

Status: Submission From Date: To Date: Reference No.: Type of Alert:

Select	Reference No.	Criteria of Alert Generated by DP/ Other than Alert	Submission Date	DP ID	Client ID	Client Name	Transaction Date	Transaction Type	Brief Description of Adverse Observation	Action Taken by DP on Observation	Download Attachment	Status	Reason to Reject
<input type="checkbox"/>	DP0017		21-Oct-2021				05-Oct-2021	Mobile	Click here to See	Click here to See	Download	Pending For Approval	

After reviewing the adverse observation details captured by Maker user, checker user will have option to either submit the adverse observation details to NSDL by clicking on ‘Send to NSDL’ button or resend the selected record (to Maker user) by clicking on ‘Send to Maker’ button as exhibited above.

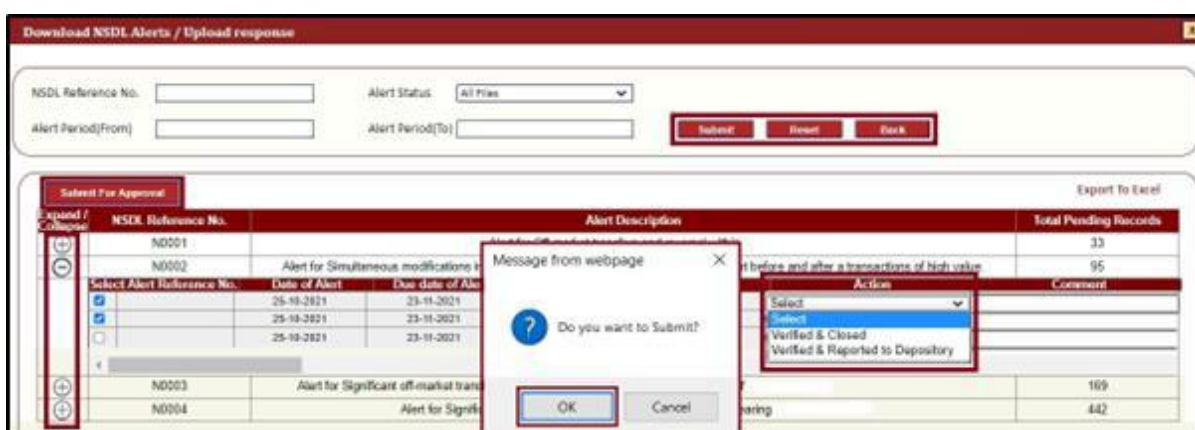

1. Procedure for download of transactional alerts provided by NSDL and submit response:

1.1 **View alerts provided by NSDL and upload response thereof from Maker login:**

After login to e-PASS, click on “*Surveillance*” → “*Download NSDL Alerts / Upload Response*” tab as exhibited below:

On “Download NSDL Alerts / Upload Response” screen, Maker user will be able to view/download the alerts provided by NSDL. Maker user will also be able to update the status of action taken against each alert by selecting the option viz. “*Verified & Closed*” & “*Verified & Reported to Depository*” as exhibited below:

On selecting the suitable option under dropdown available in ‘Action’ column, Maker user will have to click on “Submit for Approval” to send response for selected Alert(s) to Checker user for review and onward submission to NSDL.

1.2 **Review / Submission of response on alerts through Checker login:**

To review and submit the responses for alerts captured by Maker user, Checker user will have to click on “*Surveillance*” → “*Verify / Release*” → “*Download NSDL Alerts/Upload response*” tab as exhibited below:

After clicking on “Download NSDL Alerts / Upload Response” link, Checker user will have following two options to take action on response of alerts captured by Maker user as exhibited below:

- a) **Reject - Send to Maker:** In case Checker user wants to reject and resend the captured alert response (to Maker User), Checker user will have to first select the alert and then click on “Send to Maker” button as exhibited below:

The screenshot shows a web application window titled "Download NSDL Alerts / Upload response". Below the title bar is a search bar labeled "Verify / Release Response to NSDL Alerts". To the right of the search bar are three buttons: "Send to NSDL", "Send to Maker" (which is highlighted in red), and "Export To Excel". Below these buttons is a table with the following data:

Expand / Collapse	NSDL Reference No.	Alert Description	Total Pending Records
+	N0001	Alert for Off-market transfers and reversal	5
-	N0002		3

Below the table is a detailed view for the selected alert (N0002). It includes a table with the following columns: "Select Alert Reference No.", "Transferor DP ID", "Transferor Client ID", "Transferor DP Name", "Alert Status", and "Comment". The data rows are:

Select Alert Reference No.	Transferor DP ID	Transferor Client ID	Transferor DP Name	Alert Status	Comment
<input checked="" type="checkbox"/>	IN000000			Verified & Closed	
<input checked="" type="checkbox"/>	IN000000			Verified & Closed	
<input type="checkbox"/>	IN000000			Verified & Closed	

- b) **Approve - Send to NSDL:** On clicking the button “Send to NSDL”, selected alert(s) response will be submitted to NSDL as exhibited below:

The screenshot shows the same web application window as above, but the "Send to NSDL" button is now highlighted in red, indicating it has been selected. The table data remains the same as in the previous screenshot.

ANNEXURE Q

1. Procedure for updating details of Depository Participants (DP) through e-PASS

1.1 Basic details and process flow:

- A)** For updating / changing any details, Maker & Checker mechanism will be applicable wherein DP Maker will have to raise the request for change/update of details and DP Checker will have to approve the same in order to submit it to NSDL.
- B)** DP Checker will be able to edit/modify the details as mentioned by the DP Maker and submit the request for change to NSDL accordingly.
- C)** After successful updation of the details, request will be submitted to NSDL for approval.
- D)** Once the same gets approved by NSDL, details will be updated in NSDL records. However, in case of rejection, fresh request is required to be initiated by DP for updation.
- E)** DP will be able to track the status of request for change in details submitted to NSDL by accessing e-pass portal under the Tab; “e-info.”

I. Process of Updating Details by DP Maker on e-info:

After login to e-PASS, for updating details w.r.t Compliance Officer under the Tab; “e-info,” click on “**Compliance Officer**” tab as exhibited below:

- i. On clicking on “Compliance officer”, DP Maker will be able to edit the pre-populated details of Compliance Officer (CO) and Alternate Compliance Officer (ACO) as available in NSDL records by clicking on “Edit” tab. DP Maker is required to fill-up necessary details and upload the required documents pertaining to change in details of Compliance Officer by clicking on “Browse” option as exhibited below:

The screenshot displays the NSDL Participant-Inspection Audit and Supervision System interface. The main heading is "Compliance Officer Information". Below this, there are two sections: "Compliance Officer Information" and "Alternate Compliance Information (If any)". The "Compliance Officer Information" section has fields for Name (with a dropdown), Designation (set to "Compliance Officer"), and Date of Birth. The "Alternate Compliance Information (If any)" section has fields for Name (with a dropdown), Designation, and Date of Birth. A red box highlights the "Edit" button. Below the form, there are sections for Age, Educational Qualification, Year of, Date of Change, Date of Appointment, and Certified PAN copy, each with a "Browse" button. A red box highlights the "Browse" button for the Certified PAN copy. A note at the bottom states: "Note: Validity attach Certified scan copy of PAN CARD of appointed compliance officer".

- ii. After uploading the required documents pertaining to change in compliance officer detail, DP Maker need to click on “Save Draft” button to capture the necessary details. The same is exhibited as below:

ANNEXURE S

PROCEDURE TO BE FOLLOWED BY PARTICIPANTS FOR UPDATE IN FORM B

1. Login into the 'Form B' application by clicking on the Form-B tab available on i-Assist site under Form B. Type DP Id in the user ID box and default password (nsdl@123) in the password box. The Participant will have to change the default password and set its own password during first login.

Existing Participants can view their Form B data as per NSDL records. After verification, for any further update in the present module the Participant can login into Form B application and make necessary changes.

2. The modifications made in the information will be in 'Captured' status.
3. After the required updates are made in the database by the Participant, an email is automatically sent to Helpdesk officers about the changes made.
4. The concerned Helpdesk Officer will verify the changes using his login. He will then have option to Accept or Reject the pending requests. Accepted requests go to 'Accepted By NSDL' status and rejected requests go to 'Rejected By NSDL' status with rejection reason.
5. An email will be sent to Participant as well as all concerned helpdesk officers. The requests accepted by Helpdesk officer will be updated in the database and the updated information will be visible to the Participant.
6. Information related to backup server and DR server can also be updated in the same way. If a Participant who does not have a backup server, procures one, then it will have to send an email to Helpdesk (helpdesk@nsdl.com) requesting addition for backup server module.
7. Once addition is done by the Helpdesk, Participant can fill in the desired information and update it later, as per procedure given above.

Note - In case i-Assist is not available due to any reason then Participant may send digitally signed or scanned copy of Form B by email on helpdesk@nsdl.com

ANNEXURE T

MANUAL FOR AUTOMATED FORM B DATABASE

1. Login into the Form B application by clicking on the link “Automated Form B database” available on i-assist site under Form B tab by typing DP Id in the user id box & default password (**nsdl@123**) in the password box on NSDL intranet site as mentioned in the screen below

The screenshot shows the NSDL Form-B login interface. At the top left is the NSDL logo with the tagline 'Safeguarding Your Future'. To its right is the text 'Form-B'. Below this, a message reads 'Please login with your FormB User ID and Password'. There is a login box containing two input fields: 'User Name' and 'Password'. Below these fields are two buttons: 'Login' and 'Cancel'. A link 'Forgot Your Password?' is located below the 'Cancel' button.

The screenshot shows the 'CHANGE PASSWORD' page in a Windows Internet Explorer browser window. The address bar shows 'http://nsdl3545/ - Change Password - Windows Internet Explorer'. The page title is 'CHANGE PASSWORD'. It contains four input fields: 'ENTER DP ID:' with the value 'IN300513', 'ENTER EXISTING PASSWORD:' with masked characters, 'ENTER NEW PASSWORD:' with masked characters and a note '(Min 8 Characters Max 16 characters)', and 'CONFIRM NEW PASSWORD:' with masked characters and the same note. Below the fields is a 'Submit' button. A note at the bottom states: 'Note: Password should contain letters, Numbers, special characters like @, #, \$'.

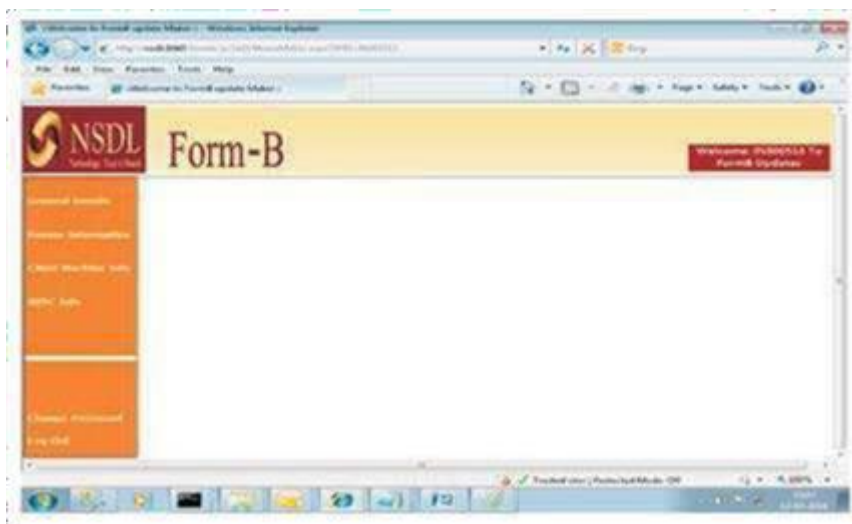

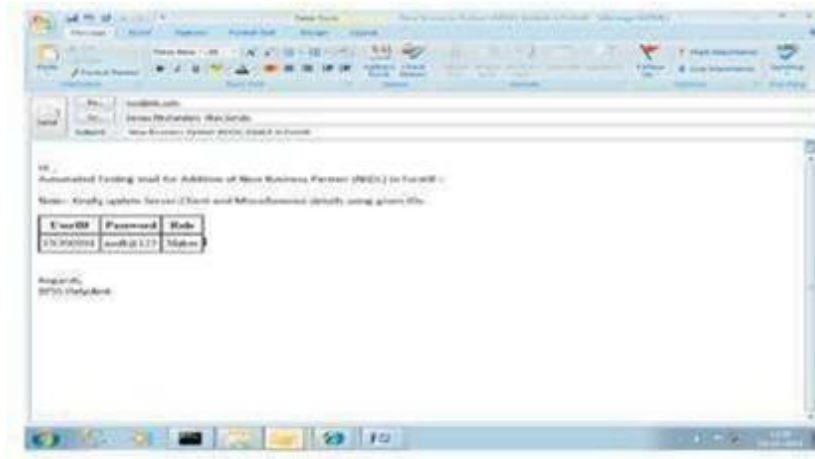

The Business partner will have to change the default password and set their own password during first login. The business partner has the option of changing the password on their own as shown in the slide below:

The changed password email message is displayed as shown in the slide below:

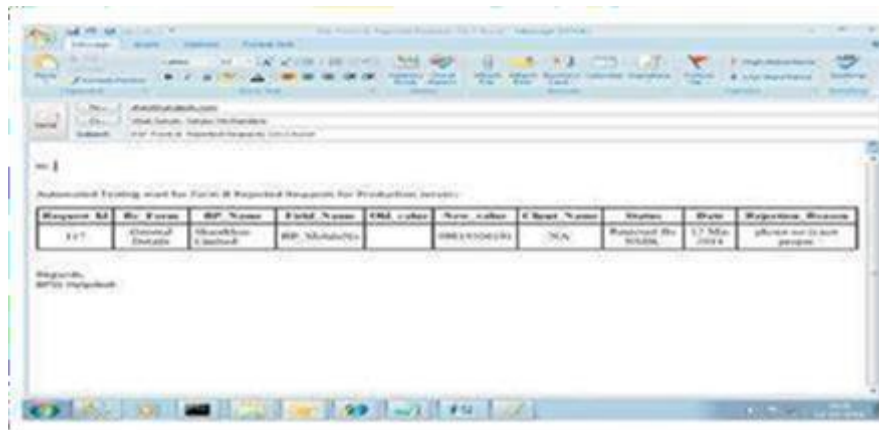

This screenshot shows the 'CHANGE PASSWORD' page with a success message overlay. The message box, titled 'Message from webpage', contains a yellow warning icon and the text: 'Your password has been changed successfully and sent at your PDC mail ID.' There is an 'OK' button at the bottom right of the message box. The background shows the same password change form as the previous screenshot.

4. For new Business Partner joining NSDL the general information for e.g. postal Address, Landline No, Mobile No is updated in the database. After the required update's are made an Auto generated email is automatically send on email ID of system in charge & NSDL Helpdesk team consisting of UserID and password of the maker ID through which Business Partner will be able to successfully login into the application as shown in the slide below:

5. After successful login to database business partners can view their Form B data as shown in the slide below:
6. The Business Partners can view their Form B data as per NSDL records as shown in the slide below:

After the required updates are made in the database by the Business Partner, an email is automatically sent to designated Helpdesk officials along with the changes made as shown in the slide below:

After the request is accepted the status of the request will change to “Accepted By NSDL” An email will be sent to the Business Partner as well as all concerned helpdesk officials. The accepted request by helpdesk officials will be visible to the Business Partner as shown in the slide below.

10. After the request is rejected the status will change to “Rejected By NSDL”. Rejection reason will be mentioned by the Helpdesk official while rejecting the request. An email will be sent to the Business Partner as well as all concerned helpdesk officials. The rejected request by helpdesk officials will be visible to the Business Partner as shown in the slide below.

ANNEXURE U

PROCEDURE FOR ADDITION/MODIFICATION/DEACTIVATION OF AUDITOR'S USER LOGIN FOR SUBMISSION OF IAR /CAR THROUGH E-PASS

NSDL has developed a new facility for Participants in e-PASS for creation of users of their auditor. These users will be able to submit the reports which require auditor certification such as IAR/CAR.

A. For addition of user for auditor, Participant is required to follow the below mentioned steps:

1. After login on e-PASS with Participant's login credentials, Participant will be able to add new user for auditor under head of 'Masters' -> 'Auditor Master' [as exhibited below]. This will display auditor master screen, where Participants can add auditor user IDs.

The screenshot displays the 'Auditor Master' interface within the NSDL e-PASS system. The top navigation bar includes the NSDL logo, a welcome message for 'Mr. Neerav Maniar', and user details: Role: USER, Last Login Date/Time: Oct 26, 2016 05:29 PM, and Entity: IN-DP-NSDL-09-96 - Citibank N. A. The main content area features a form for adding or modifying auditor user IDs. The form is divided into two columns. The left column contains fields for Auditor ID (with a dropdown menu), Email ID, DPID (with checkboxes for IN300054 and IN300685), Auditor Name, Auditor Type, Mobile Number, Telephone Number, Qualification, Membership Number, NISM Certificate Number, NISM Validity Date, DSC Issue Authority, DSC Serial No, DSC Expiry Date, Certificate Type, Firm Name, Firm Registration No, Firm Address, Firm Pin Code, Firm State, and Status (Active/Inactive). The right column contains buttons for Add, Modify, Deactivate, Check, Save, and Reset. The form is titled 'Auditor Master' and includes a 'Mandatory' indicator.

2. Addition of Auditor User ID:

- a) In order to add Auditor user ID for making necessary submission to NSDL, Participant needs to select "Add" button and enter the email ID of the Auditor in the field "Email ID". Participant need to click on 'Check' button to search for whether the email ID is already registered with NSDL. If the email ID is not registered, Participant will enter all the required details of auditor. In auditor type, the Participant has to select whether the auditor is for internal or concurrent audit or for both internal and concurrent audit. The Participant will have to click its relevant DP IDs which need to be mapped with the auditor. The Auditor will be able to submit the IAR/CAR only for the mapped DP IDs. Auditor details with such mapping will be added once Participant will save the details by clicking 'Save' button provided on the screen. Once the Auditor User is created, an Auditor ID will be created, which can be used by the Participant as an additional criteria for conducting search.
- b) There is a possibility that the same Auditor is also acting as "auditor" for other Participant/s and the email ID of the Auditor is already registered with NSDL. In this case, the Auditor details will reflect on the screen. Participant will need to select whether the auditor is for internal and concurrent audit or for both internal and concurrent audit. The Participant will have to click its relevant DP IDs which need to

be mapped with the auditor. On clicking the 'Save' button; the Auditor details will be saved. The relevant screenshot is exhibited below:

The screenshot shows the 'Auditor Master' form in the NSDL portal. The form is divided into several sections. At the top, there's a header with the NSDL logo and user information: 'Welcome, Mr. Neerav Maniar', 'Role : USER', 'Last Login Date/Time : Oct 26, 2016 05:29 PM', and 'Entity : IN-DP-NSDL-09-96 - Citibank N. A.'. The main form area has a title bar 'Auditor Master'. Below this, there's a search section with 'Auditor ID' (See Below) and an 'Advanced Search' link. The form contains various fields for auditor details, including 'Email ID' (kushald@nsdl.co.in), 'DPID' (IN300054, IN300085), 'Auditor Name' (KUSHAL DASHI), 'Mobile Number' (9999999999), 'Qualification' (Chartered Accountant), 'NISM Certificate Number' (NISM-111), 'DSC Issue Authority' (e-Mudhra), 'DSC Expiry Date' (16/10/2016), 'Firm Name' (pfdf), 'Firm Address' (Delhi), 'Firm State' (Delhi), 'Auditor Type' (Concurrent), 'Telephone Number', 'Membership Number' (176), 'NISM Validity Date' (31/10/2016), 'DSC Serial No' (1856FF), 'Certificate Type' (Class III), 'Firm Registration No' (5d0ff), 'Firm Pin Code' (476002), and 'Status' (Active). There are buttons for 'Add', 'Modify', 'Deactivate', 'Check', 'Save', and 'Reset'.

3. Email ID of the auditor will be used as user ID for login by auditor. At the time of first login, the default Password to be entered is "Nsdl@123". Upon clicking on "Generate OTP", a One Time Password (OTP) will be sent on registered mobile number and email ID of Auditor as entered by the Participant in auditor details at the time of addition of auditor. The OTP and default password has to be used by the auditor for first login. On first login, e-PASS portal will prompt the auditor to change the password. The password has to be alpha numeric with at least one special character, one alphabet in Capital & one number. Upon successfully changing the password, the auditor needs to re-login with new password to get access to e-PASS.

- B. For modification of details of auditor, Participant is required to follow the below mentioned steps:

1. After login on e-PASS with Participants login credentials, Participant will able to modify the details of auditor under head of 'Masters' -> 'Auditor Master' [as exhibited below]. This will display auditor master screen, where Participants can modify details of the auditor.
2. Modification of auditor details can be done in either of the following two methods:
 - i) Participant can select the auditor ID from drop down in which modification is required. On selection of the auditor ID to be modified, details of the auditor will be displayed on the screen. Participant is required to select "modify" radio button and modify the details of the auditor. The email ID of the auditor cannot be modified.
 - ii) Alternatively, Participant can do a search on email ID by entering the email id of the auditor in the Email ID field and then click on "Check" button. The details of auditor will be displayed on the screen. Participant is required to select "modify" radio button and modify the details of the auditor except for the email ID of the auditor.

3. Participant will be able to make necessary changes in the existing details of auditor and then save the details of auditor by clicking on save button. The relevant screen is exhibited below.

C. For deactivation of Auditor User ID/s, Participant is required to follow the below mentioned steps:

1. After login on e-PASS with Participants login credentials, Participant will be able to deactivate the user ID of auditor under head of 'Masters' -> 'Auditor Master' [as exhibited below]. This will display auditor master screen, where Participants can deactivate auditor user IDs.
2. Deactivation of auditor user ID can be done in either of the following two methods:
 - i) Participant can select the auditor ID from drop down. On selection of the auditor ID to be deactivated, details of the auditor will be displayed on the screen. Participant is required to select "deactivate" radio button and then save the same by clicking on save button pursuant to which the user ID of the auditor will be deactivated.
 - ii) Participant can also search the auditor ID by entering the email id of the auditor in the Email ID field and then click on "Check" button. The details of auditor will be displayed on the screen. Participant is required to select "deactivate" radio button and then save the same by clicking on save button pursuant to which the user ID of the auditor will be deactivated. The relevant screen is exhibited below.

ANNEXURE V

PROCEDURE OF SUBMISSION OF IAR/ CAR THROUGH E-PASS

INDEX

Sr. No.	Feature	Page No.
A.	Procedure for submission of Internal and Concurrent Audit Report through e-PASS	
1.	Auditor Login	2
2.	Submission of audit report by auditor	3-6
3.	Review by Participant	6-8
4.	Version Management	8
5.	Change in details of user IDs of Participant	8
B.	Procedure for installation of Capicom.dll Utility for signing of Report using digital signature	
1.	To install capicom.dll for Windows XP	9
2.	To install capicom.dll for Windows 7/8/10-32 Bit	9
3.	To install capicom.dll for Windows 7/8/10-64 Bit	9

A. Procedure for submission of Internal and Concurrent Audit Report through e-PASS:

1) Auditor Login :

- a) Auditor shall login to e-PASS portal (<https://www.epass.nsd.com/epass/>) using their credential as created by Participant. “User ID” will be the email ID of auditor as provided by auditor to Participant. After entering user ID and password Click on “Generate OTP” as exhibited below:

The screenshot shows the e-PASS Login portal. On the left is the NSDL logo with the tagline 'Technology, Trust & Road'. On the right is the text 'Participant-Inspection Audit and Supervision System'. The main area is titled 'Login' and contains a form with three input fields: 'User ID' (containing 'abo@xyz.com'), 'Password' (containing '*****'), and 'OTP'. Below the OTP field is a red button labeled 'Generate OTP'. Below the 'Generate OTP' button is a text box with the placeholder 'Type OTP No here(Max. 6 Char.)' and a red button labeled 'Login'.

- b) Upon clicking on “Generate OTP”, a One Time Password (OTP) will be sent on registered mobile number and email ID of Auditor and same has to be entered for login to e-PASS. On first login with default password Nsdl@123 and OTP, e-PASS portal will prompt the user to change password. Upon successfully changing the password, Auditor needs to re-login with new password to get access to e-PASS.
- c) Forgot Password:

In case Auditor forgets password, a link – “Forgot Password” is provided on login screen of e-PASS portal through which a new password can be generated. Upon clicking the link “Forgot Password” (as exhibited below), users login password will be reset and an email intimation will be sent on the registered email id (e-mail ID provided at the time of registration) with the new password. On receipt of this email, user can login to e-PASS using this new password. After login, the user can change the password by using the Change Password functionality provided under “Tools” in the main menu.

2) Submission of Audit Report by Auditor:

- a) In case the Auditor is registered by the Participant as Internal and Concurrent Auditor, the auditor will be able to fill and submit a combined audit report for the relevant audit period. In case the auditor is registered for only internal audit or only for concurrent audit by the Participant, the auditor will be able to fill and submit the respective audit reports as per registration by the Participant.
- b) After login to e-PASS, for submissions of Internal and Concurrent Audit Report, click on ‘Submit IAR/ CAR Report’ under the ‘IAR/CAR Report’ head.

- c) Upon Clicking ‘Submit IAR/CAR Report’ screen as exhibited below will be displayed. Auditor has to select audit period, DP ID and Participant Name and click on submit button.

- d) Once the auditor selects audit period, DP ID and Participant Name and clicks on ‘submit’ button, the IAR/CAR checklist will be displayed on the screen as exhibited below, which has to be filled completely by the auditor.

Checklist

Sr. No.	Audit Areas	Auditor's Observation	Auditor's Remarks	Attachments	Management's Comment	Attachments
1	Audit of Account Opening					
1.1	Whether proof of identity, proof of address and other stipulated documents have been obtained for all the accounts as per KYC guidelines issued by SEBI, PMLA and NSDL?	Yes		Browse		Browse

1 Validate Checklist → 2 Send to Auditor Reset

m) After the report is sent to the auditor for review, the auditor can review the comments/remarks given by Participant's management. If the auditor is satisfied with the comments, it will sign the report using its DSC and submit the same to Participant by following the procedure as stated at 2(j) above.

n) IAR/CAR submitted by auditor after attaching its DSC can be viewed by the Participant under the head 'IAR/CAR reports' -> 'View/Search reports'. The Participant is required to digitally sign the report using its DSC before submitting to NSDL. After digitally signing the report, the same is required to be submitted to NSDL by clicking on "submit to NSDL for review". Button.

4) Version Management:

There may be multiple rounds of iterations in the audit reports exchanged between the auditor and Participant. The same will be handled through version management. The Auditor and Participant will be able to view the different versions of reports for their reference [*as exhibited below*]

Activity Wise Sampling Details

Sr. No	Area	Count for the audit period (total number of accounts opened, demat request processed, etc.)	No. of samples checked	Percentage of samples checked
1	Account Opening (100%)	1	1	100.00
2	Demat requests / Conversion request	7	1	14.28

5) Version Management:

In case there is any change in details of Compliance Officer's/ Alternative Compliance Officer's name, email ID and mobile number, Participants are requested to inform the same on email ID NSDL-BP-INSPECTION@nsdl.com

B. Procedure for installation of Capicom.dll Utility for signing of Report using digital signature

Capicom is a discontinued ActiveX control. This can be used to sign data using digital signature certificate. A link for downloading the Capicom utility has been provided at the top (extreme right) on the audit checklist screen. For installation of Capicom.dll utility, Auditors and Participants need to click on link 'Download e-token utility'. Once clicked, the respective e-token utility folders to be downloaded for relevant operating system i.e. Windows XP, Windows 7/8/10-32 Bit and Windows 7/8/10-64 bit will be displayed on the screen. Participants may click on relevant link to install the folders as per the operating system. The procedure to install the e-token utility for each of the operating systems is provided below:

1) To install capicom.dll for Windows XP:

- a. Extract the folder to your desktop and copy "capicom.dll" to your system folder i.e C:\Windows\System32.
- b. Execute batch file "e token" as administrator (right click and select run as administrator) from the extracted folder to register 'e token'.

2) To install capicom.dll for Windows 7/8/10-32 Bit:

- a. Extract the folder to your desktop and copy "capicom.dll" and "Interop.CAPICOM.dll" to your system folder i.e C:\Windows\System32.
- b. Execute batch file "e token" as administrator (right click and select run as administrator) from the extracted folder to register 'e token'.

3) To install capicom.dll for Windows 7/8/10-64 Bit:

- a) Extract the folder to your desktop and copy "capicom.dll" and "Interop.CAPICOM.dll" to your system folder i.e C:\Windows\SysWOW64.
- b) Execute batch file "e token" as administrator (right click and select run as administrator) from the extracted folder to register 'e token'.

'Identify' critical IT assets and risks associated with such assets.</p> <p>b. 'Protect' assets by deploying suitable controls, tools and measures.</p> <p>c. 'Detect' incidents, anomalies and attacks through appropriate monitoring tools/processes.</p> <p>d. 'Respond' by taking immediate steps after identification of the incident, anomaly or attack.</p>	Yes/No	If no, description of finding / observation must be mentioned here	Mandatory, if auditor's comments are negative

Audit TOR Clause	Checkpoints Description	Auditor's comments	Description of Finding/ Observation	Management's comments
	e. 'Recover' from incident through incident management and other appropriate recovery mechanisms.			
1(c)	Whether the Cyber Security Policy of Participants has considered the principles prescribed by National Critical Information Infrastructure Protection Centre (NCIIPC) of National Technical Research Organization (NTRO), Government of India (titled 'Guidelines for Protection of National Critical Information Infrastructure') and subsequent revisions, if any, from time to time?	Yes/No	If no, description of finding / observation must be mentioned here	Mandatory, if auditor's comments are negative
1(d)	Whether Participant refers to best practices from international standards like ISO 27001, COBIT 5, etc., or their subsequent revisions, if any, from time to time?	Yes/No	If no, description of finding / observation must be mentioned here	Mandatory, if auditor's comments are negative
1(e)	Whether Participant has designated a senior official or management personnel (henceforth, referred to as the "Designated Officer") whose function would be to assess, identify, and reduce security and Cyber Security risks, respond to incidents, establish appropriate standards and controls, and direct the establishment and implementation of processes and procedures as per the Cyber Security Policy?	Yes/No	If no, description of finding / observation must be mentioned here	Mandatory, if auditor's comments are negative
1(f)	Whether the Board / Partners / Proprietor of the Participant have formed an internal	Yes/No	If no, description of finding / observation	Mandatory, if auditor's

Audit TOR Clause	Checkpoints Description	Auditor's comments	Description of Finding/ Observation	Management's comments
	Technology Committee comprising of experts?		must be mentioned here	comments are negative
1(g)	Whether the Participant has established a reporting procedure to facilitate communication of unusual activities and events to the Designated Officer in a timely manner?	Yes/No	If no, description of finding / observation must be mentioned here	Mandatory, if auditor's comments are negative
1(h)	Does the "Technology Committee" along with designated officer reviews the status of implementation of Cyber Security & Cyber Resilience Policy on half yearly basis and same has been placed before the Board / Partners / Proprietor of the Participant?	Yes/No	If no, description of finding / observation must be mentioned here	Mandatory, if auditor's comments are negative
1(i)	Does the designated officer and technology committee periodically review instances of cyber-attacks, if any, domestically and globally, and take	Yes/No	If no, description of finding / observation must be mentioned here	Mandatory, if auditor's comments are negative
	steps to strengthen Cyber Security and cyber resilience framework?			
1(j)	Whether Participant has defined and documented the responsibilities of its employees, outsourced staff, and employees of vendors, members or participants and other entities, who may have privileged access or use systems / networks of the Participant towards ensuring the goal of Cyber Security?	Yes/No	If no, description of finding / observation must be mentioned here	Mandatory, if auditor's comments are negative
2	Identification			

Audit TOR Clause	Checkpoints Description	Auditor's comments	Description of Finding/ Observation	Management's comments
2(a)	Whether Participant has identified critical assets based on their sensitivity and criticality for business operations, services and data management. The critical assets shall include business critical systems, internet facing applications /systems, systems that contain sensitive data, sensitive personal data, sensitive financial data, Personally Identifiable Information (PII) data, etc. All the ancillary systems used for accessing/communicating with critical systems either for operations or maintenance shall also be classified as critical system.	Yes/No	If no, description of finding / observation must be mentioned here	Mandatory, if auditor's comments are negative
2 (b)	Whether Participants have approved the list of critical systems from their Board/Partners/Proprietor	Yes/No	If no, description of finding / observation must be mentioned here	Mandatory, if auditor's comments are negative
2 (c)	Whether Participants have maintain up-to-date inventory of its hardware and systems, software and information assets (internal and external), details of its network resources, connections to its network and data flows	Yes/No	If no, description of finding / observation must be mentioned here	Mandatory, if auditor's comments are negative
2(d)	Whether Participant has identified cyber risks (threats and vulnerabilities) that it may face, along with the likelihood of such threats and impact on the business and thereby, deploy controls commensurate to the criticality?	Yes/No	If no, description of finding / observation must be mentioned here	Mandatory, if auditor's comments are negative
3	Protection			

Audit TOR Clause	Checkpoints Description	Auditor's comments	Description of Finding/ Observation	Management's comments
I	Access Control			
3(a)	Any access to Participants' systems, applications, networks, databases, etc., should be for a defined purpose and for a defined period. Whether Participant has granted access to IT systems, applications, databases and networks on a need-to-use basis and based on the principle of least privilege and has been granted for the period when the access is required and has been authorized using strong authentication mechanisms?	Yes/No	If no, description of finding / observation must be mentioned here	Mandatory, if auditor's comments are negative
3(b)	Whether Participant has implemented an access policy which addresses strong password controls for users' access to systems, applications, networks and databases?(Illustrative examples for this are given in Annexure C of SEBI/HO/MIRSD/CIR/PB/2018/147 dated December 03, 2018)	Yes/No	If no, description of finding / observation must be mentioned here	Mandatory, if auditor's comments are negative
3(c)	Whether all critical systems of the Participant accessible over the internet have two-factor security (such as VPNs, Firewall controls etc.)?	Yes/No/NA A	If no/NA, description of finding / observation must be mentioned here	Mandatory, if auditor's comments are negative
3(d)	Whether Participant has ensured that records of user access to critical systems, wherever possible, are uniquely identified and logged for audit and review purposes and such logs have been maintained and stored in a secure location for	Yes/No	If no, description of finding / observation must be mentioned here	Mandatory, if auditor's comments are negative

Audit TOR Clause	Checkpoints Description	Auditor's comments	Description of Finding/ Observation	Management's comments
	a time period not less than two (2) years?			
3(e)	Whether Participant has deployed controls and security measures to supervise staff with elevated system access entitlements (such as admin or privileged users) to Participant's critical systems and controls and measures inter- alia includes restricting the number of privileged users, periodic review of privileged users' activities, disallow privileged users from accessing systems logs in which their activities are being captured, strong controls over remote access by privileged users, etc.?	Yes/No	If no, description of finding / observation must be mentioned here	Mandatory, if auditor's comments are negative
3(f)	Whether employees and outsourced staff such as employees of vendors or service providers, who may have been given authorized access to the Participants' critical systems, networks and other computer resources, have been subjected to stringent supervision, monitoring and access restrictions?	Yes/No	If no, description of finding / observation must be mentioned here	Mandatory, if auditor's comments are negative
3(g)	Whether Participant has formulated an Internet access policy to monitor and regulate the use of internet and internet based services such as social media sites, cloud-based internet storage sites, etc. within the Participant's critical IT infrastructure?	Yes/No	If no, description of finding / observation must be mentioned here	Mandatory, if auditor's comments are negative
3(h)	Whether User Management addresses deactivation of access of privileges of users who are leaving the organization or whose access privileges have been withdrawn?	Yes/No	If no, description of finding / observation must be mentioned here	Mandatory, if auditor's comments are negative

Audit TOR Clause	Checkpoints Description	Auditor's comments	Description of Finding/ Observation	Management's comments
II	Physical Security			
3(i)	Whether physical access to the critical systems has been restricted to minimum and only to authorized officials and physical access of outsourced staff/visitors are properly supervised by ensuring at the minimum that outsourced staff/visitors are accompanied at all times by authorized employees?	Yes/No	If no, description of finding / observation must be mentioned here	Mandatory, if auditor's comments are negative
3(j)	Whether physical access to the critical systems is being revoked immediately, if the same is no longer required?	Yes/No	If no, description of finding / observation must be mentioned here	Mandatory, if auditor's comments are negative
3(k)	Whether Participant has ensured that the perimeter of the critical equipments room, if any, are physically secured and monitored by employing physical, human and procedural controls such as the use of security guards, CCTVs, card access systems, mantraps, bollards, etc. where appropriate?	Yes/No	If no, description of finding / observation must be mentioned here	Mandatory, if auditor's comments are negative
III	Network Security Management			
3(l)	Whether Participant has established baseline standards to facilitate consistent application of security configurations to operating systems, databases, network devices and enterprise mobile devices within their IT environment and the LAN and wireless networks are secured within the Participants' premises with proper access controls?	Yes/No	If no, description of finding / observation must be mentioned here	Mandatory, if auditor's comments are negative

Audit TOR Clause	Checkpoints Description	Auditor's comments	Description of Finding/ Observation	Management's comments
3(m)	Whether Participant has installed network security devices, such as firewalls, proxy servers, intrusion detection and prevention systems (IDS) to protect their IT infrastructure which is exposed to the internet, from security exposures originating from internal and external sources?	Yes/No/NA	If no/NA, description of finding / observation must be mentioned here	Mandatory, if auditor's comments are negative
3(n)	Whether adequate controls have been deployed to address virus / malware / ransomware attacks. These controls may include host / network / application based IDS systems, customized kernels forLinux, anti-virus and anti-malware software etc.	Yes/No	If no, description of finding / observation must be mentioned here	Mandatory, if auditor's comments are negative
IV	Data Security			
3(o)	Whether critical data has been identified and encrypted in motion and at rest by using strong encryption methods? (Illustrative measures in this regard are given in Annexure A and B of SEBI circular SEBI/HO/MIRSD/CIR/PB/2018/147 dated December 03, 2018)	Yes/No	If no, description of finding / observation must be mentioned here	Mandatory, if auditor's comments are negative
3(p)	Whether Participants has implemented measures to prevent unauthorized access or copying or transmission of data / information held in contractual or fiduciary capacity and ensured thatconfidentiality of information is not compromised during the process of exchanging and transferring information with external parties? (Illustrative measures to ensure security during transportation of data over the internet are given in Annexure B of SEBI circular	Yes/No	If no, description of finding / observation must be mentioned here	Mandatory, if auditor's comments are negative

Audit TOR Clause	Checkpoints Description	Auditor's comments	Description of Finding/ Observation	Management's comments
	SEBI/HO/MIRSD/CIR/PB/2018/147 dated December 03, 2018)			
3(q)	Whether the information security policy covers use of devices such as mobile phones, faxes, photocopiers, scanners, etc., within their critical IT infrastructure, that can be used for capturing and transmission of sensitive data? (For instance, defining access policies for personnel, and network connectivity for such devices etc.)	Yes/No	If no, description of finding / observation must be mentioned here	Mandatory, if auditor's comments are negative
3(r)	Whether Participant allows only authorized data storage devices within their IT infrastructure through appropriate validation processes?	Yes/No	If no, description of finding / observation must be mentioned here	Mandatory, if auditor's comments are negative
3(s)	Whether Participant deploys only hardened hardware / software, including replacing default passwords with strong passwords and disabling or removing services identified as unnecessary for the functioning of the system?	Yes/No	If no, description of finding / observation must be mentioned here	Mandatory, if auditor's comments are negative
3(t)	Whether open ports on networks and systems which are not in use or that can be potentially used for exploitation of data, have been blocked and measures have been taken to secure them?	Yes/No	If no, description of finding / observation must be mentioned here	Mandatory, if auditor's comments are negative
V	Application Security in Customer Facing Applications			
3(u)	Whether application security is in place for Customer facing applications offered over the Internet such as IBTs (Internet Based Trading applications),	Yes/No/NA	If no/NA, description of finding / observation must be	Mandatory, if auditor's comments are negative

Audit TOR Clause	Checkpoints Description	Auditor's comments	Description of Finding/ Observation	Management's comments
	<p>portals containing sensitive or private information and Back office applications (repository of financial and personal information offered by Participants to Customers) as they carry significant attack surfaces by virtue of being available publicly over the Internet for mass use?</p> <p>(An illustrative list of measures forensuring security in such applications is provided in Annexure C of SEBI circular SEBI/HO/MIRSD/CIR/PB/2018/147 dated December 03, 2018)</p>		mentioned here	
VI	Certification of off-the-shelf products			
3(v)	<p>Whether Participant has ensured that off the shelf products being used for core business functionality (such as Back office applications) bears Indian Common criteria certification of Evaluation Assurance Level 4 which is being provided by Standardisation Testing and Quality Certification (STQC) (Ministry of Electronics and Information Technology)(except Custom developed / in-house software and components need not obtain the certification, but have to undergo intensive regression testing, configuration testing etc. The scope of tests should include business logic and security controls)?</p>	Yes/No/NA	If no/NA, description of finding / observation must be mentioned here	Mandatory, if auditor's comments are negative
VII	Patch management			
3(w)	<p>Whether Participants has established and ensure that the patch management procedures includes the identification, categorization and prioritization of</p>	Yes/No	If no, description of finding / observation must be	Mandatory, if auditor's comments are negative

Audit TOR Clause	Checkpoints Description	Auditor's comments	Description of Finding/ Observation	Management's comments
	patches and updates and the implementation timeframe for each category of patches has been established to apply them in a timely manner?		mentioned here	
3(x)	Whether Participant has performed rigorous testing of security patches and updates, where possible, before deployment into the production environment so as to ensure that the application of patches do not impact other systems?	Yes/No	If no, description of finding / observation must be mentioned here	Mandatory, if auditor's comments are negative
VIII	Disposal of data, systems and storage devices			
3(y)	Whether Participant has framed suitable policy for disposal of storage media and systems and the critical data / Information on such devices and systems has been removed by using methods such as crypto shredding / degauss / Physical destruction as applicable?	Yes/No	If no, description of finding / observation must be mentioned here	Mandatory, if auditor's comments are negative
3(z)	Whether Participant has formulated a data- disposal and data- retention policy to identify the value and lifetime of various parcels of data?	Yes/No	If no, description of finding / observation must be mentioned here	Mandatory, if auditor's comments are negative
IX	Vulnerability Assessment and Penetration Testing (VAPT)			
3(aa)	Whether Participant conduct periodic Vulnerability Assessment and Penetration Tests (VAPT) at least once in a financial year which inter-alia include critical assets and infrastructure components like	Yes/No	If no, description of finding / observation must be mentioned here	Mandatory, if auditor's comments are negative

Audit TOR Clause	Checkpoints Description	Auditor's comments	Description of Finding/ Observation	Management's comments
	Servers, Networking systems, Security devices, load balancers, other IT systems pertaining to the activities done as Participants etc., in order to detect security vulnerabilities in the IT environment and in-depth evaluation of the security posture of the system through simulations of actual attacks on its systems and networks?			
3(ab)	Whether Participants have engaged CERT- In empaneled organizations for conducting VAPT and submitted final report of VAPT to Depository after approval from Technology Committee of Participants, within 1 month of completion of VAPT activity?	Yes/No/NA	If no/NA, description of finding / observation must be mentioned here	Mandatory, if auditor's comments are negative
3(ac)	Whether Participants have performed vulnerability scanning and conduct penetration testing prior to the commissioning of a new system which is a critical system or part of an existing critical system?	Yes/No	If no, description of finding / observation must be mentioned here	Mandatory, if auditor's comments are negative
3(ad)	Whether Participants have remedied all findings of VAPT on immediate basis and compliance of closure of findings of VAPT submitted to Depository within 3 months post the submission of final VAPT report?	Yes/No	If no, description of finding / observation must be mentioned here	Mandatory, if auditor's comments are negative
3(ae)	In case of vulnerabilities discovered in off- the-shelf products (used for core business) or applications provided by vendors, whether Participant has reported them to the vendors and NSDL in a timely manner?	Yes/No	If no, description of finding / observation must be mentioned here	Mandatory, if auditor's comments are negative

Audit TOR Clause	Checkpoints Description	Auditor's comments	Description of Finding/ Observation	Management's comments
4	Monitoring and Detection			
4(a)	Whether Participant has established appropriate security monitoring systems and processes to facilitate continuous monitoring of security events / alerts and timely detection of unauthorised or malicious activities, unauthorised changes, unauthorised access and unauthorised copying or transmission of data / information held in contractual or fiduciary capacity, by internal and external parties and the security logs of systems, applications	Yes/No	If no, description of finding / observation must be mentioned here	Mandatory, if auditor's comments are negative
	and network devices exposed to the internet has been monitored for anomalies?			
4(b)	Further, to ensure high resilience, high availability and timely detection of attacks on systems and networks exposed to the internet, whether Participant has implemented suitable mechanisms to monitor capacity utilization of its critical systems and networks that are exposed to the internet, for example, controls such as firewalls to monitor bandwidth usage?	Yes/No/N A	If no/NA, description of finding / observation must be mentioned here	Mandatory, if auditor's comments are negative
5	Response and Recovery			
5(a)	Whether alerts generated from monitoring and detection systems have been suitably investigated in order to determine activities that are to be performed to prevent expansion of such incident of cyber attack or breach, mitigate its effect and eradicate the incident?	Yes/No	If no, description of finding / observation must be mentioned here	Mandatory, if auditor's comments are negative

Audit TOR Clause	Checkpoints Description	Auditor's comments	Description of Finding/ Observation	Management's comments
5(b)	Whether the response and recovery plan of the Participant includes plans for the timely restoration of systems affected by incidents of cyber-attacks or breaches, for instance, offering alternate services or systems to Customers and has same Recovery Time Objective (RTO) and Recovery Point Objective (RPO) as specified by SEBI for Market Infrastructure Institutions vide SEBI circular CIR/MRD/DMS/17/20 dated June 22, 2012 as amended from time to time?	Yes/No	If no, description of finding / observation must be mentioned here	Mandatory, if auditor's comments are negative
5(c)	Whether the response plan defines responsibilities and actions to be performed by its employees and support / outsourced staff in the event of cyber-attacks or breach of Cyber Security mechanism?	Yes/No	If no, description of finding / observation must be mentioned here	Mandatory, if auditor's comments are negative
5(d)	Whether any incident of loss or destruction of data or systems have been thoroughly analyzed and lessons learned from such incidents have been incorporated to strengthen the security mechanism and improve recovery planning and processes?	Yes/No	If no, description of finding / observation must be mentioned here	Mandatory, if auditor's comments are negative
5(e)	Whether Participant has conducted suitable periodic drills to test the adequacy and effectiveness of the aforementioned response and recovery plan?	Yes/No	If no, description of finding / observation must be mentioned here	Mandatory, if auditor's comments are negative
6	Sharing of Information			
6(a)	Whether quarterly reports containing information on cyber-attacks and threats experienced by	Yes/No	If no, description of finding /	Mandatory, if auditor's

Audit TOR Clause	Checkpoints Description	Auditor's comments	Description of Finding/ Observation	Management's comments
	Participant and measures taken to mitigate vulnerabilities, threats and attacks including information on bugs / vulnerabilities / threats that may be useful for other Participants have been submitted to NSDL?		observation must be mentioned here	comments are negative
7	Training and Education			
7(a)	Whether Participant has worked on building Cyber Security and basic system hygiene awareness of staff (with a focus on staff from non-technical disciplines)?	Yes/No	If no, description of finding / observation must be mentioned here	Mandatory, if auditor's comments are negative
7(b)	Whether Participant has conducted periodic training programs to enhance knowledge of IT / Cyber Security Policy and standards among the employees incorporating up-to-date Cyber Security threat alerts and where possible, has extended to outsourced staff, vendors etc.?	Yes/No	If no, description of finding / observation must be mentioned here	Mandatory, if auditor's comments are negative
7(c)	Whether the training programs have been reviewed and updated to ensure that the contents of the program remain current and relevant?	Yes/No	If no, description of finding / observation must be mentioned here	Mandatory, if auditor's comments are negative
8	Systems managed by vendors			
8(a)	Where the systems (IBT, Back office and other Customer facing applications, IT infrastructure, etc.) of Participant are managed by vendors and the Participant is unable to implement some of the aforementioned guidelines directly, the whether the Participant has instructed the vendors to adhere to	Yes/No/NA	If no/NA, description of finding / observation must be mentioned here	Mandatory, if auditor's comments are negative

Audit TOR Clause	Checkpoints Description	Auditor's comments	Description of Finding/ Observation	Management's comments
	the applicable guidelines in the Cyber Security and Cyber Resilience policy and obtain the necessary self-certifications from them to ensure compliance with the policy guidelines?			
9	AI/ML			
9(a)	Are adequate safeguards in place to prevent abnormal behaviour of the AI or ML application / System?	Yes/No/N A	If no/NA, description of finding / observation must be mentioned here	Mandatory, if auditor's comments are negative
9(b)	Has Participant reported details of AI/ML to Depository on a quarterly basis in accordance with SEBI circular SEBI/HO/MI RSD/DOS2/ CIR/P/2019/ 10 dated January 04, 2019?	Yes/No/N A	If no/NA, description of finding / observation must be mentioned here	Mandatory, if auditor's comments are negative
9(c)	Whether AI / ML systems comply for all above System Audit Checklist points. In case of any observation, please report?	Yes/No/N A	If no/NA, description of finding / observation must be mentioned here	Mandatory, if auditor's comments are negative
10	Data Leakage			
10(a)	Whether Participant has approved Data Leakage Policy	Yes/No	If no, description of finding / observation must be mentioned here	Mandatory, if auditor's comment is negative
10(b)	Whether Participant has approved Data Leakage Solution	Yes/No	If no, description of finding /	Mandatory, if auditor's

Audit TOR Clause	Checkpoints Description	Auditor's comments	Description of Finding/ Observation	Management's comments
			observation must be mentioned here	comment is negative
10(c)	Whether Participant has exception reporting and escalation mechanism in case of data breaches / data leaks	Yes/No	If no, description of finding / observation must be mentioned here	Mandatory, auditor's comment is negative
10(d)	Whether Participant has reported incidents related to data breaches / data leaks in timely manner to CERT-IN, SEBI and NSDL	Yes/No/NA	If no/NA, description of finding / observation must be mentioned here	Mandatory, auditor's comment is negative
11	Additional Information about Participant			
11(a)	Whether any other deviation/non-compliance observed by auditor which is not specifically covered above?	Yes/No/NA	If yes, description of finding / observation must be mentioned here	Mandatory, auditor's comments are negative
11(b)	Whether any deviation/non-compliance observed during last audit?	Yes/No	If yes, description of finding / observation must be mentioned here	Mandatory, auditor's comment is negative
11(c)	Status of compliance for deviations observed during last audit	Complied / Not complied	Mandatory, if Not complied	Mandatory, auditor's comment is negative

Audit TOR Clause	Checkpoints Description	Auditor's comments	Description of Finding/ Observation	Management's comments
11(d)	Declaration from MD/ CEO/ Partners/ Proprietors certifying compliance by the participant with all SEBI Circulars and advisories related to Cyber security from time to time	Upload declaration		

ANNEXURE X

PROCEDURE FOR SUBMISSION OF ANNUAL SYSTEM AUDIT REPORT THROUGH E-PASS

INDEX

Sr. No.	Feature	Page No.
1..	System Auditor Login	2-3
2.	Submission of audit report by System auditor to Participant	3-6
3	Review & Submission by Participant	6-7

A. Procedure for submission of Annual System Audit Report through e-PASS:

1) System Auditor Login:

After login on e-PASS with Participant's login credentials, Participant will be able to add new user for System auditor under head of 'Masters' -> 'Auditor Master' [as exhibited below]. This will display auditor master screen, where Participants can add System auditor user IDs. Participant will need to select Auditor type as "System Auditor" and fill the other details as exhibited below.

- a) System Auditor shall login to e-PASS portal (<https://www.epass.nsdl.com/epass/>) using their credential as created by Participant. "User ID" will be the email ID of auditor as provided by System auditor to Participant. After entering user ID and password, Click on "Generate OTP" as exhibited below:

- b) Upon clicking on “Generate OTP”, a One Time Password (OTP) will be sent on registered mobile number and email ID of System Auditor and same has to be entered for login to e-PASS. On first login with default password “Nsd!@123” and OTP, e-PASS portal will prompt the user to change password. Upon successfully changing the password, System Auditor needs to re-login with new password to get access to e-PASS.

- c) Forgot Password:

In case System Auditor forgets password, a link – “Forgot Password” is provided on login screen of e-PASS portal through which a new password can be generated. Upon clicking the link “Forgot Password” (as exhibited below), users login password will be reset and an email intimation will be sent on the registered email id (e-mail ID provided at the time of registration) with the new password. On receipt of this email, user can login to e-PASS using this new password. After login, the user can change the password by using the Change Password functionality provided under “Tools” in the main menu.

2) Submission of Annual System Audit Report by System Auditor:

- a) After login to e-PASS, for submission of Annual System Audit Report, click on ‘Annual System Audit Report’. Then click on “Submit Annual System Audit Report”.

- b) Upon Clicking ‘Submit Annual System Audit Report’ screen as exhibited below will be displayed. Auditor has to select audit period, and DP ID and click on submit button.

- c) Once the Submit button is clicked, the Annual System Audit checklist will be displayed on the screen as exhibited below, which has to be filled completely by the System auditor.

Audit OR Clause	Checkpoints Description	Auditor's comments	Description of Finding/ Observation	Management's comments
1	Governance			
1(a)	Whether the Participant has formulated a comprehensive Cyber Security and Cyber Resilience policy document encompassing the framework mentioned in the circular? In case of deviations from the suggested framework, whether reasons for such deviations, technical or otherwise, are provided in the policy document? Is the policy document approved by the Board / Partners / Proprietor of the organization? Is the policy reviewed periodically or at least on annual basis?	<input type="radio"/> Yes <input type="radio"/> No <input type="radio"/> N/A	If no, description of finding / observation must be mentioned here.	Mandatory, if auditor's comments is negative
1(b)	Whether the Cyber Security Policy includes the following process to identify, assess, and manage Cyber Security risk associated with processes, information, networks and systems: a. 'Identify' critical IT assets and risks associated with such assets. b. 'Protect' assets by deploying suitable controls, tools and measures. c. 'Detect' incidents, anomalies and attacks through appropriate monitoring tools/processes. d. 'Respond' by taking immediate steps after identification of the incident, anomaly or attack. e. 'Recover' from incident through incident management and other appropriate recovery mechanisms.	<input type="radio"/> Yes <input type="radio"/> No <input type="radio"/> N/A	If no, description of finding / observation must be mentioned here.	Mandatory, if auditor's comments is negative
1(c)	Whether the Cyber Security Policy of Participants has considered the principles prescribed by National Critical Information Infrastructure Protection Centre (NCIIPC) of National Technical Research Organization (NTRO), Government of India (titled 'Guidelines for Protection of National Critical Information Infrastructure') and subsequent revisions, if any, from time to time?	<input type="radio"/> Yes <input type="radio"/> No <input type="radio"/> N/A	If no, description of finding / observation must be mentioned here.	Mandatory, if auditor's comments is negative
1(d)	Whether Participant refers to best practices from international standards like ISO 27001,	<input type="radio"/> Yes <input type="radio"/> No <input type="radio"/> N/A	If no, description of finding / observation must be mentioned here.	Mandatory, if auditor's

- d) The System auditor can enter his comments and mention observations as mentioned in above exhibit.
- e) System Auditor can click “Save Draft” button to save the draft report at any point in time while filling the report. The System Auditor can view the saved Audit report under ‘view/search Annual System Audit Report’ option. The System Auditor can complete the checklist at a future date [as exhibited below].

7(a)	Whether Participant has conducted periodic training programs to enhance knowledge of IT / Cyber Security Policy and standards among the employees incorporating up-to-date Cyber Security threat alerts and where possible, has extended to outsourced staff, vendors etc.?	<input type="radio"/> Yes <input type="radio"/> No <input type="radio"/> N/A	If no, description of finding / observation must be mentioned here.	Mandatory, if auditor's comments is negative
7(b)	Whether the training programs have been reviewed and updated to ensure that the contents of the program remain current and relevant?	<input type="radio"/> Yes <input type="radio"/> No <input type="radio"/> N/A	If no, description of finding / observation must be mentioned here.	Mandatory, if auditor's comments is negative
7(c)	Whether the training programs have been reviewed and updated to ensure that the contents of the program remain current and relevant?	<input type="radio"/> Yes <input type="radio"/> No <input type="radio"/> N/A	If no, description of finding / observation must be mentioned here.	Mandatory, if auditor's comments is negative
8	Systems managed by vendors			
8(a)	Where the systems (IBT, Back office and other Customer facing applications, IT infrastructure, etc.) of Participant are managed by vendors and the Participant is unable to implement some of the aforementioned guidelines directly, the whether the Participant has instructed the vendors to adhere to the applicable guidelines in the Cyber Security and Cyber Resilience policy and obtain the necessary self-certifications from them to ensure compliance with the policy guidelines?	<input type="radio"/> Yes <input type="radio"/> No <input type="radio"/> N/A	If no, description of finding / observation must be mentioned here.	Mandatory, if auditor's comments is negative
9	Additional information about Participant			
9(a)	Whether any other deviation/non-compliance observed by auditor which is not specifically covered above?	<input type="radio"/> Yes <input type="radio"/> No <input type="radio"/> N/A	Test	Mandatory, if auditor's comments is positive

- f) Once the system audit checklist is filled completely, the System Auditor will need to click on ‘validate checklist’ button. If there are any error/s, the same would be highlighted which are required to be corrected by the System Auditor and once again click on button ‘validate checklist’. Once audit checklist is validated successfully, then System Auditor can send the report to Participant for review and its comments (if any) by clicking on “Send to DP for Review” button [as exhibited above].

- g) The process of review by the Participant is provided in point no. 3 below. Once the report is submitted by the Participant for review by auditor, auditor will be able to see the Annual System Audit Report under the head of 'Annual System Audit Report -> 'view/search System Audit Report' [as exhibited below] with status 'Submitted by DP for Auditor Review'.

ANNEXURE Y

PROCEDURE FOR SUBMISSION OF NETWORTH CERTIFICATE AND OR AUDITED FINANCIAL STATEMENT (AFS) THROUGH E-PASS

2) Process of submission through Maker login:

After login to e-pass, click on tab “Net worth submission” → “Submit Net worth Certificate and AFS” as exhibited below:

Upon clicking on “Submit Net worth Certificate and AFS”, a screen with drop-down box for selecting period for which networth certificate and AFS to be submitted will appear. After selecting the period and clicking on “Proceed”, following screen will appear based on the category of participant:

i. Details to be filled by Participants who are required to submit networth certificate along with AFS viz. Participants registered under category of Stock broker, Registrar and Transfer Agent, Non-Banking Financial Company (NBFC), Clearing Corporation/ Clearing House (i.e. full-fledged Participants):

a) Participants from aforesaid category will be required to submit the relevant details on computation screen from the networth certificate duly certified by the Chartered Accountant based on the AFS as exhibited below. All the fields in this screen are mandatory. In case value for any field is NIL, Participants are required to mention value as ‘0’.

The screenshot shows the 'Submit Net Worth Certificate and AFS' form. It contains a table with the following columns: 'No.', 'Particulars', 'Current Year', and 'Previous Year'. The table lists various financial items for which net worth is to be submitted. Below the table, there is a section for 'Net Worth (₹ - Rupee to L.)' and a note: 'In case if there is increase or decrease in net worth by 25% or more as compared to previous year please mention reason for the same'.

No.	Particulars	Current Year	Previous Year
1	Paid-up Capital + Free Reserves + Share Application Money (Total Reserve less Revaluation reserves and specified Reserves) (₹)		
A	Accumulated Losses (₹)		
B	Reserves (more than 6 months old) (₹)		
C	Reserves from Group Companies (₹)		
D	Intangible Assets (₹)		
E	Preliminary and pre-operative expenses not written off (₹)		
F	Value of stock exchange card (₹)		
G	Loan in excess of value of pledged securities (₹)		
H	Loan in excess of value of pledged Assets (₹)		
I	Investment in group companies (₹)		
J	Net worth required by other depositories (₹)		
K	Loans and advances to group companies (₹)		
L	Statutory Contingent Liabilities (₹)		
Net Worth (₹ - Rupee to L.)			

In case if there is increase or decrease in net worth by 25% or more as compared to previous year please mention reason for the same

b) Further, in case of increase or decrease in net worth by 25% or more, as compared to previous year, Participants would be required to mention the reason for the same in the free text field as exhibited below:

ANNEXURE EE

Procedure for uploading date of document received for Demat\ Remat request processed and rejected.

1. Guidelines for uploading the aforesaid files:

- a. The aforesaid files can be uploaded either in single or multiple file(s).
- b. The dates in aforesaid files should be either current date or past date (not before December 1, 2023).
- c. Aforesaid date file(s) for a given DRN/ RRN, cannot be uploaded twice.
- d. In case of any error while uploading aforesaid date file(s), same file can be reuploaded after rectifying the errors. List of probable errors while uploading the files is enclosed as **Annexure**.

2. Reports:

In order to ascertain the demat/ remat requests processed/ rejected by Participants during the particular period (i.e. by selecting date range), a facility is made available in local DPM system under below mentioned modules:

- a) Under 'Reports' module → 'Demat' → Demat Request Status
- b) Under 'Reports' module → 'Remat' → Remat Request Status

3. Submission through Maker login:

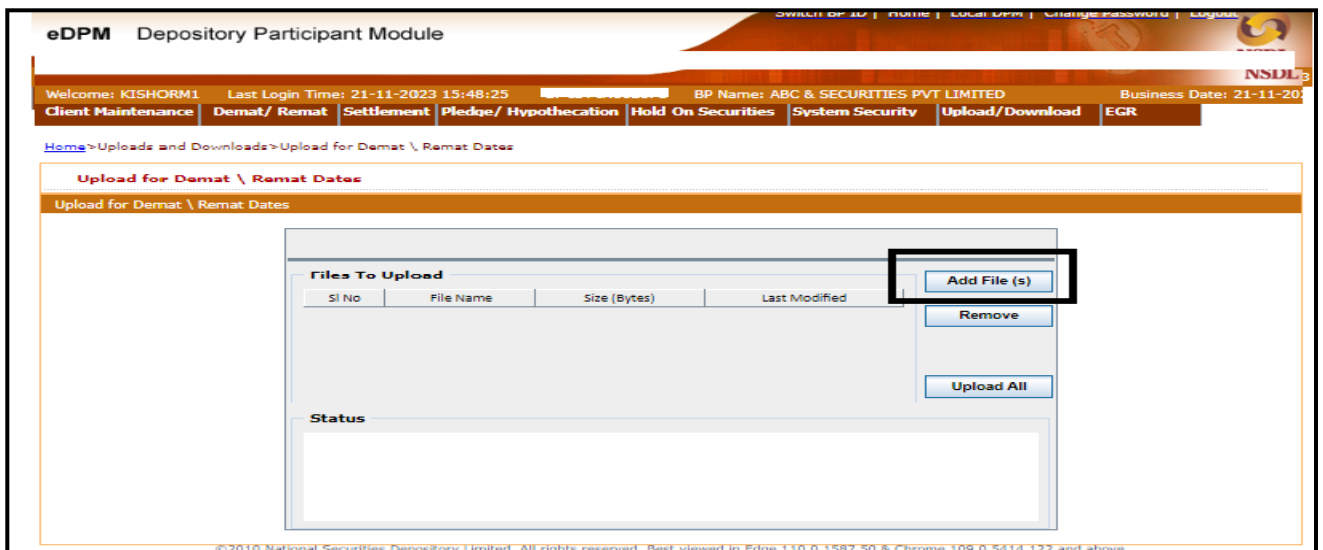

After login to e-DPM, click on 'Home' → 'Uploads & Downloads' → 'Demat\ Remat Document Dates Upload' as exhibited below:

The nomenclature of file to be uploaded for updating the details of dates as mentioned in the table above shall be DPID_DMAT_DATE_UPLOAD_<<DDMMYYHHMMSS>>.TXT.

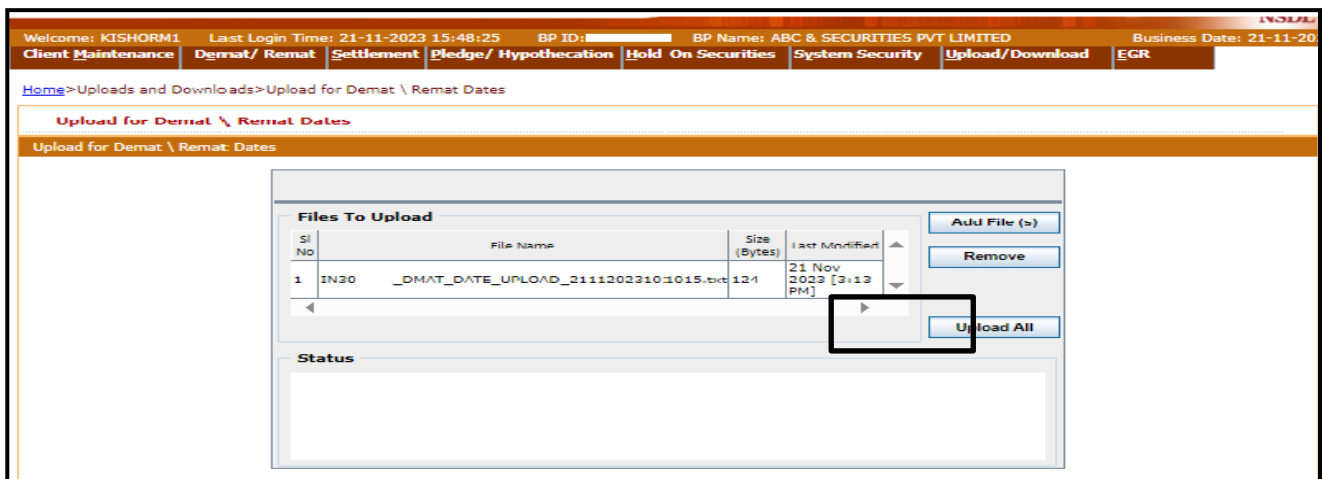

Upon clicking on 'Demat\ Remat Document Dates Upload', Participant has to click on

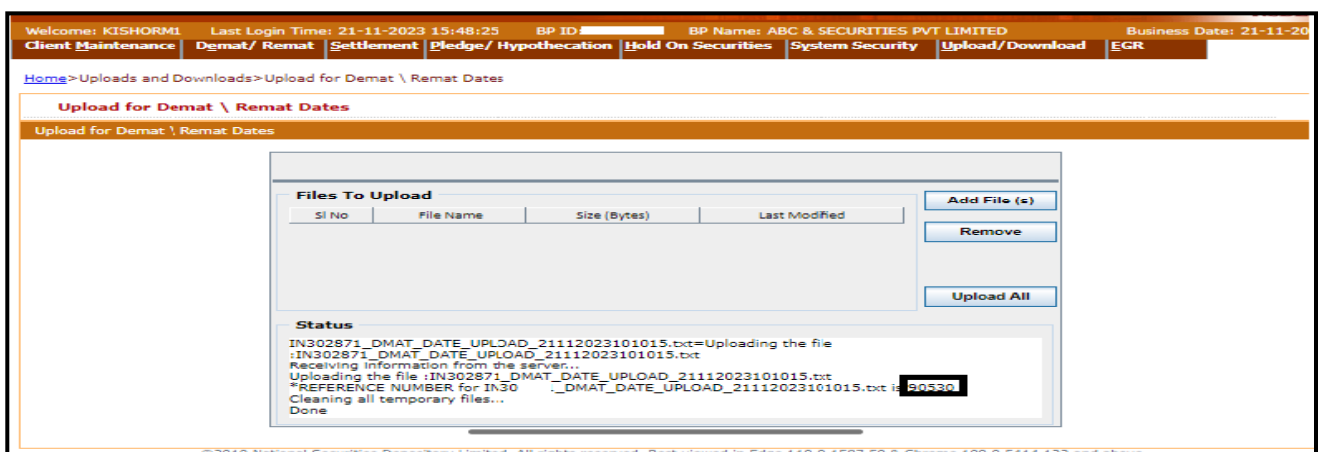

‘Add File (s)’ button as exhibited below:

Participant has to select the file(s) from the saved path. The file(s) will appear in ‘Files To Upload’ as exhibited below. Participant has to click on ‘Upload All’ tab as shown the exhibit below:

Participant on clicking the tab ‘Upload All’, the reference no. is generated as exhibited below:

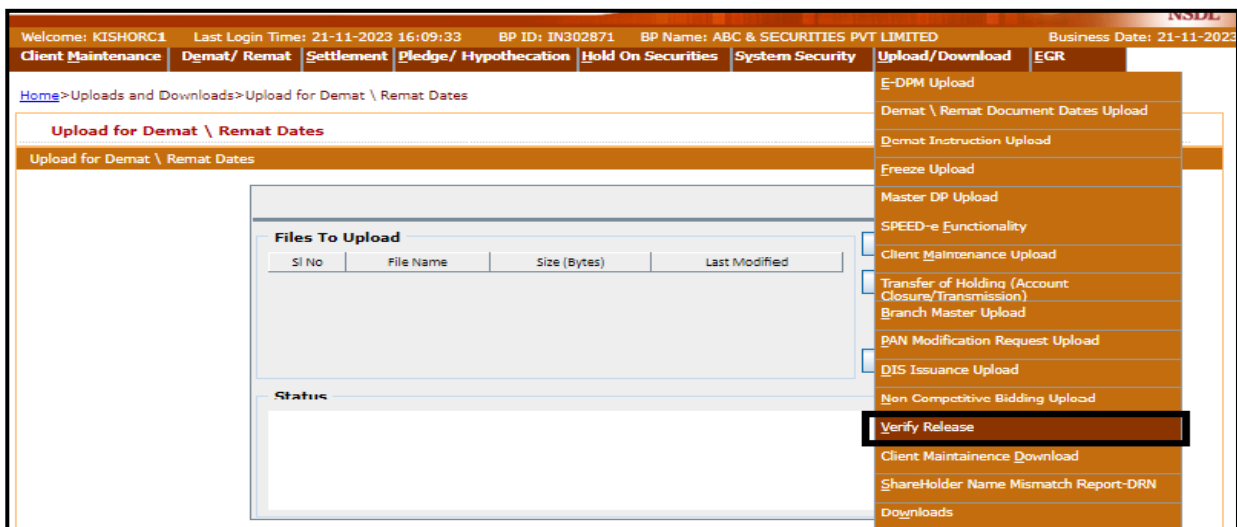

1. Verify release captured reports through Checker login:

Once the required details are captured by Maker user, same will be required to be verified by

the user having Checker rights. The report captured by Maker user can be viewed by checker user from 'Demat\ Remat Document Dates Upload' tab for further submission as exhibited below:

On clicking 'Demat\ Remat Document Dates Upload', the checker user will select the status option 'Verify Release' displayed on screen below:

On clicking the 'Verify Release', Checker user will have click on 'Transaction Group' drop down and select 'Demat\ Remat Document Dates Upload' tab as exhibited below:

Procedure for submission of details of indictments or other orders through e-PASSPortal

1. Submission of details through Maker login:

After login to e-PASS, click on 'Others' → 'Reporting of Order passed against DP' → 'Submitting reporting of order passed against DP' as exhibited below:

The screenshot shows the top navigation bar of the e-PASS Portal. It includes a 'Last Login Date/Time' field, 'Home' and 'Logout' links, and the 'Participant-Inspection Audit and Supervision System' logo. Below the navigation bar, there are two main tabs: 'Others' and 'Investor Grievances'. Under the 'Others' tab, there are two sub-items: 'Reporting of order passed against DP' and 'STR Alert Report'. The 'Reporting of order passed against DP' item is highlighted, and it has a right-pointing arrow next to it. Below this, there are two more items: 'Submit Reporting of order passed against DP' and 'View/Search Reporting of order passed against DP'.

Upon clicking on 'Submit reporting of order passed against DP', all DP IDs of Participant(in case of multiple DPM set-ups) will be selected by default and auto displayed on screen. In case, submission of DP ID wise details of order, user will be able to select/deselect the specific DP ID(s) and submit the order details. Once DP ID is selected thereafter click on 'Proceed' button as exhibited below:

The screenshot shows the 'Reporting of order passed against DP' form. The top bar includes the NSDL logo, 'Welcome, MAKER DP', 'Role : dp maker 1234', 'Entity : IN-DP-NSDL', and 'Last Login Date/Time'. The main heading is 'Reporting of order passed against DP'. Below this, there is a form with a 'DP Name' field, a 'DP ID' field, and a 'PROCEED' button. The 'DP ID' field contains a list of DP IDs: IN300, IN300, IN300, and IN300. The first two are unchecked, and the last two are checked.

After clicking on 'Proceed' button, the option to fill the details of order will appear on screen wherein user will have to provide 'Date of order', 'Date of receipt of order', Brief of order and upload the copy of order in .pdf format (Max 5 MB) by clicking on the upload tab. Thereafter, user will click on 'Save Draft' before submitting to checker user. Post review, the user has to click on 'Submit' tab as exhibited below:

Sr. No.	Date of Order	Date of receipt of order	Brief Particulars	Copy of order to be enclosed	Action
1	02/01/2023	01/02/2023	Order pertains to _____	<input type="button" value="Choose File"/> ABC.pdf   	
2				<input type="button" value="Choose File"/> No file chosen   	

Submitted report can be viewed by Maker user from ‘View / Search reporting of order passed against DP’ link as exhibited below:

Search Reset

Total Records: 18

File Reference No.	DP ID	DP Name	Status	Submission Date
36	IN30		Submitted to NSDL	

It may be noted that report captured by Maker user cannot be edited by Checker user. In case any changes are required to be done in report captured by Maker user, then same will need to be returned by Checker user to Maker user. For sending back the report to Maker user, reason for sending back the report is required to be provided mandatorily in the text box 'Rejection Reason'.

In respect of report(s) returned by Checker, maker user will have to make the necessary changes by following the steps/ process as mentioned in point no. 1 above and checker will have to approve by following the steps/ process mentioned at point no. 2 above.

3. Modification / Deletion of existing User ID's:

For modification/ deletion of Maker User IDs on e-PASS Participants have to send an email on nsdl-bp-inspection@nsdl.com in following format:

SEBI Reg. No.	DP Name	First Name of User	Last Name of User	Mobile no.	Email ID

In case there is any change in details of Checker User i.e. Compliance Officer's/ Alternative Compliance Officer's name, email ID and mobile number, Participants are advised to update the details through e-PASS as per the procedure mentioned in Annexure Q under Chapter 11 (Internal Controls) of NSDL Master Circular Participants.

ANNEXURE GG

Debenture redemption Reserve	Earmarked for specific purpose
Foreign Currency translation reserve	Not a free reserve

Procedure for submitting details of grievances resolved during the month**2. Submission through Maker login:**

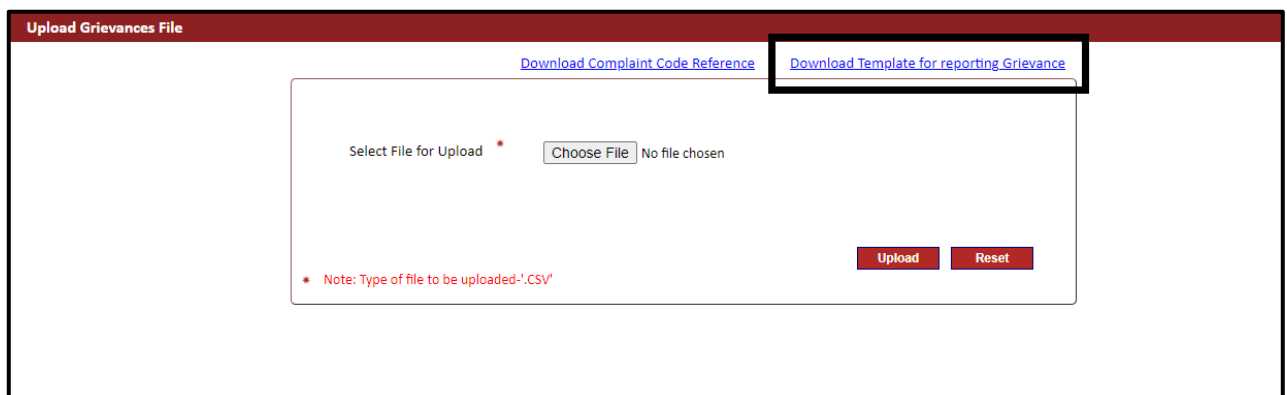

After login to e-PASS, under DP IG Report module, click on 'Reporting of Grievances' → 'Submit Reporting of Grievances' as exhibited below:

Upon clicking on 'Submit Reporting of Grievances', all DP IDs of Participant (in case of multiple DPM set-ups) will be selected by default and auto displayed on screen. In case, of submission of DP ID wise details, user will be able to select/deselect the specific DP ID(s) and submit the details. Once DP ID is selected thereafter click on 'Generate Report' button as exhibited below:

After clicking on 'Generate Report' button, on the screen two links will be displayed i.e. 'Download complaint code reference' and 'Download the template for reporting Grievance' as exhibited below:

The user will click on 'Download Template for reporting Grievance' and .csv file will get downloaded.

The user will fill in the .csv file with details of 'Date of receipt of Grievance (DD-MM-YYYY)' example: 07-11-2023; 'Name of the complainant'; 'DP ID'; 'Client Id'; 'Complaint Code' (user can download complaint code reference from the link exhibited above for selecting the code) and 'Date of resolution of the Grievance (DD-MM-YYYY)' example: 09-11-2023. Thereafter, the user will click on 'Upload' as exhibited below:

Nomenclature of file: DPID_Grievances_Report_01 (Batch no. needs to be changed if upload of file is

done in multiple batches during the month).

It may be noted that, report captured by Maker user cannot be edited by Checker user. In case any changes are required to be done in report captured by Maker user, then same will have to be returned to Maker user by Checker user. For sending back the report to Maker user, reason for sending back the report is required to be provided mandatorily in the text box 'Rejection Reason'.

In respect of report(s) returned by Checker, maker user will have to make the necessary changes by following the steps/ process as mentioned in point no. 1 above and checker will have to approve/submit report by following the steps/ process mentioned at point no. 2 above.

4. Modification / Deletion of existing User ID's:

For modification/ deletion of Maker User IDs on e-PASS, Participants have to send an email on nsdl-bp-inspection@nsdl.com in following format:

SEBI Reg. No.	DP Name	First Name of User	Last Name of User	Mobile no.	Email ID

In case there is any change in details of Checker User i.e. Compliance Officer's/ Alternative Compliance Officer's name, email ID and mobile number, Participants are advised to update the details through e-PASS as per the procedure mentioned in Annexure Q under Chapter 11 (Internal Controls) of NSDL Master Circular Participants.

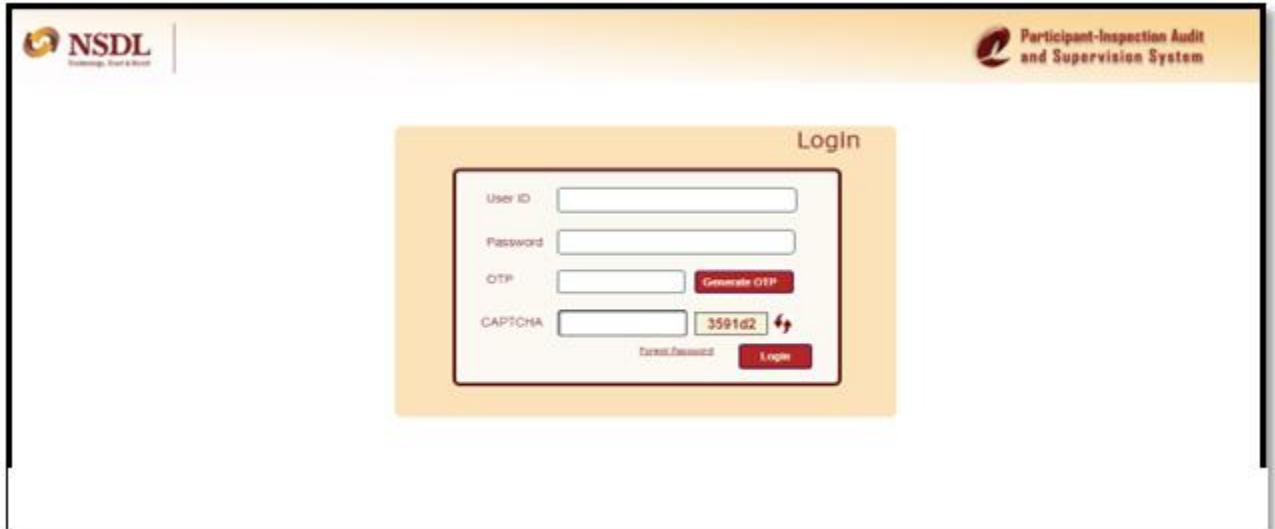

ANNEXURE Z1

Guidelines to submit the Revalidation VAPT Report

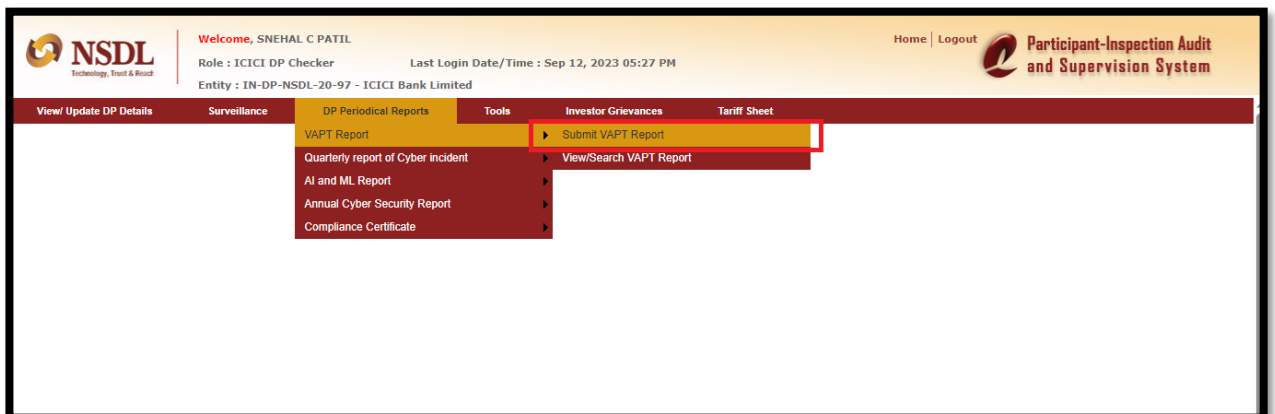

Click on e-PASS URL : <https://www.epass.nsdl.com> to submit the VAPT revalidation report.

SUBMIT VAPT REVALIDATION REPORT:

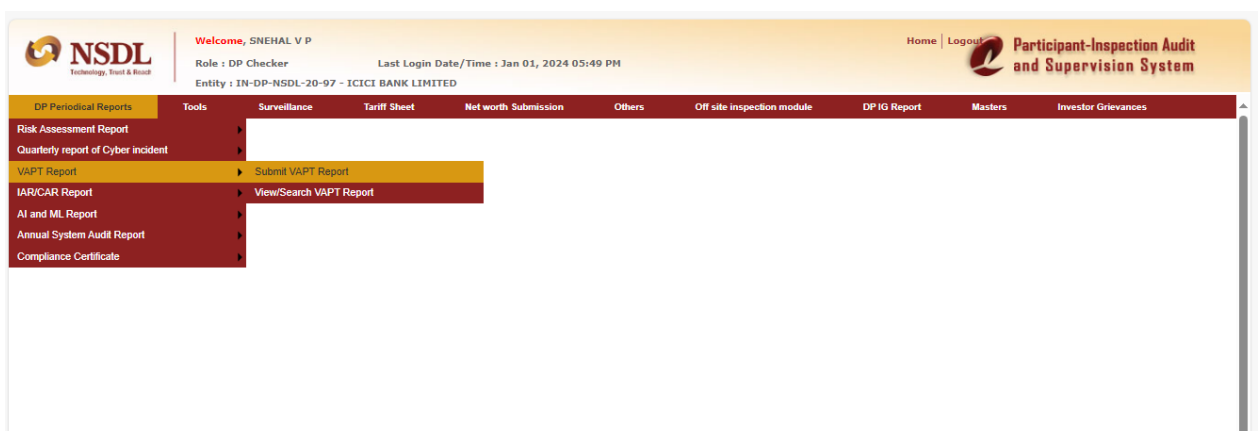

1. Login in e-PASS by using DP Checker.

2. Go to DP Periodical report TAB.

3. Click on VAPT Report. -> Click on Submit VAPT report

4. Select Audit period, report type and click on generate report.

Auditor Selection Norms

1. The Audit shall be conducted by **CERT-In empaneled organization/ entity**.
2. The Auditor/Auditor firm can perform minimum of 3 successive audits of the DP. However, such an auditor shall be eligible for reappointment after a cooling – off period of two years and the Auditor should not have been engaged over the last two years in any consulting engagement with any departments / units of the DP.
3. Auditors must preferably have a minimum of 3 years of experience in IT audit of Banking and Financial services, preferably in the Securities Market. E.g. Stock exchanges, clearing houses, depositories, stockbrokers, depository participants, mutual funds, etc. The audit experience should have covered all the major areas mentioned under various cybersecurity frameworks and guidelines issued by SEBI from time to time.
4. It is recommended that resources employed shall have relevant industry recognized certifications e.g. CISA (Certified information Systems Auditor) from ISACA, CISM (Certified Information Securities Manager) from ISACA, GSNA (GIAC Systems and Network Auditor), CISSP (Certified Information Systems Security professional) from International Information systems Security Certification Consortium, commonly known as (ISC)2.
5. The Auditor, as being appointed by DPs must **not have any conflict of interest** in conducting fair, objective, and independent audit. Further, the directors / partners of Audit firm shall not be related to any Directors/Promoters/Proprietor of the said DPs either directly or indirectly.
6. The Auditor shall not have any cases pending against its previous audited companies/firms, which fall under SEBI's jurisdiction, which point to its incompetence and/or unsuitability to perform the audit task.
7. The DPs and auditors are required to retain records of physical visits conducted during audits like name, qualification & date of visit/s of auditor, along with audit artifacts, proofs of concept (POCs), and evidence related to terms of reference (TOR) points.

ANNEXURE Z3

Scope

The scope of cyber audit of DPs should cover all the systems i.e. systems and applications provided by Depositories to DPs as well as DP's own system whether in house or off the shelf products etc.

Terms of Reference (TOR) for Cyber Security Audit Report

Cyber Audit TOR Clause	Checkpoints Description
1	Governance
1(a)	Has the Depository Participant formulated a comprehensive Cyber Security and Cyber Resilience policy document encompassing the framework mentioned in the SEBI circular SEBI/HO/MIRSD/CIR/PB/2018/147 dated December 03, 2018 and subsequent amendments made thereto.
1(b)	In case of deviations from the suggested framework, whether reasons for such deviations, technical or otherwise, are provided in the policy document.
1(c)	Is the policy document approved by the Board/ Partners/ Proprietor of the Depository Participant.
1(d)	Is the policy document reviewed by the Board/ Partners/ Proprietor of the Depository Participant at least annually with the view to strengthen and improve its Cyber Security and Cyber Resilience framework.
1(e)	Whether the Cyber Security Policy includes the following process to identify, assess, and manage Cyber Security risk associated with processes, information, networks, and systems:
	a. 'Identify' critical IT assets and risks associated with such assets.
	b. 'Protect' assets by deploying suitable controls, tools and measures.
	c. 'Detect' incidents, anomalies and attacks through appropriate monitoring tools/processes.
	d. 'Respond' by taking immediate steps after identification of the incident, anomaly or attack.
	e. 'Recover' from incident through incident management and other appropriate recovery mechanisms.
1(f)	Whether policy/ procedure document refers to best practices from international standards like ISO 27001, COBIT 5, etc., or their subsequent revisions, if any, from time to time.
1(g)	Has the policy document considered the principles prescribed by National Critical Information Infrastructure Protection Centre (NCIIPC) of National Technical Research Organization (NTRO), Government of India (titled 'Guidelines for Protection of National Critical Information Infrastructure') and subsequent revisions, if any, from time to time.
1(h)	Has the Depository Participant designated a senior official or management personnel as Designated Officer whose function would be to assess, identify, and reduce security and Cyber Security risks, respond to incidents, establish appropriate standards and controls, and direct the establishment and implementation of processes and procedures as per the Cyber Security policy.
1(i)	Has the Depository Participant constituted a Technology Committee comprising of experts.
1(j)	Whether the Technology Committee has reviewed on a half yearly basis the implementation of the Cyber Security and Cyber Resilience policy, which includes:

Cyber Audit TOR Clause	Checkpoints Description
	a) review of their current IT and Cyber Security and Cyber Resilience capabilities.
	b) setting goals for a target level of Cyber Resilience and establishing plans to improve and strengthen Cyber Security and Cyber Resilience.
	c) placing of the review report before the Board / Partners/ Proprietor of the Depository Participant for appropriate action.
1(k)	Whether the Designated Officer and the Technology Committee have periodically reviewed instances of cyber-attacks, if any, domestically and globally, and taken steps to strengthen Cyber Security and Cyber Resilience framework.
1(l)	Has the Depository Participant established a reporting procedure to facilitate communication of unusual activities and events to the Designated Officer in a timely manner.
1(m)	Has Depository Participant defined responsibilities of its employees, outsourced staff, and employees of vendors or participants and other entities, who may have privileged access or use systems/ networks of the Depository Participant towards ensuring the goal of Cyber Security.
1(n)	<p>Has the Depository Participant prepared detailed incident response plan.</p> <p>Has the Depository Participant defined roles and responsibilities of Chief Information Security Officer (CISO) and other senior personnel. Reporting and compliance requirements shall be clearly specified in the security policy.</p> <p>Whether the details of CISO are shared with CERT-In through Email (info@cert-in.org.in)</p>
2	Identification
2(a)	<p>Has the Depository Participant identified and classified critical assets based on their sensitivity and criticality for business operations, services and data management.</p> <p>Whether the critical assets include business critical systems, internet facing applications /systems, systems that contain sensitive data, sensitive personal data, sensitive financial data, Personally Identifiable Information (PII) data, etc.</p> <p>Whether all the ancillary systems used for accessing/communicating with critical systems either for operations or maintenance are also classified as critical systems.</p> <p>Has the Board/Partners/Proprietor of the Depository Participant approved the list of critical systems.</p> <p>Has the Depository Participant maintained up-to-date inventory of its hardware and systems and the personnel to whom these have been issued, software and information assets (internal and external), details of its network resources, connections to its network and data flows.</p>
2(b)	Has the Depository Participant identified cyber risk or has the process to identify cyber risks (threats and vulnerabilities) that it may face, along with the likelihood of such threats and impact on the business and thereby, deploy controls commensurate to the criticality.
3	Protection
3(a)	<p>Access controls</p> <p>Whether the Depository Participant has a process to ensure that no person by virtue of rank or position has any intrinsic right to access confidential data, applications, system resources or facilities.</p>

Cyber Audit TOR Clause	Checkpoints Description
3(b)	<p>Access controls</p> <p>Whether any access to Depository Participant's systems, applications, networks, databases, etc., has a defined purpose and is for a defined period.</p> <p>Whether the Depository Participant grants access to IT systems, applications, databases, and networks on a need-to-use basis and the access is based on the principle of least privilege to provide security for both on-and off-premises resources (i.e., zero-trust models).</p> <p>Whether such access is granted for the period when the access is required and is authorized using strong authentication mechanisms.</p> <p>Whether maker-checker framework is implemented in strict manner and multi factor authentication (MFA) is enabled for all users that connect using online/internet facility and particularly for virtual private networks, webmail and user accounts that access critical systems and applications.</p>
3(c)	<p>Has the Depository Participant implemented an access policy which addresses strong password controls for users' access to systems, applications, networks, and databases.</p> <p>Whether the password policy includes clauses on:</p> <ol style="list-style-type: none"> 1. Periodic review of accounts of ex-employees. 2. Reuse of password across multiple accounts. 3. Not storing the list of passwords on the system <p>Illustrative examples for strong password controls are given in Annexure C of SEBI/HO/MIRSD/CIR/PB/2018/147 dated December 03, 2018</p>
3(d)	<p>Whether all critical systems of the Depository Participant accessible over the internet have two-factor security (such as VPNs, Firewall controls etc.)</p>
3(e)	<p>Whether the Depository Participant ensures that records of user access to critical systems, wherever possible, are uniquely identified and logged for audit and review purposes.</p> <p>Whether such logs are maintained and stored in a secure location for a time period not less than two (2) years.</p> <p>Has the Depository Participant implemented a strong log retention policy as per extant SEBI regulations and required by CERT-In and IT Act 2000.</p> <p>Has the Depository Participant audited all logs that are being collected.</p> <p>Whether the Depository Participant monitors incidents to identify unusual patterns and behaviours.</p>
3(f)	<p>Whether the Depository Participant deploys controls and security measures to supervise staff with elevated system access entitlements (such as admin or privileged users) to Depository Participant's critical systems.</p> <p>Whether such controls and measures inter-alia include restricting the number of privileged users, periodic review of privileged users' activities, disallow privileged users from accessing systems logs in which their activities are being captured, strong controls over remote access by privileged users.</p> <p>Whether maker-checker framework is implemented for modifying the user's right in internal applications.</p>
3(g)	<p>Whether the employees and outsourced staff such as employees of vendors or service providers, who may be given authorized access to the Depository Participant's critical systems, networks and other computer resources, are subject to stringent supervision, monitoring, and access restrictions.</p>
3(h)	<p>Whether the Depository Participant has formulated an Internet access policy to monitor and regulate the use of internet and internet-based services such as social media sites, cloud-based internet storage sites, etc. within the Depository Participant's critical IT infrastructure.</p>

Cyber Audit TOR Clause	Checkpoints Description
3(i)	Whether the User Management addresses the deactivation of access of privileges of users who are leaving the organization or whose access privileges have been withdrawn.
4	Physical Security
4(a)	Whether physical access to the critical systems is restricted to minimum and only to authorized officials. Whether physical access of outsourced staff/visitors is properly supervised by ensuring at the minimum that outsourced staff/visitors are always accompanied at all times by authorized employees.
4(b)	Whether physical access to the critical systems is revoked immediately if the same is no longer required.
4(c)	Whether the Depository Participant ensures that the perimeter of the critical equipment's room, if any, is physically secured and monitored by employing physical, human and procedural controls such as the use of security guards, CCTVs, card access systems, mantraps, bollards, etc. where appropriate
5	Network Security Management
5(a)	Has the Depository Participant established baseline standards to facilitate consistent application of security configurations to operating systems, databases, network devices and enterprise mobile devices within their IT environment.
5(b)	Whether the LAN and wireless networks are secured within the Depository Participant's premises with proper access controls.
5(c)	Whether the Depository Participant has installed network security devices, such as firewalls, proxy servers, intrusion detection and prevention systems (IDS) to protect its IT infrastructure which is exposed to the internet, from security exposures originating from internal and external sources.
5(d)	Whether adequate controls are deployed to address virus/ malware / ransomware attacks. These controls may include host/ network/ application-based IDS systems, customized kernels for Linux, anti-virus and anti-malware software etc.
5(e)	Whether the Depository Participant has deployed web and email filters on the network. Whether the Depository Participant has configured these devices to scan for known bad domains, sources, and addresses and block these before receiving and downloading messages. Whether the Depository Participant scans all emails, attachments, and downloads both on the host and at the mail gateway with a reputable antivirus solution.
5(f)	Whether the Depository Participant blocks the malicious domains/IPs after diligently verifying them without impacting the operations. Whether CSIRT-Fin/CERT-In advisories which are published periodically referred for latest malicious domains/IPs, C&C DNS and links.
5(g)	Whether the Depository Participant restricts execution of "PowerShell" and "wscript" in enterprise environment, if not required. Whether the Depository Participant ensures installation and use of the latest version of PowerShell, with enhanced logging enabled, script block logging and transcription enabled. Whether the Depository Participant sends the associated logs to a centralized log repository for monitoring and analysis.
5(h)	Whether the Depository Participant utilizes host-based firewall to prevent Remote Procedure Call (RPC) and Server Message Block (SMB) communication among endpoints whenever possible.

Cyber Audit TOR Clause	Checkpoints Description
5(i)	Whether the Depository Participant implements the practice of whitelisting of ports based on business usage at Firewall level rather than blacklisting of certain ports. Whether the traffic on all other ports which have not been whitelisted is blocked by default.
6	Data security
6(a)	Whether critical/sensitive and Personally Identifiable Information (PII) data is identified, classified, and encrypted in motion and at rest by using strong encryption methods. Illustrative measures in this regard are given in Annexure A and B of SEBI circular SEBI/HO/MIRSD/CIR/PB/2018/147 dated December 03, 2018
6(b)	Has the Depository Participant implemented measures to prevent unauthorized access or copying or transmission of data/ information held in contractual or fiduciary capacity. Whether it is ensured that confidentiality of information is not compromised during the process of exchanging and transferring information with external parties. Illustrative measures to ensure security during transportation of data over the internet are given in Annexure B of SEBI circular SEBI/HO/MIRSD/CIR/PB/2018/147 dated December 03, 2018
6(c)	Whether the information security policy also covers use of devices such as mobile phones, faxes, photocopiers, scanners, etc., within their critical IT infrastructure, that can be used for capturing and transmission of sensitive data. For instance, defining access policies for personnel, and network connectivity for such devices etc.
6(d)	Whether the Depository Participant allows only authorized data storage devices within their IT infrastructure through appropriate validation processes.
6(e)	Whether the Depository Participant has enforced BYOD (Bring your own device) security policies, like requiring all devices to use a business-grade VPN service and antivirus protection.
6(f)	Whether the Depository Participant has deployed detection and alerting tools. Whether the Depository Participant has created data leakage prevention (DLP) solutions/ processes inclusive of detection, alerting, prevention, containment & response to a data breach/ data leak.
6(g)	Whether the Depository Participant has enforced effective data protection, backup, and recovery measures.
7	Hardening of Hardware and Software
7(a)	Whether the Depository Participant only deploys hardened hardware/ software, including replacing default passwords with strong passwords and disabling or removing services identified as unnecessary for the functioning of the system.
7(b)	Whether open ports on networks and systems which are not in use or that can be potentially used for exploitation of data are blocked and measures are taken to secure them.
8	Application Security in Customer Facing Applications
8(a)	Whether the Depository Participant's customer facing applications offered over the Internet such as portals containing sensitive or private information and back-office applications, are secured. (Illustrative list of measures for ensuring security in such applications is provided in Annexure C of SEBI circular SEBI/HO/MIRSD/CIR/PB/2018/147 dated December 03, 2018)
9	Certification of off-the-shelf products

Cyber Audit TOR Clause	Checkpoints Description
9(a)	<p>Whether the Depository Participant has ensured that off the shelf products being used for core business functionality (such as Back-office applications) bear Indian Common Criteria Certification of Evaluation Assurance Level 4 provided by Standardization Testing and Quality Certification (STQC), Ministry of Electronics and Information Technology</p> <p>Whether custom developed/ in-house software and components have undergone intensive regression testing, configuration testing etc. and whether the scope of tests include business logic and security controls as well.</p>
10	Patch management
10(a)	<p>Whether the Depository Participant has included all operating systems and applications for updating latest patches on a regular basis.</p> <p>Whether the Depository Participant has established and ensured that patch management procedures include the identification, categorization and prioritization of patches and updates.</p> <p>Whether an implementation timeframe for each category of patches is established, to apply them in a timely manner.</p> <p>Where patches are not available, has the Depository Participant considered virtual patching for protecting systems and networks.</p> <p>Are the patches sourced only from the authorized sites of the OEM.</p>
10(b)	<p>Has the Depository Participant performed rigorous testing of security patches and updates, where possible, before deployment into the production environment so as to ensure that the application of patches do not impact other systems.</p>
11	Disposal of data, systems, and storage devices
11(a)	<p>Has the Depository Participant framed suitable policy for disposal of storage media and systems.</p> <p>Whether the critical data/ information on such devices and systems removed by using methods such as crypto shredding/ degauss/ physical destruction as applicable.</p>
11(b)	<p>Has the Depository Participant formulated a data-disposal and data-retention policy to identify the value and lifetime of various parcels of data.</p>
12	Vulnerability Assessment and Penetration Testing (VAPT)
12(a)	<p>Has the Depository Participant carried out periodic Vulnerability Assessment and Penetration Tests (VAPT) which inter-alia includes critical assets and infrastructure components like Servers, Networking systems, Security devices, Load balancers, other IT systems pertaining to the activities done as Depository Participant, in order to detect security vulnerabilities in the IT environment and in-depth evaluation of the security posture of the system through simulation of actual attacks on its system and networks.</p>
12(b)	<p>Has the Depository Participant conducted VAPT at least once in a financial year.</p> <p>Has the Depository Participant engaged only CERT-In empanelled organizations for conducting VAPT.</p> <p>Whether the final report on said VAPT has been submitted to the Depository after approval from Technology Committee of Depository Participant, within 1 month of completion of VAPT activity.</p>
12(c)	<p>Has the Depository Participant performed vulnerability scanning and conducted penetration testing prior to the commissioning of a new system which is a critical system or part of an existing critical system.</p>

Cyber Audit TOR Clause	Checkpoints Description
12(d)	In case of vulnerabilities discovered in off-the-shelf products (used for core business) or applications provided by vendors, has the Depository Participant reported them to the vendors and the Depository in a timely manner.
12(e)	Whether any gaps/vulnerabilities detected are remedied on immediate basis and compliance of closure of findings identified during VAPT is submitted to the Depository within 3 months post the submission of final VAPT report.
13	Monitoring and Detection
13(a)	Whether the Depository Participant has established appropriate security monitoring systems and processes to facilitate continuous monitoring of security events/ alerts and timely detection of unauthorised or malicious activities, unauthorised changes, unauthorised access and unauthorised copying or transmission of data/ information held in contractual or fiduciary capacity, by internal and external parties. Whether the security logs of systems, applications and network devices exposed to the internet are monitored for anomalies to identify unusual patterns and behaviours.
13(b)	Whether the Depository Participant has implemented suitable mechanisms to monitor capacity utilization of its critical systems and networks that are exposed to the internet to ensure high resilience, high availability, and timely detection of attacks on systems and networks exposed to the internet, for example, controls such as firewalls to monitor bandwidth usage.
13(c)	Whether the Depository Participant is proactively monitoring the cyberspace to identify phishing websites w.r.t. to REs domain and reporting the same to CSIRT- Fin/CERT-In for taking appropriate action.
14	Response and Recovery
14(a)	Whether the alerts generated from monitoring and detection systems are suitably investigated to determine activities that are to be performed to prevent expansion of such incident of cyber-attack or breach, mitigate its effect, and eradicate the incident.
14(b)	Does the response and recovery plan of the Depository Participant include timely restoration of systems affected by incidents of cyber-attacks or breaches, for instance, offering alternate services or systems to Customers. Whether the Depository Participant has the same Recovery Time Objective (RTO) and Recovery Point Objective (RPO) as specified by SEBI for Market Infrastructure Institutions vide SEBI circular CIR/MRD/DMS/17/20 dated June 22, 2012, as amended from time to time
14(c)	Whether the response plan also defines responsibilities and actions to be performed by its employees and support/ outsourced staff in the event of cyber-attacks or breach of Cyber Security mechanism.
14(d)	Whether incidents of loss or destruction of data or systems are thoroughly analysed
14(e)	Whether lessons learned from such incidents are incorporated to strengthen the security mechanism and improve recovery planning and processes.
14(f)	Whether the Depository Participant also conducts suitable periodic drills to test the adequacy and effectiveness of the response and recovery plan. Whether the Depository Participant has conducted Periodic DR drills.

Cyber Audit TOR Clause	Checkpoints Description
15	Sharing of Information
15(a)	<p>Whether all Cyber-attacks, threats, cyber-incidents and breaches experienced by Depository Participant are reported to Depository /CERT-In and SEBI within 6 hours of noticing/ detecting such incidents or having such incidents brought to notice.</p> <p>Whether this information is shared with CERT-In and SEBI through the dedicated e-mail id: incident@cert-in.org.in & sbdp-cyberincidents@sebi.gov.in.</p>
15(b)	<p>The incident shall also be reported to Indian Computer Emergency Response team (CERT-In) in accordance with the guidelines/ directions issued by CERT-In from time to time.</p> <p>Additionally, the Depository Participant, whose systems have been identified as "Protected system" by National Critical Information Infrastructure Protection Centre (NCIIPC) shall also report the incident to NCIIPC.</p>
15(c)	<p>Whether quarterly reports containing information on cyber-attacks, threats, cyber-incidents and breaches experienced by Depository Participant and measures taken to mitigate vulnerabilities, threats and attacks including information on bugs/ vulnerabilities / threats that may be useful for other Depository Participants, are submitted to Depository within 15 days from the quarter ended June, September, December and March of every year.</p>
16	Training and Education
16(a)	<p>Whether the Depository Participant has conducted activities on building Cyber Security and basic system hygiene awareness of staff (with a focus on staff from non-technical disciplines).</p>
16(b)	<p>Whether the Depository Participant conducts periodic training programs to enhance knowledge of IT/ Cyber Security policy and standards among the employees incorporating up-to-date Cyber Security threat alerts and advisories issued by CERT- In/ CSIRT-Fin that may be referred for assistance in conducting exercises for public awareness.</p> <p>Whether the training programs are extended to outsourced staff, vendors etc and whether the training programs are reviewed and updated to ensure that the contents of the program remain current and relevant.</p>
16(c)	<p>Whether the Depository Participant provides training to the employees to avoid clicking on a link in a spear-phishing email, reusing their personal password on a work account, mixing personal with work email and/or work documents, or allowing someone, they should not, use their corporate device, especially in Work from Home environment.</p>
17	Systems managed by vendors
17(a)	<p>Where the systems (Back office and other Customer facing applications, IT infrastructure, etc.) of a Depository Participant are managed by vendors and the Depository Participant may not be able to implement some of the aforementioned guidelines directly, whether the Depository Participant has instructed the vendors to adhere to the applicable guidelines in the Cyber Security and Cyber Resilience policy and obtain the necessary self-certifications from them to ensure compliance with the policy guidelines.</p>
18	SEBI Compliances
18(a)	<p>Auditor to ensure implementation of circulars, notices, guidelines, and advisories published by CERT-In/ CSIRT-Fin and SEBI and mention:</p> <ol style="list-style-type: none"> Adherence to all such circulars, notices, guidelines, and advisories published Reporting adherences based on prescribed periodicity in point (a) above

Cyber Audit TOR Clause	Checkpoints Description
19	Advisory for Financial Sector Organizations:
19(a)	Whether the Depository Participant has complied with the SEBI circular no. SEBI/HO/MIRSD2/DOR/CIR/P/ 2020/221 dated November 03, 2020, for Advisory for Financial Sector Organizations regarding Software as a Service (SaaS) based solutions.
20	Cyber Security Advisory - Standard Operating Procedure (SOP)
20(a)	Whether all aspects of the Cyber Security Advisory - Standard Operating Procedure (SOP) issued by SEBI have been complied by the Depository Participant
20(b)	Whether the Depository Participant has a well-documented Cyber Security incident handling process document (Standard Operating Procedure - SOP) in place. Whether such policy is approved by Board of the Depository Participant (in case of corporate Depository Participant), Partners (in case of partnership firms) or Proprietor (in case of sole proprietorship firm) as the case may be and is reviewed annually by the "Designated Officer" and "Technology Committee" as constituted under SEBI circular SEBI/HO/MIRSD/CIR/PB/2018/147 dated December 03, 2018, for review of Security and Cyber Resilience policy.
20(c)	Has the Depository Participant examined the Cyber Security incident and classified the Cyber Security incidents into High/ Medium/ Low as per their Cyber Security incident handling process document. Has the Cyber Security incident handling process document defined decision on Action/ Response for the Cyber Security incident based on severity.
20(d)	Has the Depository Participant reported the Cyber Security incident to Indian Computer Emergency Response Team (CERT-In).
20(e)	Whether the Depository Participant has provided the reference details of the reported Cyber Security incident with CERT-In to the Depository and SEBI. Whether the Depository Participant has provided details, regarding whether CERT-In team is in touch with the Depository Participant for any assistance on the reported Cyber Security incident. If the Cyber Security incident is not reported to CERT-In, has the Depository Participant submitted the reasons for the same to the Depository and SEBI. Whether the Depository Participant has communicated with CERT-In/ Ministry of Home Affairs (MHA)/ Cyber Security Cell of Police for further assistance on the reported Cyber Security incident.
20(f)	Whether the Depository Participant has submitted details about whether the Cyber Security incident has been registered as a complaint with law enforcement agencies such as Police or its Cyber Security cell. If yes, are the details provided to Depository and SEBI. If no, then the reason for not registering complaint has been provided to Depository and SEBI.
20(g)	Whether the details of the reported Cyber Security incident submitted to various agencies by the Depository Participant are also submitted to Division Chiefs (in-charge of divisions at the time of submission) of DOS-MIRSD and CISO of SEBI in accordance with SEBI email dated April 16, 2021 on Standard Operating Procedure (SOP) for handling cyber security incidents
20(h)	The Designated Officer of the Depository Participant (appointed in terms of para 6 of the SEBI circular SEBI/HO/MIRSD/CIR/PB/2018/147 dated December 03, 2018) shall continue to report any unusual activities and events within 6 hours of receipt of such information as well as submit the quarterly report on the cyber-attacks & threats within 15 days after the end of the respective quarter in the manner as specified in Depository Participant circular.

Cyber Audit TOR Clause	Checkpoints Description
20(i)	Has the Depository Participant complied with Advisory for SEBI Regulated Entities (REs) regarding Cybersecurity best practices - SEBI/HO/ITD/ITD_VAPT/P/CIR/2023/032 dated February 22, 2023
21	Security of Cloud Services
21(a)	Whether the Depository Participant checks public accessibility of all cloud instances in use. Whether the Depository Participant ensures that no server/bucket is inadvertently leaking data due to inappropriate configurations.
21(b)	Whether the Depository Participant ensures proper security of cloud access tokens and ensures that the tokens are not exposed publicly in website source code, any configuration files etc.
21(c)	Whether the Depository Participant has implemented appropriate security measures for testing, staging and backup environments hosted on cloud. Does the Depository Participant ensures that the production environment is kept properly segregated from these. Whether the Depository Participant disables/removes older or testing environments if their usage is no longer required.
21(d)	Whether the Depository Participant has considered employing hybrid data security tools that focus on operating in a shared responsibility model for cloud-based environments.
21(e)	Whether the Depository Participant has complied with the SEBI circular SEBI/HO/ITD/ITD_VAPT/P/CIR/2023/033 dated March 06, 2023 for cloud framework

Procedure for submission of modification in the website URL of participants through e-PASS**Process flow:**

- a. Participant Maker shall raise the request, and the Participant Checker approves such request after verification for submission to NSDL.
- b. Once the Participant Checker successfully submits the details, the request will be sent to NSDL user for approval.
- c. Upon approval of the request by NSDL user, details in the request will be updated in NSDL's records. If the request is rejected by NSDL user, then Participant shall re-initiate a fresh request for updation.
- d. The Participant can track the status of the request submitted to NSDL through the e-PASS portal under the "e-info" tab.

1. Steps for Participant Maker:

After logging into e-PASS, go to the “e-info” tab and click on “Primary Details” to update the Website URL as exhibited below:

The **Participant Maker** can edit the existing details available in NSDL records by clicking on the “Edit” button as exhibited below:

 The screenshot shows the 'Primary Information' form in the NSDL e-PASS portal. The form is divided into two columns. The left column contains fields for Fax Number, Mobile No*, and Email Id*. The right column contains fields for Fax Number, Mobile No*, and Email Id*. Below these columns is a 'Website URL' section with a 'Website URL *' field and a 'Date of Modification *' field. A red arrow points to the 'Edit' button located at the bottom right of the form.

As per SEBI guidelines, any modification in the Website URL must be submitted to NSDL within **3 days**. If submitted after 3 days, a pop-up alert will appear as below:

The screenshot shows the NSDL Participant-Inspection Audit and Supervision System interface. A pop-up alert box is displayed in the center, stating: "10.150.7.84 says: As per SEBI/NSDL guidelines, the modification in URL shall be submitted to NSDL within 3 days from the date of modification." Below the alert, there is a form with fields for "Primary Information" (Fax Number, Mobile No, Email Id) and "Website URL" (Website URL, Date of Modification). A calendar widget is open, showing the date "Thursday, December 12, 2024".

After updating the details, click on “Save Draft” to save the changes as exhibited below:

The screenshot shows the NSDL Participant-Inspection Audit and Supervision System interface. The "Website URL" section is visible, with fields for "Website URL" (www.test.com) and "Date of Modification" (16/12/2024). Below the form, there are four buttons: "Back", "Reset", "Save Draft", and "Submit". The "Save Draft" button is highlighted with a red box and a red arrow pointing to it.

Click on “Submit” to send the request to the Participant Checker for review and approval, as exhibited below:

The screenshot shows the NSDL Participant-Inspection Audit and Supervision System interface. The "Website URL" section is visible, with fields for "Website URL" (www.test.com) and "Date of Modification" (18/12/2024). Below the form, there are four buttons: "Back", "Reset", "Save Draft", and "Submit". The "Submit" button is highlighted with a red box and a red arrow pointing to it.

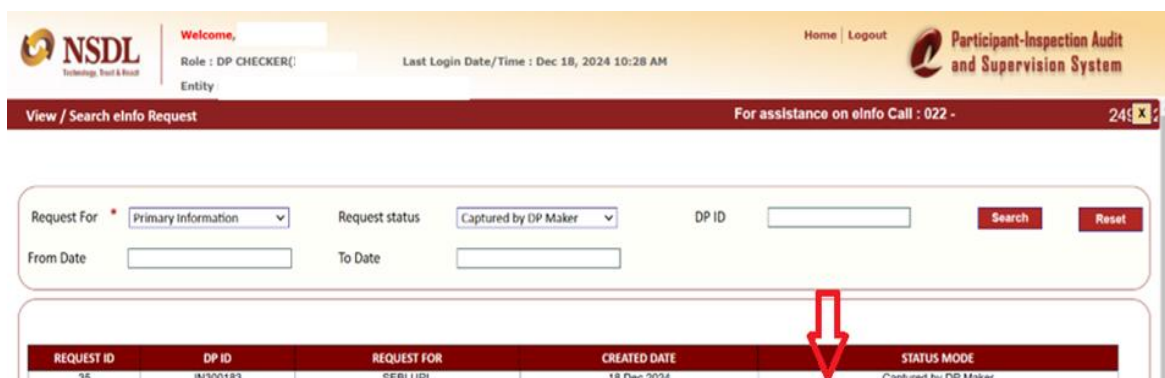

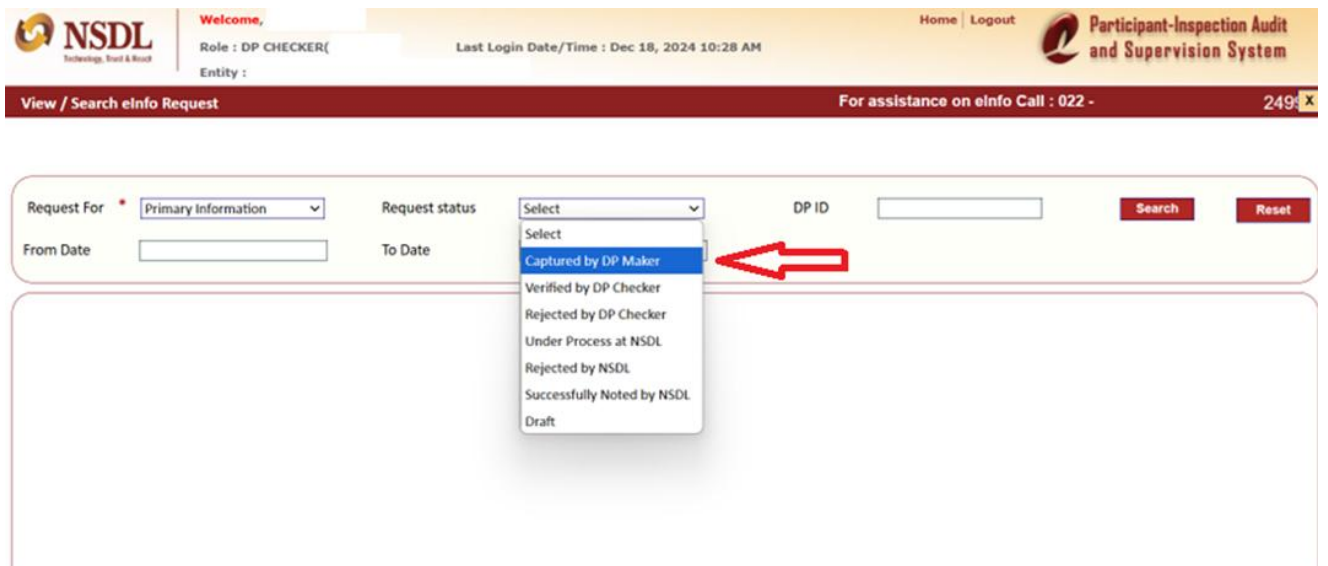

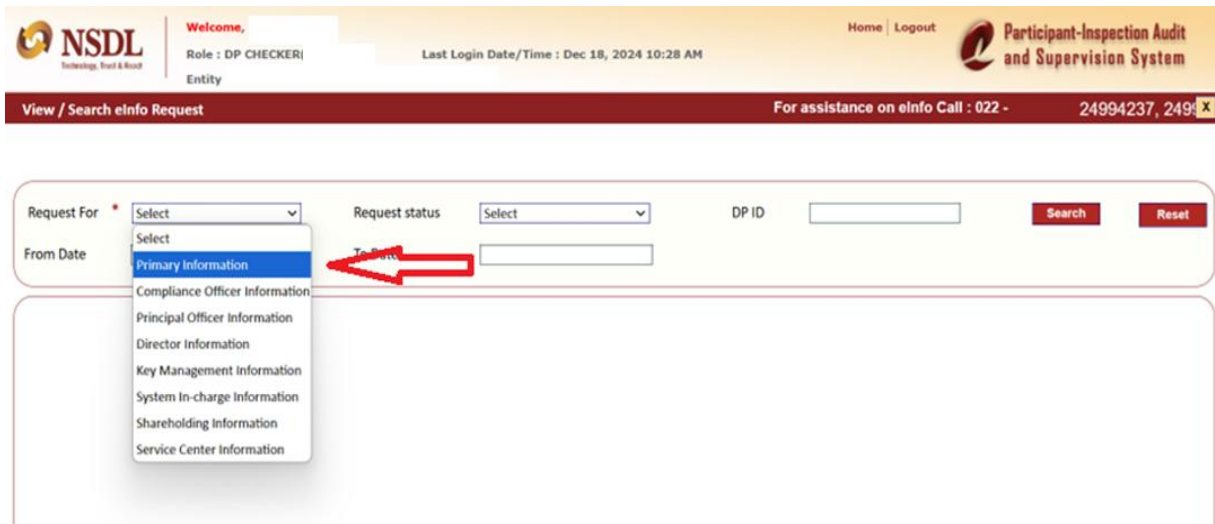

The screenshot shows the NSDL Participant-Inspection Audit and Supervision System interface. A success message is displayed in the center: "10.150.7.84 says: Record Added successfully with Request Id as - 35". Below the message is an "OK" button.

2. Approval/Rejection by Participant Checker:

The **Participant Checker** can find requests raised by the Participant Maker under “**View / Update DP Database**” → “**Verify/Search Pending Requests.**”

Select the request type from the drop-down menu, choose “**Captured by Participant Maker**” as the request status, and click “**Search**” to view pending requests as exhibited below:

Requests submitted by the Participant Maker will appear, with modified fields highlighted in **yellow** for easy identification.

The Participant Checker **cannot** modify details but can either **Approve** or **Reject** the request as exhibited below:

- If corrections are needed, the **Participant Checker must Reject** the request, providing a reason. It will then be sent back to the Participant Maker for necessary changes.
- If the details are correct, the **Participant Checker must Approve** the request and click “**Submit**” to forward it to NSDL.

The screenshot shows the NSDL Participant-Inspection Audit and Supervision System interface. The header includes the NSDL logo, a welcome message, the user's role (DP CHECKER), the last login date/time (Dec 18, 2024 10:28 AM), and links for Home and Logout. The main section is titled 'Primary Information' and contains a 'Website URL' field with the value 'www.test.com' and a 'Date of Modification' field with the value '18/12/2024'. Below these fields are two buttons: 'Approve' and 'Reject'. The 'Approve' button is highlighted with a red box. At the bottom of the form are 'Back' and 'Submit' buttons.

The screenshot shows the NSDL Participant-Inspection Audit and Supervision System interface. The header is identical to the previous screenshot. The main section is titled 'Primary Information' and contains the same 'Website URL' and 'Date of Modification' fields. Below these fields is a 'Rejection Reason' field, which is highlighted with a red box. To the right of the 'Rejection Reason' field are two buttons: 'Approve' and 'Reject'. The 'Reject' button is highlighted with a blue dot. At the bottom of the form are 'Back' and 'Submit' buttons.

Participant Maker/ Checker user will be able to view the rejected requests in “**View/Search Pending Request**”.

3. Tracking Request Status & NSDL Approval:

Once the Participant Checker submits the request, it will be sent to NSDL for review, and the status will be updated as “**Verified by DP Checker/Under Process at NSDL.**”

3.1 Approval of Request by NSDL:

If NSDL finds all details correct, the request will be **approved**, and the status will change to “**Successfully Noted by NSDL.**” No further action is required.

The screenshot shows the NSDL Participant-Inspection Audit and Supervision System interface. The header includes the NSDL logo, a welcome message, user role (DP MAKER), last login date/time (Dec 18, 2024 10:33 AM), and navigation links (Home, Logout). A red banner at the top contains the text "View / Search einfo Request" and "For assistance on einfo Call : 022 - 249942". Below the banner is a search form with fields for "Request For" (Primary Information), "Request status" (Select), "DP ID", "From Date", and "To Date". There are "Search" and "Reset" buttons. Below the search form is a table with the following data:

REQUEST ID	DP ID	REQUEST FOR	CREATED DATE	STATUS MODE
35	IN300183	SEBI URL	18 Dec 2024	Successfully Noted by NSDL
34	IN300183	SEBI URL	18 Dec 2024	Rejected by NSDL

A red arrow points to the "Successfully Noted by NSDL" status in the first row of the table.

3.2 Rejection of request by NSDL:

If NSDL finds discrepancies, the request will be rejected with remarks, and the status will change to “Rejected by NSDL.”

The Participant must initiate a fresh request following the process outlined in Steps 1 & 2.

The screenshot shows the NSDL Participant-Inspection Audit and Supervision System interface, similar to the previous one. The header and search form are identical. Below the search form is a table with the following data:

REQUEST ID	DP ID	REQUEST FOR	CREATED DATE	STATUS MODE
35	IN300183	SEBI URL	18 Dec 2024	Successfully Noted by NSDL
34	IN300183	SEBI URL	18 Dec 2024	Rejected by NSDL

A red arrow points to the "Rejected by NSDL" status in the second row of the table.

Procedure for submitting NISM-Series-III-A (SICCE) certification details for Compliance Officer**1. Submission through DP Maker login:**

After login to e-PASS, for updating NISM details click on ‘e-info’ → ‘Compliance Officer’

On clicking on “Compliance Officer”, DP Maker can edit the pre-populated details of compliance officer as available in NSDL records by clicking on “Edit”. DP Maker is required to fill-up NISM details i.e. Certificate Code, Date of the NISM exam / CPE, Registration Number, Expiry date and copy of NISM certificate as exhibited below:

 The screenshot shows the 'Compliance Officer Information' form. It has a title bar 'Compliance Officer Information'. Below it, there are several fields: 'Certificate Code' with checkboxes for 'NISMS03A' and 'NISMS06A'; 'Date of the Exam/CPE' with a text input field; 'Registration No.' with a text input field; 'Expiry Date' with a text input field; and 'Upload NISM Certificate' with a 'Browse...' button and icons for upload and delete.

After updating the required details pertaining to compliance officer, DP Maker need to click on “Save Draft” button to capture the necessary details. The same is exhibited as below:

DP Maker need to click on “Submit” button so that the request is submitted to “DP Checker” for review and approval, as exhibited below:

2. Process of Approval / Rejection of details by DP Checker on e-info.

Once the details are captured by Maker user, same needs to be verified by the user having Checker rights (i.e. Compliance Officer/ Alternative Compliance Officer) for submission to NSDL. DP Checker user can view the requests captured by DP Maker, after login to e-PASS, click on **“e-info”** → **“Verify/Search Pending Requests”**.

DP Checker can Select the type of request from the drop-down list and select request status as **“Captured by DP Maker”** and click on the tab **“Search”** as exhibited below:

REQUEST ID	DP ID	PARTICIPANT NAME	REQUEST FOR	CREATED DATE	STATUS MODE
8	IN300476	HDFC Bank Limited	Compliance Officer	31 Dec 2024	Captured by DP Maker

After applying **“Search”** filter, all request raised by DP Maker will appear on the screen, DP Checker can view the request details and changes captured by the DP Maker by clicking on the respective record. Fields modified by DP Maker will be highlighted in **“Yellow”** color for easy identification. DP Checker does not have any rights to modify any details as submitted by DP Maker. DP Checker can only ‘Approve’ or ‘Reject’ the request as submitted by DP Maker. In case of any correction required to be done by DP Checker, he can ‘Reject’ the request by providing the reason for such rejection. On rejecting the request, the request will be sent back to DP Maker for making necessary changes and re-submitting the same.

After selecting the details captured by DP maker, DP checker can view the details as exhibited below. On selecting “Approve” and then clicking on tab “Submit”, the request will be submitted to NSDL for review and approval.

The screenshot shows a web interface for a DP checker. At the top, there are two radio buttons: "Approve" (selected) and "Reject". Below these are two buttons: "Back" and "Submit". The "Approve" button is highlighted with a red box.

In case of rejection, DP can reject the request selecting **Reject** option and DP checker will have to add remark for rejecting the request as **exhibited below**. DP Maker/ Checker user will be able to view the rejected requests in “View/Search Pending Request”.

The screenshot shows a web interface for a DP checker. It features a text box labeled "Rejection Reason :". Below the text box are two radio buttons: "Approve" and "Reject" (selected). At the bottom are two buttons: "Back" and "Submit". The entire form area is highlighted with a red box.

3. Tracking of status of Application and Approval / Rejection by NSDL

On successfully submitting the details by DP Checker, the request will be submitted to NSDL for review and approval and the status of request will be reflected as “**Verified by DP Checker/Under process at NSDL**”.

3.1 Approval of Request by NSDL:

NSDL will review the request submitted by participant and if all the details captured correctly, NSDL will approve the request and the status of request will change to “**Successfully Noted by NSDL**”. No further action will be required by the Participant on the said request.

The screenshot shows the NSDL Participant-Inspection Audit and Supervision System interface. It includes a header with the NSDL logo, user information, and navigation links. Below the header is a search bar with fields for "Request For", "Request status", "DP ID", "From Date", and "To Date". A "Search" button is present. Below the search bar is a table with the following data:

REQUEST ID	DP ID	PARTICIPANT NAME	REQUEST FOR	CREATED DATE	STATUS MODE
8	IN300476	HDFC Bank Limited	Compliance Officer	31 Dec 2024	Rejected by NSDL
7	IN300476	HDFC Bank Limited	Compliance Officer	30 Dec 2024	Successfully Noted by NSDL

A red arrow points to the "Successfully Noted by NSDL" status in the table.

3.2 Rejection of request by NSDL:

NSDL will review the request submitted by Participant and in case of any discrepancy will reject the request with necessary remarks. On rejection of request by NSDL, the status of request will change to “**Rejected by NSDL**”. In such cases, DP will have to initiate the fresh request for updating the details to NSDL by following the steps/ process as mentioned in point no. 1 above and checker will have to approve/submit report by following the steps/ process mentioned at point no. 2 above.

ANNEXURE Z6

Procedure for submitting NISM certification details of eligible associated persons

1. Submission through Maker login:

After login to e-PASS, click on 'Others' → 'NISM Certification' → 'Submit NISM Certification' as exhibited below:

Upon clicking on 'Submit –NISM Certification', DP IDs of Participant (in case of multiple DPM set-ups) needs to be selected. Once DP ID is selected thereafter click on 'Submit' button as exhibited below:

A screenshot of the 'Submit NISM Certification' form. The form has a dark red header bar with the title 'Submit NISM Certification'. Below the header, there are three main input fields: 'Period' with a dropdown menu showing '(See Below)', 'DP ID' with a dropdown menu showing 'IN123456~ ABCDEF', and 'Sebi Registration No' with a text input field containing 'IN-DP-NSDL-21-1234'. At the bottom of the form, there are two buttons: 'Reset' and 'Submit'.

After click on Submit button, user will have to provide details like 'PAN of Concerned Person', 'Name of concerned person', 'Designation', Certificate code, 'Date of the Exam' and 'expiry date' etc of the eligible associated persons as exhibited below. There is also an option to upload the proof of NISM certificate, enrollment proof evidencing the details. Kindly take note that the upload file should be in PDF or Zip format only. For upload facility, browse the file and click on upload option.

The user will have to click on 'Save Draft' and proceed to click on 'Sent to Checker' tab.

A screenshot of the 'Submit NISM Certification' form. The form has a dark red header bar with the title 'Submit NISM Certification'. Below the header, there is a table with 6 columns: 'Sr. No.', 'PAN of concerned person *', 'Name of concerned person *', 'Designation *', 'CertificateCode', 'Date of the Exam', and 'Expiry date'. The first row of the table is filled with '1', an empty field, an empty field, an empty field, a dropdown menu showing '(See Below)', an empty field, and an empty field. Below the table, there is a horizontal scrollbar. Below the scrollbar, there is an 'Upload Document' section with a 'Choose File' button, a 'No file chosen' message, an upload icon, and a trash icon. Below the upload section, there is a red note: 'Note: Type of file to be PDF/zip file'. At the bottom of the form, there are three buttons: 'Reset', 'Save Draft', and 'Sent to Checker'.

Once the report is submitted by maker by clicking on 'Sent to Checker', the status of report will get changed to 'Submitted to Checker' and same will be viewed as exhibited below:

It may be noted that, report captured by Maker user cannot be edited by Checker user. In case any changes are required to be done in report captured by Maker user, then same will have to be returned to Maker user by Checker user. For sending back the report to Maker user, reason for sending back the report is required to be provided mandatorily in the text box ‘Rejection Reason’. In respect of report(s) returned by Checker, maker user will have to make the necessary changes by following the steps/ process as mentioned in point no. 1 above and checker will have to approve/submit report by following the steps/ process mentioned at point no. 2 above.

In case there is any change in details of Checker User i.e. Compliance Officer's/ Alternative Compliance Officer's name, email ID and mobile number, Participants are advised to update the details through e-PASS as per the procedure mentioned in Annexure Q under Chapter 11 (Internal Controls) of NSDL Master Circular for Participants.

ANNEXURE Z7

Procedure for addition/modification of auditor's user login for auditor type 'IAR /CAR ' through e-PASS

A. For addition of user for auditor, Participant is required to follow the below mentioned steps:

After login to e-PASS by Checker, under Masters module, click on 'Auditor Master' as exhibited below:

1. Addition of Auditor User ID:

- a. In order to add Auditor user ID for making necessary submission to NSDL, Participant needs to select "Add" button and enter the email ID of the Auditor in the field "Email ID". Participant will have to enter all the mandatory details of auditor including the new fields i.e. NISM Certificate No.; NISM Validity Date; Firm Address. In auditor type, the Participant has to select whether the auditor is for internal or concurrent audit or for both internal and concurrent audit. The Participant will have to click its relevant DP IDs which need to be mapped with the auditor. The Auditor will be able to submit the IAR/CAR only for the mapped DP IDs. Auditor details with such mapping will be added once Participant will save the details by clicking 'Save' button provided on the screen. Once the Auditor User is created, an Auditor ID will be created, which can be used by the Participant as an additional criteria for conducting search. The relevant screenshot is exhibited below:

- b. Email ID of the auditor will be used as user ID for login by auditor. At the time of first login, the default Password to be entered is “NsdI@123”. Upon clicking on “Generate OTP”, a One Time Password (OTP) will be sent on registered mobile number and email ID of Auditor as entered by the Participant in auditor details at the time of addition of auditor. The OTP and default password has to be used by the auditor for first login. On first login, e-PASS portal will prompt the auditor to change the password. The password has to be alpha numeric with at least one special character, one alphabet in Capital & one number. Upon successfully changing the password, the auditor needs to re-login with new password to get access to e-PASS.

2. Modification of Auditor User ID:

- a. Modification of auditor details can be done in either of the following two methods: i) Participant can select the auditor ID from drop down in which modification is required. On selection of the auditor ID to be modified, details of the auditor will be displayed on the screen. Participant is required to select “modify” radio button and modify the details of the auditor. The email ID of the auditor cannot be modified. ii) Alternatively, Participant can do a search on email ID by entering the email id of the auditor in the Email ID field and then click on “Check” button. The details of auditor will be displayed on the screen. Participant is required to select “modify” radio button and modify the details of the auditor except for the email ID of the auditor. Participant will be able to make necessary changes in the existing details i.e. NISM details and Firm address of auditor and then save the details of auditor by clicking on save button. The relevant screen is exhibited below.

7.3	Scanning of Delivery Instruction Slips (DIS) and Tamper proof storage of DIS images			
7.3.1	Whether every DIS executed in the DPM is scanned alongwith all annexures / computer printouts (if any) by the end of the next working day and digitally signed image of the same is posted on DIVS system successfully for validation and digitally signature of NSDL?	<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Applicable	If no, then number of cases along with the nature of discrepancies must be mentioned here	
7.3.2	Whether the Participant scans the DIS received through fax and post the same to the DIVS and whenever original DIS is received the same is also scanned and posted on DIVS system within one working day from receipt of original DIS?	<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Applicable	If no, then number of cases along with the nature of discrepancies must be mentioned here	
7.3.3	Whether scanned images of DIS are legible and tagged to the correct DIS serial number?	<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Applicable	If no, then number of cases along with the nature of discrepancies must be mentioned here	

Checklist				
Sr. No.	Audit Areas	Auditor's Observation	Auditor's Remarks	Management's Comment*
7.3.4	Whether the NSDL signed DIS images are stored in the system set up by the Participant as per the specification of NSDL?	<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Applicable	If no, then number of cases along with the nature of discrepancies must be mentioned here	
7.3.5	Whether authorized replacement of the original DIS image is carried out as per NSDL guidelines and the reason for such replacement is appropriately recorded in the Index file?	<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Applicable	If no, then details of the non compliance must be mentioned here	
7.3.6	Whether tamper proof storage system of DIS images in which the NSDL signed DIS images (i.e. response files generated by DIVS) are stored, maintain proper records of all NSDL signed DIS images including audit trail for changes made, if any and have adequate checks and procedures to prevent unauthorized changes to scanned DIS images?	<input type="checkbox"/> Yes <input type="checkbox"/> No	If no, then details of the non compliance must be mentioned here	
7.3.7	Whether tamper proof storage system restricts unauthorized alteration or deletion?	<input type="checkbox"/> Yes <input type="checkbox"/> No	If no, then details of the non compliance must be mentioned here	
7.3.8	Whether tamper proof storage system is in compliance with the specification prescribed by NSDL?	<input type="checkbox"/> Yes <input type="checkbox"/> No	If no, then details of the non compliance must be mentioned here	
7.3.9	Whether tamper proof storage system has facility to check integrity of the system?	<input type="checkbox"/> Yes <input type="checkbox"/> No	If no, then details of the non compliance must be mentioned here	
7.3.10	Whether alert generated by tamper proof storage system during integrity check are monitored, corrective actions are taken and reported the same to NSDL by the Participant?	<input type="checkbox"/> Yes <input type="checkbox"/> No	If no, then details of the non compliance must be mentioned Here	
7.4	E-DIS			

Checklist				
Sr. No.	Audit Areas	Auditor's Observation	Auditor's Remarks	Management's Comment*
7.4.1	Whether e-DIS facility provided by DP ensures capturing all details that are otherwise being captured in physical DIS ?	<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Applicable	If no, then details of the non compliance must be mentioned here	
7.4.2	Whether instruction given by BO through e-DIS is towards actual transfer of securities to meet obligation for a single settlement number / date?	<input type="checkbox"/> Yes <input type="checkbox"/> No Not Applicable	If no, then details of the non compliance must be mentioned here	
7.4.3	Whether DP ensures that Pre-trade authorisation / Mandate is obtained from BO authorising DP to transfer specific securities for meeting on-market settlement obligation only?	<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Applicable	If no, then details of the non compliance must be mentioned here	
7.4.4	Whether mandate provided by BO pertain to a single settlement number /settlement date?	<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Applicable	If no, then details of the non compliance must be mentioned here	
7.4.5	Whether Securities transferred on basis of mandate provided by client are credited only to client's trading member pool account?	<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Applicable	If no, then details of the non compliance must be mentioned here	
7.4.6	Whether DP ensures that the mandate provided by the client is in its favour and does not authorize any assignee of the DP?	<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Applicable	If no, then details of the non compliance must be mentioned here	
7.4.7	Whether mandate does not facilitate DP to transfer securities for off market trades and to execute trades in the name of client without client's consent?	<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Applicable	If no, then details of the non compliance must be mentioned here	
7.4.8	Whether mandate does not facilitate the DP to open an email ID on behalf of client for receiving relevant communications?	<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Applicable	If no, then details of the non compliance must be mentioned here	
7.4.9	Whether mandate does not prohibit to issue DIS to BO and also from operating the account?	<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Applicable	If no, then details of the non compliance must be mentioned here	
7.5	Dormant Account Monitoring			

Checklist				
Sr. No.	Audit Areas	Auditor's Observation	Auditor's Remarks	Management's Comment*
7.5.1	Whether in case of an account which remained inactive i.e., where no debit transaction had taken place for a continuous period of 12 months and whenever any security is transferred at a time, participant has verified such transactions with the BO via recorded phone call on registered number of BO by the authorized official of the DP and record the details of the process, date, time, etc., of the verification on the instruction slip under his/her signature and additionally authorised by the Compliance officer or any other designated senior official of the DP?	<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Applicable	If no, then number of cases along with the nature of discrepancies must be mentioned here	
8	Account Closure			
8.1	Whether clients' request for closure of Account (online & physical) has been processed as per prescribed procedure within 30 days of receipt of account closure request from the client?	<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Applicable	If no, then number of cases along with the nature of discrepancies must be mentioned here	
8.2	Whether DIS has been obtained in case of transfer of securities to an account other than clients' own account pursuant to account closure?	<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Applicable	If no, then number of cases along with the nature of discrepancies must be mentioned here	
8.3	Whether 30 days notice is given to the client as well as to the depository before closing client account, in case account closure is initiated by Participant?	<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Applicable	If no, then number of cases along with the nature of discrepancies must be mentioned here	
8.4	Whether Participant has refunded the account maintenance charges collected upfront on annual/half yearly basis (if so), to the client for the balance of the quarter/s, in the event of closing of the demat account or shifting of the demat account from one Participant to another?	<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Applicable	If no, then number of cases along with the nature of discrepancies must be mentioned here	

Checklist				
Sr. No.	Audit Areas	Auditor's Observation	Auditor's Remarks	Management's Comment*
8.5	Whether Participant uses 'Transfer of Holding' module to process account closure and transmission requests where the target account is in NSDL (Except transmission cases having multiple nominations)?	<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Applicable	If no, then number of cases along with the nature of discrepancies must be mentioned here	
8.6	Whether Participant has freeze the demat account in case Participant is unable to close the account due to pending demat/remat requests, ISIN in suspended status or due to open pledges, etc?	<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Applicable	If no, then number of cases along with the nature of discrepancies must be mentioned here	
8.7	Whether online account closure facility provided by Participant offering online account opening?	<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Applicable	If no, then reason must be mentioned here	
8.8	In case of online account closure requests, whether Participant has maintained, and stored system logs of the closure instructions and e-signed electronic requests received in electronic form in a secured manner?	<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Applicable	If no, then number of cases along with the nature of discrepancies must be mentioned here	
8.9	Whether participant has informed their clients regarding the availability of facility & procedure for online closure of demat accounts through emails, SMS, weekly / fortnightly / monthly newsletters etc?	<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Applicable	If no, then number of cases along with the nature of discrepancies must be mentioned here	
9	Transmission of Securities			
9.1	Whether all transmission cases have been processed as per prescribed procedure?	<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Applicable	If no, then number of cases along with the nature of discrepancies must be mentioned here	
9.2	Whether all transmission cases have been processed within 7 days of receipt of the complete set of transmission request	<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Applicable	If no, then number of cases along with the nature of discrepancies must be mentioned here	

Checklist				
Sr. No.	Audit Areas	Auditor's Observation	Auditor's Remarks	Management's Comment*
9.3	Whether the Participant has requested the notifier to furnish the death certificate of the investor, upon receipt of intimation of the demise of an investor where participant received information does not have access to or is not in a position to obtain the death certificate?	<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Applicable	If no, then number of cases along with the nature of discrepancies must be mentioned here	
9.4	Whether Participant has intimated the investor(s), notifier(s), or the nominee(s), about the KYC status of the investor being flagged off as "On Hold" in the KRA?	<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Applicable	If no, then number of cases along with the nature of discrepancies must be mentioned here	
9.5	If the Participant has not obtained the death certificate by next working day, whether kyc modification request status is updated to KRA as 'information on death of investor received confirmation awaited'?	<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Applicable	If no, then number of cases along with the nature of discrepancies must be mentioned here	
9.6	If the Participant has obtained the death certificate, whether same is received along with the PAN from the notifier and has complied with below; a. Followed the procedure of verification of the death certificate by the next working day of its receipt b. Record and retain self-certified copy of proof of identity, relationship with deceased and contact details of the notifier.	<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Applicable	If no, then number of cases along with the nature of discrepancies must be mentioned here	
9.7	Whether participant on verification of death certificate, submitted KYC modification request in the KRA and blocked all debit transactions in the account?	<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Applicable	If no, then number of cases along with the nature of discrepancies must be mentioned here	
9.8	Whether upon receipt of intimation of KYC status as 'Blocked permanently', from KRA, the deceased account has been immediately blocked for all debit transactions and the notifier/nominee/surviving joint account holder(s), are intimated within 5 days about the procedure for transmission?	<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Applicable	If no, then number of cases along with the nature of discrepancies must be mentioned here	

Checklist				
Sr. No.	Audit Areas	Auditor's Observation	Auditor's Remarks	Management's Comment*
9.9	Whether participant has conducted additional due diligence before allowing any transaction received by any intermediary in the account which is flagged off as "On Hold"?	<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Applicable	If no, then number of cases along with the nature of discrepancies must be mentioned here	
9.10	Where Participant finds the information about demise of the investor proved to be incorrect, whether participant has submitted the updated 'KYC modification request' in the KRA system on the same day?	<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Applicable	If no, then number of cases along with the nature of discrepancies must be mentioned here	
9.11	Whether participant has allowed the transactions in the joint demat account of the deceased, only after deletion of name of the deceased holder, where mode of operation opted by the BO(s) is Either or Survivor?	<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Applicable	If no, then number of cases along with the nature of discrepancies must be mentioned here	
9.12	Whether participant has followed the guidelines provided by NSDL for deletion of name of the deceased holder, in case of transmission of securities to joint holders?	<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Applicable	If no, then number of cases along with the nature of discrepancies must be mentioned here	
10	Freeze/Unfreeze			
10.1	Whether freeze and unfreeze instructions received from the clients' are processed as per prescribed procedure?	<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Applicable	If no, then number of cases along with the nature of discrepancies	
10.2	Whether PAN card is obtained and verified as per prescribed procedure before unfreezing an account which was frozen due to non-availability of PAN?	<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Applicable	If no, then number of cases along with the nature of discrepancies must be mentioned here	
10.3	Whether appropriate reason has been captured while freezing/unfreezing clients' account?	<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Applicable	If no, then details must be mentioned here	

Checklist				
Sr. No.	Audit Areas	Auditor's Observation	Auditor's Remarks	Management's Comment*
10.4	Whether participant has unfrozen 6- KYC non-compliant demat account on the basis of client request after obtaining necessary details as per the prescribed guidelines and has maintained record?	<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Applicable	If no, then details must be mentioned here	
10.5	Whether Participants has verified the status of KYC record prior to removal of suspension for given PAN on KRA system (for sole / all the eligible joint holders) and ensures that same is shown as validated by KRA?	<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Applicable	If no, then details must be mentioned here	
10.6	Whether Participants before removal of suspension has verified that PAN is linked with Aadhaar and updated the PAN flag for sole / all the eligible joint holders as specified in Circular NSDL/POLICY/2023/0038 dated March 21, 2023?	<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Applicable	If no, then details must be mentioned here	
10.7	Whether participant has sent physical copy of intimation / confirmation through registered post on the registered address of the Client and maintained correspondence / proof of dispatch where valid email ID and Mobile Number are not available and same is updated simultaneously based on the client request Circular NSDL/POLICY/2023/0144 dated October 11, 2023?	<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Applicable	If no, then details must be mentioned here	
11	Investor Grievances			
11.1	Whether all investors' grievances have been redressed as per the procedure and within the stipulated time?	<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Applicable	If no, then give details of grievances pending for redressal	
11.2	Whether Participant has prominently displayed basic information about the grievance redressal mechanism available to investors in their offices?	<input type="checkbox"/> Yes <input type="checkbox"/> No	If no, then details of the non compliance must be mentioned here

26	Unique Document Identification Number (UDIN)		To be filled by Practicing Chartered Accountants	
Management's Comment* - Mandatory if auditor's observation is negative.				

Auditor's Report on Internal / Concurrent Audit

I/ We have carried out audit of depository operations of <Name of Participant> and I/We hereby declare the following:

1. The operations of the Participant are in compliance with the requirements of The Depositories Act, 1996, SEBI (Depositories & Participants) Regulations, 2018, NSDL Bye Laws and Business Rules, its agreement with NSDL and Rights and Obligations of Beneficial Owner and Depository Participant and various circulars issued by NSDL from time to time.
2. The system related to depository operations is managed and maintained in a manner that there is no threat to business continuity, integrity of data processing system is maintained at all times and methods are put in place to ensure that records are not lost, destroyed or tampered with or in the event of loss or destruction of data, sufficient backup of records is available at all times.
3. The capacity of computer system, staff strength and internal procedures are commensurate with the level of business activity.
4. The business operations of the Participant are conducted in a manner that the foreseeable risks are addressed with appropriate internal control mechanism.
5. The operations are conducted in a manner that there is no loss of revenue and receivables are received promptly.
6. The business operations of the Participant are conducted as per the operations manual and in strict adherence with NSDL prescribed procedures.
7. The Participant has required internal controls, checks, risk management procedure in place.
8. The procedures with respect to maintenance of records (electronic and physical) are adequate.
9. To the best of our knowledge and belief and according to the information and explanations sought by us, no material fraud / non-compliance / violation by the Participant is observed during the course of this Audit
10. We do not have any direct / indirect interest in or relationship with the Participant or its shareholders / directors / partners / proprietors / management and also confirm that we do not have any conflict of interest in such relationship / interest while conducting internal/concurrent audit of the said Participant.
11. The Report provided by us covers the entire scope of the Internal/concurrent audit, is true and correct.
12. Working papers and evidences for the audit are available in our record.

13. We have considered adequate samples for the purpose of audit.

14. I hereby declare that digital signature certificate being used by me for signing this document is a valid digital signature certificate on this date in terms of provisions of Information Technology Act, 2000 and rules framed thereunder and that it has not been revoked by the issuing authority till this date.

Signed by the auditor using its Digital Certificate.

ANNEXURE Z9

Objectives of audit of depository operations

- i. To assure the management that the operations of the Participant are in compliance with the requirements of The Depositories Act, 1996, SEBI (Depositories & Participants) Regulations, 2018, NSDL Bye Laws and Business Rules, its agreement with NSDL and Rights and Obligations of Beneficial Owner and Depository Participant and various circulars issued by NSDL from time to time.
- ii. To assure management that the DPM is managed and maintained in a manner that there is no threat to business continuity, integrity of data processing system is maintained at all times and methods are put in place to ensure that records are not lost, destroyed or tampered with or in the event of loss or destruction of data, sufficient backup of records is available at all times.
- iii. To assure management that the capacity of computer system, staff strength and internal procedures are commensurate with the level of business activity.
- iv. To assure management and NSDL that the business operations of the Participant are conducted in a manner that the foreseeable risks are addressed with appropriate internal control mechanism.
- v. To assure management that the operations are conducted in a manner that there is no loss of revenue and receivables are received promptly.
- vi. To assure management and NSDL that the business operations of the Participant are conducted as per the operations manual and in strict adherence with NSDL prescribed procedures.

ANNEXURE Z10

Auditor Selection Norms

1. The Auditor should have experience of IT audit/governance frameworks and processes conforming to industry leading practices like COBIT 5/ISO 27001.
2. The Auditor shall have a minimum of 3 years of experience in IT audit of securities market participants e.g., Stock Exchanges, Clearing Corporations, Depositories, Trading Member, Depository Participants etc. The audit experience should cover all the major areas mentioned under Terms of Reference (ToR) of the system audit specified by SEBI / depositories.
3. The Auditor/Audit firm can perform a maximum of 3 successive audits of the DP. However, such an auditor shall be eligible for re-appointment after a cooling-off period of one year and Auditor should not have been engaged over the last three years in any consulting engagement with any departments / units of the DP.
4. Resources employed for the purpose of System Audit should possess at least one of the following certifications:
 - CISA (Certified Information System Auditors) from ISACA
 - DISA (Post Qualification Certification in Information Systems Audit) from Institute of Chartered Accountants of India (ICAI)
 - CISM (Certified Information Security Manager) from ISACA
 - CISSP (Certified Information Systems Security Professional) from International Information Systems Security Certification Consortium, commonly known as (ISC).
5. The Auditor, as being appointed by the DP must not have any conflict of interest in conducting fair, objective, and independent audit. Further, the directors / partners of Audit firm shall not be related to any Directors/Promoters/Proprietor of the said DPs either directly or indirectly.
6. The Auditor shall not have any cases pending against its previous audited companies/firms, which fall under SEBI's jurisdiction, which point to its incompetence and/or unsuitability to perform the audit task.
7. The DP and auditors are required to retain records of physical visits conducted during audits like name, qualification & date of visit/s of auditor, along with audit artifacts, proofs of concept (POCs), and evidence related to Terms of Reference (TOR) points for a minimum duration of three years.

ANNEXURE Z11

Scope

The Scope of system audit of DPs should cover all the systems i.e. systems and applications provided by Depositories to DPs as well as DP's own system whether in house or off the shelf products etc.

Terms of Reference (TOR) for System Audit Report

System Audit TOR Clause	Checkpoints Description
1	Software Change Management – The system auditor should check whether proper procedures have been followed and proper documentation has been maintained for the following:
1 (a)	Processing / approval methodology of new feature request, change or patches
1(b)	Change Management process, related approvals, version control history, etc. Change requests: Whether the changes are tested in UAT environment before being approved for deployment into production. Whether the categorization of the change is done properly.
1 (c)	Fault reporting / tracking mechanism and process for resolution
1 (d)	Testing of new releases / patches / modified software / bug fixes
1 (e)	Testing of new releases / patches / modified software / bug fixes (Automation Level)
1 (f)	Does demonstrable segregation exist between Development / Test / Production environment. The System Auditor to check whether adequate mechanism exists to restore their systems to 'production state' at the end of testing session to ensure integrity.
1 (g)	New release in production – promotion, release note approvals
1 (h)	Production issues / disruptions reported during last year, reasons for such disruptions and corrective actions taken.
1 (i)	User awareness on software change management process

System Audit TOR Clause	Checkpoints Description
1 (j)	<p>Change Management To ensure system integrity and stability all changes to the installed system are planned, evaluated for risk, tested, approved, and documented. Has the organization implemented a change management process to avoid risk due to unplanned and unauthorised changes for all the information security assets (Hardware, software, network, application).</p> <p>Does the process at the minimum include the following:</p> <p>Planned Changes Are changes to the installed system made in a planned manner. a) Are they made by duly authorized personnel. b) Risk Evaluation Process c) Is the risk involved in the implementation of the changes duly factored in.</p> <p>Change Approval Is the implemented change duly approved and process documented.</p> <p>Pre-implementation process Is the change request process documented.</p> <p>Change implementation process Is the change implementation process supervised to ensure system integrity and continuity.</p> <p>Post implementation process Is user acceptance of the change documented.</p> <p>Emergency Changes In case of emergency changes, are the same duly authorized and the manner of change documented later. Are records of all change requests maintained. Are periodic reviews conducted for all the changes which were implemented.</p>
1 (k)	<p>Patch Management Does the organization have a documented process/procedure for timely deployment of patches for mitigating identified vulnerabilities. Whether version and patch management controls are in place. Does the organization periodically update all assets including Servers, OS, Database, Middleware, Network Devices, Firewalls, IDS /IPS, Desktops etc. with latest applicable versions and patches.</p>
1 (l)	<p>SDLC - Application Development & Maintenance In case of Depository Participant's self-developed system, SDLC documentation and procedures if the installed system is developed in-house.</p>
1 (m)	<p>SDLC - Application Development & Maintenance Does the organization have any in-house developed applications. If yes, then does the organization have a documented process/framework to include processes for incorporating, testing, and providing sign-off for information risk requirements at various stages of Software Development Life Cycle (SDLC). Does the SDLC framework incorporate standards, guidelines, and procedures for secure coding. Are roles and responsibilities clearly defined for various stakeholders in the SDLC framework. Are Application development, Testing (QA and UAT) and Production environments segregated.</p>
1 (n)	<p>Changes undertaken pursuant to a change to the depository applications / Depository Participant's systems.</p>
2	<p>Password Security</p>

System Audit TOR Clause	Checkpoints Description
2 (a)	Organization Access Policy Whether the organization has a well-documented policy that provides for a password policy as well as access control policy for the depository applications / Depository Participant's systems.
2 (b)	Authentication Capability Whether the system authenticates user credentials by means of a password before allowing the user to login, and whether there is a system for authentication such as two-factor authentication.
2 (c)	Password Best Practices Whether there is a system provision for masking of password, system prompt to change default password on first login, disablement of user id on entering multiple wrong passwords (as defined in the password policy document), periodic password change mandate and appropriate prompt to user, strong parameters for password, deactivation of dormant user id, etc.
2 (d)	<p>The password policy/standard should be documented. The installed systems password features should include: a) The installed system uses passwords for authentication. b) The system requests for identification and new password before login into the system. c) The password is masked at the time of entry.</p> <p>System authenticates user with a username and password as first level of security. System mandates changing of password when the user logs in for the first time. Automatic disablement of the user on entering erroneous password in excess of the number of attempts allowed as per the password policy/system feature.</p> <p>The system provides for automatic expiry of passwords at the end of a reasonable duration (maximum 90 Days) and re-initialisation of access on entering fresh passwords. Prior intimation is given to the user before such expiry. System controls to ensure that the password is alphanumeric (preferably with one special character), instead of just being alphabets or just numerical. System controls to ensure that the changed password cannot be the same as any of the passwords used previously as per the password policy/system feature.</p> <p>System controls to ensure that the login id of the user and password should not be the same. System controls to ensure that the password should be of minimum eight characters. User/Client is deactivated if the same is not used for a continuous period of 12 (Twelve) months from date of last use of the account. System allows user to change their passwords at their discretion and frequency.</p>
3	Session Management (Mobile Application / Client Server Application / Web Application)
3 (a)	Session Authentication Whether the system has provision for Confidentiality, Integrity, and Availability (C,I,A) of the session and the data transmitted during the session by means of appropriate user and session authentication mechanisms like SSL etc.
3 (b)	Session Security Whether there is availability of an end-to-end encryption for all data exchanged between client and Depository Participant's systems or any other means of ensuring session security. Whether session login details are stored securely.
3 (c)	Inactive Session Whether the system allows for automatic session logout after a system defined period of inactivity.

System Audit TOR Clause	Checkpoints Description
3 (d)	Log Management Whether the system generates and maintain logs of number of users, activity logs, system logs, number of active clients.
3 (e)	Whether the installed system has provision for security, reliability and confidentiality of data through use of encryption technology, SSL or similar session confidentiality protection mechanisms: a) The system uses SSL/TLS or similar session confidentiality protection mechanisms b) The system uses a secure storage mechanism for storing of usernames and passwords c) The system adequately protects the confidentiality of the user's data
3 (f)	Cryptographic Controls Does the organization have a documented process/framework for implementing cryptographic controls in order to protect confidentiality and integrity of sensitive information during transmission and while at rest, using suitable encryption technology. Is the encryption methodology of information involved in business transactions based on Regulation/Law/Standards compliance requirements. Does the organization ensure session encryption for internet-based applications. Does the organization ensure that the data transferred through internet is protected with suitable encryption technologies. Are transactions on the website suitably encrypted.
3 (g)	Cryptographic Controls Is secret and confidential information sent through e-mails encrypted before sending. Is secret and confidential data in an encrypted format.
3 (h)	Does the organization deploy data loss prevention (DLP) solutions / processes.
4	Database Security
4 (a)	Access Whether the system allows database access only to authorized users / applications.
4 (b)	Controls Whether the database server is hosted on a secure platform, with username and password stored in an encrypted form using strong encryption algorithms.
4 (c)	Whether data at rest is encrypted
5	Network Integrity
5 (a)	Seamless connectivity Whether the Depository Participant has ensured that a backup network link is available in case of primary link failure with the Depository.
5 (b)	Network Architecture Whether the web server is separate from the Application and Database server.

System Audit TOR Clause	Checkpoints Description
5 (c)	Firewall Configuration Whether appropriate firewall is present between Depository Participant and various communication links to the Depository. Whether the default firewall configuration settings are changed and appropriately configured to ensure maximum security.
5 (d)	Network Security Are networks segmented into different zones as per security requirements. Are network segments and internet facing assets protected with Intrusion detection/prevention system (IDS/IPS) and/or Firewall to ensure security. Has the organization implemented appropriate monitoring tools to monitor network traffic both within and originating from the organization's network. Does the organization periodically conduct Network Architecture Security assessments in order to identify threats and vulnerabilities. Are the findings of such assessments tracked and closed. Are Internet facing servers placed in a DMZ and segregated from other zones by using a firewall. Is there segregation between application and database servers. Are specific port/service accesses granted on firewall by following a proper approval process. Are user and server zones segregated. Are the rules defined in the firewall adequate to prevent unauthorized access to depository applications and back office systems
6	Access Controls
6 (a)	Access to server rooms Whether adequate controls are in place for access to server rooms and proper audit trails are maintained for the same.
6 (b)	Additional Access controls Whether the system provides for any authentication/two factor authentication mechanism to access depository applications and back office systems. Whether additional password requirements are set for critical features of the system. Whether the access control is adequate.
6 (c)	Access Control Does the organization's documented policy and procedure include access control policy. Is access to the information assets based on the user's roles and responsibilities. Does the system have a password mechanism which restricts access to authenticated users. Does the system request for identification and new password before login into the system. Does the system have appropriate authority levels to ensure that the limits can be setup only by persons authorized by the risk / compliance manager. Does the organization ensure that access control between website hosting servers and internal networks is maintained. Are records of all accesses requested, approved, granted, terminated, and changed maintained. Are all accesses granted reviewed periodically. Does the organization ensure that default system credentials are disabled/locked. Are application development, testing (QA and UAT) and production environments segregated. Whether adequate controls have been implemented for admission of personnel into the server rooms / place where servers / hardware / systems are located and whether audit trails of all the entries/exits at the server room / location are maintained. Is access to the information assets based on the user's roles and responsibilities. Does the system have a password mechanism which restricts access to authenticated users.

System Audit TOR Clause	Checkpoints Description
6 (d)	<p>Extra Authentication Security Whether the systems use additional authentication measures like smart cards, biometric authentication, or tokens etc.</p>
6 (e)	<p>Physical & Environmental Security Does the organization have a documented process/framework for Physical & Environmental security.</p> <p>Are adequate provisions made in respect of physical security of the hardware / systems at the hosting location and controls on admission of personnel into the location (audit trail of all entries-exits at location etc.).</p> <p>Are security perimeters defined based on the criticality of assets and operations.</p> <p>Are periodic reviews conducted for the accesses granted to defined perimeters.</p> <p>Are CCTV cameras deployed for monitoring activities in critical areas.</p> <p>Is the CCTV footage backed up and can it be made available in case the need arises.</p> <p>Are suitable controls deployed for combating fire in Data Center.</p> <p>Does the organization maintain physical access controls for Server Room/Network Room security w.r.t environmental controls, UPS and HVAC.</p> <p>Are records maintained for the access granted to defined perimeters.</p> <p>Are suitable controls deployed for combating fire in the data center.</p>
6 (f)	<p>Privileged Identity Management Does the organization have a documented process/procedure for defining, reviewing and assigning the administrative roles and privileges.</p> <p>Has the organization implemented controls/tools for Privilege Identity Management including at a minimum provisioning, maintenance, monitoring, auditing, and reporting all the activities performed by privileged users (System Admin, DBA etc.) accessing organization's IT systems.</p> <p>Are privileges granted to users based on appropriate approvals and in accordance with the user's role and responsibilities.</p> <p>Are all the activities of the privileged users logged.</p> <p>Are log reviews of privileged user logs of admin activity conducted periodically.</p> <p>Is Maker- Checker functionality implemented for all changes by admin.</p> <p>Are records of privileged user provisioning/deprovisioning reviewed.</p>

System Audit TOR Clause	Checkpoints Description
6 (g)	<p>Closed User Group Endpoint Security Does the Depository Participant have policies and procedures having coverage related to people, processes and technology.</p> <p>Does the Depository Participant have architecture that supports segregation with other businesses': Data and Processing facilities Development / Test / Production environment Corporate user and Production / server zones Application and Database servers Internet facing servers placed in a DMZ and segregated from other zones</p> <p>Ensure appropriately configured firewalls are used to ensure segregation wherever needed.</p> <p>Are technology related baseline controls established, exercised, and reviewed periodically. Are following systems and processes existing and exercised for Vulnerability Assessment and Penetration Testing: Configuration of technologies prior to go live Monitoring of perimeter / network security, infrastructure and applications for anomalies Alerts incidents and breaches</p> <p>Reporting of cyber-attacks, threats, cyber-incidents and breaches experienced and measures taken to mitigate vulnerabilities, threats and attacks including information on bugs / vulnerabilities, threats to be submitted to Depository and other regulatory agencies based on SEBI Circulars SEBI/HO/MIRSD/CIR/PB/2018/147 dated December 03, 2018; SEBI/HO/MIRSD/DOP/CIR/P/2019/109 dated October 15, 2019; SEBI/HO/MIRSD/TPD/P/CIR/2022/93 dated June 30, 2022 and subsequent amendments made thereto.</p>
7	Backup and Recovery
7(a)	<p>Backup and Recovery Policy: Whether the organization has a well-documented policy on periodic backup of data generated from the Depository Participant's operations.</p>
7(b)	<p>Log generation and data consistency: Whether backup logs are maintained, and backup data is tested for consistency.</p>
7(c)	<p>System Redundancy: Whether there are appropriate backups in case of failures of any critical system components.</p>

System Audit TOR Clause	Checkpoints Description
7(d)	<p>Backup & Restoration:</p> <p>Whether the installed systems backup capability is adequate for overcoming loss of data (in terms of C,I,A)</p> <p>Are backups of the following system generated files maintained.</p> <p>At the server/gateway level</p> <ul style="list-style-type: none"> a) Database b) Audit Trails Reports <p>At the user level</p> <ul style="list-style-type: none"> a) Logs b) History c) Reports d) Audit Trails e) Alert logs <p>Does the organization ensure that the audit trail data maintained is available for a minimum period of 5 years.</p> <p>Are backup procedures documented and backup logs maintained.</p> <p>Are the backup logs maintained and have the backups been verified and tested.</p> <p>Are the backup media stored safely in line with the risk involved. Are there any recovery procedures and have the same been tested.</p> <p>Are the backups restored and tested periodically to ensure adequacy of backup process and successful restoration.</p>
7(e)	<p>Audit trail, Event logging and monitoring</p> <p>Depository Participant should maintain logs of all depository operations related activity to facilitate audit trail.</p> <p>Whether system generates, captures, and maintains audit trail of all transactions for at least 3 years.</p> <p>Whether all events, changes in master, strategy parameters are logged and maintained for at least 3 years.</p> <p>Whether all logs generated are secured from unauthorized modifications.</p>
7 (f)	<p>How will the organization assure customers prompt access to their securities in the event the organization determines it is unable to continue its business in the primary location - Network / Communication Link Backup.</p> <p>Is the backup network link adequate in case of failure of the primary link to the Depository.</p> <p>Is the backup network link adequate in case of failure of the primary link connecting the users.</p> <p>Is there an alternate communications path between customers and the firm.</p> <p>Is there an alternate communications path between the firm and its employees.</p> <p>Is there an alternate communications path with critical business constituents, banks, and regulators.</p> <p>Whether detailed network diagram is prepared and available for verification.</p> <p>Is network and network diagram in line with each other.</p> <p>Does the organization have alternate means of communication including channel for communication for communicating with the clients in case of any disruption.</p> <p>Such communication should be completed within 30 minutes from the time of disruption.</p>

System Audit TOR Clause	Checkpoints Description
7 (g)	<p>How will the organization assure customers prompt access to their securities in the event the organization determines it is unable to continue its business in the primary location - System Failure Backup</p> <p>Are there suitable backups for failure of any of the critical system components like:</p> <ul style="list-style-type: none"> a) Gateway / Database Server b) Router c) Network Switch <p>Infrastructure breakdown backup</p> <p>Are there suitable arrangements made for the breakdown in any infrastructure components like:</p> <ul style="list-style-type: none"> a) Power Supply b) Water c) Air Conditioning <p>Primary Site Unavailability</p> <p>Have any provision for alternate physical location of employees been made in case of non-availability of the primary site</p> <p>Disaster Recovery</p> <p>Are there suitable provisions for books and records backup and recovery (hard copy and electronic).</p> <p>Have all mission-critical systems been identified and provision for backup for such systems been made.</p>
8	<p>BCP/DR (Only applicable for Depository Participants having BCP / DR site)</p>
8 (a)	<p>BCP / DR Policy</p> <p>Whether the Depository Participant has a well-documented BCP/ DR policy and plan. The system auditor should comment on the documented incident response procedures and observation on the DR drills conducted by the Depository Participant.</p>
8 (b)	<p>Alternate channel of communication</p> <p>Whether the Depository Participant has provided its clients with alternate means of communication including channel for communication in case of a disaster.</p> <p>Whether the alternate channel can authenticate the user after asking for additional details or OTP (One-Time-Password).</p>
8 (c)	<p>High Availability</p> <p>Whether BCP / DR systems and network connectivity provide high availability and have no single point of failure for any critical operations as identified by the BCP/DR policy.</p>
8 (d)	<p>Connectivity with other FMIs</p> <p>The system auditor should check whether there is an alternative medium to communicate with depositories and other FMIs.</p>
8 (e)	<p>Business Continuity</p> <p>Does the organization have a suitable documented Business Continuity or Disaster Recovery or Incident Response process commensurate with the organization size and risk profile to ensure a high degree of availability of the installed system</p> <p>Is there any documentation on Business Continuity / Disaster Recovery / Incident Response. If a BCP/DRP exists, has it been tested on regular basis. Are there any documented risk assessments.</p> <p>Does the installation have a Call List for emergencies maintained. Whether redundancy is built at all levels of infrastructure.</p> <p>Whether all critical systems / infrastructures are in HA mode.</p>

System Audit TOR Clause	Checkpoints Description
8 (f)	<p>Security Incident & Event Management</p> <p>Does the organization have a documented process/policy for Security Incident & Event Management.</p> <p>Does the organization have a documented process/procedure for identifying security related incidents by monitoring logs generated by various IT assets such as Operating Systems, Databases, Network Devices, etc.</p> <p>Are all events/incidents detected, classified, investigated, and resolved.</p> <p>Are periodic reports published for various identified security incidents.</p> <p>Does the organization ensure that the logging facilities and the log information are protected from tampering and unauthorized access.</p>
8 (g)	<p>Security Incident & Event Management</p> <p>Is there a dedicated Incident Response Team for managing risk and compliance activities.</p>
8 (h)	<p>Business Continuity</p> <p>Does the organization have a Disaster Recovery Site. Are there any documented risk assessments.</p> <p>Does the installation have a Call List for emergencies maintained.</p> <p>Does the organization have robust systems and technical infrastructure in place in order to provide essential facilities, perform systemically critical functions relating to securities market and provide seamless service to their clients.</p>
8 (i)	<p>The system auditor should comment on the documented incident response procedures which will cover the following:</p> <p>Identification of all critical operations of the Depository Participant including the process of informing clients in case of any disruptions.</p> <p>While putting in place the BCP/DRP, Depository Participants are advised to sufficiently review all potential risks along with its impact on the business.</p> <p>Declaration of incident as a “Disaster” viz. timelines etc. and restoration of operations from DR Site upon declaration of ‘Disaster’</p> <p>Adequate resources (with appropriate training and experience) should be available at the DR Site to handle all operations during disasters.</p> <p>The declaration of disaster shall be reported in the preliminary report submitted to the Depository.</p>
8(j)	<p>Does the organization have distinct primary and disaster recovery sites (DRS) for technology infrastructure, workspace for people and operational processes.</p> <p>Does the organization have DRS set up sufficiently away (not less than 500 km), from Primary Data Centre (PDC) to ensure that both DRS and PDC are not affected by the same disasters.</p> <p>Has any provision for alternate physical location of employees been made in case of non-availability of the primary site as a part of Disaster Recovery process.</p> <p>Does the organization have suitable provisions for Books and records backup and recovery (hard copy and electronic).</p> <p>Have all mission-critical systems been identified and provision for backup for such systems been made.</p>
9	Segregation of Data and Processing facilities
9 (a)	The system auditor should check and comment on the segregation of data and processing facilities at the Depository Participant in case the Depository Participant is also running other businesses.
10	Back-office data
10(a)	<p>Data consistency</p> <p>The system auditor should verify whether aggregate back office data of the Depository Participant matches with the data submitted / available with the Depository through online data view / download provided by Depository to Depository Participant.</p>

System Audit TOR Clause	Checkpoints Description
10(b)	Trail Logs The system auditor should specifically comment on the logs of back office data to ascertain whether editing or deletion of records have been properly documented and recorded and does not result in any irregularities.
11	User Management
11(a)	User Management Policy The system auditor should check whether the Depository Participant has a well-documented policy that provides for user management and that the user management policy explicitly defines user, database, and application access matrix.
11(b)	Access to Authorized users The system auditor should check whether the system allows access only to the authorized users of the depository systems. Whether there is a proper documentation of the authorized users in the form of user application approval, copies of user qualification and other necessary documents.
11(c)	User Creation / Deletion The system auditor should check whether new user ids were created / deleted as per user management policy and whether the user ids are unique in nature.
11(d)	User Disablement The system auditor should check whether non-complaint users are disabled, and appropriate logs (such as event log of the user) are maintained.
11(e)	User Management system User Deletion: Users Ids are deleted as per the user management policy Reissue of User Ids: User Ids are reissued as per the user management policy. Locked User Accounts: Users whose accounts are locked are unlocked only after documented unlocking requests are made
12	IT Infrastructure Management (including use of various Cloud computing models such as Infrastructure as a service (IaaS), Platform as a service (PaaS), Software as a service (SaaS), Network as a service (NaaS))
12(a)	IT Governance and Policy The system auditor should verify whether the relevant IT Infrastructure-related policies and standards exist and are regularly reviewed and updated. Compliance with these policies is periodically assessed.
12(b)	IT Infrastructure Planning The system auditor should verify whether the plans/policy for the appropriate management and replacement of aging IT infrastructure components have been documented, approved, and implemented. The activities, schedules and resources needed to achieve objectives related to IT infrastructure have been integrated into business plans and budgets.

System Audit TOR Clause	Checkpoints Description
12(c)	<p>IT Infrastructure Availability (SLA Parameters)</p> <p>The system auditor should verify whether the Depository Participant has a process in place to define its required availability of the IT infrastructure, and its tolerance to outages. In cases where there is huge reliance on vendors for the provision of IT services to the Depository Participant, the system auditor should also verify that the Mean Time To Recovery (MTTR) mentioned in the Service Level Agreement (SLA) by the service provider satisfies the requirements of the Depository Participant</p>
12(d)	<p>IT Performance Monitoring (SLA Monitoring)</p> <p>The system auditor should verify that the results of SLA performance monitoring are documented and are reported to the management of the Depository Participant.</p>
12(e)	<p>Infrastructure High Availability</p> <p>Does the organization have a documented process for identifying single point of failure. Does the organization have a documented process for failover.</p> <p>Does the organization ensure that various components pertaining to networks, servers, storage have sufficient redundancy.</p> <p>Does the organization conduct periodic redundancy/contingency testing.</p>
12(f)	<p>To ensure information security for the organization in general and the installed system in particular, policy and procedures must be established, implemented, and maintained. Does the organization's documented policy and procedures include the following policies and if so, whether they have been implemented by the organization:</p> <p>Information Security Policy Password Policy User Management and Access Control Policy Network Security Policy Application Software Policy Change Management Policy Backup Policy BCP Management Policy Audit Trail Policy Capacity Management Plan</p> <p>Does the organization follow any other policy or procedures or documented practices that are relevant.</p>
12(g)	<p>Are documented practices available for various system processes</p> <p>Day Begins Day Ends</p> <p>Other system processes</p> <p>a) Audit Trails b) Access Logs c) Transaction Logs d) Backup Logs e) Alert Logs f) Activity Logs g) Retention Period h) Data Maintenance</p>

System Audit TOR Clause	Checkpoints Description
12(h)	<p>In case of failure, is there an escalation procedure implemented. Day Begins Day Ends Other system processes Details of the various response procedures including for: a) Access Control failure b) Day Begin failure c) Day End failure d) Other system Processes failure</p>
12(i)	<p>Vulnerability Assessment, Penetration Testing & Application Security Assessments: Are periodic vulnerability assessments for all the critical assets including Servers, OS, Database, Middleware, Network Devices, Firewalls, IDS /IPS etc. conducted.</p>
12(j)	<p>Standards & Guidelines Does the organization maintain standards and guidelines for information security related controls, applicable to various IT functions such as System Administration, Database Administration, Network, Application, and Middleware etc. Does the organization maintain Hardening Standards pertaining to all the technologies deployed within the organization related to Applications, OS, Hardware, Software, Middleware, Database, Network Devices and Desktops. Does the organization have a process for deploying OS, Hardware, Software, Middleware, Database, Network Devices and Desktops after ensuring that they are free from vulnerabilities. Are the defined standards, guidelines updated and reviewed periodically.</p>
12(k)	<p>Information Security Policy & Procedure Does the organization's documented policy and procedures include the information security policy and if so, are they compliant with legal and regulatory requirements. Is the defined policy and procedure reviewed on a periodic basis.</p>
12(l)	<p>Information Security Policy & Procedure Are any other standards/guidelines like ISO 27001 etc. being followed. Does the organization have an Information Security forum to provide overall direction to information security initiatives based on business objectives.</p>
12(m)	<p>Information Classification & Protection Has the organization defined systematic and documented framework for Information classification & protection. Are the information items classified and protected in accordance with business criticality and sensitivity in terms of Confidentiality, Integrity & Availability. Does the organization conduct periodic information classification process audits. Has the organization deployed suitable controls to prevent leakage of sensitive information.</p>
12(n)	<p>Vulnerability Assessment, Penetration Testing & Application Security Assessments Does the organization maintain an annual VAPT and Application Security assessment activity calendar. Is periodic router ACL review conducted as a part of vulnerability assessment.</p>
12(o)	<p>Does the organization have hybrid data security tools that focus on operating in a shared responsibility model for cloud-based environments.</p>

System Audit TOR Clause	Checkpoints Description
12(p)	CSP service Controls Does the organization check public accessibility of all Cloud instances in use. Does the organization make sure that no server/bucket is inadvertently leaking data due to inappropriate configurations.
12(q)	Does the organization ensure proper security of Cloud access tokens. Does the organization ensure that the tokens are not exposed publicly in website source code, any configuration files etc.
12(r)	Does the organization implement appropriate security measures for production, testing, staging, and backup environments hosted on cloud. Does the organization ensure that production environment is kept properly segregated from these environments. Does the organization disable/remove older or testing environments if their usage is no longer required.
12(s)	The Apache Software Foundation released an emergency patch as part of the 2.15.0 release of Log4j that fixes the Remote Code Execution (RCE) vulnerability. Does the Organization's Application administrators and developers verify the use of Log4j package in their environment and upgrade to version 2.15.0.
13	Software Testing Procedures - The system auditor should check whether the depository participants has complied with the guidelines and instructions of SEBI / Depository with regard to testing of software and new patches, including the following:
13 (a)	Test Procedure Review The system auditor should review and evaluate the procedures for system and software/program testing. The system auditor should also review the adequacy of tests.
13 (b)	Documentation The system auditor should verify whether the documentation related to testing procedures, test data, and resulting output were adequate and follow the organizations standards.
13 (c)	Test Cases The system auditor should review the internal test cases and comment upon the adequacy of the same.
14	Additional Points

System Audit TOR Clause	Checkpoints Description
14 (a)	<p>Antivirus Management</p> <p>Does the organization have a documented process/procedure for Antivirus Management. Are all information assets protected with antivirus software and the latest antivirus signature updates.</p> <p>Does the organization periodically perform scans for virus/malicious code on computing resources, email, internet, and other traffic at the network gateway/entry points in the IT Infrastructure.</p> <p>Does the organization have a documented process/procedure for tracking, reporting, and responding to virus related incidents.</p>
14 (b)	<p>Antivirus</p> <p>Is a malicious code protection system implemented.</p> <p>If yes, then</p> <p>Are the definition files up to date. Any instances of infection.</p> <p>Last date of virus checks of entire system</p>
14 (c)	<p>The installed system provides a system based event logging and system monitoring facility which monitors and logs all activities / events arising from actions taken on the gateway / database server, authorized user terminal and transactions processed for clients or otherwise and the same is not susceptible to manipulation.</p> <p>The installed systems has a provision for On-line surveillance and risk management as per the SEBI guidelines and includes -</p> <p>Number of users logged in / hooked on to the network including privileges of each user.</p> <p>The installed systems has a provision for off line monitoring and risk management and includes reports / logs on:</p> <ol style="list-style-type: none"> Number of authorized users Activity logs Systems logs Number of active clients
14 (d)	<p>Insurance</p> <p>The insurance policy of the Depository Participant covers the additional risk of usage of system and probable losses in case of software malfunction</p>
14 (e)	<p>Firewall</p> <p>Whether suitable firewalls are implemented.</p> <p>Are the rules defined in the firewall adequate to prevent unauthorized access to depository systems.</p>
14 (f)	<p>Compliance</p> <p>Does the organization have a documented process/policy implemented to ensure compliance with legal, statutory, regulatory, and contractual obligations and avoid compliance breaches. Does the organization ensure compliance to the following.</p> <ul style="list-style-type: none"> · IT Act 2000 · SEBI Requirements <p>Does the organization maintain an integrated compliance checklist.</p> <p>Are these defined checklists periodically updated and reviewed to incorporate changes in rules, regulations, or compliance requirements.</p> <p>Are the servers of depository applications and back office located in India.</p>

System Audit TOR Clause	Checkpoints Description
14(g)	<p>DOS</p> <p>Has the organization implemented strong monitoring, logging, detection, and analysis capability to detect and mitigate DOS/DDOS attacks.</p> <p>Does the organization have a documented process/procedure/policy defining roles and responsibilities and plan of action in order to deal with DOS/DDOS attacks proactively and post the incident.</p>
14(h)	<p>DOS</p> <p>Does the organization periodically conduct mock DOS scenarios to have insight into the preparedness in tackling with DOS/DDOS attacks.</p>
14(i)	<p>Third Party Information Security Management</p> <p>Does the organization have a documented process/framework for Third Party Vendor Management including at a minimum, process and procedure for on-boarding/off-boarding of vendors, checklist for prescribing and assessing compliance, assessment and audit for both onsite & offsite vendors.</p> <p>Does the organization conduct periodic information security compliance audits/reviews for both onsite and offsite vendors.</p> <p>Are risks associated with employing third party vendors addressed and mitigated. Is the defined process/framework periodically reviewed.</p>
14 (j)	<p>Capacity Management</p> <p>Does the organization have documented processes/procedures for capacity management for all the IT assets.</p>
14(k)	<p>Independent Audits</p> <p>Are periodic independent audits conducted by Third Party / Internal Auditors.</p> <p>Are the audit findings tracked to closure.</p>
14(l)	<p>Human Resources Security, Acceptable Usage & Awareness Trainings</p> <p>Are periodic surprise audits and social engineering attacks conducted to assess security awareness of employees and vendors.</p> <p>Has the organization implemented policy/procedure defining appropriate use of information assets provided to employees and vendors in order to protect these assets from inappropriate use.</p> <p>Are these policies/procedures periodically reviewed and updated.</p> <p>Does the organization perform background checks for employees (permanent, temporary) before employment.</p> <p>Does the organization conduct Information Security Awareness Program through trainings and quiz for employees and vendors.</p>
15	AI-ML
15 (a)	<p>Are adequate safeguards in place to prevent abnormal behaviour of the AI or ML application / system.</p>

System Audit TOR Clause	Checkpoints Description
15 (b)	Has the Depository Participant reported details of applications or systems using AI/ML to Depository on an annual basis in accordance with SEBI circular SEBI/HO/MIRSD/DOS2/CIR/P/2019/10 dated January 04, 2019 and subsequent amendments made thereto along with the circulars/communiques issued by the Depository.
15 (c)	Whether AI / ML systems comply for all the points in this checklist. In case of any observation, please report.
16	Asset Management
16 (a)	Does the organization have a documented process/framework for managing all the hardware & software assets. Does the organization maintain a centralized asset repository. Are periodic reconciliation audits conducted for all the hardware and software assets to confirm compliance to licensing requirements and asset inventory.
17	Remote Access Controls
17(a)	Does the organization have proper remote access policy framework incorporating the specific requirements of accessing the enterprise resources which are securely located in the data center from home, using internet connection.
17(b)	For implementation of the concept of trusted machine as end users: Does the organization categorize the machines as official desktops / laptops and accordingly the same are configured to ensure implementation of solution stack considering the requirements of authorized access.
17(c)	Do the organizations' official devices have appropriate security measures to ensure that the configuration is not tampered with. Does the organization ensure that internet connectivity provided on all officials devices are not getting used for any purpose other than the use of remote access to data center resources.
17(d)	Does the organization ensure that if personal devices (BYOD – Bring Your Own Device) are allowed for general functions, then appropriate guidelines are issued to indicate positive and negative list of applications that are permitted on such devices. Further, these devices are subject to periodic audit.
17 (e)	Does the organization implement various measures such as Multi-Factor Authentication (MFA) for verification of user access to ensure better data confidentiality and accessibility. Whether Virtual Private Network (VPN) remote access through MFA is also implemented.
17 (f)	Does the organization ensure that only trusted machines are permitted to access the data center resources. Does the organization's Virtual Private Network (VPN) remote login is device specific through the binding of the Media Access Control (MAC) address of the device with the IP address to implement appropriate security control measures.
17 (g)	Does the organization have appropriate risk mitigation mechanisms whenever remote access of data center resources is permitted for service providers.

System Audit TOR Clause	Checkpoints Description
17(h)	For on-site monitoring of the Depository Participant, Does the organization implement adequate safeguard mechanisms such as cameras, security guards, nearby co- workers to reinforce technological activities.
17(i)	Does the organizations backup, restore and archival functions work seamlessly, particularly if the users have remote access to internal systems.
17 (j)	Does the organization apply only necessary and applicable patches to the existing hardware and software.
17(k)	Does the organization analyse generated alerts and alarms and take appropriate decisions to address the security concerns. Are the organizations security controls for the remote access requirements integrated with the SOC Engine and part of the overall monitoring of the security posture.
17 (l)	Has the organization updated the incident response plan in view of the current pandemic. Does the plan cover following. 1. Increase awareness of information technology support mechanisms for employees who work remotely. 2. Implement cyber security advisories received from SEBI, Depository, CERT-IN and NCIIPC on a regular basis. 3. Further, all the guidelines developed and implemented during pandemic situation shall become SOPs post Covid-19 situation for future preparedness. 4. Disable use of Macros in Microsoft Office
18	SEBI and Depository Compliances
18 (a)	Auditor to list all applicable circulars, notices, guidelines, and advisories published by SEBI and Depository and ensure Depository Participant's: a. Adherence to all such circulars, notices, guidelines, and advisories published. b. Reporting adherences based on prescribed periodicity in point (a) above. c. Compliance with the SEBI circular SEBI/HO/ITD/ITD_VAPT/P/CIR/2023/032 dated February 22, 2023 regarding Cybersecurity best practices
19	ISO Certifications
19 (a)	Whether the Depository Participants has obtained the required ISO certifications
20	Concentration Risk on Outsourced Agencies:
20 (a)	Whether the Depository Participant has taken into account concentration risk (Single third-party vendors are providing services to multiple Depository Participants) while outsourcing multiple critical services to the same vendor.
21	Phishing & Malware Protection for Depository applications/ DP systems
21 (a)	Has the organization implemented controls/ mechanisms to identify and respond to phishing attempts on their critical websites. Are the organization's websites monitored for Phishing & Malware attacks. Does the organization have a process for tracking down phishing sites.
22	Information Risk Management

System Audit TOR Clause	Checkpoints Description

ANNEXURE Z12

Sr. No.	Particulars	Remarks
1	Share Capital	<ul style="list-style-type: none"> ▪ Paid-up equity share capital to be considered. ▪ Paid-up preference share capital to be considered, subject to below: <ul style="list-style-type: none"> ○ The auditors to specifically provide the terms of redemptions such as date of redemption, amount of redemption, number of shares redeemable. ○ Exception to the above point, If the preference share capital is redeemable by the end of the next financial year, it should be deducted from the Networth. However, if a capital redemption reserve is created for the redemption purpose, then the same will not be deducted from the Networth. ▪ Application money (pending allotment) to be considered, if allotment is completed subsequently and a letter from CA & Form duly filed with ROC are provided. ▪ Fully, compulsorily and mandatorily convertible Debentures/ Bonds/ Warrants which are convertible within a period of 5 years from the date of issue to be considered.
2	Free Reserves	<ul style="list-style-type: none"> ▪ Free reserves mean such reserves which, as per the latest audited balance sheet of a company, are available for distribution as dividend; provided that the below shall not be treated as free reserves: <ul style="list-style-type: none"> ○ any amount representing unrealised gains, notional gains or revaluation of assets, whether shown as a reserve or otherwise, or ○ any change in the carrying amount of an asset or of a liability recognised in equity, including surplus in profit and loss account on measurement of the asset or the liability at fair value. ▪ Free Reserves such as Profit & Loss, General Reserve, Securities Premium, Preference Share Redemption Reserve, Capital Redemption Reserve and any other surplus arising out of sale proceeds of assets to be considered. ▪ Free Reserves should not include reserves such as Revaluation Reserve (revaluation of asset), Capital Reserve, Amalgamation Reserve, Debenture Redemption Reserve, Other Comprehensive Income.
3	Receivables (more than 6 months old)	<ul style="list-style-type: none"> ▪ Receivables (more than 6 months old) as per schedule in Balance sheet shall be deducted; net of accumulated provision for doubtful debts made on such receivables. ▪ In case of Bank DPs, if provisions for NPAs have been made as per RBI guidelines and Auditor's certificate to this effect has been provided, no deduction to be made for receivables more than six months old.
4	Receivables from Group Companies	<ul style="list-style-type: none"> ▪ Both long term and short term receivables to be considered for deduction. ▪ Group companies includes partnership firm, affiliates, associates, related entities including directors and their relatives.
5	Intangible Assets	<ul style="list-style-type: none"> ▪ Net book value of intangible assets such as goodwill, patents, copyrights, trademarks as per Balance Sheet / Trial Balance should be deducted. ▪ Deferred Tax Asset (Net) as shown in Balance Sheet should be deducted.

6	Value of Stock Exchange Card	<ul style="list-style-type: none"> Value of any Stock Exchange card should be deducted from Paid up capital & Reserves Only in case of NSE membership, the trading member pays a membership fee to NSE, which is refundable. Hence, there is no deduction for NSE membership. Unlisted shares of a stock exchange issued in lieu of stock exchange card to be deducted.
7	Excess of Loan over value of Pledged Securities/Assets	<ul style="list-style-type: none"> The amount of secured loan taken in excess of value of pledged/ hypothecated securities/ assets is to be deducted. Disclose the nature and value of security against which the loan is secured.
8	Investment in Group Companies	<ul style="list-style-type: none"> Investment in equity shares or preference shares of the group company should be deducted from Paid up capital & Reserves. Both short-term and long-term investment in group companies needs to be deducted. Share application/ allotment money which pertains to the group companies is to be deducted. Investment in units of mutual fund/PMS/AIF of group companies should not be deducted. Group companies includes partnership firm, affiliates, associates, related entities including directors and their relatives.
9	Loans and advances to Group Companies	<ul style="list-style-type: none"> Other than trade receivables such as loans, advances, deposits, receivables against asset needs to be deducted. Group companies includes partnership firm, affiliates, associates, related entities including directors and their relatives.
10	Statutory Contingent liability	<ul style="list-style-type: none"> The statutory contingent liability refers to liability pertaining to GST, sales tax, income tax and other statutory dues which is under dispute. To deduct 50% of the unpaid statutory contingent liabilities from the Networth.

Note: Participants registered under the category ‘Stock Broker’ to provide explanations or clarifications, along with the submission of Networth, in case any of the below conditions get triggered:

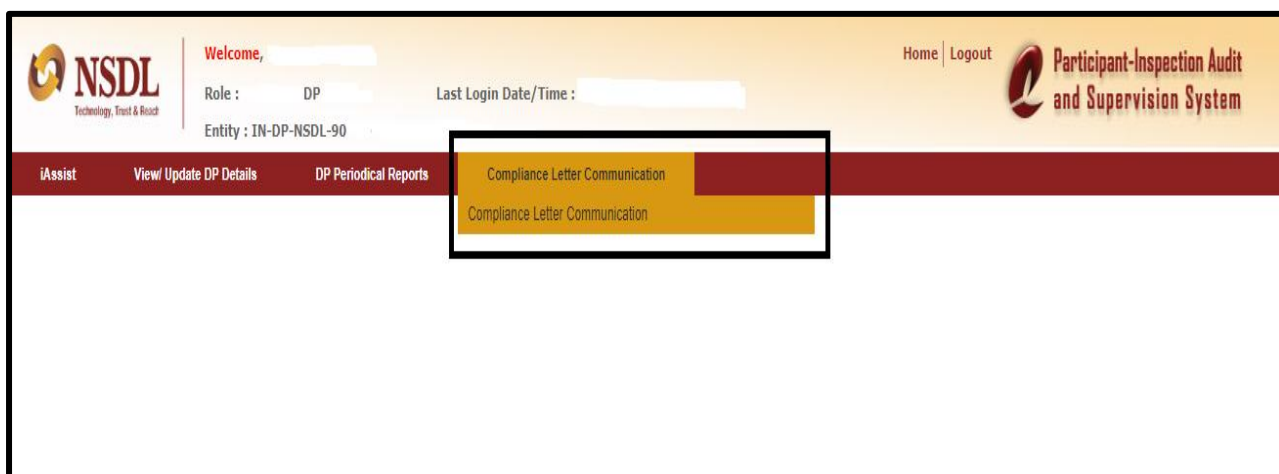

- Networth has reduced by 25% or more as compared to Networth as on previous period end.
- Increase in losses by 25% or more as compared to previous year losses.
- In case there is loss in current financial year, as compared to profit in the previous financial year, and the loss amount is more than 10% of the Networth of entity.

ANNEXURE Z13

Procedure for uploading response to Compliance Sought and Further clarification sought from DP for inspection observations.

1. Submission through Maker login:

After login to e-PASS, click on 'Compliance Letter Communication' → 'Compliance Letter Communication' as exhibited below:

Upon clicking on 'Compliance Letter Communication', below 'view/search compliance letter' screen will appear. Participant has to select status 'Compliance sought by NSDL' and click on Search button.

Thereafter, reference number(s) along with date of compliance letter issued by NSDL through which compliance is sought will be displayed. Participant has to click on Reference No. to proceed as exhibited below:

4. Modification / Deletion of existing User ID's:

For modification/ deletion of Maker User IDs on e-PASS, Participants have to send an email on nsdl-bp-inspection@nsdl.com in following format:

SEBI Reg. No.	DP Name	First Name of User	Last Name of User	Mobile no.	Email ID

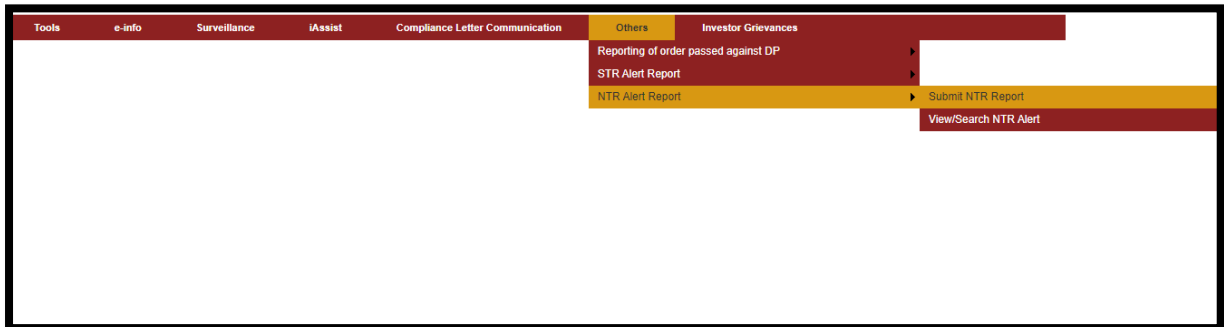

In case there is any change in details of Checker User i.e. Compliance Officer's/ Alternative Compliance Officer's name, email ID and mobile number, Participants are advised to update the details through e-PASS as per the procedure mentioned in Annexure Q under Chapter 11 (Internal Controls) of NSDL Master Circular Participants.

ANNEXURE Z14

Procedure for submitting information of number of NTR filed with FIU-IND.

1. Submission through Maker login: After logging to e-PASS, click on 'Others' → 'NTR Alert Report' → 'Submit NTR Report' as exhibited below:

Exhibit A

2. Upon clicking "Submit NTR report", below screen is displayed. Participant shall select their DPID's individually and submit as displayed on screen. During the submission of DP ID wise details, user can select/deselect the specific DP ID(s) and submit the details. Once DP ID is selected thereafter click on 'Proceed' button as exhibited below:

Exhibit B

The screenshot shows the 'Submit NTR Report' form. The 'DP Name' field is populated with 'ICICI Bank Limited'. The 'DP ID' field shows a list of DP IDs with checkboxes for selection. The 'PROCEED' button is visible at the bottom.

Exhibit C

The screenshot shows the 'Submit NTR Alert Report' form. It contains a table for NTR submission details. The table has columns for Sr. No., Report for the month, NTRs Submission (Yes/NIL), No. of NTR's, FIU Submission Date, Due Date, Remarks/Reason for delay, and Action. The first row is filled with data. The 'Save Draft' and 'Submit' buttons are visible at the bottom.

Sr. No.	Report for the month	NTRs Submission (Yes/NIL)	No. of NTR's	FIU Submission Date	Due Date	Remarks/Reason for delay	Action
1	Sep 2024	Yes	15	01-10-2024	15-10-2024		+

Note:

- i. The Participant Shall select a single DPID from the list shown in Exhibit B.
- ii. Participant shall report Month & Year of transaction processed and reported to FIU-IND under "Report for the month" column

For e.g., if transactions of October 2024 are considered and it was reported to FIU-IND through filing NTR, as the total value of the transaction during October 2024 is more than mentioned threshold as per SEBI circular or notification issued by FIU-IND, then October-2024 should be selected.

- iii. The Participant shall select “Yes” under “NTRs Submission” column, if an NTR is filed for any client of the selected DPID for the period selected under “Report for the month” column.
- iv. The Participant shall update the number of NTR submitted to FIU-IND under column “No. of NTRs” against the respective DPID for the selected period.
- v. The Participant shall update the date of NTR filed through FINnet 2.0 portal of FIU-IND under the column “FIU Submission Date”, if any NTR is filed with FIU-IND for the transactions processed in selected month.
- vi. In case NTR is filed with FIU-IND, then due date will be auto populated basis the timeline prescribed in SEBI circular under the column “Due Date”, i.e., 15th of the next month. In continuity from point (ii) above, due date for reporting of the transactions of the October 2024 will be November 15, 2024.
- vii. If “FIU Submission Date” is later than the “Due Date”, Participants must provide the remarks / reason for the delay in submission of the NTR to FIU-IND under the column “Remarks/Reason for delay”.
- viii. If Participants have multiple DPIDs as shown in exhibit B, then for each DPID Participants must follow the same process as mentioned from point (i) to point number (vii).

Exhibit D

If no NTR has been submitted then kindly update the table as mentioned below:

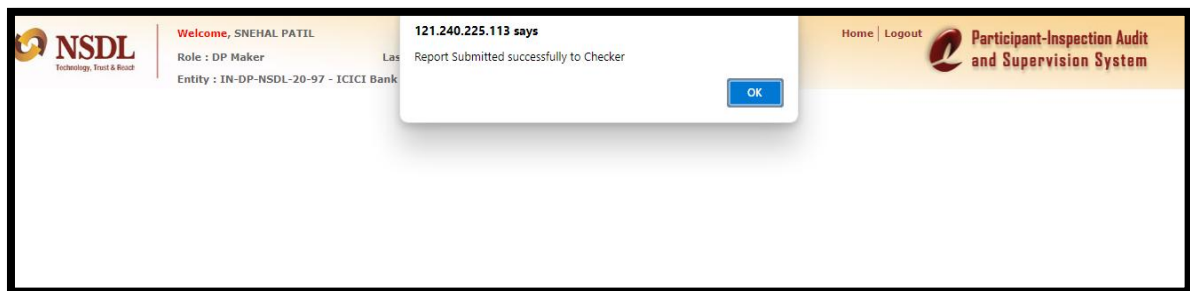

Sr. No.	Report for the month	NTRs Submission (Yes/NIL)	No. of NTR's	FIU Submission Date	Due Date	Remarks/Reason for delay	Action
1	Sep 2024	NIL					+

Save Draft Submit

Note: If Participant has not submitted any NTR for the transactions done in the month of September 2024 i.e., previous month, then Participant must select “NIL” under “NTR Submission” column from drop down menu. On selecting “NIL” option, all columns will be disabled automatically.

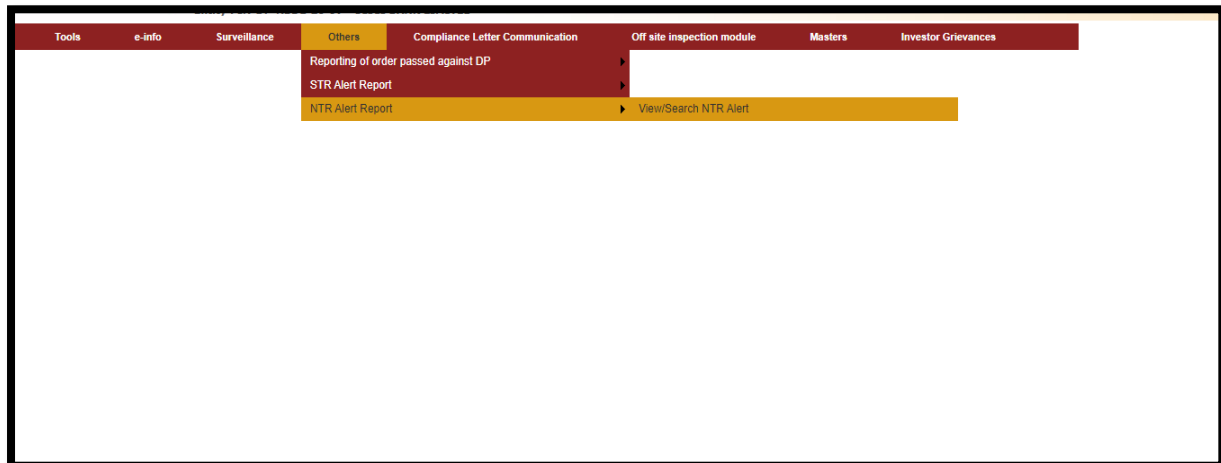

Exhibit E

After entering the details, maker must click on save draft and proceed to click on ‘Submit’ tab. Maker will get the popup as shown in Exhibit E, post clicking on submit button.

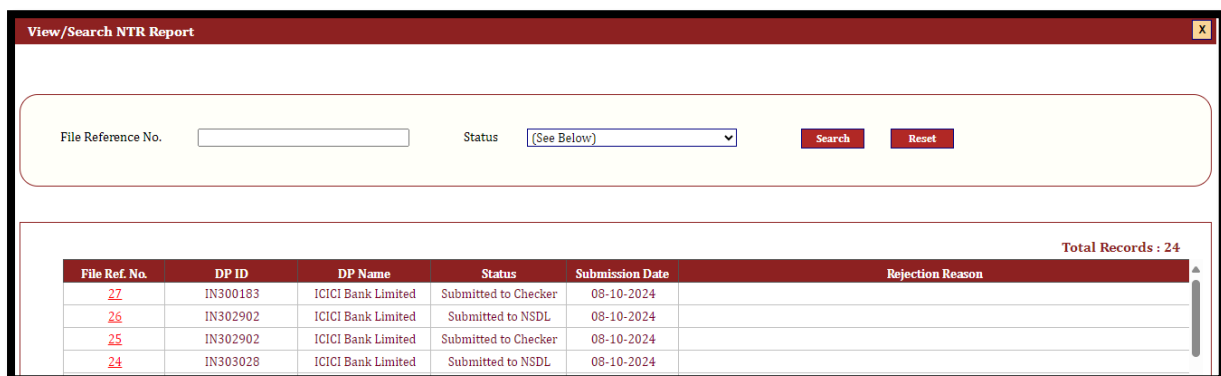

1. Post submission of report by maker user an email will be sent to Checker user of the Participant with a Copy to maker.
2. Upon clicking on 'View / Search NTR Alert Report' link, maker can view the status of the reports.

Exhibit F

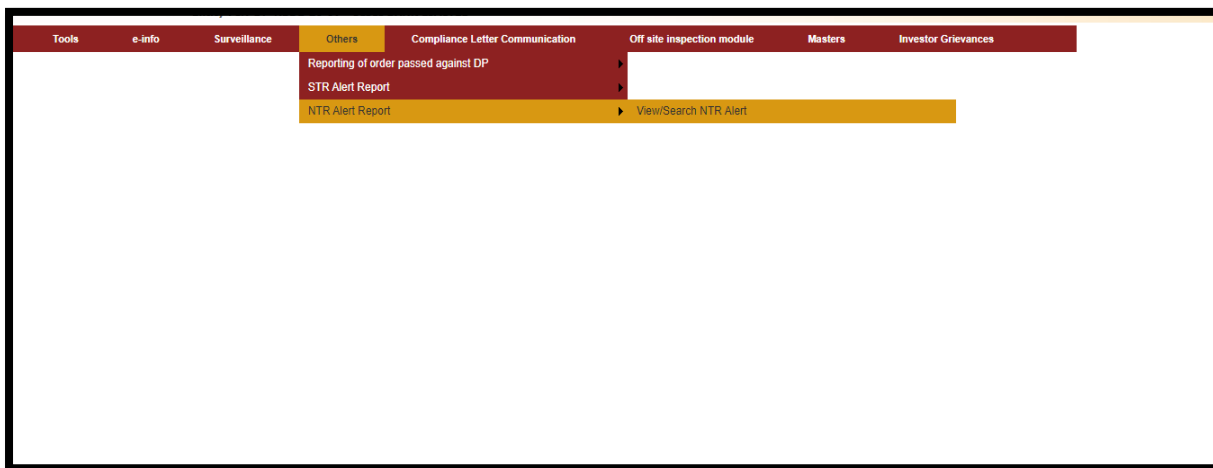

3. The Maker at the participant, can **check the status** by clicking on search tab

Exhibit G

4. The user with checker role at Participant's end, has to approve/reject the entry in the ePass. After login checker must follow the path as shown in exhibit below:

Exhibit H

5. On clicking View/Search NTR Alert report details will display on the screen.
Exhibit I

File Ref. No.	DP ID	DP Name	Status	Submission Date	Rejection Reason
27	IN300183	ICICI Bank Limited	Submitted to Checker	08-10-2024

INSTRUCTIONS FOR FILLING COMMON APPLICATION FORM (CAF)

- (a) Common Application Form (CAF) will be available for the FPI applicants on the website(s) of NSDL (www.nsdl.co.in) or (www.fpi.nsdl.co.in)
- (b) Form should be filled by the applicants in **Electronic mode** and legibly in BLOCK LETTERS.
- (c) Each box, wherever provided, should contain only one character (alphabet /number / punctuation sign) leaving a blank box after each word.
- (d) 'Individual' applicants should affix two recent colour photographs with white background (size 3.5 cm x 2.5 cm) in the space provided on the form. The photographs should not be stapled or clipped to the form. The clarity of image on PAN card will depend on the quality and clarity of photograph affixed on the form. Since this form is to be submitted in electronic mode, one photograph should be affixed electronically and another to be affixed in the box provided on the right side of the form .
- (e) Signature / Left hand thumb impression should be provided across the photo affixed on the left side of the form in such a manner that portion of signature/impression is on photo as well as on form.
- (f) Signature /Left hand thumb impression should be **within the box** provided on the right side of the form. The signature should not be on the photograph affixed on right side of the form. If there is any mark on this photograph such that it hinders the clear visibility of the face of the applicant, the application will not be accepted.
- (g) Thumb impression, if used, should be attested by a Notary Public or an authorized officer in respective country of residence under official seal and stamp.
- (h) AO code (Area Code, AO Type, Range Code and AO Number) of the Jurisdictional Assessing Officer must be filled up by the applicant. These details can be obtained from the Income Tax Office or PAN Centre or websites of PAN Service Providers on www.tin-nsdl.com and www.utiitsl.com .
- (i) Once the form is duly filled in by the applicant in electronic mode and supporting documents uploaded on the inter-face of NSDL, the same shall flow to the Designated Depository Participant (DDP) in electronic manner. The applicant shall thereafter have to take a print of the duly filled form. The duly filled printed form should be signed by applicant and be submitted in physical mode along with requisite documents in original to the Designated Depository Participant (DDP). Applicant should sign on each page of the Form before sending.
- (j) The applicant should submit the applicable fees for SEBI registration and issuance of PAN along with the form to concerned DDP in Dollar terms. The application without fees shall be rejected, The DDP shall thereafter transmit appropriate amount to SEBI (in Dollar terms) and Income Tax department (in INR).
- (k) The DDP shall upload the copy of SEBI registration certificate before the application electronically flows for issuance of PAN.
- (l) Once the PAN is generated, Custodian shall do the KYC. It is mandatory to provide KYC details in case of an application filled by a Foreign Portfolio Investor (FPI) as prescribed under the regulations issued by Securities & Exchange Board of India (SEBI). Please refer the guidelines issued by the SEBI & Prevention of Money Laundering Act for filling these details
- (m) Guidelines for filling the Common Application Form (CAF):

	Grand Total				

ANNEXURES

CHAPTER 15 - INSTRUCTIONS PROCESSING

ANNEXURE A

FRONT COVER OF DIS

Format of inside cover of DIS book for FORM 12 and FORM 13 --- (this line is a header for identification and not for printing)

Tips

- Accept the DIS book from your DP only if each slip has been pre-printed with a serial number along with your demat account number.
- Keep DIS booklet in safe custody. Do not leave your DIS booklet with anyone else.
- Fill in all details and then sign on DIS. Never sign a blank DIS.
- Please strike off unused rows in DIS.
- Avoid over-writing, cancellations and changes in the DIS.
- Know the deadline for submitting the DIS from your DP. You can submit DIS early with a future dated execution date so that shares move from your account only on the execution date.

Go Green Initiative: Save paper and time by availing hassle free NSDL e-services

- IDeAS: Use IDeAS facility to view your holdings and transactions in demat account online.
- SPEED-e: Use SPEED-e facility to submit delivery instructions directly on internet.

Ask your DP or visit <https://eservices.nsdl.com/> for details on above.

List of most common Reason codes for the Off Market Trades/ Inter Depository Instructions

Reason Code	Reason / Purpose	Reason Code	Reason / Purpose	Reason Code	Reason / Purpose
1	OFF MARKET SALE*	15	TRANSPOSITION - BETWEEN JOINT ACCOUNT OF SAME HOLDERS	29	DEPOSIT OF SECURITIES WITH ESCROW AGENT AND ITS RETURN
4	TRANSFER TO OWN ACCOUNT	21	TRANSFER FROM NOMINEE/SURVIVING HOLDER TO BENEFICIARY	88	TRANSFER BETWEEN MINOR ACCOUNT AND GUARDIAN ACCOUNT
10	MARKET IDT IDENTIFIER	23	TRANSFER OF SECURITIES FROM/TO ACCOUNT OF PMS PROVIDER TO/FROM THE ACCOUNT OF ITS VARIOUS CLIENTS	89	TRANSFER BETWEEN SPECIFIED FAMILY MEMBERS
12	BUY-BACK	24	MARGIN TO CUSTODIAN	90	TRANSFER BETWEEN PARTNER AND FIRM, DIRECTOR AND COMPANY
13	OPEN OFFER FOR ACQUISITION	27	OFF-MARKET SWAP	92	GIFT
14	REDEMPTION OF MUTUAL FUND UNITS	28	DELISTING-EXIT OFFER	93	DONATION

* Kindly submit the consideration payment details alongwith DIS.

ANNEXURE B

ANNEXURE C

Detailed specifications regarding scanning of DIS

1. Participant may scan DIS in **black and white** or in **color** format.
2. The scanned DIS image must be legible and clearly visible.
3. Minimum recommended Dots Per Inch (DPI) required for scanning is **100 DPI**.
4. Participant must scan DIS image in '**TIFF4**' format (.tiff file).
5. Expected size of DIS scanned image with 100 DPI would be:

Type	Size of image
Black and White	50 KB
Color	500 KB

6. To ensure proper association of scanned images with DIS Serial Number, Participant must ensure that the file naming convention of scanned image of DIS and its annexure must be as under – *<DP ID_DIS serial number_Page No. of Annexure(s)_Version No.>*. Default 'Page No. of Annexure(s)' in case of DIS without Annexure will be "000". Default 'Version No.' will be "1" of each DIS image. In case of authorised replacement of old DIS image with new DIS image, 'Version No.' will be incremented by 1 in file name of new DIS image i.e. 2, 3 and so on.

Example:

In case of first replacement of any DIS image, version number needs to be updated as highlighted in the below example :						
Ex am - ple	DP ID	DIS serial number	Annex ure/ Compu ter printo ut	No. of pages in Annex ure	File Nomenclature of Scanned Image	File Nomenclature of Annexure
1	IN300001	AB1234567890	No	0	IN300001_AB1234567890_000_2	Not applicable

ANNEXURE D

Signing and posting of DIS image

10. All scanned images of DIS and annexure to DIS must be digitally signed by the Participant. The nomenclature of each individual DIS image file must be in accordance with the file naming convention given at Annexure C except that, after digital signature by the Participant, extension of the file would become '.sgn'. This file will contain DIS image and Participant's DSC. For example, file IN300001_AB1234567890_000_1.tiff after getting digitally signed should be named as IN300001_AB1234567890_000_1.sgn
11. Once a batch of digitally signed DIS image files to be validated in the DIVS is ready, an Index file of the digitally signed DIS images is also required to be prepared as per the format given at Annexure E. The Index file, which is a text file, should also be digitally signed by the Participant. The file naming convention of text file will be DPID_DDMMYYYY_batchnumber.txt [*Example: If DP ID IN300001, business date is 15-July-2014 and batch number is 1, file name should be IN300001_15072014_00000001.txt*], which after getting digitally signed by the Participant, will bear .sgn extension.
12. Digitally signed DIS image files and digitally signed index file for the batch should be zipped in a single file. The file naming convention of zipped file will be DPID_DDMMYYYY_batchnumber.zip. The Participant can generate any number of batches during the day and post them to DIVS for validation.

Example: If DP ID is IN300001, business date is 15-July-2014 and batch number is 1, file name of zip file should be IN300001_15072014_00000001.zip. If Participant has scanned 100 DIS in a batch, then total 101 files should be generated (100 digitally signed image files and 1 text file containing details of DIS) and all these 101 files should be zipped to create one single file to be posted to DIVS.
13. This zipp file should be placed in a pre-defined folder viz. 'DIS_Input folder' on Local DPM. The same will required to be posted to DIVS, by invoking a menu option on the Local DPM. The procedure for the same will be informed to the Participants in due course.
14. DIVS will validate the Participant's digital signature associated with DIS image. After successful validation, DIVS will sign the content in DIS image file posted by the Participant with NSDL's digital signature and generate a response file. The response file is a zip file containing (a) Index file digitally signed by NSDL in the format specified in Annexure E, which also contains the status indicator of successful validation or rejection of the image by DIVS, (b) successfully validated images returned after affixing NSDL's digital signature, and (c) rejected images returned as they are.
15. The response zip file will be placed at a pre-defined folder viz. 'DIS_output folder' on local DPM.
16. Participants are required to pick the aforesaid files (*mentioned at step no. 6 above*) from DIS output folder and take appropriate action. Rejected images will need to be reposted after correcting errors. Successfully validated images which are digitally signed by NSDL, need to be stored by the Participant.
17. Files which are more than seven days old will be deleted from DIS_Input and DIS_output folders on Local DPM.
18. In the event of any authorized replacement required in the original DIS after scanning and storage, the DIS must be scanned again. The nomenclature of such rescanned DIS image file must be in

accordance with the file naming convention given at Annexure C. The reason for such replacement must be recorded in the Index file. The Participant must follow above mentioned procedure for signing and posting the new scanned image to DIVS to obtain NSDL signed DIS image. Participant must store both old as well as new DIS image which are digitally signed by NSDL.

19. Subsequently, when NSDL requests scanned image of a specific DIS, Participant will be required to provide DIS scanned image file which is digitally signed by NSDL (*as per step no. 5 above*).
20. Participants need to digitally sign files as per above procedure. In case Participant does not already have a Digital Signature Certificate (DSC), it may be procured from e-Mudhra Consumer Services Limited (e-Mudhra) or Sify Technologies Limited (Safescrypt). For detailed guidelines regarding procurement of the DSC, please refer to Circular No. NSDL/POLICY/2014/0082 dated July 14, 2014.

Participants may obtain scanning, signing and storage software from any vendor.

7	File already imported	Image file already imported
8	Line no () - Invalid length	Length of the line is not as per specified format
9	Invalid DIS File name	DIS file name is not proper
10	Number of records present in Index file and .sgn present in Zip file is not matching	File present in zip and index file is not matching
11	Index file missing	Index file not present in uploaded .zip file
12	Invalid file format	Uploaded file is not as per specified format

ANNEXURE H

NATIONAL SECURITIES DEPOSITORY LIMITED
DIS File Upload Process
User Manual <i>This document specifies steps involved in DIS file upload on ePASS portal.</i>

A sub menu '**DIS Upload**' is added on ePASS portal under menu Transaction for uploading zip file containing the digitally signed DIS image files and index file. There will be two sub-menus provided under the menu '**DIS Upload**'

- a. Upload DIS File
- b. View / Search DIS Uploaded

The steps for upload of the zip file and to view or search uploaded DIS image files are given below:

1. How to upload?

- a. Participant must select sub-menu '**Upload DIS File**' as shown in **Figure 1** below.

Figure 1

- b. On clicking the sub-menu '**Upload DIS File**', a browse window will open. The Participant shall use the '**Browse**' option to select the valid file (i.e. zip file with correct naming conventions as prescribed) and click on '**Upload**' button as shown in **Figure 2**.

The screenshot shows a web form titled 'Upload DIS File'. It features a text input field labeled 'Select File For Upload' with a 'Browse...' button to its right. Below the input field, there is a red asterisk followed by the word 'Mandatory'. At the bottom right of the form, there are two buttons: 'Upload' and 'Reset'.

Figure 2

- c. On successful upload, a message will get displayed “**File Uploaded successfully**” as shown in **Figure 3** else an error message will display like in **Figure 4**.

Figure 3

Figure 4

- d. The file upload can be rejected for the following reasons:

Sr No	Error Description	Rejection Reason
1	Signature Verification Failed	Tampered file
2	Invalid File	Other than .sgn file

3	Zero kb file	file size '0'
4	Invalid Naming convention	DIS image file name is not as per specified format
5	Invalid DP ID	DP ID mismatch

6	Batch no already exists	Batch already imported
7	File already imported	Image file already imported
8	Line no () - Invalid length	Length of the line is not as per specified format
9	Invalid DIS File name	DIS file name is not proper
10	Number of records present in Index file and .sgn present in Zip file is not matching	File present in zip and index file is not matching
11	Index file missing	Index file not present in uploaded .zip file
12	Invalid file format	Uploaded file is not as per specified format

In case the file upload is unsuccessful, the Participant will need to correct the error considering the rejection reason as will be mentioned in the response file and re-upload the zip file containing the DIS image files and index file in stipulated manner,

2. How to verify status of DIS upload on ePASS.

- a. To view uploaded file, click on '**View / Search DIS Uploaded**' as shown in **Figure 5**.

Figure 5

- b. On clicking '**View / Search DIS Uploaded**' sub-menu, Participant will be able to view the files uploaded alongwith the status of upload of DIS images in e-Pass and response file (.txt) as shown in **Figure 6**. The Participant will need to click the respective link to view the uploaded file / response file.

View / Search DIS Uploaded

Status (See Below) ▼ From Date To Date DP ID Search Reset

Total Records : 104

File Ref. No	File Name	File Status	Uploaded Date	Rejection Reason	Response File

Figure 6

Utility for retrieving DIS images from DMS

1. Please download “**DIS_Inspection_utility.zip**” from ePASS, copy it on LDPM server and extract it in C drive of LDPM server. Contact to NSDL, if this option is not available under your login. Remove READ ONLY properties of all folders, files and double click on **DMS_Inspection.exe**. This will open DMS Inspection utility as shown in **Fig. 1**.

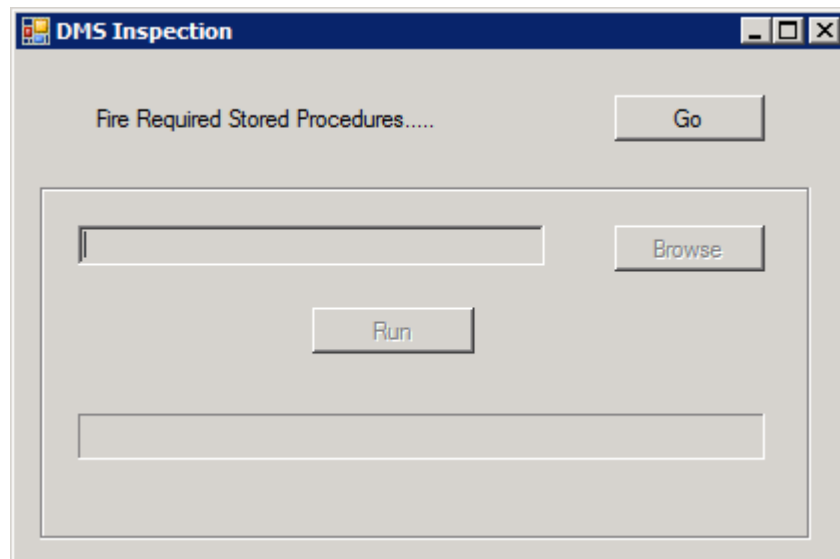

Figure 1

2. Click on “**Go**” button to execute required Stored Procedures as shown in **Fig. 2** below.

Figure 2

3. Upon successful completion a message will appear as shown in **Fig. 3** below.

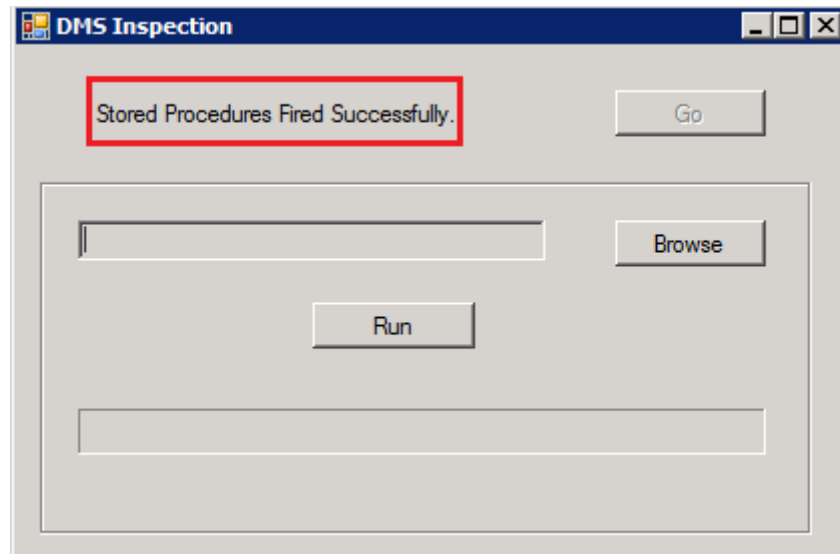

Figure 3

4. Click on "**Browse**" button to select input file as shown in **Fig. 4** below. The input file will contain DPID, DIS number to extract the DIS images.

Figure 4

5. Select input file and click on “Open” button as shown in **Fig. 5** below.

Figure 5

6. Then click on “**Run**” button to generate output as shown in **Fig. 6** below.

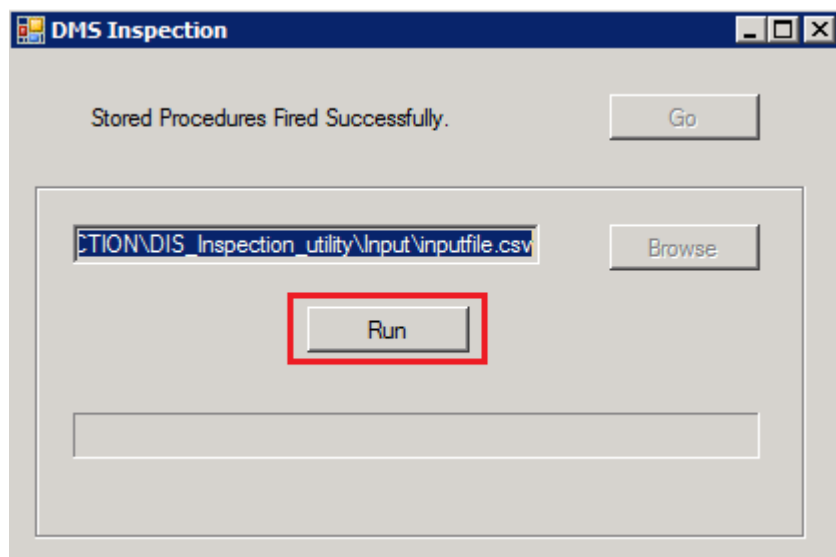

Figure 6

7. You can view progress of file generation as shown in **Fig. 7** below.

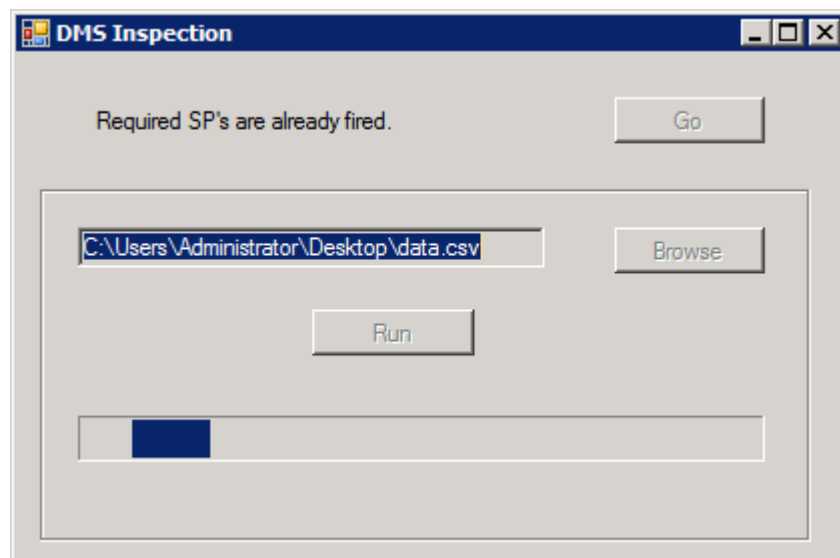

Figure 7

8. Upon successful completion a message will appear as shown in **Fig. 8** below.

Figure 8

9. You will get the export of required DIS in following path (C:\DIS_Inspection_utility\Output) as shown in **Fig. 9** below

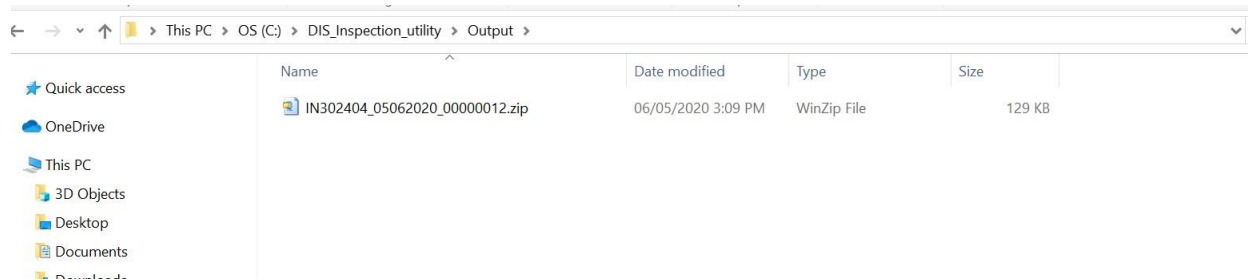

Fig. 9

10. Upload this file to ePASS under menu DIS Upload ☐ Upload DIS file

FORM 15 and FORM 16

Tips

- Accept the DIS book from your DP only if each slip has been pre-printed with a serial number along with your demat account number.
- Keep DIS booklet in safe custody. Do not leave your DIS booklet with anyone else.
- Fill in all details and then sign on DIS. Never sign a blank DIS.
- Please strike off unused rows in DIS.
- Avoid over-writing, cancellations and changes in the DIS.
- Know the deadline for submitting the DIS from your DP. You can submit DIS early with a future execution date so that shares move from your account only on the execution date.

Go Green Initiative: Save paper and time by availing hassle free NSDL e-services

- IDe AS: Use I DeAS facility to view your holdings and transactions in demat account online.
- SPEED-e: Use SPEED-e facility to submit delivery instructions directly on internet. Ask your DP or visit <https://leservices.nsdl.com> for details on above.

List of Reason Codes for Inter-Depository Instructions

Reason code	Reason/ purpose	Reason code	Reason/ purpose	Reason code	Reason/ purpose
1	Off-market sale	5	Open offer I Buy-back	9	Account Closure
2	Margin to stock broker	6	Transfers to PMS account	10	On-market Sale (Transfer towards Pay-in)
3	Margin returned by stock broker	7	Transfers from PMS account	11	Transmission
4	Transfer to own account	8	Gift I Donation	99	Others (please specify)

FORM 18, FORM 19, FORM 20 and FORM 22

LOCAL DPM DOWNLOADS

File Formats

This document specifies file format of Change Order of the Day download from LOCAL DPM System.

Version History

Sr. No.	Version No.	Description	Download Type	Place of Field
1	2.2	Digital Instruction Number (DIN)	908,909,910,911	871-880
2	2.3	Hold/ Hold Release	949,950,951,952	
3	2.4	Off Market Payment Details	904,925	
4	2.5	Multiple Nomination in Account Transmission/Account Closure(IDT)	940,941	
5	2.6	Stamp Duty in Account Transfer, IDT, Pledge Invocation and Hypothecation invocation confirmation	904, 925,910, 918	
6	2.7	Margin Pledge /Re-Pledge	908, 916	
7	2.8	Early Pay-in Flag	904,934	
8	2.9	Margin Pledge Instruction ID	908, 910, 911, 916,919	1062-1075
9	3.0	eDIS Mandate Reference Number	904	766-781
10	3.1	Remarks changes for eDIS Early Pay-in in Account transfer , Early Pay-in Flag , eDIS Mandate Reference Number and Request quantity in Inter Depository Transfer	904, 925	765, 766-781,782-799
11	3.2	UCC, Trading Member ID ,Exchange ID and Block with Early Pay-in flag included in Account transfer and Inter depository Transfer	904,925	
12	3.3	DIS Issued to DDPI, DDPI ID, Reason codes for encumbrance and Name of ultimate lender/debenture issuer	904, 925, 908, 909, 910, 911, 916, 917, 918, 919, 949, 950, 951, 952	
13	3.4	Changes in remarks column for DIS Issued to Client / POA Holder/ DDPI & POA ID /DDPI ID, UCC, Trading Member ID ,Exchange ID Segment ID included in Account transfer and Inter depository Transfer	904,925	

1.1 CHANGE ORDER OF THE DAY DOWNLOAD

1.1.1 OVERVIEW

This download helps the DP to view the order that has been changed from one status to another during the day.

1.1.2 INPUT CRITERIA

Field/Range	Valid Values
Full or Incremental option or online	Need to choose from given options
Statement Date	The current business date
From Date And time	Enabled and set in case of incremental download
To Date and time	Enabled and set in case of incremental download

1.1.3 SORTING

Field	Ascending
Line number	Yes

1.1.4 PROCESSING LOGIC

1. The download will provide two options full and incremental.
2. In case of “Full” download, all the orders whose status have been changed are downloaded corresponding to a particular business date.
3. In case of “Incremental” download, all the orders whose status have been changed are downloaded corresponding to a particular business date. Only those records are including whose status have been changed from the last download date.
4. The downloaded file will be a ZIP file which can be extracted to obtain the .TEXT file inside it. . This is applicable for all types of download (full and incremental).

FILE FORMATS

Record Type	Record Identifier	Record length	Remarks
Header	01	129	One (First) record per file
Detail	02	1080	Second record onwards, multiple per file.

1.1.5 HEADER RECORD

Description	Data Type	Size	End	Status	Remarks

1.1.6 DETAIL RECORD

Each detail record will be further identified with a transaction type:

Transaction Type	Transaction Description
801	Pool – Pool Account transfer (valid only from CC’s CM Pool)
900	Repurchase Instruction
901	Demat Instruction
902	Remat Instruction
904	Delivery Free of Payment (Inter DP) Instruction

Transaction Type	Transaction Description
905	Receipt Free of Payment (Inter DP) Instruction
906	Delivery Out Instruction
907	Inter Settlement Transfer Instruction
908	Pledge initiation
909	Hypothecation initiation
910	Pledge invocation
911	Pledge closure instruction
912	Irreversible Delivery Out Instruction
916	Pledging confirmation (Pledgee end – Confirmation of Pledge)
917	Hypothecation confirmation (Pledgee end – Confirmation of Hypothecation)
918	Invocation confirmation (Pledger end – Confirmation of invocation)
919	Closure confirmation (Pledgee end)
920	Receipt-In Intimation
921	Corporate Action (Debit)
922	Corporate Action (Credit)
923	Lock-in Release
925	Inter Depository Transfer Instruction (DELIVERY)
926	Inter Depository Transfer Instruction (RECEIPT)
927	Auto Do Transfer Instruction
934	CM Pool Delivery Instruction
935	CM Pool Receipt Instruction
936	Account Freezing Instruction
937	Account Unfreezing Instruction
938	ACA Debit
939	ACA Credit
940	Account Transmission
941	Account Closure
942	Freeze For Delivery
949	Hold initiation
950	Hold Release instruction

Transaction Type	Transaction Description
951	Hold confirmation (Target DPs end – Confirmation of Hold instruction)
952	Hold Release confirmation (Target DPs end)

Detail Record (900 to 907; 913; 914; 915; 920 to 924; 927,930,931,938,939,942)

6.1.2 Detail Record 141

DPM System Transactions Upload

1 Overview

DPM transaction upload, facilitates DPs and CCs to upload various settlement transactions generated in their back-office, such as Demat, Remat, Inter Settlement Transfer, Delivery Out, Pledge / Hypothecation, Pledge Invocation, Pledge Closure, CM Pool to Pool Transfer, Irreversible Delivery Out, Inter Depository transfers and CC pool to CM pool Transfer etc into Central DPM System.

Central DPM System provides Record/Batch Level Rejection. In case of Batch level rejection System would reject only the erroneous record and capture the rest of valid records.

2 Upload Input Criteria

Field Name	Valid Values
Input File Name	File Name containing the instruction details to be uploaded in DPM
	System.
Upload Output	
Field Name	Valid Values
File Reference Id	The unique file reference id generated for the uploaded file which can be
	used to search for the File Status, Response File Details and Error File
	Details (if applicable)

3 Processing logic

Upload File Processing logic at Central DPM

- (1) In first parse, the entire batch would be validated for the format level conformity. In case of errors found, the entire batch would be rejected generating **.ERR** file under **Error** column containing the appropriate error codes and description.
 - (2) In case the batch is valid at format level, the data level validations would be carried out in next parse for each record in the batch file. If the validations are successful, the instruction would be captured in DPM system with appropriate instruction number. If the validation fails, the instruction would be rejected and would not be captured in DPM application.
-
- (3) A response file **.OUT** would be generated under **Response** column giving the details of each instruction in the input batch. This would mainly contain the line no; the status of the corresponding

instruction (**A** – accepted and **R**- Error) and the instruction number if the instruction is captured in DPM System.

- (4) In case, the batch contains the erroneous records, a **.ERR** file would also be generated giving the details of rejected records, such as line no, error code and error description.
- (5) DPs would be required to create new batch for the rejected records bearing new batch ID. The batch would be rejected if the same batch id were used.
- (6) The batch acceptance flag in the header record would contain the value as “A”, if

All or Partial Records in the batch are accepted.

If all the records were **Rejected**, the flag would be shown as “R”.

Note:

Record Level Rejection Upload utility can be used only from the Central DPM side. It can be used from client machine only if the “Admin” rights have been given to the user.

Function right for both the utilities are common in system security module.

While uploading the file, DP needs to take care of the following salient points:

- (1) In the Header record for every batch upload the Batch Number and Branch Code combination should be unique.
 - (2) The total number of records will corresponds to the number of detail records.
 - (3) The DP's role is always expected to be '01'.
 - (4) The transactions are differentiated with the three digit transaction type, in the detail record as given in the file format. The transaction flag is expected as ‘A’ for all transactions (Currently all transactions are uploaded only in the Captured status. ‘A’ corresponds to this status).
 - (5) In the trailer record, each transaction’s total quantity, as well as the grand total is expected for control.
 - (6) All character fields are expected to be in upper case.
 - (7) The fillers in the format for one transaction are actually redefined and used as a field in another transaction thus accommodating all types of transactions in a single record format.
 - (8) If the same batch number is uploaded then the entire batch would be rejected by the upload utility on account of "Duplicate Batch id".
-

4 File Format

The file formats of input batch are same for both the levels of upload utilities.

Record Type	Record Identifier	Record length	Remarks
Header	‘01’	50	One (First) record per file
Detail	‘02’	750	Second record onwards, multiple per file.
Trailer	‘99’	493	Last record in the file

Each detail record will be further identified with a transaction type

Transaction Type	Transactions
801	Pool - Pool Account transfer (valid only from CC’s CM Pool)
900	Repurchase Instruction
901	Dematerialization Instruction
902	Rematerialization Instruction
904	Delivery Free of Payment (Inter DP) Instruction
905	Receipt Free of Payment (Inter DP) Instruction
906	Delivery Out Instruction

9 Overview

After an Instruction is captured, either online on the screen or in the bulk mode using Upload of Transactions in a Batch, an authorised officer visually verifies the electronic instruction against its paper counterpart and releases the Instruction for processing at NSDL (DM). This facility is available in the online/screen mode – a single Instruction is displayed on the screen and verified and, then, released before displaying another Instruction.

The requirement is to provide a facility to selected DPs to verify and release all Instructions during Upload of Transactions in a Batch.

ANNEXURE J

1) Registration process

Password based Users of SPEED-e viz., new as well as existing will be able to register themselves for e-DIS facility. Detailed registration process for e-DIS facility is given below:

(a) Registration of new Password based Users:

At the time of registration for SPEED-e facility as a password based User or request for Change Service from IDeAS to SPEED-e / IDeAS, a check box named „e-DIS Flag“ is being provided for Clients to activate the same. In this regard, Client would be required to do the following:

1. Enable “e-DIS Flag” for the specified Clearing Members (CMs) who would be uploading Pay-in instructions on SPEED-e (*refer exhibit I*).
2. Take a print-out of the pre-filled SPEED-e application form / pre-filled Change Service Request Form (*as the case may be*) from the website or a new user can also download the SPEED-e application form & manually fill the details that were entered during registration.
3. Submit with requisite documents as mentioned in the SPEED-e operations manual (*i.e. required at the time of SPEED-e registration*) viz., SPEED-e agreement between Client and DP, Consent letter from the CM etc. to Participant for authorization. After Participant authorizes the Client on SPEED-e facility, Client would get registered for e-DIS facility for the respective pre-notified CM(s).

Exhibit 1 – e-DIS registration for New Password based Users

(b) Registration of existing Password based Users:

The existing Password based Users of SPEED-e will have the ability to register the existing or new Pre-notified CM Pool Accounts for this facility. In this regard, if Client wishes to add a pre-notified account then Client will be required to submit an online request on SPEED-e using the „Add“ link, enter the requisite CM BP ID, enable the e-DIS flag and then click on „Add“ button (*refer exhibit 2*). Upon clicking on „Confirm“ button, Client has to take print-out of the “Addition of Pre-Notified Accounts Form” from the link provided at the acknowledge screen, fill the details and submit it along with the requisite documents viz., Consent letter obtained from Clearing Member and a copy of latest Transaction Statement as mentioned in the SPEED-e operations manual to its Participant for authorization of addition of pre-notified account.

The screenshot shows the 'Add Pre-Notified Account' form in the SPEED-e system. The left sidebar contains links for 'Delivery Instructions', 'Pre-Notified Accounts', and 'Add'. The main form area has a red header 'Add Pre-Notified Account'. Below the header, there is a text box for 'CM BP ID' and a checkbox for 'e-DIS Flag'. An 'Add' button is located below the text box.

Exhibit 2 – e-DIS facility to new CM Pool account

In case Client wishes to provide e-DIS facility to existing pre-notified account, Client will be required to access „e-DIS Registration for Existing Pre-Notified Accounts“ link (*refer exhibit 3*), enable the flag and click on the submit button. Upon clicking on confirm button, Password User will be required to submit the “Registration for e-DIS facility in the existing Pre-Notified Accounts Form” to its DP for authorization.

The screenshot shows the 'Existing Pre-Notified Accounts - e-DIS Confirmation' form in the SPEED-e system. The left sidebar contains links for 'Delivery Instructions', 'Pre-Notified Accounts', and 'e-DIS Registration for Existing Pre-Notified Accounts'. The main form area has a red header 'Existing Pre-Notified Accounts - e-DIS Confirmation'. Below the header, there is a table with columns 'CM Name', 'CMBPID', 'Status', and 'e-DIS Flag'. The table contains two rows of data. A 'Submit' button is located below the table.

CM Name	CMBPID	Status	e-DIS Flag
PHOENIX SH AND STK BK PL	IN000552	Not Opted	<input type="checkbox"/>
PHOENIX SH AND STK BK PL	IN445458	Not Opted	<input type="checkbox"/>

Exhibit 3 – e-DIS facility to existing pre-notified account

Upon receipt of the request for authorization for e-DIS facility in the existing pre-notified account, DP functional user will be required to access the link „e-DIS Registration For Existing Pre-Notified Accounts“ for authorization.

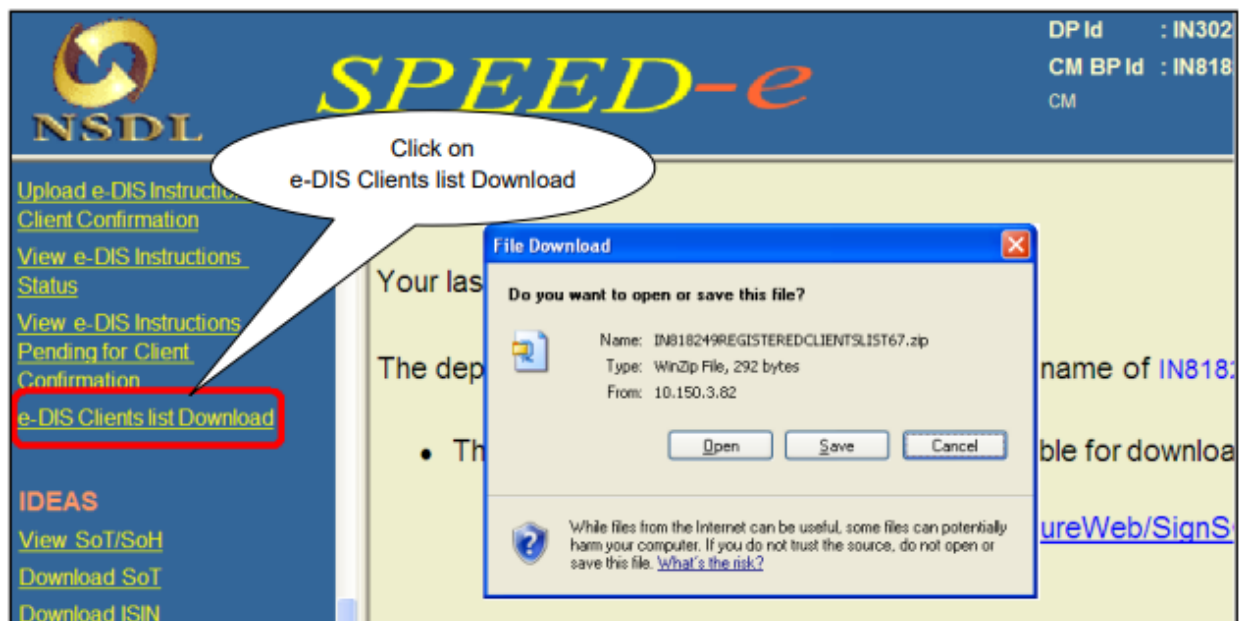

Exhibit 6 – View list of registered Clients for e-DIS facility by CM

2) Submission of instructions:

CMs who have registered for e-DIS facility can upload the Pay-in instructions for onward confirmation from its Clients through link viz., „Upload e-DIS Instructions for Client Confirmation“ link. The upload file format for CMs is enclosed at Annexure 1.

3) Confirmation of Instructions:

Once the CM uploads the Pay-in Instructions on SPEED-e for onward confirmation of Clients, respective Clients will receive intimation through an SMS on the mobile number of Sole Holder / First Holder (*in case of joint accounts*) registered in DPM system. In case the mobile number of the first holder is not available, then SMS will be sent to the second or third holder, as the case may be, whose mobile number is captured in the DPM System. In case mobile number is not captured in the DPM System for Sole Holder / First Holder or Second Holder or Third Holder (*in case of joint account*) the SMS will not be sent to the Client. Client can view and confirm/reject instructions submitted by CM on SPEED-e facility through the link viz., „View e-DIS Instructions Pending for Confirmation“ (*refer exhibit 7*). After confirmation of the instruction, the Participant has to download the instruction and upload the same into e-DPM system or if the Client is registered for *SPEED-e* DIRECT the instructions will be transmitted directly to NSDL.

5) View pending instructions

CMs will also be able to view the Pay-in instructions which are pending for Client confirmation on Pay-in day through „View e-DIS Instructions Pending for Client Confirmation“ link and if required CM can do the follow up with the client.

6) Deadline time :

The deadline time for submission of Pay-in instructions by CMs on a Pay-in day would be

8.00 a.m. and confirmation of Pay-in instructions by Clients would be 9.00 a.m. on a Pay-in day on SPEED-e (*irrespective of the SPEED-e / SPEED-e DIRECT deadline time*). However, the deadline time for submission of Pay-in instructions on SPEED-e / SPEED-e DIRECT other than e-DIS facility will remain unchanged.

7) Revised SPEED-e forms:

In view of the aforesaid, following forms have been revised / added in respect of password based Users are enclosed:

(i) SPEED-e Application form.

(ii) Addition of Pre-Notified Accounts form.

(iii) Registration for e-DIS facility in the existing Pre-Notified Accounts form.

ANNEXURE L

FEATURES IN RESPECT OF PROCESSING OF EDIS INSTRUCTIONS BASED ON MATCHING WITH EDIS MANDATE AND CLIENT LEVEL OBLIGATION DATA RECEIVED FROM CLEARING CORPORATIONS

SEBI has vide its Letter no. SEBI/HO/MRD2/DDAP/OW/P/2021/1632/1 dated January 20, 2021 issued the guidelines to depositories regarding Acceptance of Delivery Instruction through Online Portal of Intermediaries. In the aforesaid letter, at point no. 3 (b)(iv) it is stated that, “Prior to executing actual transfer of securities based on details provided by intermediary, Depositories need to match and confirm the same with mandate provided by client as well as client-wise net delivery obligation arising from the trades executed on exchanges, as provided by Clearing Corporation to Depositories for each settlement date.”

In this regard, the system enhancements in respect of processing of eDIS instructions based on eDIS mandate provided by client on Demat Gateway and client-wise net delivery obligation data received from Clearing Corporations are mentioned below:

A. Changes in Demat Gateway system i.e. eDIS Mandate:

In order to match eDIS instruction with eDIS mandate and client-wise net delivery obligation, the following fields are added to eDIS mandate requests. •

- Unique Client Code (UCC)
- Trading Member (TM) ID
- Exchange Code B.

B. Changes in respect of Account Transfer / Inter Depository Transfer (IDT) instruction on eDPM system:

- i. As Participants are aware that currently, NSDL is validating details mentioned in eDIS mandate submitted through Demat Gateway with details of Account Transfer instructions with eDIS type as “07”. Further, new validations shall be incorporated in respect of matching of details of eDIS based instruction with obligation details provided by Clearing Corporation (CC) to NSDL.
- ii. As communicated vide NSDL Circular no. NSDL/POLICY/2021/0031 dated April 02, 2021, the Early Pay- in (EPI) flag is added in Account Transfer and Inter Depository Transfer (IDT) instructions in respect of eDIS mandates provided on Demat Gateway as mentioned below :
 - a) **Back-office Interface:** Early Pay-in Flag for eDIS EPI Benefit when DIS Type = 07 i.e. Demat Gateway :

- i. **Y or Space:** Initiate Early Pay In (without making any changes in file upload mechanism, Participants can execute eDIS instruction for getting EPI benefit by providing space or 'Y' value under Early Pay-in flag)
 - ii. **N:** Do not initiate Early Pay In (Participants shall specifically provide Early Pay-in flag value as 'N' if they do not wish to get EPI benefit for particular client).
- b) Interactive/manual mode of instruction execution: On Account Transfer / IDT screen in respect of eDPM system, Early Pay-in (EPI) flag is available at instruction level. The existing behavior of EPI flag will remain unchanged i.e. the flag will be by default shown as Unticked. If Participant wishes to avail EPI benefit, then user has to enable the EPI flag. If EPI flag is not enabled, then instruction submitted will not be considered for EPI benefit.

C. Matching of eDIS based instructions with CC obligation:

- i. As per the aforesaid SEBI letter, Depositories need to match details of eDIS instruction with client- wise net delivery obligation details arising from the trades executed on exchanges, as provided by Clearing Corporations (CCs) to Depositories for each settlement date.
- ii. CC will upload the client-wise net delivery obligation on the Trade day.
- iii. CCs will provide obligation details to NSDL as per agreed process, file formats and timelines. CCs will provide segment wise (for agreed set of Market Types under one segment) separate obligation files to NSDL.
- iv. The additional details viz., UCC, TM ID and Exchange ID received in eDIS mandate request will be used to match the eDIS instruction details with the UCC details in the demat account and the client-wise net delivery obligation details received from Clearing Corporations.
- v. All eDIS instructions will be matched with Obligation details received from Clearing Corporation after the release.
- vi. eDIS instruction will be rejected in case of instruction details are not matched with the obligation details received from the CCs or obligation is not received in respect of particular eDIS instruction.

D. Process flow in respect of eDIS based Account Transfer Instruction

Sl No.	Process	Early Pay-In flag is marked as “Y”		Early Pay-In flag is marked as “N”	
		Before receipt of Obligation	After receipt of obligation	Before receipt of Obligation	After receipt of obligation
1	Details of eDIS based Account Transfer instruction wherein EPI flag is marked as “Y” or “N” will be matched with eDIS mandate details on execution date of instruction.	Yes	Yes	Yes	Yes
2	If Account Transfer details are unmatched with eDIS mandate, then Account Transfer instruction will be rejected.	Yes	Yes	Yes	Yes
3	If Account Transfer details are matched with eDIS mandate, then securities will be blocked in client demat account based on the availability of securities in client demat account.	Yes	Yes	NA	NA
4	In case of matched Account Transfer instruction, Account Transfer instruction details shall be provided to CCs as per existing IDO export format along with additional details viz., UCC, TM ID and Exchange ID in eDIS EPI Export file for providing EPI benefits to the clients.	Yes	Yes	NA	NA
5	CC will match the obligation details with the UCC and other details sent in eDIS EPI export and may provide EPI benefits to the clients.	Yes	Yes	NA	NA
6	In case of unmatched Account Transfer instruction, CCs will upload eDIS EPI reversal file before uploading the obligation details wherein securities will be debited from blocked balance under client account and credited as free balance in client account.	Yes	Yes	NA	NA

Sl No.	Process	Early Pay-In flag is marked as “Y”		Early Pay-In flag is marked as “N”	
		Before receipt of Obligation	After receipt of obligation	Before receipt of Obligation	After receipt of obligation
7	After receipt of the obligation details, eDIS based Account Transfer instruction (for which cancellation is not executed by CCs) details will be matched with CC obligation details by NSDL at EOD of obligation received date.	Yes	Yes	NA	NA

E. **Process flow in respect of eDIS based IDT instructions**

Sl No.	Process	Early Pay-In flag is marked as “Y”		Early Pay-In flag is marked as “N”	
		Before receipt of Obligation	After receipt of obligation	Before receipt of Obligation	After receipt of obligation
1	Details of eDIS based IDT instruction wherein EPI flag is marked as “Y” or “N” will be matched with eDIS mandate details on execution date of instruction.	Yes	Yes	Yes	Yes
2	If IDT details are unmatched with eDIS mandate, then IDT instruction will be rejected.	Yes	Yes	Yes	Yes
3	If IDT details are matched with eDIS mandate, Source Depository will block the securities in client demat account and send IDT instruction (as per existing IDT mechanism) alongwith eDIS Indicator, EPI flag as “Y” or “N” to the Target Depository.	Yes	Yes	Yes	Yes
4	Target Depository will acknowledge the receipt of this instruction from Source Depository.	Yes	Yes	Yes	Yes

Sl No	Process	Early Pay-In flag is marked as “Y”		Early Pay-In flag is marked as “N”	
		Before receipt of Obligation	After receipt of obligation	Before receipt of Obligation	After receipt of obligation
5	The aforesaid successful IDT will remain in ‘Acknowledgement awaited from Other Depository’ status in Source Depository till clients obligations are uploaded by CC.	Yes	Yes	Yes	Yes
6	Details of such instructions will be reported to CCs by Source Depository in eDIS EPI export alongwith UCC, TM ID and Exchange ID details for providing EPI benefit to client. CC will match the obligation details with the UCC and other details sent in eDIS EPI export and may provide EPI benefits to the clients. In case of unmatched IDT instruction, CCs shall upload eDIS EPI reversal file before uploading the obligation details in source depository.	Yes	Yes	NA	NA
7	In case of such cancellation executed by CCs, securities will be debited from client’s block account and credited to client’s free balance by Source Depository. Source depository will also send a rejection message to Target Depository.	Yes	Yes	NA	NA
8	Once the client obligations are uploaded by CC, Source Depository will match the eDIS based IDT instruction details with obligation details as received from CCs. If the IDT details are matched with obligation, then Source Depository will send a positive confirmation message to Target Depository. In case of unmatched IDT instruction, Source Depository will send a rejection message to Target Depository.	Yes	Yes	Yes	Yes
9	In case of matched IDT instruction, securities will be credited in CM Pool account	Yes	Yes	Yes	Yes

Sl No	Process	Early Pay-In flag is marked as “Y”		Early Pay-In flag is marked as “N”	
		Before receipt of Obligation	After receipt of obligation	Before receipt of Obligation	After receipt of obligation
10	Further, securities will be credited in CM delivery/ Early Pay-in account in the Target Depository. Participants are not required to execute separate Delivery Out instruction to transfer shares from CM pool account to CM delivery account for pay-in purpose in Target Depository. On BOD of settlement day, securities will be debited from CM Delivery account and credited in CC Settlement account for pay-in process.	Yes	Yes	NA	NA
8	If case of matched Account Transfer instruction, securities will be debited from blocked balance under client account and credited to CM pool account at EOD of date of receipt of obligation from the CC.	Yes	Yes	Yes	Yes
9	Subsequently, Irreversible Delivery Out instructions will be generated immediately and securities will be debited from CM Pool account and credited to CM Delivery account. Participants are not required to execute separate Delivery Out instruction to transfer securities from CM pool account to CM delivery account for pay-in purpose.	Yes	Yes	NA	NA
10	On BOD of settlement day, securities will be debited from CM Delivery account and credited in CC Settlement account for pay-in process.	Yes	Yes	NA	NA
11	In case of unmatched Account Transfer instructions which are not cancelled by CCs, instructions will be rejected at NSDL and the details of such instructions will be provided to CCs in EPI export with updated status. Further, securities will be debited from blocked balance under client account and	Yes	Yes	NA	NA

Sl No	Process	Early Pay-In flag is marked as “Y”		Early Pay-In flag is marked as “N”	
		Before receipt of Obligation	After receipt of obligation	Before receipt of Obligation	After receipt of obligation
	credited back under free balance in client account.				
12	In case of unmatched Account Transfer Rejected instructions, securities will be debited from blocked balance under client account and credited back under free balance in client account.	Yes	Yes	Yes	Yes

F. In the given IDT process flow, the depositories will be identified as below:

- Source Depository – Wherein Source Client BO account is held
- Target Depository – Wherein Target CM Pool account is held

G. Other points to be noted:

- CCs will be upload segment wise separate obligation files on NSDL system as per agreed process, format and timelines.
- CCs can upload Part or Final (incremental files) on T and T+1 day respectively. Based on which the instruction matching with obligation data will be carried out in DPM system.
- The Full / Partial EPI cancellation facility is provided to CCs for executing reversal of Account Transfer / IDT instructions for which matching obligation is not available at CCs.
- For eDIS based Account Transfer and IDT Instructions reported to CCs in eDIS EPI export with EPI flag as ‘Y’ and such instructions are unmatched with the client obligation details at CC end, the reversal/cancellation file will be uploaded by CC. In case of unmatched orders, which are not cancelled by CCs, the cancellation will be executed by NSDL and details of such cancelled orders shall be intimated to CCs.
- If eDIS based Account Transfer / IDT instruction Quantity is less than or equal to obligation quantity then Account Transfer / IDT instructions will be processed otherwise such instructions will be rejected.

- f) In case of IDT instructions, system will not allow users to submit instructions before Trade Date. Further, in case of non-availability of matching obligation, IDT orders will be rejected at EOD of execution date.
- g) The matching of Account Transfer / IDT instructions with obligation data will be carried out as follows:
 - i. Before receipt of obligation : Matching will be carried out at EOD of obligation received date.
 - ii. After receipt of obligation : Matching will be carried out on real time basis at the time of execution of instruction.
- h) If the requisite quantity is not available in client's demat account, then such instruction will be marked in Overdue status. Such overdue instructions will be matched against obligation at time of initiation of instruction. If instruction is matched with obligation details, instruction will be marked as 'Matched' and will be maintained in Overdue status. If credit of securities is received in client demat account before Pay-in date in case of overdue account transfer instruction and before EOD of execution date in case of overdue IDT instruction, then such instructions will be processed further depending on EPI flag as 'Y' or 'N'. If EPI flag is 'Y', then such orders will also be sent in eDIS EPI export to CCs.
- i) In case of Future dated orders, eDIS based Account Transfer and IDT instructions will be matched against obligation on execution date of instruction. The other matching and instruction processing logic will remain same as explained above.
- j) Participants are requested to note that CCs shall be sharing obligation details to NSDL in respect of below mentioned segments (viz., agreed Market Types) and matching of eDIS instruction with CC obligation details will be done in respect of market types given under respective segments (Segment wise Market Types are enclosed at Annexure C). The obligation data in respect of Tender Offer and Mutual Fund related Market Types will not be provided by CCs and eDIS based instructions for the aforesaid Market Types will be processed as per existing process with obligation matching.
- k) Participants are requested to note that eDIS based Account Transfer and IDT instructions executed till EOD of May 7, 2021 with future execution dates viz., May 8, 2021 or thereafter will be rejected by NSDL at EOD of May 7, 2021. Participants will be required to re-execute such instructions with necessary eDIS flag, EPI flag and eDIS mandate details.

ANNEXURE M

USER GUIDE FOR SPICE EDIS REGISTRATION AND SUBMISSION OF INSTRUCTIONS

Client registration for eDIS and Upload of eDIS Instructions

1. Registration for Client for eDIS:

1.1. Request for registration by Stock Broker / Clearing Member (CM) :

- 1.1.1. User of Stock Broker / CM has to login using his/her existing login credential (*either maker or checker*). After login, User has to click on the 'UPLOAD (EDIS Registration)' under 'EDIS REGISTRATION' tab. On this page, User has to browse and upload the file, to register the Clients for eDIS facility, as per enclosed format.

The screenshot shows the SPEED-e web application interface. The top header includes the NSDL logo and the text 'SPEED-e'. On the right, it displays 'CMP ID: 00000071', 'Date: Oct 26, 2020', 'CMP ID: 00000071', and 'CMP ID: 00000071'. The left sidebar contains a menu with options like 'SPICE / FAST Facility', 'SPICE Registration', and 'EDIS Registration'. The main content area is titled 'Upload Client Registration File for E-DIS' and contains a form with the text 'Enter File to be Signed and Uploaded', an 'Upload' button, and a 'Browse...' button.

- 1.1.2. Upon successful upload of file, client registration acknowledgment will be displayed, which will have details viz., Batch ID, Total Records, Accepted Records and Rejected Records.

The screenshot shows the 'Upload Client Registration File ACKNOWLEDGEMENT' screen. It displays a table with the following data:

Batch Id	1000025
Total Records	1
Accepted Records	1
Rejected Records	0

Below the table, it states: 'All the records are accepted by SPEED-e. Please check instruction details in 'View Status (E-DIS Registration)' link.' There is an 'OK' button at the bottom.

1.2. Authorisation by Participant of the Client

- 1.2.1. Functional User (*maker or checker*) of Participant (*where the Client maintains the demat account*) will login to SPEED-e facility to download registration request file (*uploaded by the CM*). User of Participant has to click on ‘Download (EDIS Registration)’ under ‘E-DIS Registrations’ tab.
- 1.2.2. There are two options viz; (1) Download and (2) Re-download available for Participants. Participant has to select relevant radio button, for example to download the file select radio button of download. Participant can enter the Batch ID to download specific file. User of Participant can re-download the same file by clicking on ‘Re-download’ radio button.

EDIS Download / Redownload

☒ Download
☐ Re-Download

Batch ID:

Submit Reset

Batch ID	Date	Number of Records
0001154	26/Oct/2020	0
0001152	21/Oct/2020	1
0001153	21/Oct/2020	1
0001159	21/Oct/2020	3
0001160	21/Oct/2020	0

Do you want to open or save 0001155.xls (0.13 KB) from 10.150.7.187? Open Save Cancel

- 1.2.3. After due verification, User of Participant will prepare the response file with respect to acceptance or rejection of Client record(s).
- 1.2.4. The response file will be uploaded by the User of the Participant under ‘Upload (eDIS Authorization)’ in ‘EDIS Registration’ Tab.

Upload Client Registration File for E-DIS

Enter File to be Signed and Uploaded

Upload: D:\VAIBHAV\LOTALE\... Browse...

Upload

- 1.2.5. Once the file is uploaded successfully, an acknowledgment will be displayed with summary of uploaded file.

Upload EDIS Authorization File ACKNOWLEDGEMENT	
Batch Id	0001155
Total Records	1
Accepted Records	1
Rejected Records	0

All the records are accepted by SPEED-e. Please check instruction details in 'View Status (E-DIS Authorization)' link.

OK

1.2.6. Client registration for direct option

- User of Participant can upload a file through SPICE Direct (Registration/De-registration) link under SPEED-e/SPICE Direct tab for registration of Client for direct option. Browse the file and click on upload.

Upload Authorization/Revocation File for SPICE DIRECT

Enter File to be Signed and Uploaded

Upload:

- Once the file is uploaded successfully, an acknowledgement will be shown with details of batch id, number of record accepted and number of record rejected.

1.3. Status Enquiry

- #### 1.3.1. For Stock Broker / CMs :
- For all accepted records, instruction details can be checked under 'View Status (E-DIS Registration) link. User has to enter the Batch ID and Click on submit to download the particular batch file response.

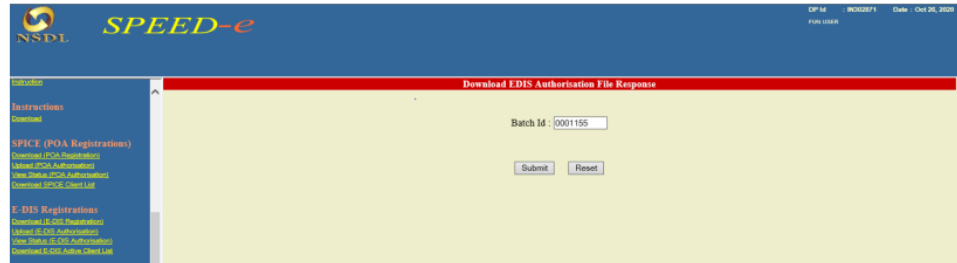

Download EDIS Registration File Response

Batch Id :

Do you want to open or save 808182320002055.Asf (3.15 KB) from 10.150.3.18?

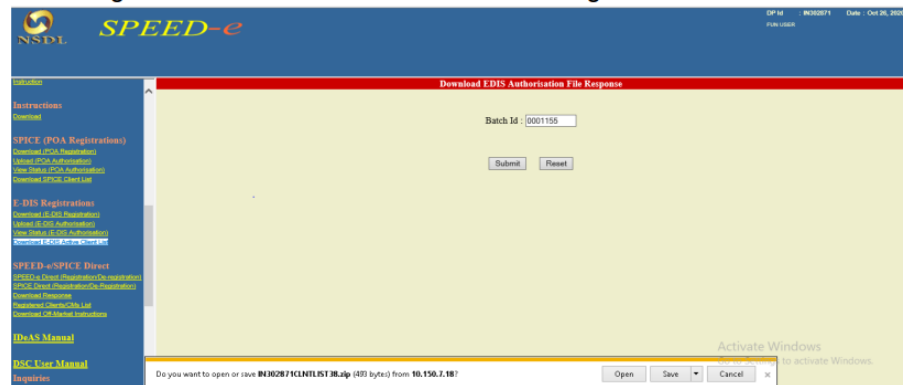

Open Save Cancel

- 1.3.2. For Participant: Status of the response file can be checked by Participant Functional User by clicking ‘View Status (EDIS Registration)’. User has to enter Batch ID and click on ‘Submit’ button. The requisite batch file in response will be downloaded.

- 1.4. Download list of Active Clients: Stock broker / CMs as well as DP can download list of active clients for eDIS.

- 1.4.1. DP functional User can click on ‘DOWNLOAD EDIS ACTIVE Client List’ under eDIS Registrations to download the list of client registered for eDIS.

- 1.4.2. Stock broker / CM User can click on ‘EDIS Client List Download’ under EDIS Registration to download the list of client registered for eDIS.

2. eDIS instruction by stock broker / CM based on mandate given by Client on NSDL Demat Gateway

2.1. Upload of eDIS Instruction by Stock Broker / CM

2.1.1. Stock Broker / CM can upload EDIS instruction as per enclosed format via Upload Auto-Payin Instruction link under Upload SPICE/FAST Instructions tab

2.1.2. Once the file is uploaded successfully, an acknowledgment will be shown with requisite details.

2.2. Download of eDIS Instruction by Participant in case of Indirect Client's

2.2.1. User of Participant has to download the EDIS instructions via Download link under Instructions.

2.2.2. These eDIS instruction downloaded by DP User has to be uploaded on eDPM via Upload/Download >> Speede Upload

2.3. eDIS Instruction in case of 'Direct Clients'

2.3.1. In case Client is registered for direct processing of eDIS instruction, the eDIS Instructions will be processed directly at NSDL and Participants will not be required to download instructions for execution in the eDPM System.

2.4. Status Enquiry:

2.4.1. For Stock Broker / CM : Stock broker can check the status of eDIS Instruction through 'View Status' link under Upload SPICE/FAST Instructions tab. Stock Broker / CM has to input BATCH ID and click on 'Submit' button to download that particular batch file response (i.e. instruction accepted/rejected).

2.5. Download Auto Pay-in instruction status

2.5.1. For Stock Broker / CM : CMs can download status of instructions. This will facilitate CMs to ascertain the status of the instructions and if required make follow-up with their Clients. Example; if the downloaded file has instructions in overdue status i.e., 'Waiting for balances' on account of shortages of securities in the Client's account, CMs can ascertain the status and make follow up with their Clients accordingly. CMs will be required to click on the link named 'Auto Pay-in Instructions status Download' as exhibited below and enter either the batch number or date range to download the status of uploaded instructions (*auto pay-in*). The downloaded file will be available in zipped format.

-----X-----

ANNEXURE N

STEP BY STEP GUIDE IN RESPECT OF PROCESSING OF INSTRUCTIONS UNDER BLOCK MECHANISM BASED ON MATCHING WITH CLIENT LEVEL OBLIGATION DATA RECEIVED FROM CLEARING CORPORATIONS.

SEBI has vide its circular no. SEBI/HO/MIRSD/DOP/P/CIR/2021/595 dated July 16, 2021 issued the guidelines regarding Block Mechanism in demat account of clients undertaking sale transactions.

In the aforesaid SEBI Circular, at point no. 3 it is stated that, “When the client intends to make a sale transaction, shares will be blocked in the demat account of the client in favour of Clearing Corporation. If sale transaction is not executed, shares shall continue to remain in the client’s demat account and will be unblocked at the end of the T day. Thus, this mechanism will do away with the movement of shares from client’s demat account for early pay-in and back to client’s demat account if trade is not executed.”

In this regard, the process flow followed for block mechanism is mentioned below:

Block Mechanism process:

- 1) The client who wishes to opt for block facility shall provide instruction (to their Participant in physical mode or submit instruction in electronic mode on NSDL eservices portal) or broker can initiate block instruction on the basis of POA given by the client. The blocking of securities in respect of instructions submitted through NSDL Demat Gateway (i.e. eDIS) facility is already available in NSDL system.
- 2) As per the SEBI’s direction, the facility of block mechanism is on optional basis and Early Pay-in mechanism through CM pool account shall also continue. Hence, in respect of clients who have not opted for block mechanism, the Participants / Brokers can continue with existing settlement process without any changes.
- 3) The Account Transfer or Inter Depository Transfer (IDT) with block facility for transferring the securities from client’s demat account to the CM’s account will be always initiated with Early Pay-in facility in NSDL system. Upon execution of instruction with block with EPI facility, the securities will be blocked immediately in client account in NSDL system and the details of such instructions shall be shared with the respective Clearing Corporations (CCs) for providing EPI benefits to the clients on online basis.
- 4) While providing the block securities details to CCs for EPI benefits, NSDL will provide the unique UCC details of transfer instructions viz., UCC, TM ID, Exchange ID etc. The UCC details will not be obtained from the Participant / Brokers / Clients while processing the Account Transfer / IDT instruction under block mechanism. The unique UCC details will be derived from the UCC master as provided by Stock Exchanges based on the instruction details such as Client PAN, CM ID, Market Type and Settlement Number. Brokers are not required to execute separate Early Pay-in (IDO) instruction for transferring the securities from CMs account to CCs account for pay-in purpose.

- 5) CC will match the client level net obligations with the EPI details provided by NSDL and CC will provide EPI benefit to client if the client level net obligation exists for the particular client.
- 6) If the unique UCC details are not identified in UCC master based on instruction details then such instructions will not be considered for Block Mechanism. In such cases, securities will not be blocked in client account and securities will be credited in CM pool account as per existing settlement mechanism. Brokers will be required to execute separate IDO instruction for obtaining the EPI benefit from CCs.
- 7) The securities will be blocked in client's account only if NSDL is able to find unique UCC details in UCC master.
- 8) CCs will upload EPI reversal file in NSDL system for cancellation of EPI instruction which are not matching with client level net sale obligation as available with CCs.
- 9) CCs will provide the client wise net sale obligation details to NSDL on daily basis in respect of agreed segments and market types. The instruction submitted under block mechanism will be matched with the client level net sale obligation provided by the CCs. In case of matched instruction, securities will be debited from client's block account and credited in CM's account for pay-in purpose. In case of unmatched instructions which are not cancelled by CCs, NSDL will cancel such instruction and securities will be debited from client's account block balance and credited in client's account as free balance.

The systems enhancements in respect of processing of instructions under Block mechanism based on matching with client-wise net delivery obligation data received from Clearing Corporations are mentioned below:

Changes in respect of Account Transfer / Inter Depository Transfer (IDT) instruction on eDPM system:

As communicated to Participants vide NSDL Circular nos. NSDL/POLICY/2021/0058 dated June 19, 2021 and NSDL/POLICY/2021/0067 dated July 02, 2021, the "Block with Early Pay-in" flag is added in Account Transfer and Inter Depository Transfer (IDT) instructions in respect of eDPM, SPEED-e and SPICE system for Block Mechanism as mentioned below:

- A. Back-office Interface: Addition of "Block with Early Pay-in" flag in Account Transfer and IDT module which will be applicable for Transaction types viz., 904 & 925 (BO to CM transactions). The aforesaid flag will not be applicable for DIS Type '7' – Demat Gateway. As block mechanism is already implemented in respect of instructions submitted through Demat Gateway (i.e. eDIS), the facility in respect of Demat Gateway as informed to Participants vide NSDL Circular no. NSDL/POLICY/2021/0044 dated May 07, 2021 regarding Acceptance of delivery instructions through Demat Gateway (eDIS) will remain unchanged.

The "Block with Early Pay-in" flag is added in respect of Delivery to Pool and IDT file formats of SPEED-e system (for token based users) and in SPICE (batch Upload by CM for on behalf of Clients on the basis of POA) file formats.

The details in respect of aforesaid “Block with Early Pay-in” flag are provided below:

- i) 0 or Space: No Block and No Early Pay-in viz., Do not block the securities in client account and do not initiate Early Pay-in. The existing mechanism of settlement will continue.
- ii) 1: Block with Early Pay-in viz., Block the securities in client account and initiate Early Pay-in.

Changes in respect of Reports / Download in Local DPM / eDPM system:

- 1) The details in respect of UCC, TM ID and Exchange ID (derived from UCC master) alongwith Block with Early Pay-in flag will be provided in Change of Order Day (COD) export in the Local DPM system. (Please refer NSDL Circular No. NSDL/POLICY/2021/0058 dated June 19, 2021 regarding file formats).
- 2) The export viz., ‘eDIS / Block Mechanism Early Pay-in Export’ will be provided under ‘Upload/Download→ Download’ menu in eDPM system in respect of instruction processed by enabling Block with EarlyPay-in flag.

(Please refer NSDL Circular No. NSDL/POLICY/2021/0058 dated June 19, 2021 regarding file formats).

- 3) As Participants are aware, NSDL had provided ‘Statement of Obligation’ Report in Local DPM system wherein Net obligation details (shortages in CM pool account for particular market type and settlement number) are displayed based of Accepted / Overdue Delivery Out (DO), Irreversible Delivery Out (IDO) and Auto Delivery Out (ADO) instructions and present pool positions. The aforesaid report has been enhanced to provide the Net Obligation details (shortages in CM pool account for particular market type and settlement number) by considering the eDIS and Block mechanism related instruction submitted as Early Pay-in instructions.

- B. Screen based/manual mode of instruction execution: The “Block with Early Pay-in” flag is added at transaction level on the Account Transfer / IDT screen in respect of eDPM / SPEED-e system. If Participant wishes to block the securities in client account and avail client level EPI benefit, then user has to enable the “Block with Early Pay-in” flag. If the said flag is not enabled, then instruction will not be considered for Block mechanism and the existing process of settlement will continue.

Matching of Block mechanism based instructions with CC obligation:

- i) NSDL will validate details of Intra or Inter depository transfer instructions with UCC details available in UCC master provided by Stock Exchanges to NSDL. Matching will be done based on UCC, Unique TM ID, Exchange ID and Segment details available in UCC Master.
- ii) NSDL will block the securities in client’s demat account in respect of Intra account transfer instruction till receipt of client level net sale obligation from CCs. In case of matched instructions, securities will be debited from client’s demat account and credited in CM account on T day or T+1 day (based on receipt of full obligation from CCs). The facility to block the securities in client’s

demat accounts till Pay-in date in respect of Intra account transfer instructions will be implemented effective from August 14, 2021.

- iii) In case of IDT instruction, the securities will be blocked in client's demat account till receipt of client level net delivery obligation from CCs. In case of matched IDT orders, securities will be debited from client's demat account (in Source Depository) and credited in CM account (Target Depository) on T day or T+1 day (based on receipt of full obligation from CCs). The facility to block the securities in client's demat accounts till Pay-in date in respect of IDT instruction will be provided shortly (in phase II) based on mutually agreed date by both depositories.
- iv) The process of matching of eDIS based instruction with CC obligation will remain unchanged as per NSDL Circular no. NSDL/POLICY/2021/0044 dated May 7, 2021 regarding Acceptance of delivery instructions through Demat Gateway (eDIS) for DIS Type '7' – Demat Gateway. However, in case of eDIS based instruction also, the securities shall be blocked in the client account till the BOD of pay-in date.

Other points to be noted:

- a. CCs will upload segment wise separate obligation files on NSDL system as per agreed process, format and timelines.
- b. CCs can upload Part or Final (incremental files) on T and T+1 day respectively. Based on which the instruction matching with obligation data will be carried out in DPM system.
- c. The Full / Partial EPI cancellation facility is provided to CCs for executing reversal of Account Transfer / IDT instructions for which matching obligation is not available at CCs.
- d. If Block mechanism based Account Transfer / IDT instruction Quantity is less than or equal to obligation quantity then Account Transfer / IDT instructions will be processed otherwise such instructions will be rejected.
- e. In case of IDT instructions, system will not allow users to submit instructions before Trade Date till implementation of phase II. Further, in case of non-availability of matching obligation, IDT orders will be rejected at EOD of execution date.
- f. The matching of Block mechanism based Account Transfer / IDT instructions with obligation data will be carried out as follows:
 - i. Before receipt of obligation: Matching will be carried out at EOD of T or T+1 day i.e., obligation received date.
 - ii. After receipt of obligation: Matching will be carried out on real time basis at the time of execution of instruction.
- g. If the requisite quantity is not available in client's demat account, then such instruction will be marked in Overdue status. Such overdue instructions will be matched against obligation at time of initiation of instruction. If instruction is matched with obligation details, instruction will be marked

as 'Matched' and will be maintained in Overdue status. If credit of securities is received in client demat account before Payin date in case of overdue account transfer instruction and before EOD of execution date in case of overdue IDT instruction, then such instructions will be processed further depending on Block with Early Pay-in flag as '0 - No' or '1 - Yes'. If EPI flag is '1-Yes', then such orders will also be sent in Block mechanism EPI export to CCs.

- h. In case of Future dated orders, Block mechanism based Account Transfer and IDT instructions will be matched against obligation on execution date of instruction. The other matching and instruction processing logic will remain same as explained above.
- i. Participants are requested to note that CCs shall be sharing obligation details to NSDL in respect of segments (viz., agreed Market Types) and matching of Block mechanism instruction with CC obligation details will be done in respect of market types given under respective segments (Segment wise Market Types are enclosed at Appendix A). The obligation data in respect of Tender Offer and Mutual Fund related Market Types will not be provided by CCs and Block mechanism based instructions for the aforesaid Market Types will be processed as per existing process with obligation matching.
- j. As directed by SEBI, Pool to Pool transfers except TM pool to CM pool shall not be permitted. Further, Inter-settlement shall not be allowed from TM Pool account and CM pool account. In this regard, the validations which will be incorporated in respect of Pool to Pool and Inter-settlement module are enclosed at Appendix B. The said validations will be incorporated in NSDL system shortly and the same will be communicated to Participants separately. Till that time Participants are requested to ensure necessary controls at their end to operationally adhere to the validations mentioned at Appendix B.

ANNEXURE O

OPERATING GUIDELINES IN RESPECT OF IMPLEMENTATION OF MANDATORY BLOCK MECHANISM AND PAY-IN VALIDATIONS

Operating guidelines in respect of implementation of Mandatory Block Mechanism and Pay-in Validations.

Background:

A) Mandatory Block Mechanism:

SEBI has vide its circular no. SEBI/HO/MIRSD/DoP/P/CIR/2022/109 dated August 18, 2022 issued the guidelines regarding Block Mechanism in demat account of clients undertaking sale transactions.

In the aforesaid SEBI Circular, it is stated that *“The facility of block mechanism shall be mandatory for all Early Pay-In transactions and all other provisions in the circular dated July 16, 2021 shall continue to remain applicable.”* SEBI also clarified that *“Depositories may keep block on the securities in client’s demat account in respect of Intra or Inter depository transfer instruction till pay-in day. The blocked securities will be transferred only after checking against the client level net delivery obligation received from CCs.”*

All **Early Pay-in instructions** (EPI) executed through Intra or Inter depository transfer instructions from client’s demat account, securities will be mandatorily blocked in client’s demat account till pay-in date and the blocked securities will be transferred to CCs settlement account routed through CM Pool account on Pay-in date only after checking against the client level net delivery obligation received by NSDL from CCs, effective from **November 12, 2022**.

B) Pay-in Validations:

SEBI has vide its circular no. SEBI/HO/MIRSD/DoP/P/CIR/2022/119 dated September 19, 2022 issued the guidelines regarding Validation of Instructions for Pay-In of Securities from Client demat account to Trading Member (TM) Pool Account against obligations received from the Clearing Corporations.

In the aforesaid SEBI Circular, it is stated that *“Depositories, prior to executing actual transfer of the securities for Pay- In from client demat account to TM Pool account, shall validate the transfer instruction received through any of the available channels for the purpose of Pay-in, i.e. either initiated by clients themselves or by the Power of Attorney (POA) / Demat Debit and Pledge Instruction (DDPI) holder against the client-wise net delivery obligation received from CCs.”*

In this regard, it may be mentioned that for all **Pay-in instructions** (Non EPI) executed from client’s demat account through Intra or Inter depository transfer instructions, securities will be mandatorily blocked in client’s demat account till pay-in date and the blocked securities will be transferred to CCs settlement account routed through CM Pool account on Pay-in date only after checking against the client level net delivery obligation received by NSDL from CCs, effective from **November 12, 2022**.

C) Proposed System Changes in DPM, SPEED-e/SPICE system:

- 1) Previously, the unique UCC details were being derived at NSDL end from the UCC master as provided by Stock Exchanges based on the instruction details such as Client PAN, CM ID, Market Type and Settlement Number. However, effective from November 12, 2022, for processing Intra or Inter depository transfer for EPI or Non EPI instructions, the Client UCC details viz., UCC, TM ID, Exchange ID and Segment ID (optional) are required to be provided by the Client/Broker/DPs.
- 2) The aforesaid UCC details provided alongwith instruction will be validated with the UCC details available in UCC master as provided by Stock Exchanges to NSDL at the time of processing the Intra or Inter depository transfer instruction in NSDL system. If the matching UCC details provided in instruction are not matched with the UCC details available in aforesaid UCC master, then such instructions will be **rejected** and same will not be considered for block mechanism (EPI) or pay-in (Non EPI) purpose.
- 3) Changes in respect of BO to CM transactions viz., **Account Transfer (904) and Inter Depository Modules (925)**

through Screen (Manual) / File upload based mechanism in DPM, SPEED-e/SPICE system are mentioned below:

- a. New Flag viz., Block Indicator with drop down values for manual / file upload based submission of instruction as mentioned below:
 - i. **Block with EPI** (static value as 1) – For mandatory processing all Pay-in related instructions with EPI through Block mechanism.
 - ii. **Block with No EPI** (static value as 2) – For mandatory processing all Pay-in related instructions with No EPI through Block mechanism.
 - iii. **No Block & No EPI** (static value as 0 or space) - For processing Pay-in related instructions without Block and with No EPI.
 - Applicable only in respect of Custodian clients as SEBI has provided exemption to for Custodian clients in respect of applicability of SEBI guidelines pertaining to Mandatory Block Mechanism and Pay-in validations.
 - Further, Clients/Brokers/DPs (other than custodian clients) may use flag viz., “No Block & No EPI” (value as 0 or space) wherein the Account Transfer and IDT instructions will be processed without Block and No EPI mechanism. However, the aforesaid option will be available for Clients/Brokers/DPs (other than custodian clients) till November 25, 2022 as effective from November 26, 2022 the SEBI guidelines in respect of Pay-in

validations will be made applicable wherein block will be mandatory for non –EPI transactions.

- b. Following new fields will be included in instruction details :
 - i. Client UCC
 - ii. TM ID of TM (*through whom the trade has been executed*)
 - iii. Exchange ID (*on exchange where the trade has been executed*)
 - iv. Segment ID (Optional)

In case of inter-operable CMs, Participants shall submit the corresponding TM ID and Exchange ID of broker associated with the CM selected as default for settlement purpose.

- c. The aforesaid details will be validated against the UCC master as received from Stock Exchanges. These details will be used for sharing EPI details with CCs for providing EPI benefits to the clients. Further, aforesaid details will be also used for matching the instruction details with the obligation details received from CCs.

4) Changes in respect of **Pool to Pool and Inter-Settlement Modules** through Screen / File upload based mechanism in DPM, SPEED-e/SPICE system:

- a. The Pool to Pool transfers shall not be permitted except TM pool to CM pool transfers. Further, Inter- settlement shall not be allowed from TM Pool account and CM pool account. In this regard, the validations in respect of Pool to Pool and Inter-settlement module are enclosed at Appendix C. **Participants are requested to ensure necessary controls at their end to operationally adhere to the validations mentioned at Appendix C.**
- b. Following new fields will be included:
 - i. Client PAN
 - ii. Client UCC
 - iii. TM ID of TM (*through whom the trade has been executed*)
 - iv. Exchange ID (*on exchange where the trade has been executed*)

In case of inter-operable CMs, Participants shall submit the corresponding TM ID and Exchange ID of broker associated with the CM selected as default for settlement purpose.

- c. While processing allowed list of Pool to Pool transfers, Brokers/DPs are required to execute client wise separate instruction by providing aforesaid additional details pertaining to end clients. However, securities will be credited in CM pool account and from their CM can process the DO/ADO/IDO instruction as per existing mechanism.

D) Proposed Changes in Delivery Instruction Slip (DIS) format:

NSDL is in the process of making necessary changes in DIS format for incorporating aforesaid additional fields in respect of various transactions viz., Account Transfer, IDT, Pool to Pool and Inter-Settlement and the same will be communicated to DPs separately.

E) Block and Pay-in mechanism Process:

- 1) The client shall provide Block (EPI or Non EPI) instruction to their Participant in physical mode or submit instruction in electronic mode on NSDL e-services portal or broker can initiate Block (EPI or Non EPI) instruction on the basis of POA / DDPI given by the client. The blocking of securities in respect of instructions submitted through NSDL Demat Gateway (i.e. eDIS) facility is already available in NSDL system and the same shall continue as per existing mechanism.
- 2) As per the SEBI's direction, the facility of block mechanism for EPI and Non EPI instructions will be mandatory and Early Pay-in mechanism through CM pool account shall not continue upon implementation of block mechanism guidelines. Participants **are requested to ensure necessary controls at their end to operationally ensure the same.**
- 3) The Account Transfer or Inter Depository Transfer (IDT) with block mechanism for transferring the securities

from client's demat account to the CM's account will be initiated with EPI or Non EPI options in NSDL system.

Upon execution of Block with EPI instruction facility, the securities will be blocked immediately in client account in NSDL system provided UCC details are matched with the UCC details available in UCC master and the details of such instructions shall be shared with the respective Clearing Corporations (CCs) for providing EPI benefits to the clients on an online basis. Whereas upon execution of Block with No EPI facility, the securities will be blocked immediately in client account in NSDL system provided UCC details are matched with the UCC details available in UCC master, but the details of such instructions shall not be shared with the CCs for providing EPI benefits.

- 4) For Block with EPI instructions, following process will be followed :
 - a. While providing the block securities details to CCs for EPI benefits, NSDL will provide the UCC details of transfer instructions viz., UCC, TM ID, Exchange ID etc. as received from Clients/Brokers/DPs as part of instruction.

- b. CC will match the client level net obligations with the EPI details provided by NSDL and CC will provide EPI benefit to client if the client level net obligation exists for the particular client. CCs will upload EPI reversal file in NSDL system for cancellation of EPI instruction.
 - c. For Block with EPI transactions, Brokers are not required to execute separate Early Pay-in (IDO) instruction for transferring the securities from CMs account to CCs account for pay-in purpose.
- 5) For Block with No EPI instruction, Brokers are not required to execute separate Pay-in (DO/ADO) instruction for transferring the securities from CMs account to CCs account for pay-in purpose.
 - 6) CCs will provide the client wise net sale obligation details to NSDL on daily basis in respect of agreed segments and market types. The instruction submitted under block mechanism with EPI or No EPI options will be matched with the client level net sale obligation provided by the CCs. In case of matched instruction, blocked securities will be debited from client's account and credited in CM's account for pay-in purpose on BOD of pay-in date. A system generated Delivery Out instruction will be generated from CM Pool account which will debit these securities from CM Pool account and credit them in CC account for Pay-in purpose. In case of unmatched instructions which are not cancelled by CCs, NSDL will cancel such instruction and securities will be debited from client's account block balance and credited in client's account as free balance on EOD of T day (date on which obligation is uploaded by CCs).

F) Matching of Block / Pay-in mechanism based instructions with CC obligation:

- 1) CCs will provide client-wise net delivery obligations on T day to the depositories. Based on the obligation data provided by CCs, NSDL shall validate the transfer instruction details with CC obligation details based on UCC, TM ID, CM ID, Exchange ID, ISIN, quantity, settlement details etc.
- 2) NSDL will validate UCC details of Intra or Inter depository transfer instructions with UCC details available in UCC master provided by Stock Exchanges to NSDL. Matching will be done based on UCC, Unique TM ID, Exchange ID and available in UCC Master.
- 3) In case of Intra account transfer instruction, the securities will be blocked in client's demat account till receipt of client level net delivery obligation from CCs. In case of matched instructions, blocked securities will be debited from client's demat account and credited in CM account on BOD of pay-in date for pay-in purpose. A system generated Delivery Out instruction will be generated from CM Pool account which will debit these securities from CM Pool account and credit them in CC account for Pay-in purpose. In case of IDT instruction, the securities will be blocked in client's demat account till receipt of client level net delivery obligation from CCs. In case of matched IDT orders, blocked securities will be debited from client's demat account (in Source

Depository) and credited in CM account (Target Depository) on BOD of pay-in date for pay-in purpose. A system generated Delivery Out instruction will be generated from CM Pool account which will debit these securities from CM Pool account and credit them in CC account for Pay-in purpose. The facility to block the securities in client's demat accounts till Pay-in date in respect of IDT instruction will be implemented effective from **November 12, 2022**.

- 4) In case of discrepancies in respect of details like UCC, TM ID, CM ID, ISIN etc., between instruction and obligation, such transfer instructions will be rejected by the NSDL.
- 5) Matching of Quantity in respect of Block instruction with Obligation received from CCs:
 - a. If the quantity details mentioned in instruction is less than the quantity details mentioned in obligation file provided by CC, then the instruction will be successfully processed by NSDL system.
 - b. If the quantity details mentioned in instruction is more than quantity details mentioned in the obligation file provided by CC, then the instruction will be partially processed by NSDL system to the extent of matching obligation quantity.
 - c. The aforesaid logic for processing instruction for partially quantity will be applicable for instructions in
 “Overdue” status as well to the extent of matching obligation quantity.
- 6) The process of matching of eDIS based instruction with CC obligation will remain unchanged as per NSDL Circular no. NSDL/POLICY/2021/0044 dated May 7, 2021 regarding Acceptance of delivery instructions through Demat Gateway (eDIS) for DIS Type ‘7’ – Demat Gateway. However, in case of eDIS based instruction also, the securities shall be blocked in the client account till the BOD of pay-in-date.

G) Incorporation of New Clearing Member Types:

SEBI has advised depositories to issue necessary guidelines to Trading Member (TMs) / Clearing Member (CMs) w.r.t. mapping of TM pool account and CM pool account with respective TM ID and CM ID. Accordingly, the new Pool Types have been added in the DPM system and provision to open new accounts / tag existing accounts under given Pool Types is made available in the DPM system.

Sr No	Pool Type	Pool Type Code
1	Clearing Member (CM)	01
2	CUSA Pool	02
3	PMS Pool	03
4	Trading Member (TM)	04

5	TM/CM Pool	05
---	------------	----

The procedure for opening Trading Member (TM) account and tagging of existing CM Pool account to TM Pool account are mentioned below:

1. TM will be required to make an application to Participant for opening of TM Pool Account providing copy of letter of Exchange mentioning the TM ID details.
2. Participants are required to follow the similar process of CM account opening prescribed in NSDL Master Circular on Account opening for opening TM Pool account.
3. In case of existing CM pool accounts which are required to be tagged as TM Pool account, Participants are advised to request NSDL to tag such accounts as TM Pool account alongwith copy of letter of Exchange mentioning the TM ID details.
4. While opening new TM account or tagging of existing account as a TM account, Participants are required to provide details of linked CM account so that necessary mapping is maintained in NSDL system which will be validated at the time of processing of TM Pool to CM Pool instructions.

For detailed procedure and clarity in respect of aforesaid process, Participants can get in touch with CC Interface team on email at ccinterface@nsdl.com

H) Allowed list of transactions in respect of Trading Member Pool account:

Participants are requested to refer NSDL Circular No. NSDL/POLICY/2022/071 dated May 16, 2022 regarding Amendments to Bye Laws and Business Rules of NSDL in respect of Trading Member account. In the aforesaid circular, it has been clarified that Trading Members (TM) are persons who have been admitted as members by a Stock Exchange. Pool Account means the account of a Clearing Member, Trading Member, or Portfolio Manager maintained with a Participant. The Trading Member account is the account which is used for the transfer of securities from the accounts of the Clients to the Trading Member in case of sale of securities and from the Trading Member to the accounts of the Clients in the case of purchase of securities.

In this regard, while implementing changes in respect of Block Mechanism and Pay-in validation guidelines, the TM will not be allowed to execute Pay-in related transactions viz., Delivery Out (DO) / Auto Delivery Out (ADO) / Irreversible Delivery Out (IDO) instructions from TM Pool account. The aforesaid Pay-in related transactions will be executed from CM Pool account.

I) Block Mechanism Process from Client to TM Pool to CM Pool account:

- 1) While processing Client to TM Pool instruction under Block Mechanism (EPI or Non EPI), Participants are requested to submit the instruction with respective Block Indicator flag mentioning the client details as a source side and providing TM details (TM BP ID) as a target side details.

- 2) The client UCC will be validated based on the UCC details, TM ID, Exchange ID, etc. details provided in the account transfer (BO to TM Pool) instruction.
- 3) Upon successful verification, the block will be created in client account in favour of TM Pool and its linked CM Pool account (as per the details provided while opening / tagging of TM Pool account).
- 4) For EPI instruction, the Client UCC details alongwith respective TM and CM details will be provided in EPI export to CCs for client level EPI benefits.
- 5) Upon receipt of client level obligation from CCs, the same will be validated with the Client to TM block instructions based on the Client UCC, TM ID, Exchange ID, CM ID, CC ID, Market Type & Settlement Number details.

J) Pay-in validations from CM Pool account:

- 1) In respect of the implementation of block mechanism and pay-in validations, effective from November 12, 2022, all the Client to TM/CM Pool Account Transfer and IDT instructions will be processed through block mechanism wherein securities will be blocked in client account till pay-in date and on BOD of settlement date, the securities will be transferred to the CC settlement account (through CM Pool account) for pay-in purpose. In such scenarios, the securities will be booked in the TM/CM pool account and TM/CMs are not required to take any action for such transactions to meet the pay-in obligation and NSDL will deliver those blocked securities to CC under Pay-in process.
- 2) In this regard, Participants are requested to note that TM/CMs shall not be allowed to execute Pay-in instructions viz., DO/ADO/IDO from TM/CM pool account in respect of client securities for pay-in purpose. However, for exception cases wherein securities will be credited in TM/CM pool accounts, TM/CMs shall be allowed to execute Pay-in instructions viz., DO/ADO/IDO from TM/CM pool account for pay-in purpose. **Participant / Brokers are advised to also take note of the same and ensure necessary controls at their end to operationally handle the same.**

K) Block Mechanism Process from Exceptional Client Types viz., Client Securities Margin Pledge Account (CSMPA), Client Securities Margin Funding Account (CSMFA), etc.:

- 1) After implementation of SEBI guidelines regarding Margin Pledge / Re-pledge mechanism, two new demat accounts of TM/CMs opened in the NSDL system viz., Client Securities Margin Pledge Account (CSMPA), Client Securities Margin Funding Account (CSMFA). These accounts are used by TM/CMs for creation of margin pledges by clients in favour of TM/CMs and re-pledging shares in favour of CCs (only in case of CSMPA).
- 2) In case of default of payment dues by clients, the provision of Invocation of margin pledge is provided to the TM/CMs through which the securities are debited from client pledge balance and credited to TM/CM's CSMPA & CSMFA.

- 3) In respect of invoked securities, TM/CMs are required to sell such invoked securities on stock exchange to recover their dues due to the default by client. While selling such securities in the market, TM/CMs shall be using the UCC details of client alongwith TM ID, CM ID and Settlement details and the same will be shared by CCs to NSDL as a client level net obligation detail for matching purpose.
- 4) At the time of processing Account Transfer / IDT instruction from CSMFA & CSMFA to TM/CM pool account, the TM/CM shall provide UCC details of clients alongwith TM ID, CM ID and Settlement details which will be used for sending EPI details (for EPI instructions) to CCs for seeking client level EPI benefits.
- 5) The Account Transfer / IDT instruction will be validated against the client level net obligation details received from CCs.

L) Process for Transfer from CUSA to CM Pool account:

- 1) The expected validations in respect of Pool to Pool and Inter-settlement module are enclosed at **Appendix C**. As per the given validations, the transfer from CUSA to CM Pool account is allowed to meet the pay-in obligation in respect of sale of securities carried out by TM/CM for recovering the pending dues.
- 2) At the time placing of trade, TM/CMs shall be providing the Client UCC details and CC shall share client wise net obligation details to NSDL. **Hence, Participants/Brokers are advised to ensure that CUSA to CM Pool transfer instruction is executed only in respect of clients for whom the trade for sale is executed by TM/CM.**
- 3) While execution of transfer from CUSA to CM Pool account, the provision have been made to capture the additional client details viz., Client PAN, UCC, TM ID, Exchange ID in respect of Pool to Pool instructions. Participants are requested to provide necessary details in respect of aforesaid CUSA to CM pool transfers.
- 4) Once the securities are credited in CM pool account, CMs can execute DO/ADO/IDO instructions, as the case may be to meet the pay-in obligations as per the existing settlement mechanism.

M) Changes in respect of Reports / Download in Local DPM / eDPM system:

- 1) The additional details viz., Block Indicator Flag, UCC, TM ID and Exchange ID (obtained with instruction details) will be provided in Change of Order Day (COD) export in the Local DPM system.
- 2) The export viz., 'eDIS / Block Mechanism Early Pay-in Export' will be provided under 'Upload/Download → Download' menu in eDPM system in respect of instruction processed under Block mechanism.

- 3) The 'Statement of Obligation' Report in Local DPM system has been enhanced to provide the Net Obligation details (shortages in CM pool account for particular market type and settlement number) by considering the instruction submitted under Block mechanism.

N) Other points to be noted:

- 1) CCs will upload segment wise separate obligation files on NSDL system as per agreed segments (Market Types), process, format and timelines. CCs can upload Part or Final (incremental files) on T and T+1 day respectively. Based on which the instruction matching with obligation data will be carried out in DPM system.
- 2) The Full / Partial EPI cancellation facility is provided to CCs for executing reversal of Account Transfer / IDT instructions for which matching obligation is not available at CCs.
- 3) All other process mentioned in Annexure of NSDL Circular no. NSDL/POLICY/2021/0082 dated July 31, 2021 regarding processing of instructions under Block mechanism based on matching with client level obligation data received from Clearing Corporations shall remain unchanged.
- 4) In respect of the instructions processed through DDPI mechanism, the additional details viz., Block Indicator, UCC, TM ID, Exchange ID will be required and all instructions processed through DDPI will be by default considered for Early Pay-in (irrespective of the value provided in Block Indicator flag). The other processes of UCC matching, blocking of shares in client account and matching with the obligation shall remain unchanged.
- 5) In respect of Tender offer instructions (identified based on respective Market Types), the additional details viz., Block Indicator, UCC, TM ID, Exchange ID will not be required.

APPENDIX C

Sr No	Transaction Type	Pool Type (From)	Pool Type To)	Treatment	Remarks
1	Pool to Pool	CM Pool	CM Pool	Not Allowed	
		CM Pool	CUSA	Allowed	
		CM Pool	PMS Pool	Allowed	
		CM Pool	TM Pool	Allowed	only if TM-CM linkage available as per Masters provided by SEs/CCs
		CUSA	CM Pool	Allowed	
		CUSA	TM Pool	Not Allowed	
		CUSA	PMS Pool	Not Allowed	
		CUSA	CUSA	Not Allowed	
		TM Pool	CM Pool	Allowed	only if TM-CM linkage available as per Masters provided by SEs/CCs
		TM Pool	CUSA	Not Allowed	
		TM Pool	PMS Pool	Not Allowed	
		TM Pool	TM Pool	Not Allowed	
		PMS Pool	CUSA	Not Allowed	
		PMS Pool	CM Pool	Allowed	only if CP-CM linkage available as per Masters provided by SEs/CCs
		PMS Pool	TM Pool	Not Allowed	
		PMS Pool	PMS Pool	Not Allowed	
2	Inter Settlement	CM Pool	CM Pool	Not Allowed	
		TM Pool	TM Pool	Not Allowed	
		CUSA	CUSA	Not Allowed	Currently, also not allowed
		PMS Pool	PMS Pool	Not Allowed	Currently, also not allowed

ANNEXURE P

The additional guidelines in respect of mandatory block mechanism for all Pay-in instructions including Non – EPI transactions are given below:

1. Flag viz., Block Indicator with value as “0” or “space” used for “No Block & No EPI” will be discontinued and all the Pay-in related instructions (i.e. EPI and Non-EPI) mandatorily shall be processed under block mechanism effective from January 28, 2023.
2. Any discrepancy between instructions, UCC mapped in demat account and obligation details provided by CC will result in the rejection of pay-in instruction. Further, the rejection of such instructions might result in a shortage towards Pay-in obligations.
3. Participants may take note to promptly inform the rejections to the TMs/CMs/clients so as to enable them to monitor shortages, if any, and take appropriate action.
4. Allowed list of transactions in respect of Trading Member Pool account:

Participants are requested to refer NSDL Circular No. NSDL/POLICY/2022/071 dated May 16, 2022 regarding Amendments to Bye Laws and Business Rules of NSDL in respect of Trading Member account. In the aforesaid circular, it has been clarified that in case of Trading Member, the account which is used for the transfer of securities from the accounts of the Clients to the Clearing Member in case of sale of securities and from the Clearing Member to the accounts of the Clients in the case of purchase of securities.

In this regard, while implementing changes in respect of Block Mechanism and Pay-in validation guidelines, the TM will not be allowed to execute Pay-in related transactions viz., Delivery Out (DO) / Auto Delivery Out (ADO) / Irreversible Delivery Out (IDO) instructions from TM Pool account. The aforesaid Pay-in related transactions will be executed from CM Pool account.

5. Exemptions from Block Mechanism / Pay-in Validation:
 - a. Corporate Bond Settlement: In case of Corporate Bond Settlement (through reporting platform of CCs), the securities are getting transferred from Client demat account to CC identified Pool account directly for pay-in purpose without intervention of TM/CM entity.

The aforesaid transactions are managed by CCs based on the delivery of securities from one participant member against receipt of fund payments from other participant member. In this regard, CCs are not sharing obligation details in respect of aforesaid transactions. Hence, these transfers shall not be covered under block mechanism/ Pay-in validation and existing process for corporate bond settlement shall continue.

- b. Mutual Fund Redemption: Currently, Mutual Fund Redemptions are processed wherein MF units are debited from Client demat account and credited to CCs identified Pool accounts whereas obligation is generated at CM level. Further, Mutual Fund redemption instructions, the Mutual fund units are being debited from clients demat account only upon receipt of trade confirmation from Clearing Corporation. In this regard, CCs are not sharing separate obligation for MF redemption to

depositories. The aforesaid process shall be considered as obligation upload by CCs and matching with the obligation by depositories and separate obligation upload by CCs and matching by depositories shall not be required.

6. With reference to the NSDL Circular No. NSDL/POLICY/2022/171 dated December 05, 2022 regarding information in respect of Mandatory Block Mechanism and Pay-in validations, it may be mentioned that NSDL has made necessary system changes, allowing Pay-in instructions (EPI /Non EPI) executed 'Before T day' and carrying out its matching on 'T day' (by carry forwarding such instructions till T day i.e. day of receipt of obligation from CCs) based on obligation uploaded by CCs for respective Market Type and Settlement Number.

The other processes / guidelines mentioned in NSDL Circular No. NSDL/POLICY/2022/155 dated November 10, 2022 in respect of implementation of Mandatory Block Mechanism and Pay-in validations will remain unchanged.

ANNEXURE R

(Email to Participant-Interface@nsdl.com from Email ID of Compliance Officer)

Madam / Dear Sir,

Subject: Declaration to enable Inter-Depository Transfers of Government Securities.

Please refer to NSDL Circular No. NSDL/POLICY/2020/0017 dated February 03, 2020 referring to RBI Circular ref. no. RBI/2018-19/78IDMD.CDD.No.1241/11.02.001/2018-19 dated November 16, 2018 with respect to Value Free Transfer (VFT) of Government Securities.

In this regard, we, <Name of DP> hereby declare that in accordance with clause 3 (ii) (b) of the above mentioned RBI circular dated November 16, 2018, have put in place the necessary Board approved risk management process and audit oversight is applied before transactions in Government Securities before accepting Inter-Depository Transfers of Government Securities.

Accordingly, we request NSDL to enable us to carry out the IDT of G-Sec.

Regards,

ANNEXURE S

INTER DEPOSITORY TRANSFER (IDT) FOR GOVERNMENT SECURITIES (G-SEC) INCLUDING TREASURY BILLS AND SOVEREIGN GOLD BONDS (SGB) – FEATURES

Salient features in respect of IDT for G-sec are mentioned below:

- 1) IDT will be processed for G-Sec ISINs between NSDL and CDSL through existing IDT mechanism.
- 2) The IDT for G-Sec is permitted in respect of following conditions :
 - a) Participants who have submitted declaration to NSDL that the necessary board approved risk management processes are put in place and audit oversight is applied before executing transactions in G-Sec, will be allowed to execute IDT for G-Sec and such Participants are enabled in NSDL system for carrying out transfers of IDT for G-Sec in respect of transferor Client / Clearing Member.
 - b) The transfer of G-Sec through IDT module is allowed only for those transferor clients who have submitted one time self-declaration (OTD) that the transactions involved in IDT are bonafide transfer instructions and the OTD flag has been enabled in DPM system by their Participant.
 - c) IDT for G-Sec is allowed only for **market** transfers in respect of Client to Clearing Member pool account and vice-versa. Accordingly, transfer of G-Sec through IDT will be processed only under the reason i.e. **Market IDT Identifier (Reason code -10)**. The IDT of G-Sec other than reason code 10 i.e. “Market IDT Identifier” will not be processed in DPM system.
 - d) As informed by Clearing Corporations, existing Settlement details i.e. Market Type & Settlement Number used for Corporate Bond settlement will be used for processing IDT of G-Sec (except SGB). In case of SGB, IDT is permitted for any market type and settlement details.

The IDT of G-Sec is enabled in depository system for following Security Types.

Sec Type	Sec Type Description
14	Government Securities
22	Treasury Bills
26	Sovereign Gold Bonds

Since the lot size for G-Sec other than SGB is 100 units or multiple thereof, the IDT of G-Sec for Sec Types viz., 14 & 22 is permitted for the **minimum quantity of 100 units or**

multiple thereof. In case of SGB (Sec Type 26) the IDT is permitted for minimum quantity of one unit.

- 3) On execution of IDT (debit instruction) of G-Sec in the NSDL depository system, quantity will be blocked (*if the sufficient quantity is available in the demat account of the Client as mentioned in DIS*) in the demat account of the Client and request for the same will be sent to other depository for confirmation.
- 4) On confirmation from other Depository, NSDL will initiate Value Free Transfer (VFT) instruction of G-Sec in E-Kuber system of RBI in respect of debit instructions from NSDL CSDL account. Similarly, other depository will initiate VFT instruction of G-Sec in respect of credit instruction to other depository CSDL account.
- 5) Upon successful execution of VFT on E-Kuber system of RBI by both the depositories, the IDT will be executed in respect of demat accounts of Depository Systems.
- 6) E-Kuber system of RBI will be updated with respective debit/credit of G-sec in respect of VFT of IDT transactions **three times** in a day on weekdays i.e. Monday to Friday excluding business holidays and once on RBI working Saturdays i.e. 1st, 3rd and 5th Saturdays. Accordingly, IDT of G-Sec is available in batch mode and three batches will be exchanged between both the depositories in 3 phases on weekdays and single batch will be exchanged in one phase i.e. on 1st, 3rd and 5th Saturday (working Saturdays) of the month. The details of timeline for phases are given below:

Transaction Days	Phase	Deadline time for Participants to verify & release G-Sec IDT delivery/receipt instructions	NSDL deadline time for receiving IDT delivery/receipt instructions from Participants
On weekdays (i.e. Monday to Friday)	I Phase	12:00 PM	12:15 PM
	II Phase	3:00 PM	3:15 PM
	III Phase/Final Phase	5:00 PM	5:15 PM
On 1 st , 3 rd and 5 th Saturdays	Final Phase	1:30 PM	1:45 PM

(Participants are requested to **note** that IDT in respect of G-Sec will not be executed on second and fourth Saturdays and any other bank holiday which is declared by RBI due to non-availability of E-Kuber system).

- 7) No IDT of G-Sec will be allowed after the aforesaid final phase NSDL deadline time for the same day execution date. The capturing of future dated IDT of G-Sec will be allowed till EOD of the business date.
- 8) The processing and status transmission in respect of G-Sec of IDT are mentioned below:

- a) Instructions with invalid transferor and transferee details would be rejected online/instantaneously with status '*Rejected*' and '*Rejected by other Depository*' respectively.
 - b) Once the instructions are Verified and Released, the status will change to '*Acknowledgement awaited from other Depository*' till the NSDL deadline time of respective phase.
 - c) This status in respect of valid IDTs will change to '*Settled*' post NSDL Deadline time of respective phases listed in the table above.
 - d) Overdue instruction (if any) will be considered during particular phase when overdue instructions are triggered due to availability of respective balance. The status of IDT will be changed to '*Settled*' post NSDL deadline time of respective phase. The Overdue IDT instructions will be rejected, if the requisite quantity is not available at the end of final NSDL deadline time on same execution day.
 - e) Instructions wherein the Standing Instructions (SI) indicator of Transferee's (Target demat account) is disabled, the status will be updated as '*Other Depository Response awaited*'. Such instruction (if any) will be considered in that particular phase when the corresponding receipt instruction is received from Transferee client. The status of IDT will be changed to '*Settled*' or '*Rejected by other Depository*' (based on the matched / unmatched receipt instruction) post NSDL deadline time of respective phases.
 - f) Participants are advised to monitor the status of the instructions executed in DPM system in respect of IDT for G-Sec and in case of any difficulty encountered by Participant, the same should be reported to NSDL Help Desk team.
- 9) The details in respect of Change Order Day (COD) file for G-Sec of IDT is same as per the existing IDT instructions.
 - 10) NSDL have enhanced Inter Depository Transfer (IDT) module of eDPM system for screen based as well as file upload mechanism to execute IDT of G-sec instructions.
 - a. Participants can submit IDT of G-Sec instructions through the same screen under Inter Depository Transfer module in eDPM system.
 - b. Participants can use existing file upload facility for processing the IDT of G-Sec through 'eDPM Upload' option available under 'Upload/Download' menu available in eDPM system.
 - 11) As there will be 3 phases for processing the IDT of G-Sec (on weekdays), Participants are advised to execute the IDT of G-Sec in DPM system well in advance so that the same shall be considered for the intended phase and settlement of the day.

The features in respect of submission of One Time Declaration by client and processing of IDT of G-Sec through NSDL SPEED-e facility also will be made available shortly and the detailed guidelines for the same will be intimated separately.

ANNEXURE T

Sr. no.	Reason Code No.	Reason Code Description	System validation by Depository	Manual Verification by Participant (if any)

PROCEDURE TO BE FOLLOWED BY PARTICIPANTS WHILE MAKING PAYMENT TOWARDS STAMP DUTY

Participants can make payment towards stamp duty through following methods only:

1. NEFT/RTGS/Internet Banking/IMPS
2. Payment Gateway

1. Payment through NEFT/RTGS/Internet Banking/IMPS

- a) NSDL has availed virtual account facility from NSDL Payments Bank.
- b) Payments of stamp duty should be remitted to the virtual bank account only. Payments made through virtual account number shall be considered as payment towards stamp duty only.
- c) Participants are requested to make the payment in the virtual account number assigned to them which is as under:
 - (i) For adding NSDL as beneficiary in your bank account, Virtual Account Number for DPs will be “SDDP” followed by 8 digit DP ID. Illustrative examples of virtual account number are given under point no. 1 (d).
 - (ii) Payment of stamp duty should be remitted to the following account:

Mode of Payment	NEFT/RTGS/Internet Banking/IMPS
Beneficiary Virtual Account Number	SDDPINXXXXXX {Refer Point No. 1(c)(i) above}
Beneficiary Bank Name	NSDL Payments Bank Limited
Beneficiary Bank IFS Code	NSPB0000002

- (iii) The funds remitted will be accounted by NSDL under the ‘DPID’ entered in the virtual account number at the time of remitting the amount.

- d) Illustrative examples of virtual account number to be entered are given below:

Sr. No.	DPID	Virtual Account Number	Whether allowed or not allowed
1	IN300001	SDDPIN300001	Allowed
2	IN300001	SDDPIN-300001	Not allowed
3	IN300001	SDDPIN3000012	Not allowed

4	IN300001	SDDP/IN300001	Not allowed
5	IN300001	IN300001	Not allowed
6	IN300001	SDDPIN300004	Not allowed and amount will be accounted to another DP

2. **Payment through Payment Gateway**

- a) Payment can be made through payment gateway link <https://eservices.nsdl.com/sdpayment-web/#/sdAuthValidate>). Participants are requested to use link given for payment of stamp duty only and not for any other purpose. Payments made using payment gateway shall be considered as payment towards stamp duty only.
- b) While making payment, following details are required to be entered:
 - i. DP ID
 - ii. Email ID
 - iii. Mobile Number
 - iv. Amount towards stamp duty
- c) The funds remitted will be accounted by NSDL under the 'DPID' entered in the payment gateway page at the time of remitting the amount.
- d) After successful payment, challan will be generated for payment of stamp duty amount.

ANNEXURE BB

EXTRACTS OF SCHEDULE I OF THE STAMP DUTY ON INSTRUMENTS AS PER THE INDIAN STAMP ACT, 1899

DEBENTURE — [as defined under section 2 (10A) of the Amendment to the Indian Stamp Act, 1899]
(Refer section 9A and 9B of the Amendment to the Indian Stamp Act, 1899)

Description of Instrument	Proper Stamp Duty
(a) in case of issue of debenture;	0.005%
(b) in case of transfer and re-issue of debenture.	0.0001%

SECURITY OTHER THAN DEBENTURES (Refer section 9A and 9B of the Amendment to the Indian Stamp Act, 1899)

Description of Instrument	Proper Stamp Duty
(a) issue of security other than debenture;	0.005%
(b) transfer of security other than debenture on delivery basis;	0.015%
(c) transfer of security other than debenture on non-delivery basis;	0.003%
(d) Government securities	0%
(e) repo on corporate bonds	0.00001%

ANNEXURE CC

SALIENT FEATURES OF PLEDGE FACILITY ON SPEED-E

A. Introduction:

- 1) This facility will be available to Client whose depository account is registered for e-Token based facility for accessing SPEED-e.
- 2) This facility will be available only for **pledge Initiation** instruction in phase 1 and facility to submit **pledge confirmation/closure/unilateral closure/invocation** instruction will be available in phase 2.
- 3) Participants will be required to register SPEED-e Users (e-token users) for SPEED-e **Direct** Facility (*refer Circular No.: NSDL/POLICY/2011/0084 dated October 15, 2011*). The normal SPEED-e Users (e-token users) who are not registered for SPEED-e Direct facility by their Participants will not be able to avail this facility.
- 4) Participants can view the pledge instructions details submitted by user through SPEED-e Direct facility at e-DPM System and Local DPM System.
- 5) Upon submission of pledge creation/initiation instructions submitted by Users the status of the instruction will be displayed as 'Released' and the instructions will be directly transmitted to NSDL depository system.
- 6) Participants will be able to ascertain the source of instructions i.e., whether the instructions have been received through DPM or SPEED-e Direct facility in e-DPM and Local DPM system.
- 7) The channel Indicator field in the COD download file would displays as '11' for pledge creation instructions submitted through SPEED-e.

B. Capture of Pledge Initiation Instructions:

User can use any of the following options for submission of pledge initiation instruction on SPEED-e:

- I. Initiate Pledge Instruction submission
- II. View SoT/SoH screen

A. Initiate Pledge Instruction

- 1) e-Token User(s) will access e-Services website (<https://eservices.nsdl.com>) and click on “Initiate Pledge Instruction” link available under Pledge option (refer exhibit 1).

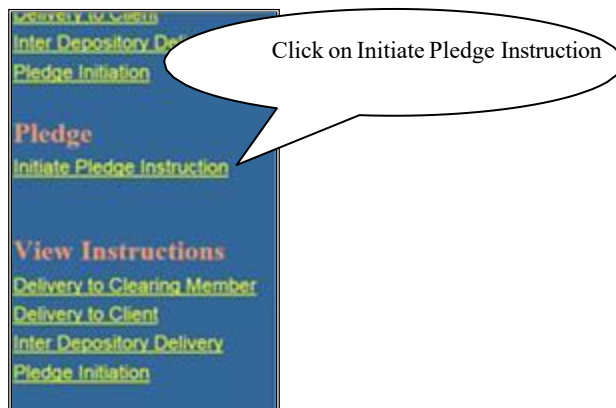

Exhibit 1 – Initiate Pledge Instruction

- 2) Upon clicking on the “Initiate Pledge Instruction” link, Pledge Initiation screen will be displayed to the User for capturing of pledge instruction details on SPEED-e (refer exhibit 2).

The screenshot shows the 'Pledge Initiation' screen. It has a red header bar with the title 'Pledge Initiation'. Below the header, there are several sections: 'Pledge Details' with fields for 'DP ID' and 'Client ID'; 'Instruction Details' with fields for 'Agreement Number', 'Closure Date', 'Execution Date', and 'Remarks'; and a table for 'Pledge Details'. The table has columns for 'SDR', 'SDR Name', 'Total Qty', 'Quantity Available for Pledge', 'LOCK IN', and 'Pledge'. There are 10 rows in the table, each with a 'Free' status indicator. At the bottom of the screen are 'Submit' and 'Reset' buttons.

Exhibit 2 – Initiate Pledge Instruction - Submission

- 3) User will be required to enter the requisite details (as given below) on the screen for submission of pledge instructions:
 - a) Pledgee DP ID,

- b) Pledgee Client ID,
 - c) Agreement Number,
 - d) Closure Date,
 - e) Execution Date,
 - f) ISIN
 - g) Quantity
 - h) Remarks (if any),
- 4) User will be required to select Free or Lock-in option (*as the case may be*) on the screen and enter requisite quantity for pledge. In case user wishes to pledge securities which are under Locked-in status, then user will be required to choose Lock-in option and select 'Lock-in Reason' and enter 'Lock-in Release Date'.
- 5) Upon entering the aforesaid details with respect to ISIN(s) which is/are available in the depository account, user will be required to click on submit button to submit pledge instruction.

B. View SoT/SoH

- 6) e-Token User(s) can also click on "View SoT/SoH" link available under IDeAS option for submission of pledge initiation instruction (refer exhibit 3).

Exhibit 3 – View SoT/SoH

- 7) Upon clicking on the link "View SoT/SoH", User will be able to view the latest holding available in the depository account.
- 8) User will be required to select the "Pledge Initiation" option available for submitting pledge initiation instruction. User would be able to click on any one type of instruction viz. Market, Off-mkt, Inter Depository Debit, Pledge initiation.

- 9) Checkbox would also be available at the end of every ISIN to facilitate user to select the ISIN(s) in respect of instruction type selected by user (refer exhibit 4).

C. Authorization of Pledge Initiation Instructions:

- 16) In case of a depository account pertaining to single holder wherein only one authorized signatory (*who is having authorized rights*) is accessing SPEED-e facility and the Number of Authorizations captured in SPEED-e is also one, then pledge initiation instruction will be captured and authorized on SPEED-e after user click on submit and confirm buttons. Separate authorization from checker/another user will **not** be required.
- 17) The existing functionality of Multiple Authorizations as informed to Participants vide NSDL Circular No. NSDL/PI/2001/1895 dated December 27, 2001 for submitting the instructions on SPEED-e will also continue to be applicable for pledge initiation instructions by e-Token users on SPEED-e.
- 18) e-Token User who is having authorize rights will access SPEED-e facility and click on the 'Pledge Initiation' link available under Authorize Instructions option (refer exhibit 10).

Exhibit 10 –Pledge Initiation - Authorization

Alternatively, Authorizer User will be provided a facility to view Pending Authorization Summary after login on SPEED-e facility (refer exhibit 11). User can directly click on Authorization pending for 'Pledge Initiation' link available under Pending Authorization Summary.

C. Error Codes and Descriptions - Pledge Initiation Instruction:

ERRORCODE	ERROR DESCRIPTION
DIH00001	Invalid header record type
DIH00000	Invalid header record length
DIH00017	Header records type should always be 01
DIH00032	Header is not the first record
STLMT009	Invalid detail record length
DIT00045	Invalid trailer record length
DIT00207	Trailer records cannot be more than one row
STLMT008	Record type is invalid in in header/in detail/in trailer
DIH00036	Detail records cannot be blank
DIH00118	Batch number in header and detail does not match
DIH00005	Source Pledger Client ID in file does not match with Pledger Client ID of the client logged in.
DIH00119	Filler records must not contain any character
DIH00003	Invalid DP ID
DIH00005	Invalid Client ID
DIH00028	Client ID should be numeric
DIH00008	Total number of record mentioned in record field is not numeric
DIH00012	Total number of records is zero
DIH00076	Enter valid numeric date format
DIH00013	Enter valid numeric date format
DIH00077	Invalid date field entered in header
DIH00079	Batch number is already exist
DIH00018	Source (pledger) DP ID in file does not match with DP ID used in the file
DIH00106	Source (pledger) DP ID & Client ID in file does not matched with DP ID & Client ID of the client logged in.
STLMT010	Special character (tab,{,},[,],,:) entered in detail record
FV0005	Batch number should be numeric and as per prescribed format
FV0009	Record type should be numeric and as per prescribed r format

FV0013	Line number should be numeric and as per prescribed format
FV0015	Transaction type should be numeric and as per prescribed format
FV0016	Transaction type in detail record is not valid
FV0017	Transaction flag must be "a" in detail record
FV0023	ISIN should be valid and in proper format
FV0027	Quantity should be numeric, non-negative and maximum length should be 15 digits (12+3 without decimal point)
FV0041	Execution date should be valid and as per prescribed format
FV0081	Closure date should be valid and as per prescribed format
FV0021	Invalid Client ID

FV0018	Agreement number is mandatory
FV0083	Locked- in date is mandatory for the locked-in position
FV0084	Locked- in date is not required in case of free position
DIH00019	Line number in detail record filed is invalid
DIH00038	Batch number entered in header does not match with details mentioned in record(s) field
DIT00232	Special character in trailer record is not allowed
DIT00058	Batch number in trailer record is not numeric
DIH00009	Batch number cannot be only zero(s)
DIT00211	Total quantity of pledge initiation instruction is not numeric
DIT00067	Total records in header does not match with total detail records
DIT00056	Grand total quantity is not numeric
DIT00069	Error in grand total quantity
DIH00016	Total records in header does not match with total detail records
DIT00231	No trailer record present
AT0014	Invalid ISIN
CM0032	ISIN does not exist
CM0005	Invalid Client status
PL0020	Pledge closure date must be greater than pledge execution date
PL0021	Pledge closure date must be greater than current business date
PL0036	Pledge execution date must be greater than or equal to current business date
PL0031	Pledger and Pledgee Client details cannot be same

Salient features of Pledge Confirmation facility on SPEED-e

A. Introduction:

- 1) This facility will be available to Client whose depository account is registered for e-Token based facility for accessing SPEED-e.
- 2) Client(s) (*Pledgee*) will be able to view and confirm the pledge initiation instructions through SPEED-e facility irrespective whether pledge initiation instructions submitted through e-DPM system or SPEED-e facility.
- 3) For availing this facility, the Participants will be required to register the account holder (i.e pledgee) for SPEED-e as a e-token user and avail of SPEED-e Direct facility. In case the account holder is already a SPEED-e e-token user, but has not availed of SPEED-e Direct facility, the facility of pledge confirmation through SPEED-e cannot be availed of.
- 4) Participants can view the pledge initiations details, received for pledge confirmation, which are submitted by user through SPEED-e Direct facility at e-DPM System and Local DPM System.
- 5) Participants will be able to ascertain the source of instructions i.e., whether the instructions have been executed through e-DPM or SPEED-e Direct facility in e-DPM and Local DPM system.
- 6) The channel Indicator field in the COD download file would display '11' for pledge confirmation instructions submitted through SPEED-e.

B. Capture of Pledge Confirmation Instructions:

- 1) e-Token User(s) will access e-Services website (<https://eservices.nsdl.com>) and click on “Pledge Confirmation” link available under Pledge option (refer exhibit 1).

Exhibit 1 – Pledge Confirmation

- 2) Upon clicking on the “Pledge Confirmation” link, search criteria viz., Pledgor DP ID & Client ID, ISIN and SPEED-e Instruction No. fields will be displayed to the User. User will be required to enter any of the requisite details on the screen and click on search option to display the details of pledge instruction on SPEED-e (refer exhibit 2).

Pledge Confirmation

C. Authorization of Pledge Confirmation Instruction:

- 1) The existing functionality of Multiple Authorizations as informed to Participants vide NSDL Circular No. NSDL/PI/2001/1895 dated December 27, 2001 for submitting the instructions on SPEED-e will also continue to be applicable for pledge Confirmation instructions by e-Token users on SPEED-e facility.
- 2) In case of a depository account pertaining to single holder wherein only one authorized signatory (*who is having authorized rights*) is accessing SPEED-e facility and the Number of Authorizations captured in SPEED-e is also one, then pledge Confirmation instruction will be captured and authorized on SPEED-e after user click on submit and confirm buttons. Separate authorization from checker/another user will **not** be required.
- 3) e-Token User who is having authorize rights will access SPEED-e facility and click on the 'Pledge Confirmation' link available under Authorize Instructions option (refer exhibit 9)

Exhibit 9 –Pledge Confirmation - Authorization

Alternatively, Authorizer User will be provided a facility to view Pending Authorization Summary after login on SPEED-e facility (refer exhibit 10). User can directly click on Authorization pending for ‘Pledge Confirmation’ link available under Pending Authorization Summary.

Introduction

NSDL provides SMS Alert facility for demat account holders whereby they can receive SMS alerts directly from NSDL for following:

- 1) All Debit Transfers
- 2) Credits for IPO, sub-division and bonus
- 3) Failed instructions
- 4) Overdue instructions
- 5) Change of mobile number
- 6) Change of address
- 7) Debit of Mutual Fund units
- 8) Invocation of pledged securities
- 9) Registration and De-registration of Power of Attorney
- 10) Modification / Cancellation of nominee name
- 11) Pledge initiation and confirmation
- 12) Mutual fund redemption request submission by client and acceptance/rejection of the same by RTA
- 13) SMS Alerts to Clients for Blocking/Debit of shares in demat account in respect of Tender Offer instruction.

Charges

No charge is levied by NSDL to Participants for providing this facility to investors.

Registration

- (i) This facility will be available to the investors provided they have given their mobile numbers to their DPs and the DPs have captured the numbers in the Local DPM System and have also enabled (ticked) the SMS flag in their Local DPM system.
- (ii) Those investors who have provided their mobile numbers to their DPs but do not wish to avail this facility may inform their DPs to disable the SMS flag provided such accounts are not operated by Power of Attorney.

(iii) For change of address and registration & de-registration of Power of Attorney in Local DPM System, SMS alerts will be sent to Client's mobile phone (captured in Local DPM System) irrespective of Client availing SMS Alert facility.

ANNEXURE II

(To be provided on the letterhead of CM/TM)

To,

<Participant Name>

Subject: Request for opening Client Securities Margin Pledge Account Madam / Dear Sir,

With reference to captioned subject, I / We < CM/TM Name > are maintaining a TM/CM account with <Participant name>. <demat account number >. I/We would like to open 'Client Securities Margin Pledge Account' in <Participant name> based on the existing Account Opening Form with you as per details given below:

Sr. No.	Account Category	New Client Type	New Client Sub-type Description
1			
2			

I/we hereby declare that I/we are KYC compliant and there is no change in the same. For <CM/TM Name>

Signature of the CM/TM: Name of Authorised Signatory: Date:

ANNEXURE KK

Process for Registration of Investors, Trading Members (TMs) and Clearing Members (CMs) on NSDL e-Services (SPEED-e & IDeAS) in respect of Margin Pledge / Re-Pledge

1. NSDL has introduced new feature viz., Margin Pledge / Re-pledge (MPR) for facilitating process in respect of Margin obligations to be given by way of Pledge /Re-pledge in the Depository System. The access of aforesaid MPR feature is available through NSDL eDPM system for Participants and through NSDL e-Services (SPEED-e and IDeAS) system for Investors, TMs and CMs.
2. The link viz., 'Margin Pledge' is provided on SPEED-e and IDeAS (for sole holder account), which can be accessed by the existing Beneficial Owner (BO) users (password and e-token based) for execution of margin pledge related transactions. The new BO users can follow the existing process of registration on SPEED-e and IDeAS or they can contact their Depository Participant.
3. As per SEBI guidelines, Margin Pledge instructions will be initiated on the basis of UCC mapped in client demat account (on the basis of PAN), segment and linkages of respective TM details. Further, Margin Re-pledge will be initiated on the basis of TM-CM linkages provided by the Clearing Corporations to NSDL. NSDL has mapped the UCC as provided by Stock Exchanges in demat account on the basis of PAN details available in client maintenance module in NSDL depository system.
4. NSDL has facilitated Participants to open demat accounts in respect of TM/CM under various Client Type / Sub-types for margin obligations. (*informed to Participants vide NSDL Circular No.: NSDL/POLICY/2020/0077 dated June 1, 2020*).
5. NSDL has provided the facility to Depository Participants (DPs) for registration of Margin Pledge Accounts & Proprietary Accounts in respect of TMs & CMs and Margin Funding Accounts in respect of TMs on NSDL e-services website for password based users. These users can process only Margin Pledge / Re-pledge related transactions through NSDL e-Services. The DP user shall click option viz., 'Registration of TM and CM users for Margin Pledge/Re-pledge facility' and process the user submission and confirmation (as exhibited below):

Margin Pledge Registration – Success message:

6. TM / CM can contact their Participant to register on NSDL e-Services for Margin Pledge facility. The DP can take request from TM/CMs containing the requisite details for registration on letter head of TM/CMs or in electronic mode, as may deemed fit.
7. While registration of TM Users, DP shall capture Exchange Code and TM ID (in case of Trading Members) as Stock Exchange (SE) Code - TM ID. For Example: “01-TM1234” wherein ‘01’ is SE code for ‘NSE’ and ‘TM1234’ is TM ID. Further, while registration of CM Users, DP shall capture Clearing Corporation ID and CM ID (in case of Clearing Members) as Clearing Corporation (CC) Code - CM ID. For Example: “11-CM1234” wherein ‘11’ is CC code for ‘NCL’ and ‘CM1234’ is CM ID. The static codes for Stock Exchanges and Clearing Corporations are provided at **Appendix D**.
8. The TMs and CMs are required to upload the details in respect of their Margin Pledge Accounts and Margin Funding Accounts on “NSDL e-Services ☐ Margin Pledge Module” through master upload process (*as per the file format prescribed vide Circular No.: NSDL/POLICY/2020/0094 dated July 14, 2020*). The TM / CM are required to upload details of their existing proprietary demat account(s) through aforesaid master upload process. On the basis of details provided by TMs/CMs while registration on NSDL e-Services and details uploaded by the TMs/CMs under master upload of TM/CMs BO accounts, the validations will be performed while processing the Margin Pledge / Re-pledge related transactions by respective TMs/CMs.
9. If TM/CM proprietary accounts are already registered on NSDL e-Services, then on the basis of master details provided by TM/CMs for such proprietary accounts, NSDL shall provide access of Margin Pledge facility to TM/CM proprietary accounts under their existing logins on NSDL e-Services.
10. TM and CM can download Margin Pledge/Re-pledge report in (.csv format) from SPEED-e in respect of Margin Pledge / Re-pledge instructions (as mentioned below) and the format for the same is enclosed at **Appendix E**.

List of transactions available for download to TMs and CMs:

- a. Confirmed Margin Pledges and Re-pledges

- b. Re-pledge Initiation
 - c. Margin Pledge and Re-pledge Release notification
 - d. Margin Pledge and Re-pledge Closure
 - e. Margin Pledge and Re-pledge Invocation
 - f. View Margin Pledge and Re-pledge instructions (*containing all aforesaid transactions*)
11. The TMs/CMs registered on NSDL e-Services in respect of Margin Pledge / Re-pledge facility will also have the facility to opt for “Change of Service” option by which TMs/CMs can opt for additional facility of NSDL SPEED-e services wherein they can execute various transactions (more details available on NSDL e-services portal i.e. eservices.nsdl.com). Such TMs/CMs can use all existing functionality of SPEED-e users alongwith Margin Pledge / Re-pledge module.
12. Registration of TM and CM users on NSDL e-Services for Margin Pledge/Re-pledge facility can be done from **EOD of July 31, 2020** and the ‘Margin Pledge’ link on NSDL e-Services will be made accessible to users effective from **August 1, 2020**.

Appendix D

Static Codes for Stock Exchanges and Clearing Corporations:

Stock Exchanges:

Stock Exchange Code	Stock Exchange Full Name	Stock Exchange Short Name
01	National Stock Exchange of India Limited	NSE
02	BSE Limited	BSE

ANNEXURE LL

THE SALIENT FEATURES AND PROCESS IN RESPECT OF MARGIN PLEDGE / RE-PLEDGE FUNCTIONALITY

NSDL has introduced new feature viz., Margin Pledge / Re-pledge (MPR) for facilitating process in respect of Margin obligations to be given by way of Pledge /Re-pledge in the Depository System. The access of aforesaid MPR feature is available through NSDL eDPM system for Participants under Pledge / Hypothecation option and through NSDL e-Services (SPEED-e and IDeAS) system for Investors, Trading Members (TMs) and Clearing Members (CMs). The process for registration of Investors, TMs and CMs on NSDL e-Services (SPEED-e & IDeAS) in respect of Margin Pledge / Re-Pledge is informed to Participants vide NSDL Circular No. NSDL/POLICY/2020/0104 dated July 31, 2020

As per SEBI guidelines, Margin Pledge instructions will be initiated on the basis of UCC mapped in client demat account (on the basis of PAN), segment and linkages of respective TM details. Further, Margin Re-pledge will be initiated on the basis of TM-CM linkages provided by the Clearing Corporations to NSDL. NSDL has mapped active UCC provided by Stock Exchanges in demat account on the basis of PAN details available in client maintenance module in NSDL depository system.

The detailed process of Margin Pledge / Re-pledge functionality is given below.

(I) Initiation of Margin Pledge / Re-pledge:

Client can initiate a margin pledge instruction in favour of ‘TM – Client Securities Margin Pledge Account’ or ‘TM/CM – Client Securities Margin Pledge Account’ by submitting a physical Margin Pledge Form to its Participant or electronic instructions through NSDL e-Services.

Margin Pledge instructions can be initiated through below mentioned modes :

1. Client submitting physical DIS to their Depository Participant (DP).
2. Client initiating Margin Pledge instruction through NSDL e-Services
3. TM initiating Margin Pledge on behalf of client on the basis of Power of Attorney (POA) given by client in favour of TM.

1. Client providing physical DIS to DP:

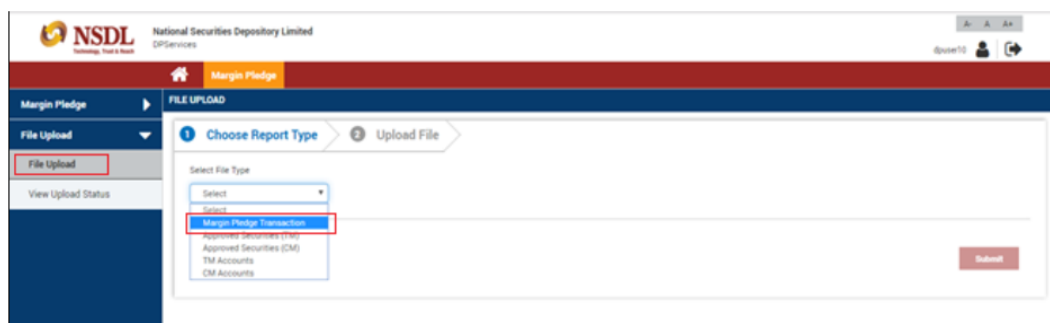

- a) DP user will initiate margin pledge instruction in favour of ‘TM – Client Securities Margin Pledge Account’ or ‘TM/CM – Client Securities Margin Pledge Account’ through e-DPM system based on physical Margin Pledge Form submitted by Client.
- b) Participant shall login to NSDL eDPM system and click on “**Margin Pledge / Re-Pledge**” option provided under “**Pledge/ Hypothecation**” module as exhibited below:

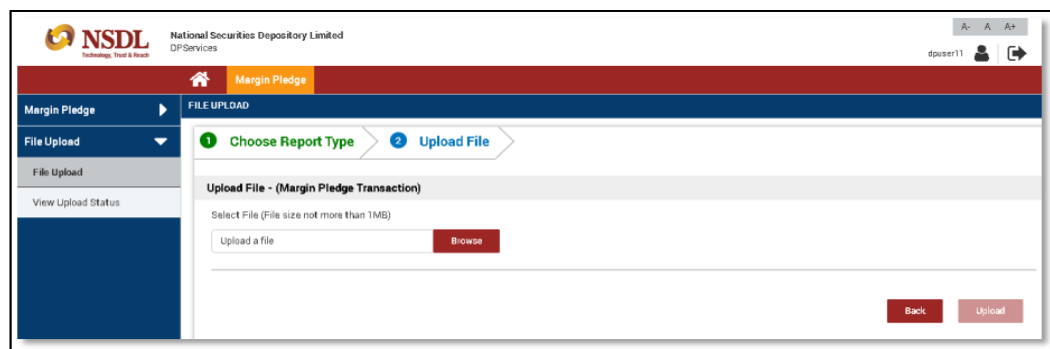

- c) After clicking on “**Margin Pledge / Re-Pledge**” (MPR) link, DP user shall be redirected to the new module of MPR for initiating margin pledge instruction through file upload mechanism.

File upload mechanism:

Step 1: DP user shall click on ‘File Upload’ option and select ‘Margin Pledge Transaction’ from the drop down list and click on the submit button as exhibited below:

Step 2: After clicking on submit button, user shall browse the file and click on upload as exhibited below:

Step 3: User can view the file upload status by clicking on “View Upload Status” as exhibited below:

- d) On successful upload of Margin Pledge initiation instruction(s) by DP user in MPR system, a link to ‘**Confirm Margin Pledge**’ instruction (i.e. Bitly link) will be generated and sent to registered mobile number and Email ID mentioned in the demat account of a client. On clicking the aforesaid confirmation link, client will be redirected to a web page wherein client will be required to carry out authentication with “PAN” details (DP ID & Client ID in case of PAN exempt clients). Upon providing the correct PAN details, the details in respect of margin pledge instruction(s) which are pending for authorization will be shown to the client. The client has to select instruction(s) to be processed and request for OTP. Once correct OTP (received on mobile or email) is entered by client, Margin Pledge initiation instruction will be processed and sent to the pledgee for confirmation. Client will also have option to reject the Margin pledge instructions.
- e) If the “**Standing Instruction Indicator for Auto Pledge Confirmation**” flag is enabled in the pledgee’s demat account, then there is no need for separate confirmation required from pledgee in respect of margin pledge instruction and the status of instruction will be updated as ‘Pledged’. If the “Auto Pledge Confirmation” flag is disabled in the pledgee’s demat account, then there is separate confirmation required by pledgee in respect of margin pledge instruction. Upon successful confirmation by Pledgee, the status of instruction will be updated as ‘Pledged’.
- f) For successful initiation of margin pledge initiation, the details in respect of valid mobile number and Email ID are required to be available in the demat account of client which shall be used for OTP confirmation.

2. Client initiating Margin Pledge instruction through NSDL e-Services:

- a) Clients registered on NSDL e-services portal (<https://eservices.nsdl.com/>) shall login to SPEED-e / IDeAS login and click on link viz., ‘**Margin Pledge / Re-Pledge Submit Instruction**’ as exhibited below :

- b) After clicking on “**Margin Pledge / Re-Pledge**” link, user shall be redirected to MPR Screen to initiate margin pledge instruction.
- c) Once the Client is redirected from e-Services portal to MPR module, the client shall click on ‘Initiate Margin Pledge’ option and capture the requisite details as exhibited below:

The screenshot shows the NSDL Margin Pledge Initiation screen. The 'Pledge Initiation' section includes fields for UCC / CP Code, Segment, TM/CM ID, and TM/CM Name. The 'Instruction Details' section includes fields for Expiration Date and Remarks. The 'Pledge Details' section includes fields for DP ID, DP Name, Client ID, and Client Name. The 'Item Details' section is a table with columns for ISIN, ISIN Name, Total Quantity, Pledge Position, Locks - Reason, Release Date, and Quantity to be pledged.

ISIN	ISIN Name	Total Quantity	Pledge Position	Locks - Reason	Release Date	Quantity to be pledged
IN000001000	QIL PHLIS test	100000	Lock-In	Employee/Quota	01-01-2021	100

- d) The user shall click on ‘UCC/CP code’ search icon and then a window will be opened (as exhibited below) for selecting combination of UCC, Segment, TM details mapped in client’s demat account based on the details provided by Stock Exchanges. There may be multiple UCCs mapped in the demat account based on the combination of different segment, TM and Stock Exchanges.

UCC Search Result - for Client ID 10077059

ADD

- e) After selecting a particular UCC, Segment and TM for combination from the available list, the details viz., Segment, TM ID and TM Name will be auto populated on the screen. In case client wants to initiate Margin Pledge Instruction for ‘**All Segment**’, then user shall enable checkbox given for selection of ‘**All Segment**’.
- f) Under Pledgee Details section, client can select pledgee details viz., “Margin Pledge Account” or “Margin Funding Account”. Based on the selection of account, Pledgee’s DP ID, DP Name, Client ID and Client Name shall be auto populated on the screen.
- g) Under Instruction details section, the user shall capture valid “Execution date”. Client can capture Execution date as greater than current business date to initiate future dated margin pledge instruction.
- h) Under ISIN details, client’s current holding details will be displayed on the screen for creation of margin pledges. The client can select ISIN from ISIN details table and enter the ‘Quantity to be pledged’. Client can pledge “Free” as well as “Locked-in” holdings available in its demat account.

OTP sent to your registered Mobile Number with NSDL 784xxxx245.

3. TM initiating Margin Pledge on behalf of client on the basis of POA given by client in favour of TM:

- TM can initiate Margin Pledge instruction on behalf of client on the basis of POA given by client in favour of TM. The POA details (in favour of TM) mapped in demat account of client will be validated while processing the POA based Margin Pledge initiation instructions. The upload facility for POA based Margin Pledge transactions is available for TMs and CMs in MPR module through NSDL e-Services facility.
- After clicking on link viz., **“Margin Pledge / Re-Pledge”** (MPR), user will be redirected to the MPR module for initiating margin pledge instruction (POA based) through file upload mechanism.
- Client can also view all pending margin pledge instructions under ‘Accept Margin Pledge’ option which are executed by TM based on POA or submitted by client to its DP in physical form and provide their confirmation for margin pledge initiation.
- Client can view status of all margin pledge instructions by clicking on the link viz., ‘View Margin Pledge Instruction’ available under Margin Pledge menu as exhibited below:

Execution Date: 22/07/2022 Remarks:

File upload mechanism:

Step 1: User shall click on ‘File Upload’ option and select Margin Pledge Initiation (On behalf of POA Client) Transaction from the available drop down list and click on the submit button as exhibited below:

Step 2: After clicking on submit button, user can browse and upload the requisite file as exhibited below:

Step 3: User can view the file upload status by clicking on “View Upload Status” as exhibited below:

Upload Date	File Reference No.	File Name	Status	Response	Error	VR Response	VR Error	Total Records	Total Accepted Records

- e) On successful upload of pledge initiation instruction(s) by TM user in MPR system, a link to ‘Confirm Margin Pledge Transactions’ (i.e. Bitly link) will be generated and sent to the client on registered mobile number and Email ID mentioned in the demat account of a client. On clicking the said link, the client will be redirected to a web page where client will be required to follow authentication process by providing PAN details (DP ID & Client ID in case of PAN exempt clients). Upon providing the correct PAN details, the details in respect of margin pledges which are pending for authorization will be shown to the client. The client has to select instruction(s) to be processed and request for OTP. Once correct OTP (received on mobile or email) is entered by client, Margin Pledge initiation instruction

will be processed and sent to the pledgee DP for confirmation. Client will also have option to reject the Margin pledge instructions.

4. Margin Pledge initiation in respect of TM/CM Proprietary & Institutional Clients (CP Codes):

a) TM Proprietary (Prop) to TM Client Margin Pledge Account (CMPA):

Based on the details provided by CCs (TM-CM link) and respective TMs, NSDL will be marking the TM Prop accounts in NSDL depository system. The TM Prop user can initiate margin pledge instruction through MPR module made available on e-Services. The Margin Pledge instruction will be initiated from TM Prop Account in favour of TM-CMPA. The OTP authentication will not be required in respect of aforesaid margin pledge instruction.

b) CM Proprietary (Prop) to CM Client Margin Pledge Account (CMPA):

Based on the details provided by CCs (TM-CM link) and respective CMs, NSDL will be marking the CM Prop accounts in NSDL depository system. The CM Prop user can initiate margin pledge instruction through MPR module made available on e-Services. The Margin Pledge instruction will be initiated from CM Prop Account in favour of CM-CMPA. The OTP authentication will not be required in respect of aforesaid margin pledge instruction.

c) Institutional Client (CP Code) to CM Client Margin Pledge Account (CMPA):

Based on the details provided by CCs (CP-CM link) and respective Custodians, NSDL will be marking the Institutional Client accounts in NSDL system. The TM Prop user can initiate margin pledge instruction through MPR module made available on e-Services or through their Participants. The Margin Pledge instruction will be initiated from Institutional Client (CP Code) account in favour of CM-CMPA. The OTP authentication will not be performed in respect of aforesaid margin pledge instruction.

d) Sharing of details to CCs in respect of Margin Re-pledges pertaining to TM/CM Prop & CP Accounts:

In respect of securities that are re-pledges in favour of CC pertaining to TM Prop and CM Prop, the details of 'TM ID' & 'CM ID' will be shared in UCC column with CCs in proposed pledge master export. In respect of securities that are re-pledges in favour of CC pertaining to CP Code accounts, the details of UCC column will be provided as blank and additional details of 'CP Code' will be shared with CCs in pledge master export.

(II) Margin Pledge / Re-pledge Confirmation by TM & CM (Pledgee) :

- a) TM and CM can opt for 'Auto Pledge Confirmation' facility by enabling the flag viz., "Standing Instruction Indicator for Auto Pledge Confirmation" in TMs/CMs (Pledgee) Margin Pledge Account. In such scenarios, TMs/CMs (Pledgee) are not required to confirm the Margin Pledge Initiation instruction separately.

- b) If the “Standing Instruction Indicator for Auto Pledge Confirmation” flag is disabled in TM/CM (Pledgee) Margin Pledge Account then TM/CM (Pledgee) shall confirm the Margin Pledge initiation instruction by providing physical DIS to their DP or TM/CM can process the same through NSDL e-Services facility.
- c) The users of DP/TM/CM can upload file on MPR in respect of confirmation of Margin Pledge or Re-Pledge initiation instruction.

File upload mechanism :

Step 1: User shall click on ‘File Upload’ option and select Margin Pledge Confirmation Transaction from the available drop down list and click on the submit button.

Step 2: After clicking on submit button, user can browse and click on Upload the requisite file.

Step 3: User can view the file upload status by clicking on link viz., “View Upload Status”.

- d) Once the Margin Pledge instruction is confirmed by Pledgee, the status of instruction will be updated from “Pending for Pledgee Confirmation” to “Pledged” and Instruction ID will be generated.

(III) Re-pledge by TM to CM and by CM to CC:

- a) TM can initiate a Margin Re-pledge instruction in favour of CM - Margin Pledge account and CM can initiate a Margin Re-pledge instruction in favour of Clearing Corporation (CC) in respect of approved securities as uploaded by CCs. The Margin Re-Pledge instruction can be processed by TM/CM by providing physical DIS to DP or TM/CM can process the same through NSDL e- Services facility.
- b) The users of DP/TM/CM can upload file on MPR in respect of Margin Re-Pledge initiation instruction.

File upload mechanism :

Step 1: User shall click on File Upload option and select ‘Margin Re-Pledge Transaction’ from the available drop down list and click on the Submit button as exhibited below:

Step 2: After clicking on Submit button, user can browse and upload the requisite file.

Step 3: User can view the file upload status by clicking on “View Upload Status”.

- c) Once file is uploaded successfully, Margin Re-Pledge initiation instructions will be sent to the pledgee DP for confirmation. The procedure for Margin Re-pledge confirmation by pledgee is mentioned at **point no. (II)** above.

(IV) Invocation of Margin pledge/ re-pledge instructions :

Invocation can be processed by TM, CM and CC in case shares are pledged or re-pledged in favour of TM, CM and CC respectively.

a) Invocation Process by CCs:

The CC user can initiate an invocation request of re-pledged client securities by giving an instruction to NSDL through eDPM system. The invocation instructions will include the pledge instruction number and other details as specified in file formats. In case of default by CM, the CC user can login to the eDPM system and select MPR module to upload the file for Invocation of Margin Re-pledged shares. The CC user can initiate the Invocation request for Margin Re-pledge using the file upload mechanism as exhibited below:

File upload mechanism:

Step 1: User needs to click on file Upload button and select Margin Pledge Invocation Transaction from the drop down list and click on the submit button.

Step 2: After clicking on submit button, user can browse and upload the requisite file.

Step 3: User can view the file upload status by clicking on “View Upload Status”.

b) Invocation Process by TMs/CMs:

The TM/CM user can initiate an invocation request in respect of Margin re-pledged instruction by giving an instruction in MPR module through NSDL e-Services facility. The invocation instructions will include the pledge instruction number and other details as specified in file formats. In case of default by Investor/TM, the TM/CM user respectively can login to the e- Services facility and select MPR module to upload the file for Invocation of Margin Re-pledged shares. The TM/CM user can initiate the Invocation request for Margin Re-pledge using the file upload mechanism as explained above at point (IV) a.

The TM, CM and DP users can search the Margin Pledge instruction under “Invoke Margin Pledge” menu for invocation by providing following details as exhibited below:

- Execution Date
- Segment
- Status
- Instruction ID
- ISIN Name

After selecting the particular instruction, the user shall submit the invocation request. Once the CM/TM user submits the Invocation instruction, an intimation email and SMS shall be sent to the Client, TM and CM on their registered Email ID & mobile numbers mentioned in respective NSDL Demat account.

(V) Release (Closure) of Margin pledge/ re-pledge instructions :

Release of shares can be processed by TM, CM & CC if the shares are pledged or re-pledged in favour of TM, CM & CC respectively.

a) Release by TM - on the basis of Request submitted by Client:

Client can initiate a Release (Closure) of margin pledge request for the securities pledged/re-pledged with TM/CM/CC for margin/collateral purpose by submitting a physical Margin Pledge Form to its Participant or electronic instructions through SPEED-

e facility. To initiate a Release (Closure) of margin pledge request, client needs to login on e-Services portal and click on link of “Margin Pledge – Re-Pledge Submit Instruction”. The user shall click on “Request Release of Margin Pledge”. The user can search the Margin Pledge instruction for Release (Closure) by entering the following details as exhibited below:

- Execution Date.
- Segment
- Status
- Instruction ID
- ISIN Name

The screenshot shows the 'MARGIN PLEDGE RELEASE' interface. On the left is a sidebar with navigation links: 'Margin Pledge', 'Initiate Margin Pledge', 'Accept Margin Pledge', 'Request Release of Margin Pledge' (highlighted), 'View Margin Pledge Inst.', and 'View Approved Securities'. The main area has search filters: 'Execution Date from' (23/07/2020) and 'To' (23/07/2020), 'Segment' (All), 'Status' (Pledge Confirmed), 'Instruction ID', and 'ISIN Name'. There are 'Search' and 'Reset' buttons. Below the filters is a table with the following data:

Instruction ID	Transaction Type	Initiated By	Pledge ID	Pledge ID (2)	Pledge Class (3)	Market Segment	ISIN Name	Quantity	Execution Date	Status
2562	Margin Pledge (Sh-TM)	CP	TM	IN322071	41327027	Debt	GLKPLI 150	16	23-07-2020	Pledge Confirmed

On the basis of search results, a list of Confirmed Margin Pledge instructions will be displayed to user which can be released. The client can select single / multiple / All instruction(s) to initiate Release (Closure) of Margin pledge instructions. After selecting the requisite instruction(s), client shall submit the Release request. The aforesaid release request will be sent to the TM for executing the release (Closure) of Margin Pledge instruction. Upon successful release by TM, the margin pledge instruction will be closed and securities will be released in clients account.

b) Release by CM - on the basis of Request submitted by TM:

For release of client securities which are re-pledged in favour of a CM, the TM user can request for release (Closure) of pledge by submitting the Margin Pledge Form to its Participant or electronic instructions through SPEED-e. To initiate a request for release of margin pledge request, TM user shall login on e-Services portal and click on link of “Margin Pledge – Re-Pledge Submit Instruction”. The TM user shall click on “Release of Margin Pledge” menu. The TM user can search the Margin Pledge instruction and submit Release (Closure) instruction by following the process mentioned at point V(a) above. The aforesaid release request will be sent to the CM for executing the release (Closure) of Margin Pledge instruction. Upon successful release by CM, the margin re-pledge

instruction in favour of CM will be released and margin pledge instruction in favour of TMs will be created.

c) Release by CC - on the basis of Request submitted by CM:

For release of client securities pledged in favour of a CC, the CM user can initiate request for release (Closure) of pledge by submitting the Margin Pledge Form to its Participant or electronic instructions through SPEED-e. To request for release of margin pledge request, CM user shall login on e-Services portal and click on link of “Margin Pledge – Re-Pledge Submit Instruction”.

The CM user shall click on “Release of Margin Pledge” menu. The CM user can search the Margin Pledge instruction and submit Release (Closure) instruction by following the process mentioned at point V(a) above. The aforesaid release request will be sent to the CC for executing the release (Closure) of Margin Pledge instruction. Upon successful release by CC, the margin re-pledge instruction in favour of CC will be released and margin re-pledge instruction in favour of CM will be created.

The TM/CM/CC User can process Margin Pledge Release through File upload mechanism:

Step 1: User shall click on ‘File Upload’ button and select ‘Margin Pledge Unilateral Closure Transaction’ from the available drop down list and click on the submit button.

Step 2: After clicking on submit button, user can browse requisite file and upload the same.

Step 3: User can view the file upload status by clicking on “View Upload Status”.

The screenshot shows a web application interface for 'Margin Pledge'. On the left is a sidebar with a 'Margin Pledge' header and a 'FILE UPLOAD' section containing 'File Upload', 'File Uploads', and 'View Upload Status'. The main content area has a 'FILE UPLOAD' header with 'Choose Report Type' and 'Upload File' buttons. Below this is a 'Select File Type' dropdown menu currently set to 'Margin Pledge Transaction'. A list of transaction types is shown: '1. Unilateral Closure' and '2. Margin Pledge Invocation'. A note at the bottom states: 'Note- The transaction is not deleted from the system. The transaction can be deleted.' A red 'Submit' button is located at the bottom right of the form.

(VI) Pledge Master Export to CCs:

The facility has been provided to CC users to download the Pledge Master export from MPR module through e-DPM system. The CC user can download the export by providing requisite search criteria and by clicking on Submit button as exhibited below. The additional facility has been provided to CC users wherein Pledge Master export will be automatically downloaded in predefined folder at decided frequency.

(VII) Validations in respect of Client Margin Pledge and Margin Funding account :

The additional validations in respect of Pledge / Margin Pledge / Re-pledge and other transactions pertaining to Client Margin Pledge and Margin Funding account are enclosed at **Appendix F**.

(VIII) Changes in Reports / Downloads in respect of Margin Pledge / Re-pledge:

The necessary changes have been implemented in respect of following Reports / Downloads pertaining to Margin Pledge / Re-pledge functionality as per the changes communicated to Participants in static codes of file formats.

- a) Statement of Transaction (SOT) Report / Export
- b) Pledge Master Report (PMR)
- c) Change Order of Day (COD) Export

(IX) The additional important points in respect of Margin Pledge / Re-pledge functionality are enclosed at **Appendix G.**

APPENDIX F

Validations in respect of Client Securities Margin Pledge Account (CSMPA) and Client Securities under Margin Funding Account (CSMFA) are mentioned below:

1) Validation in respect of Margin Pledge / Re-pledge Transactions:

Sr. No	Margin Pledge / Re-pledge Transaction	Client Securities Margin Pledge Account (CSMPA)	Client Securities under Margin Funding Account (CSMFA)
1	Margin Pledge Initiation (in favour of CSMPA & CSMFA)	Allowed	Allowed
2	Margin Pledge Initiation from CSMPA & CSMFA	Not allowed	Not allowed
3	Margin Pledge Confirmation	Allowed	Allowed
4	Margin Pledge Release Request	Allowed	Allowed
5	Margin Pledge Release (Closure)	Allowed	Allowed
6	Margin Pledge Invocation	Allowed	Allowed
7	Re-pledge Initiation / Confirmation	Allowed	Not allowed
8	Re-pledge Release (Closure)	Allowed	Not allowed

2) Validation in respect of Pledge Transactions:

Sr. No	Pledge Transaction	Client Securities Margin Pledge Account (CSMPA)	Client Securities under Margin Funding Account (CSMFA)
1	Pledge Initiation (in favour of CSMPA & CSMFA)	Not allowed	Not allowed
2	Pledge Initiation from CSMPA & CSMFA	Not allowed	Not allowed
3	Pledge confirmation	Not allowed	Not allowed
4	Pledge unilateral closure	Not allowed	Not allowed
5	Pledge closure confirmation	Not allowed	Not allowed
6	Pledge Invocation	Not allowed	Not allowed

3) Validation in respect of Other Transactions in respect of CSMPA & CSMFA:

Sr. No.	Transaction Type	Debit	Credit
1	Dematerialisation of Securities	Not Applicable	Not allowed
2	Remat / Repurchase of Securities	Not allowed	Not allowed
3	Redemption of MF units	Allowed	Not Applicable
4	Corporate Action	Allowed	Allowed
5	Auto Corporate Action	Allowed	Allowed
6	Account Transfer		
(i)	Client to CM Pool Account Transfer	Allowed	Not Applicable
(ii)	Client to Client Account Transfer	Allowed	Not allowed
(iii)	CM Pool to Client	Not applicable	Not allowed
7	Inter Depository Transfer		
(i)	Client to CM Pool Account Transfer	Allowed	Not Applicable
(ii)	Client to Client Account Transfer	Allowed	Not allowed
(iii)	CM Pool to Client	Not applicable	Not allowed
8	Transfer of Holding (Account Closure/Transmission)	Allowed	Not allowed
9	Freeze / Unfreeze	Allowed	Allowed
10	Hold on Securities(NDU)	Not allowed	Not allowed

APPENDIX G

Participants are advised to note following important Points:

1. NSDL has facilitated Participants to open various type/Subtype of account in DPM for Trading Member (TM) and Clearing Member (CM) for processing Margin Pledge / Re-Pledge. *(The detailed procedure and document required for account opening is informed to Participants vide NSDL Circular No.: NSDL/POLICY/2020/0077 dated June 1, 2020).*
2. Margin Pledge and Re-pledge will be processed on the basis of UCC and its linked TM and CM. NSDL has mapped the UCC provided by Exchanges in NSDL Depository system. In case of institutional client, CP Code and for Proprietary account of TM and CM, TM ID and CM ID will be used for validations instead of UCC.
3. For availing Margin Pledge and Re-pledge functionality, Trading Member, Clearing Member are required to register their Margin Pledge account including Proprietary account in DPM system *(as informed to Participants vide NSDL Circular No. NSDL/POLICY/2020/0103- dated July 31, 2020).*
4. The process for executing Margin Pledge instruction in respect of Proprietary account TM/CM will be same as per the process available for Investors. However, the TM ID or CM ID will be required to be provided instead of UCC for processing Margin Pledge instruction. The Margin Pledge in respect of Proprietary Accounts of TM and CM will be initiated in favour of TM/CMs own Margin Pledge account.
5. The option for selection of Segment i.e. “ALL” is allowed only in respect of Margin Pledge initiation (Client to TM) and Margin Re-pledge (TM to CM). The same shall not be available in case of Margin Re-pledge by CM in favour of CC and such re-pledge shall be created with specific segment.
6. NSDL has provided facility to TM and CM to upload list of eligible securities. *(The file format for upload of eligible securities is shared vide Circular No.: NSDL/POLICY/2020/0094 dated July 14, 2020).* If TM or CM uploads aforesaid own list of eligible list of securities, then pledger will be allowed to create pledge or re-pledge only for such eligible securities and in case of securities other than uploaded list by TM/CMs, the pledger will not be allowed to create Margin Pledge / Re-pledge. If TM/CM has not uploaded their own list of eligible list of securities, then Pledger will create Margin Pledge / Re-pledge in respect of all securities (with valid status) available in NSDL depository system.
7. The Margin Re-pledge instruction by CM in favour of CC will be allowed only in respect of eligible list of securities uploaded by respective Clearing Corporations.
8. Margin Pledge will be initiated in system after successful authentication of OTP by client. For Institutional accounts (CP code) and Proprietary account of TM and CM, the OTP authentication is not required.
9. All instructions in respect of Margin Pledge / Re-pledge submitted by a single user in MPR module will be directly processed in the NSDL system without additional stage of Checker / Verify Release.

All the Users viz., Client, DP User, TM User, CM User and CC User are advised to follow the maker- checker process in their back-office system as per their respective internal policies.

10. The Margin Pledge / Re-pledge related instructions in respect of partial quantity are not available in NSDL system in 1st phase. The same will be made available in 2nd phase and details will be shared shortly.
11. The SMS and Email alerts will be sent to client for every status transition in respect of Margin Pledge / Re-pledge instructions.

ANNEXURE MM

(Format of consent letter on the letter head of Participant)

Ref. No. :

Date :

Mr. Prashant Vagal

Senior Vice President

CC Interface Division

National Securities Depository Limited

4th Floor, 'A' Wing,

Trade World,

Kamala Mills Compound,

Senapati Bapat Marg,

Lower Parel,

Mumbai – 400 013

Dear Sir,

Sub: Activation of Primary Member Pool Account

We wish to inform you that <Name of the Entity> who is a Primary Member (PM) of Clearing Corporation of India Ltd. (CCIL) has applied for opening a Pool Account with us as per the details mentioned in Exhibit.

We hereby confirm that documents with respect to opening of Pool Account of <Name of the Entity> submitted by the PM are complete in all respect and the copies submitted have been verified by us with the original documents. Further, the requisite details of opening of Pool Account are given below:

Name of Primary Member	
Correspondence Address	
• Address 1	
• Address 2	
• City	
• Postal Code	

Contact Person	
Mobile Number	
Telephone Number	
DP ID	
Member ID allotted by CCIL	

As we are willing to open the account, we request you to allot a CM BP ID to the PM.

Yours faithfully,

Compliance Officer / Alternate Compliance Officer

ANNEXURE NN

(To be provided on the letterhead of CM / TM)

To,

<Participant Name>

Subject: Request for opening Client Unpaid Securities Pledge Account

Madam / Dear Sir,

With reference to captioned subject, I / We < CM/TM Name > are maintaining a TM/CM account with <Participant name>. <demat account number >. I/We would like to open 'Client Unpaid Securities Pledge Account' in <Participant name> based on the existing Account Opening Form with you as per details given below:

Sr. No.	Account Category	New Client Type	New Client Sub – type Description

I/we hereby declare that I/we are KYC compliant and there is no change in the same.

For <CM/TM Name>

Signature of the CM/TM:

Name of Authorized Signatory:

ANNEXURE SS (1)
(To be provided on the letterhead of CM/TM)

To,
<Participant Name>

Subject: Request for opening Client Nodal MFOS Account.

Madam / Dear Sir,

With reference to captioned subject, I / We < CM/TM Name > are maintaining a TM/CM account with . . I/We would like to open 'Client Nodal MFOS Account' in based on the existing Account Opening Form with you as per details given below:

Sr.No.	Account Category	Client Type	New Client Sub-type Description	SPEED-e Facility Required (Y/N)

I/we hereby declare that I/we are KYC compliant and there is no change in the same.

For <CM/TM Name>

Signature of the CM/TM:
Name of Authorized Signatory:

ANNEXURE SS (2)

Subject: Request for mapping DSC for Client Nodal MFOS Account.

Madam / Dear Sir,

With reference to captioned subject, have received requests from TM/CM maintaining account with it to activate Client Nodal MFOS Account with SPEEDe facility. We have activated Account in DPM and created SPEEDe user ids based on the existing documents submitted for SPEEDe as per details given below:

Existing Account detail				New account details		
DP ID	Client ID	SPEEDe User ID	SPEEDe user name	DP ID	Client ID	SPEEDe User ID

<Participant Name> hereby declare that we have created user ids in SPEEDe as per existing user ids in SPEEDe and enclosing DSC screen shot for same. Kindly map DSC in user ids mentioned in above table.

For <CM/TM Name>

Signature of the CM/TM:

Name of Authorized Signatory.

ANNEXURE SS (3)

ANNEXURE A1

Operational guidelines in respect of the Payout of securities directly to Client's Demat account

SEBI has vide its circular no. SEBI/HO/MIRSD/MIRSD-PoD1/P/CIR/2024/75 dated June 5, 2024, issued the guidelines about the mandatory pay-out of securities directly to client's demat account to enhance operational efficiency and risk reduction.

The detailed operational guidelines in respect of paragraph 4 and 5 of the aforesaid SEBI circular are mentioned below:

Mapping Process of Primary Demat account

1. Trading Member (TM) shall be required to provide to the stock exchanges the details of one primary demat account of the client wherein the client wishes to receive direct pay-out of the securities.
2. Stock exchanges shall verify the PAN mentioned in the UCC database maintained at stock exchanges with PAN of the first holder mentioned in the demat account of client.

Maintenance of CM and TM Pool accounts

1. Trading Members (TMs) who are availing clearing services through professional clearing member (PCMs) will be required to maintain separate TM Pool account in NSDL Depository system.
2. Members who are clearing their client's trades (i.e., self-clearing members) or are professional clearing members (PCMs) providing services of clearing trades to other trading members will be required to maintain CM Pool account in NSDL Depository system.
3. Members who are working as TM as well as CM are not required to open separate TM pool account in NSDL Depository system as these members will be maintaining CM Pool account in NSDL Depository system.
4. To ascertain appropriate linkage between CM ID and TM ID provided in the transfer instruction, following business validations are defined in NSDL Depository system based on CM-TM Linkage details provided by Clearing Corporations (CC) to NSDL on regular basis –
 - 4.1. Every TM Pool account will be mapped in the NSDL depository system with TM ID given by the stock exchange to member which is linked to a CM ID recorded in the NSDL depository system which is associated with particular CC.
 - 4.2. Self-clearing member (SCM) Pool account will be mapped in the NSDL depository system with TM ID given by the stock exchange to member along with linked CM ID of particular CC.

Maintenance of Client Unpaid Securities Pledgee Account (CUSPA) and Client Securities Margin Funding Account (CSMA)

1. TMs / CMs / PCMs to maintain **single** CUSPA and CSMA account in NSDL Depository system.
2. Participants may additionally refer to NSDL circular no. NSDL/POLICY/2022/176 dated December 28, 2022, and circular no. NSDL/POLICY/2020/0101 dated July 28, 2020 for CUSPA and CSMA accounts respectively.

Direct Pay-out of securities to client's demat account

1. CMs and TMs will not be required to execute instructions for transfer of securities in respect of pay-out from CM Pool and/or TM Pool accounts respectively to client's primary demat account.
2. Intra Depository Transfer:
 - a. If client's demat account is maintained with Participant of NSDL, then CC will upload Account transfer (Intra-depository) instructions in NSDL depository system to transfer pay-out of securities to the primary demat account of the client with hop-skip entries in the respective CM pool and/or TM pool account, linked to CM ID and TM ID provided in the instruction respectively.
 - b. Hop-skip entries in respect of Pay-out instructions pertaining to intra-depository transfer instructions of CC Pool account to CM Pool account and CM Pool to TM Pool account, if applicable, and then TM Pool account to client's demat account in NSDL Depository system will be reflected in respective SOT and COD exports of the participants of CC, CM, TM and Client as per extant formats and process.
3. Inter Depository Transfer:
 - a. If client's demat account is maintained with Participant of other depository, then CC will upload Inter-depository (IDT) instructions in NSDL depository system to transfer pay-out of securities to the primary demat account of the client maintained at other depository.
4. CC will upload the direct pay-out instructions (Intra and Inter) in NSDL depository system with details of CM ID, TM ID, Primary Demat account details viz., DP ID & Client ID, Auto pledge flag for unpaid securities/Margin Traded Funded securities, etc.
5. In case standing instruction flag is set to 'N' (disable) in the client's demat account in NSDL depository system, the client is required to provide receipt instruction (Intra and Inter RFP) to receive the securities in their demat account from CC. In case such RFP is not captured, pay-out instruction executed by CC will fail in EOD and will be informed to CCs.

Process to be followed in case of Client Unpaid Securities Pledgee Account (CUSPA)

1. In respect of the unpaid securities (i.e., the securities that have not been paid in full by the client), such securities shall be transferred to respective client's primary demat account followed by creation of an auto-pledge in favor of a separate account opened by CM or TM based on the "Auto-Pledge Flag for unpaid securities" provided in transfer instruction uploaded by CC in NSDL depository system in respect of pay-out of securities.
2. NSDL Depository system shall identify details of CUSPA demat account of TM/CM based on TM/CM ID uploaded by CC in transfer instruction in respect of pay-out of securities.
3. Participants may additionally refer to NSDL circular no. NSDL/POLICY/2023/0028 dated February 27, 2023, regarding "Operational guidelines in respect of Handling of Clients Securities by Trading Members (TM) / Clearing Members (CM) – Client Unpaid Securities Pledge Account".

Process to be followed in case of Funded Securities (i.e., Margin Traded Funding)

1. In respect of the funded securities, such securities shall be transferred to respective client's primary demat account followed by creation of an auto-pledge in favor of a separate "Client Securities Margin Funding" (CSMA) account opened by TM based on the "Auto-Pledge Flag for funded securities" provided in transfer instruction uploaded by CC in NSDL depository system in respect of pay-out of securities.
2. NSDL Depository system shall identify details of CSMA demat account of TM based on TM ID uploaded by CC in transfer instruction in respect of pay-out of securities.
3. The transfer instruction uploaded by CC in NSDL depository system in respect of pay-out of securities released with auto-pledge creation with MTF will not require any OTP based authentication from client.
4. Participants may additionally refer to NSDL Circular No. NSDL/POLICY/2020/0101 dated July 28, 2020, regarding "Additional Operational Guidelines on margin obligations to be given by way of Pledge/ Re-pledge in the Depository System".

Process followed in case of pay-out of securities that could not be credited

1. In case of scenarios wherein pay-out instructions (intra and inter-depository instructions submitted by CC) are not executed in NSDL depository system for any reason, then such securities shall remain/withheld in CC Pool account.
2. In such events, the clients need to contact respective CM/TM for resolution of issue.

Miscellaneous points

1. The aforesaid facility shall be applicable for the trading done in Cash segment only. Hence, direct pay-out of securities to client's demat account will be applicable for following Market Type(s) in NSDL depository system in respect of NCL and ICCL:

Market Type Description	Market Type (NSDL)	Clearing Corporation	Market Type (CC)
T+1 NORMAL	S1	NCL	49
T+1 ROLLING	S1	ICCL	41
T+1 TRADE FOR TRADE	G1	NCL	50
T+1 ITP FOR SME	M1	NCL	51
ITP	IT	ICCL	30
AUCTION Normal	DD	NCL	14
AUCTION ROLLING	AU	ICCL	04

2. In respect of settlement of trades for other market types, the Participants / TMs/CMs can continue with existing settlement process followed for pay-out of securities.

PAN Exempt / Sikkim Category clients who do not have PAN captured in their demat account are eligible and will be validated by stock exchanges based on DP ID and Client ID.

CHAPTER 17 – MISCELLANEOUS

Annexure A

Instructions:

1. Reason codes to be filled out by the Client as per the following List.

<u>Code</u>	<u>Description</u>
01	Collateral for issuance of Debentures by Company/Group Companies
02	Collateral for loans taken by the Company/Group Companies

03	Collateral for loans taken by the Third Party
05	Personal use by promoters and PACs

Annexure C

1. Client will access e-Services website (<https://eservices.nsdl.com>) for registration of IDeAS facility and click on '**Register online for IDeAS**' link available on the home page of e-Services website (refer exhibit 1).

Exhibit 1: e-Services website home page

2. After clicking on the aforesaid link, Client will be required to enter the following details and click on 'Submit' option for registration of **IDeAS** facility (refer Exhibit 2):
 - a) DP ID,
 - b) Client ID,
 - c) Mobile Number (*registered in his/her demat account in NSDL DPM System*) and
 - d) Verification Code (Captcha).

The image shows a screenshot of the 'Direct Registration for IDeAS facility' form. The form has a dark red header. Below the header, there are four input fields with labels: 'DP ID*', 'Client ID*', 'Mobile Number*', and 'Verification Code*'. The first three fields contain the values 'IN399992', '20013085', and '9812345678' respectively. The 'Verification Code*' field contains a captcha image showing '3zUAt 3' and a text input field below it containing '3zUAt3'. Below the text input field, there is a small note: '(Enter Text from Image. Text is case sensitive)'. At the bottom of the form, there are two buttons: 'Submit' and 'Reset'. A red asterisk with the text '* Mandatory fields' is located at the bottom left of the form.

Exhibit 2: Registration of IDeAS facility – Submission

Upon clicking on submit button, demat account details as submitted by the Client on e-services website will be validated by NSDL with the details available in the demat account in DPM system and if the same are found correct, then User will be directed to authorization page of **IDeAS** facility. In case mobile number is not captured in the demat account in the DPM System for Sole Holder / First Holder or Second Holder or Third Holder (in case of joint account), the Client will not be able to proceed to **Register online for IDeAS facility**. In such case, Client would be required to approach its Participant (*where Client is maintaining its demat account*) to update his/her mobile number in the demat account to register demat account through **Register online for IDeAS facility**.

3. Upon successful validation, Client will have an option to complete the **IDeAS** registration by entering either last 4 digits of bank account number (as captured in demat account) or entering One Time Password (OTP) message received on the registered mobile number of the demat account holder.

Option 1 – Verification through bank account number:

Client will be required to select ‘Option 1’ by enabling the radio button of Bank Account No. and enter last 4 digits of the bank account captured in demat account of the Client (refer Exhibit 3). The last 4 digits of bank account number entered by the Client will be verified with the bank account number available in demat account in the DPM system.

The screenshot displays the NSDL e-SERVICES interface for the 'Direct Registration for IDeAS facility - Authorization' page. The header includes the NSDL logo and the text 'e - SERVICES'. Below the header, a red banner reads 'Direct Registration for IDeAS facility - Authorization'. The main instruction states: 'Please select any one of the following option for verification of demat Account'. There are two options presented: 'Option 1' and 'Option 2'. 'Option 1' is selected, indicated by a radio button. It includes the text 'Bank Account No.' and 'Bank Account No. # (Last 4 digits)'. Below this, there is a red-bordered box containing the text '# Bank Account No. captured in the demat Account' and a masked input field for the last 4 digits of the bank account number. 'Option 2' is also visible, with a radio button, the text 'One Time Password(OTP)', and a 'Generate OTP' button. At the bottom of the form, there are 'Submit' and 'Reset' buttons.

Exhibit 3: Registration of IDeAS facility - Authorization

Option 2 – Verification through OTP:

Client will be required to select ‘Option 2’ by enabling the radio button of One Time Password and click on ‘Generate OTP’ button (refer Exhibit 4). After clicking on the Generate OTP button, OTP will be generated and sent on the mobile number of Sole Holder / First Holder registered in demat account in the DPM system. In case the mobile number of the first holder is not available, then OTP will be sent to mobile number of the second or third holder, as the case may be, registered in demat account in the DPM system. Client will be required to enter OTP within 30 minutes from the time when SMS was sent from NSDL.

NSDL e - SERVICES

Direct Registration for IDeAS facility - Authorization

Please select any one of the following option for verification of demat Account

Option 1 ☐ Bank Account No.
Bank Account No. # (Last 4 digits) :
Bank Account No. captured in the demat Account

Option 2 ☒ One Time Password(OTP)
Enter OTP

OTP has been sent on your registered mobile number. Kindly enter OTP to complete the IDeAS registration process

Exhibit 4: Registration of IDeAS facility - Authorization

Upon successful completion of authorization process through any of the abovementioned options, Client will be directed to final registration page (refer Exhibit 5) for registration of **IDeAS** facility.

4. Client will be required to enter the following details and click on submit button to proceed for completion of **IDeAS** registration:
 - a) User ID of his / her choice,
 - b) User Name,
 - c) Date of Birth,
 - d) Email ID and
 - e) Password & Confirm Password. (Client can enter their password either using the physical keyboard or virtual keyboard - after enabling the check box - 'Use Virtual Keyboard')

Annexure D

Format of Letter for Registration of existing demat accounts (one time)

Date:

To,

IDeAS Cell

National Securities Depository Limited
301, 3rd Floor, Naman Chambers,
Plot C-32, G-Block,
Bandra Kurla Complex, Bandra East,
Mumbai, Maharashtra - 400 051.

Dear Sir,

With reference to your Circular No. NSDL/POLICY/2011/0108 dated December 19, 2011, we wish to avail the one time registration facility for registering our existing demat accounts for ***IDeAS*** facility through DIRECT (***D***irect ***IDeAS*** ***RE***gistration of ***C***lient accoun***T***).

In this regard, we confirm that the email ID as provided by the Client is captured in the DPM System. We are also aware that this one time registering facility is only for those Clients who have not availed ***IDeAS*** facility.

Annexure E

Format of email for Registration of selected demat accounts

To,

IDeAS Cell

(direct@nsdl.com)

Dear Sir,

With reference to your Circular No. NSDL/POLICY/2011/0108 dated December

19, 2011, we wish to register our demat accounts as per the enclosed excel list (providing DP ID and Client ID) for IDeAS facility through DIRECT (Direct IDeAS REgistration of Client account) .

In this regard, we confirm that the email ID as provided by the Client is captured in the DPM system. We also confirm that these Clients have not availed IDeAS facility.

Yours faithfully,

For (Participant Name)

Annexure F

Salient features

IDeAS facility is enhanced by incorporating following features which is available to beneficial owner who is registered on IDeAS facility of NSDL:

1. Subscribe for e-CAS

- 1.1. IDeAS users who have not subscribed for e-CAS can subscribe for the same by submitting request through IDeAS login.

URL: <https://eservices.nsdl.com/>

Screen for login on IDeAS

The screenshot displays the NSDL e-Services website. At the top, the NSDL logo is on the left, and the 'e - SERVICES' header is in the center. Below the header, there are navigation tabs: 'ABOUT US', 'NSDL HOME', and 'CONTACT US'. The main content area features five service tiles: 'INTERNET AND MOBILE INITIATIVES', 'SPEED-e', 'IDeAS', 'STeady', and 'DAN'. The 'IDeAS' tile is highlighted, showing a 'Log In' button for 'Beneficial Owner' and 'Clearing Member'. Below the tiles, a banner for 'SPICE' is visible. On the left, a sidebar lists various services like 'e-DAC Login', 'New user registration', and 'FAQs'. The central area contains a 'WELCOME' message and a 'NEW' section about the NSDL Mobile App. At the bottom, there is a 'Disclaimer' section and a note about Internet Explorer support.

NSDL e - SERVICES

INTERNET AND MOBILE INITIATIVES

SPEED-e
Online delivery Instruction Slip
SPEED-e is a common Internet Infrastructure that enables the Depository Participants (Participants) to provide depository services to their clients.

IDeAS
View your updated Transactions

WELCOME

Internet is increasingly becoming an important medium for dissemination of information and conducting business. Enabling transactions through Internet thus becomes essential as a mean to provide better flexibility and convenience to clients and further increasing efficiency of settlement of trades in the capital market. Safety of transactions is however, a very crucial issue in Internet based solutions. This assumes significance in case of depository transactions since it involves movement of high-value financial assets across accounts. Further, depository transactions are also time critical. The time or failure to deliver the securities in time.

NSDL crosses one crore demat accounts
